- Recruiting sent 5 recruits to the academy.
- 4th of July/UFO Festival was held and completed with no issues.
- Sunset Avenue speed detail was conducted.
- All 4 SROs went to NASRO training.

PLANS FOR NEXT MONTH

- Bringing SWCT to Roswell for another first-line supervisor class along with courtroom testimonial/report-writing class for new officers.
- Send both traffic officers to EDR class.
- Adding more officers to the Traffic Unit.

ISSUES AND CONCERNS

- Patrol lost one officer to CID to replace a Detective that left RPD. Sgt. Cavin is still overseas, not returning until next year.

- Patrol lost one officer to CID to replace a Detective that left RPD. Possible future losses are unknown due to several Patrol, Traffic, SID and CID personnel going through backgrounds with other agencies. This is concerning because SID and CID will more than likely pull from patrol and cause patrol shifts to be shortened.

SWAT

Last Month Activity-

On July 9, at approximately 0530 hours SWAT members responded to 424 E. 4th St. in reference to a SWAT Light for Patrol. Patrol had responded to shots fired near 4th/Shartelle. They located casings in the street and CCSO stopped a vehicle leaving the area at a high rate of speed. It was found that a shootout had occurred between the residence and south on Shartelle towards 3rd. Patrol conducted call-outs on the residence and contacted several convicted felons believed to be involved. There was at least one person inside the residence that refused to exit. SWAT Operators responded and executed the search warrant obtained by Patrol investigating felon in possession, shooting at/from, aggravated assault, and negligent use. Operators conducted a break and rake at the suspects window and made contact with him. He was non-compliant and verbally aggressive. Entry was made by a second team and he was taken into custody without incident. He was arrested for REO and the case is still being investigated.

On July 19, at approximately 0100 hours, a SWAT call-out was initiated for 1613 N. Kansas Ave. in reference to a high-risk search warrant/possible armed barricade. Patrol had responded to a domestic where a female stated she was battered by Gabriel Sepulveda who then stated he would kill her. The female fled and stated the male grabbed a shotgun and fired off several shots in the backyard. Patrol believed the male was still inside the home with the shotgun. SWAT responded and attempted negotiations and contact with the suspect with no results. The robot was introduced and cleared a majority of the residence without locating anyone. Operators made entry and did not locate anyone inside the residence. A warrant was obtained for Sepulveda and he was later located and arrested by Patrol. The shotgun was later located in the alley just south of the residence.

Training:

On July 10, Operators conducted training. All Operators conducted zeroing on their issued rifles including new Operators Barela and Willis. Firearms training was conducted for the remainder of the morning. In the afternoon we went to Goddard and conducted training on our issued PVS-14 night vision monocular and PEQ-15 aiming lasers. Several issues were run into due to the age and quality of the PVS-14's. Stealth to contact and dynamic tactics were trained on.

On July 24, Operators, Trailers, TEMS, conducted training. A full inventory was taken of each member's gear. Several pieces of gear were found to be broken, needing repair, or not usable. See below under issues/concerns for further. Hostage rescue training was conducted at Goddard with the new Trailers

and Operators, specifically on dynamic entry and introducing noise-flash distractionary devices inside of a structure.

Accomplishments- Officer Joel Juarez and Detective Erik Castillo completed Basic Sniper School and are now able to deploy on operations in the Sniper role.

Plans for Next Month- Training will be conducted on August 14 and August 28 next month. Operator only on August 14 and full team on August 28.

Tryouts for the open Trailer positions will tentatively be scheduled for August 14. The opening closes on August 7. A list of Trailer applicants will be posted for six months following. At this time a selection will also be made for Negotiator positions. Ofc. Delacruz, Ofc. L. Cardiel, and Sgt. Bailey all applied for the open negotiator positions. Ofc. Delacruz and Ofc. L. Cardiel both indicated that they would rather become Trailers but are both passionate about the Negotiator position.

Ofc. Willis, Ofc. Barela, RFD Lt. Kyle Wright, and RFD Lt. Kenneth Barncastle all need to attend a Basic SWAT school. They will find a training and submit training requests this month, most likely it will be a TTPOA course.

Issues and Concerns-

Several SWAT members have applied to other agencies and are likely to be hired within the next month. This will leave several vacancies and the team will lose several years of operational SWAT experience. Currently Agent Mendoza is the first on the list for the vacant Operator position but has applied for another agency. If she is not hired or does not take the job she has the opportunity to pass a PT test and qualification to make Operator. If she leaves or does not wish to fill that role, Ofc. Gamboa (a current trailer) is the next and final person on that list. He will then be afforded the same opportunity. If there are any more Operators that leave, tryouts will have to be held again.

