

Turf to Prairie

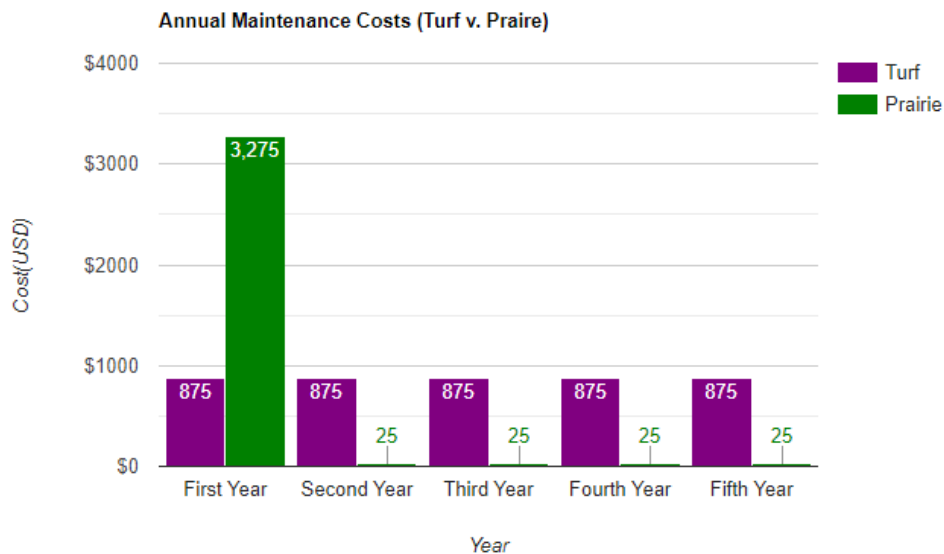

Good Neighbor Iowa > Transition Your Lawn > Turf to Prairie

WHY MAKE THE TRANSITION?

Converting some areas of your turf to prairie could lead to significantly positive effects on the ecology, and save you money doing it! Here are some benefits of turf to prairie conversion:

 <p>NATIVE PRAIRIES STRONGER AT FIGHTING OFF WEEDS</p>	 <p>IMPROVED SOIL RETENTION AND SOIL HEALTH</p>	 <p>INCREASED STORM WATER AND GROUNDWATER FILTRATION</p>	 <p>ENHANCED BEAUTY OF YOUR YARD, PARK OR SCHOOL</p>

Visualize your financial benefits

Area of mowed turf you want to convert to prairie:

Maintaining 2.5 acre(s) of mowed turf costs \$4375 over 5 years. If you convert that area to prairie, you will save \$1000 over 5 years!! (Despite the initial investment of \$3275 to convert your turf to prairie in your first year, you will only spend \$100 over the next 4 years to maintain the area as prairie.)
