MultiSource Manufacturing

David Haus (Mfg Ops Mgr)
dhaus@multisourcemfg.com

<i>Survey taken (year)</i>	2024	2024	2024	2024	2024
1. What year was your business established in Ramsey?	2011	1999	1999	1987	2011
2. What is your estimated number of employees?	50 Ramsey, 4000+ Worldwide	102	100	30; The number of employees on-site includes approximately 5 people operating the asphalt plant and approximately 4 people operating the portable recycle spread. In addition to the on-site operations, there are staff who provide: safety management, heavy shop services, quality control, environmental compliance, IT services, in-house electrician services, etc. Overall, with the additional support staff serving the operation, there are approximately 30 employees serving the Ramsey Plant.	MultiSource Mfg. appreciates being selected as a nominee for the 2024 Ramsey Business of the Year! Unfortunately, we will have to decline and cannot entertain this honor in 2024.
3. Besides job creation, how does your business positively affect the community (i.e. community involvement, sponsorships, memberships, etc.)?	In addition to the building we own at 13915 Radium Blvd, Global Glove added a third building right up the street at 6231 McKinley St NW. Global Glove continues to invest in Ramsey as we grow - we enjoy seeing Ramsey grow! Global Glove are proud members of the Chamber of Commerce as well.	Our values of compassion, integrity, gratitude, respect, and determination are integral to the work we do to be an effective partner and solution provider to our customers.	We do our best to maintain excellent curb appeal for the business and the community. We sponsor and/or donate to the Happy Day's Festival. We also sponsor and/or donate to the Business appreciation day/golf event. We are an Anoka Area Chamber Member.	We focus our giving and community support activities to create a deeper, more meaningful impact in the areas where we live and work. Our support is directed to four key areas including: meeting families' basic needs, education and workforce development, environmental preservation, and emergency preparedness and response. To that end, some examples of this support includes: 1) Contributions to organizations such as Feed My Starving Children, the American Cancer Society and Habitat for Humanity. 2) Working with our education communities by engaging with local technical colleges and universities to provide field experiences for students pursuing engineering, environmental science and quality control disciplines. 3)Environmental stewardship encompasses activities from reclamation projects to water conservation practices, recycling aggregate materials and using state-of-the-art technologies to promote efficient systems. 4)We have maintained active participation in CAER (Community Awareness and Emergency Response) groups that have served the region for decades and we promote safety through programs that help our communities prepare for and respond to emergencies.

<p>4. What is unique about your business? What makes your business stand out from others?</p>	<p><i>Operating here locally in Ramsey, MN - Global Glove manufactures and supplies distributors all over the world with Personal Protective Equipment - from gloves to hard hats to safety vests. Unlike some of our competitors, Global Glove and Safety Manufacturing, Inc. is independently owned and operated.</i></p>	<p><i>Dynamic Group Inc. is a privately owned contract manufacturer specializing in providing complex injection molded plastic components and assemblies and high precision molds for plastic and powder injection molding. We primarily serve the medical, electronics, technology, and firearms industries. We provide our customers a competitive edge in bringing products to market through effective collaboration with experienced technical professionals and utilization of state-of-the-art design and manufacturing technologies.</i></p>	<p><i>55+ years in business - Services & Disciplines in Engineering, 3D printing (prototyping) Tooling, Injection Molding and light assembly thus reducing supply chain. IN'TECH is an industry leader in core technologies and deliver customized solutions by combining product development and quality manufacturing with superior customer, vendor, and employee relations</i></p>	<p><i>At the Ramsey Plant, up to 35% recycled asphalt pavement (RAP) is incorporated into the mix designs. In the United States, asphalt pavement has a 99% recycling rate, which is higher than any other recycled category. 94% of reclaimed asphalt from old roads and parking lots is re-used in new pavements. Laboratory research and field evaluations have found that asphalt mixtures with high levels of RAP have structural performance equal to, or better than conventional mixes. In places like the Twin Cities, where aggregate resources are limited, the use of RAP is key to long term sustainability efforts.</i></p>	
<p>5. Additional comments, accomplishments or achievements you would like to share?</p>	<p><i>2024 marks Global Glove and Safety Manufacturing, Inc.'s 21st year in business!</i></p>	<p><i>Dynamic Group Inc. is ISO 13485 certified, as well as FDA registered as a contract manufacturer of medical devices.</i></p>	<p><i>InTech Industries is one of three finalists for the Anoka Area Chamber of Commerce Manufacturing Business of the Year award in 2023! In 2023 InTech was awarded the AMUG DINO Award, this is one of AMUG's most prestigious recognitions. Its goal is to recognize those that have contributed to AM (Additive Manufacturing), with the intent to advance the industry as a whole or to advance the skills/knowledge of individuals, in an altruistic, unselfish way. Received ISO 13485 2016 Certification in 2022.</i></p>	<p><i>We have appreciated the opportunity to serve the City of Ramsey and surrounding communities since 1987 when the asphalt plant was commissioned. Over the years, the footprint of the business has changed and the technology used within the asphalt and construction aggregate industry has improved in a multitude of ways. Today, the Ramsey Plant is one of the most valuable plants that serves the needs of the northwest metro area. As a member of the business community in the City of Ramsey for over 35 years, it is an honor to be nominated for the role of Business of the Year. High quality construction materials have been supplied from the Ramsey Plant to area projects for decades. It has been deeply rewarding to be a part of these projects, such as the Ramsey Gateway Project, that will serve the community for years to come.</i></p>
