It is agreed that the Exhibit A Layout has been reviewed and accepted by the parties for construction.

II. METHOD

The County shall cause the construction of the Project according to the terms herein.

IMPROVEMENTS:

It is agreed by the parties that in 2023-2026, CSAH 56 and CSAH 57 will be constructed into grade separated intersections spanning the BNSF Railway and US Highway 10 to the extent shown in Exhibit A.

INTERSECTIONS:

As agreed by the parties, improvements to the following intersections have been incorporated in the Exhibit A Layout design:

CSAH 56/ Riverdale Dr NW: Roundabout controlled intersection

The parties agree that the County will acquire all necessary right-of-way, easements, and other property rights for the Project. The parties acknowledge that the County is subject to a separate JPA with MnDOT for oversight and approval of the state on all acquisitions of right-of-way. The parties agree that the cost of the ROW shall be covered utilizing awarded project funds. Any City owned property or easements required for the construction will be conveyed to the County at no cost, excluding RALF acquired properties in which RALF funds must be repaid to the Metropolitan Council. After the project, certain right of way and other property interests will be turned up to MnDOT. The parties anticipate there will be various right-of-way parcels not requested by MnDOT, that were acquired by Anoka County with state funds for the Project. Right of Way that is not needed by MnDOT or the County for the Project shall be conveyed at no cost to the City for future non-roadway use, green space, development or sale. All dispositions of surplus land or right of way not required for the Project, are subject to restrictive covenants to secure the land for later reimbursement of state highway funds, as addressed in the Declaration provision below. The County will record the Declaration on the surplus land/parcels prior to the conveyance to the City.

REQUIREMENT OF DECLARATION (RESTRICTIVE COVENANT):

As for the lands the State does not require be turned up after the Project, and to ensure state reimbursement for the purchase of those lands, the County and City agree to establish certain restrictions of record with respect to the future sale and use of the properties not needed for infrastructure and construction of the Project. Those restrictions shall run with and encumber the land as more fully set forth in the Declaration designated by the State to be used for this Project. The parties are aware that after the Project is complete, some of the surplus land and right of way not needed for the Project shall be conveyed by the County to the City of Ramsey, to be made available for future use or development by the City. Such transfers between County and City are specifically permitted by the State and are not

considered to trigger the sale/use restrictions in the Declaration. However, any subsequent sale, transfer or conveyance of the properties by the City shall be subject to the restrictions set forth in the Declaration. The County and City shall cooperate in consenting and signing the necessary Declarations and recording same on the required properties. The County and City further agree to comply with all terms, conditions, and restrictions set forth in the Declarations required by the state, which result from the use of state funding for the acquisition of right of way necessary for the Project.

DRAINAGE:

The City's percentage of the cost of the storm sewer system, including the detention basins and their outlet structures is included as part of the City's lump sum contribution to the cost of the project.

BITUMINOUS TRAIL:

The City's lump sum contribution to the total project costs covers the City's portion of the trail construction cost. The parties agree that the City will be responsible for all future maintenance of the trails constructed for this Project.

TRAFFIC CONTROL:

The parties understand and agree that portions of CSAH 56 and CSAH 57 will be closed to thru traffic during construction, and access for local traffic will be maintained during construction through detours and temporary access points. The parties agree and understand the cost share for traffic control for the city shall be included in the City's lump sum contribution.

DRIVEWAYS:

The parties agree that all driveways affected (excluding those identified for removal) in the Project will be reconstructed in kind at 100% project cost.

LANDSCAPING/STREETSCAPING:

The parties agree that if the City wishes to include landscaping or streetscape features in the project, they shall be designed in accordance with Anoka County Highway Department Landscape/Streetscape Guidelines. Future maintenance of any landscaping/streetscaping will be the sole responsibility of the City. Eligible improvements allowed by MnDOT will be included in the City's lump sum contribution.

RETAINING WALLS & NOISE WALLS:

The parties agree that if the City wishes to include aesthetic treatment to any retaining walls or noise walls, any construction costs above standard cost will be an additional expense charged to the City.

UTILITIES:

The City will pay for their utility project costs. The parties agree and understand the cost share for utility adjustments and installations shall be included in the City's lump sum contribution.

PERMITS:

The parties agree that the County will secure all necessary permits for this Project. The City agrees to coordinate with the County in securing the permits required by Lower Rum River Water Management Organization (LRRWMO), city permits, as well as any other permits that may be required. The County also requests that the City inform the County of any ordinances or city regulations that affect construction at the time of the signing of this JPA (e.g. setbacks, tree clearing ordinances, or any other city ordinances).

III. COSTS

The contract costs of the work, or if the work is not contracted, the cost of all labor, materials, normal engineering costs and equipment rental required to complete the work, shall constitute the "actual construction costs" and shall be so referred to herein. "Estimated construction costs" are good faith projections of the costs, which will be incurred for this project. Actual costs will vary and those will be the costs for which the relevant parties will be responsible. At the onset of this project both Anoka County and the City of Ramsey each committed a sum of \$4,000,000 for the delivery of this project. As such this JPA is in agreement with that commitment and reflects a \$4,000,000 lump sum amount to cover the City's contribution to the project. Anoka County will contribute \$5,500,000 to the project.

The estimated construction cost of the total project is **\$102,050,000**

The City's share of this project is set as a lump sum amount of: **\$4,000,000.00**

The remaining share will be paid as follows \$1,000,000 March 1st, 2024 and \$1,500,000 March 1st, 2025. The City's lump sum contribution will cover the city's share of the cost of the project shall include design, ROW, construction and construction engineering expenses.

The County agrees to submit to the City for review all final quantities and costs within one year of project substantial completion.

IV. TERM / TERMINATION

*1 The County pays for 100% of Standard Median Design such as plain concrete. If a local unit of government requests decorative median such as brick, stamped concrete, or landscaping, the local unit will pay the additional cost above the cost of standard median.

*2 In the event no State Aid is being used, or in the event the state aid letter does not determine cost split percentages, drainage cost shares will be computed by the proportion of contributing flow outside the County right of way to the total contributing flow.

*3 Engineering shall be paid by the Lead Agency except that any participating agency will pay construction engineering in the amount of 8% of the construction costs paid by that agency.

*4 In the event that the Township or City requests purchase of right-of-way in excess of those right-of-ways required by County construction, the Township or City participates to the extent an agreement can be reached in these properties. For instance, a Township or City may request a sidewalk be constructed alongside a County roadway which would require additional right-of-way, in which case the Township or City may pay for that portion of the right-of-way. Acquisition of right-of-way for new alignments shall be the responsibility of the Township or City in which the alignment is located. This provision may be waived by agreement with the County Board if the roadway replaces an existing alignment and the local unit of government takes jurisdiction of that existing alignment. In addition, any costs, including right-of-way costs, incurred by the County because a Township or City did not acquire sufficient right-of-way during the platting process or redevelopment process as requested by the County shall be paid by the Township or City.

*5 Notification includes any letter to the agency indicating that noise will potentially be an issue in the future, likely received during the Plat Review Process. Maintenance shall be the responsibility of the agency paying for the initial installation. When the County is the responsible agency, it shall pay 100% of Standard Noise Wall Cost. If a local agency requests decorative noise walls, the requesting agency will pay the additional cost above the cost of standard noise wall.
