

CORE HR | Overview

Manage employee information and processes with software built for the public sector.

Free Up Time and Space

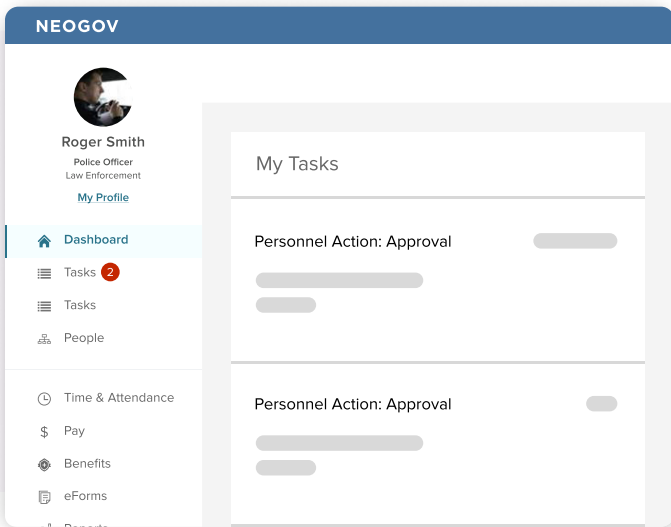

Eliminate file cabinets and manage personnel information from one system. When updating an employee's position their group, unit, department, location (if applicable), and class specs automatically update — no manual work needed.

Departments

Academic Affairs

Department Code	Employee Status
<input type="text" value="ACADEMIC AFFAIRS"/>	<input type="text" value="Active"/>
Effective Date	Change Reason
<input type="text" value="01/01/2024"/>	<input type="text"/>
Department Name	Department Head
<input type="text" value="Academic Affairs"/>	<input type="text" value="916"/>
Location	EEOC Function
<input type="text" value="28"/>	<input type="text" value="Administration"/>

Employee Self-Service

Provide employees the ability to **update their own home address and other basic information so HR doesn't have to.** Approval workflows ensure you can review changes prior to updating the employee file.

Prove EEO Compliance With Ease

Out-of-the box EEOC reports make proving federal compliance a breeze. Build custom reports to provide data on any standard or custom field your agency tracks to meet state level compliance.
