

Hi Neighbor! My name is Kevin McLain. My friend (and neighbor), Duane Gerdes and I are contacting you and others in the area around Emerald Pond Park for something we have proposed to the Ramsey Parks and Recreation Department. They have asked us to contact people in the neighborhood to introduce our plans and find out what your thoughts are about what we would like to see at the park.

We would like have a portion of the park developed into a remote control (RC) electric car track that would be available for our local community to use. Electric RC cars are a great pastime for boys and girls, men and women of all ages. It's a wonderful family hobby. I work at the King Kong Hobby store between Aurelio's and Willy McCoy's and I see the popularity and enjoyment that our customers have with their cars.

We would like to have a small track in our community, limited to electric cars only to keep the noise down. There are cars that run on nitro, but they are pretty noisy. We don't want this to be a disturbance, but a joy for all to use.

Below is a map that shows what we have in mind. The hatched area is the location we are looking at.

Please contact me or Duane and let us know if you have any concerns or questions about our proposal. We are planning to contact the city about this again the week of May 9th. My phone number is ~~763-291-0129~~, you can call or text me. Duane's number is ~~763-291-0129~~. We look forward to hearing from you.
