I would like to say how proud I am of all the first responders that answered the call the night of 10/19/24. None of us could have ever imagined what was going to happen in our community. Roswell has always been known for being quick to respond to the need of others and when it hit home, we were no different. We found ourselves rescuing our own people, not just the citizens we serve every day, but the people we respond with. That night ALL First Responders Volunteer, Retired, and Professional... EMT's, Paramedics, Firefighters, LEO, NMNG, City and County employees including the mayor, came together and did what we do best. Saved Lives! I have been serving this community for over 35 years and I can't begin to say how overwhelming impressed I am with the people I have the pleasure leading. The men and women that serve this community as EMT's and Paramedics are some of the best in the business and they are right here serving the citizens of Roswell and Chaves County. Many of the shifts ended that morning, without hesitation they people going off stayed to help, knowing their own homes were being damaged or destroyed by the flood. Our community will recover, and AMR will be here to serve the people of Roswell and Chaves County.

We continue to add and maintain special skills to all levels of EMT and Paramedic. AMR's Special Skills continue to raise the bar and bring an advanced level of care to the community of Roswell and Chaves County. We were approved by the State Medical Direction Committee for the Special Skills of Finger Thoracostomy for Paramedics.

We are pleased to partner with local hospital accreditations and have received the Chest Pain Accreditation Partner in Care from the American College of Cardiology Foundation. We are excited to report that we have verified that our teams have successfully resuscitated 4 more Roswell citizens with no neurological deficits, and we have added them to our Tomorrow Wall. We now have 23 Roswell / Chaves County citizens on our Tomorrow Wall.

We continue to have STEMI Alerts with successful PCI outcomes, with STEMI's being identified by our AEMT's with Special Skills.

AMR continues to invite teams from RFD and Chaves County EMS with joint training to aid in the development of a better EMS System in Roswell and the County.

We continue to work within the community and supporting events with the schools for career days and stand by services at Football games, as well as providing standby service when needed. We had a booth in this year's Chaves County Health Expo. We are working on new dates for a community wide Hands Only CPR and Stop the Bleed event that we had to postpone due to the flood.

AMR is dedicated to the community that we serve in and wants this committee to know that we are here to serve them.