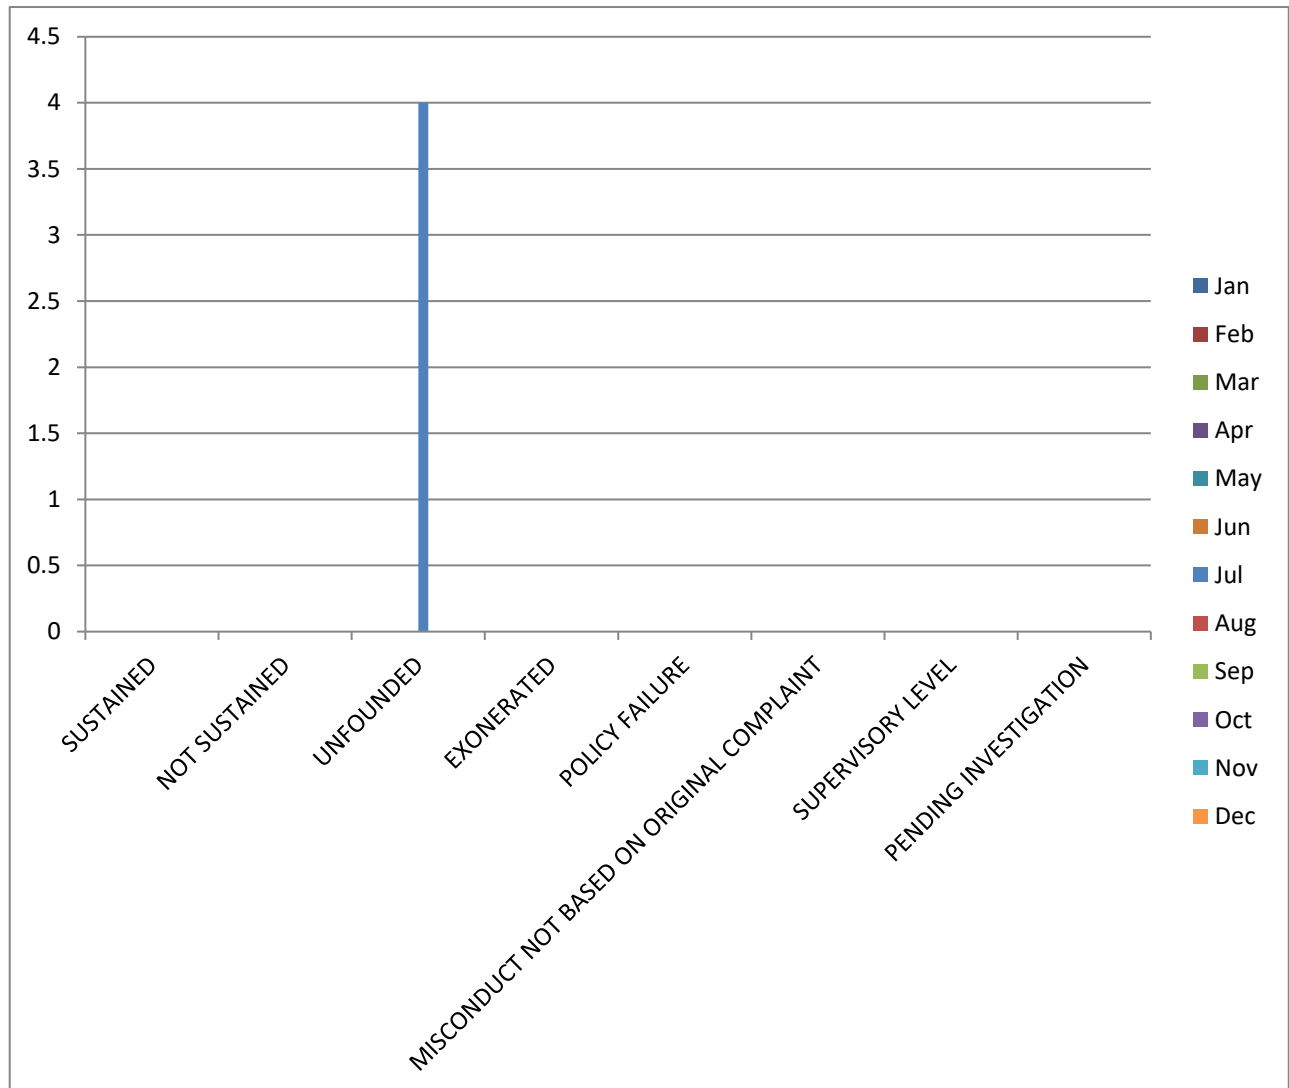

The MRAP front windshield has become delaminated and is hard to see out of. A new ballistic windshield is approximately \$10,000 without labor. The best fix would be to acquire a new Tactical Response Vehicle better suited for LE use. A new BearCat would be about 18+ months out to be built and delivered. Our MRAP was acquired over 10 years ago through the 1033 program and has constant mechanical issues. A quote was obtained to fix the windshield at approximately \$6,500.

Night vision devices are more than 15 years old and are outdated and beginning to fail. Quotes to purchase replacements are in process. Snipers need clip-on night vision devices in order to use their rifles at night. Two T&E devices were evaluated and submitted for quotes.

Several Operators call-out uniforms do not fit or are the same as others. I would like to look into purchasing new uniforms in order to have a uniform appearance on operations and appear professional at the air races in September.

REAL TIME CRIME CENTER DIVISION HIGHLIGHTS

The two civilian Nova Crime Center operators, Jane Weaver and Shelby Cunningham, started on July 14th. They began training right away. Sgt. Wrenn will be handling a majority of the training with frequent assistance from Lt. Fry. This is a brand new position so the training is evolving day to day. Both operators are doing well so far. Sgt. Wrenn believes they will be ready to get released near the end of August. They will be working Sgt. Wrenn's schedule until they are released.

Lt. Fry, Sgt. Wrenn, Shelby, and Jane visited the Albuquerque PD real time crime center. We spent about two hours speaking with a handful of supervisors and analysts. We made some good connections and took a tour of the facilities. They invited us to come spend a few days with them in the future to get a good grasp on their day-to-day operations. We will attempt to plan the trip in the coming months.
