Department summary

- Engineers and HVAC professionals have determined that the PD will need a new AC system that will need to be installed in phases. The building will need new electrical throughout to sustain the new system. This project is expected to take 16-24 months total. All command staff, IA, RTCC and IPRA personnel will have to find a new building to work out of during this time. Possible location to move to is ILEA building at the base.
- Five recruits remain at the police academy, with graduation in December.
- On August 28, 2025, RPD officers responded to a domestic disturbance on East 6th Street. Officers were met with automatic gunfire from the suspect. During the almost hour-long situation, officers were pinned down by gunfire that led two police officers sustaining gunshot injuries. Initial investigation revealed over 200 rounds of gunfire were exchanged. Two patrol vehicles sustained damage from gunfire, along with numerous houses in the area. Currently 7 RPD officers are on administrative leave pending State Police interviews. This incident highlights the need for a bearcat armored vehicle for our Swat Team. We requested Eddy County Sheriff's Office Bearcat at the start of the incident, which was approved by Eddy County. This vehicle was enroute to Roswell when the incident was resolved. Luckily no civilians were injured during this incident and both police officers will recover from their wounds.

SWAT

Last Month Activity-

On Thursday, August 14, SWAT conducted training with Operators and Snipers. Trailer Tryouts were conducted first thing in the morning with the PT Test and then a firearms qualification. Det. Ness, Det. Barrientos, Det. Duran, Ofc. Delacruz, Ofc. J. Dollar, and Ofc. L. Cardiel all tried out. Det. Barrientos and Det. Ness were selected as trailers and moved to the trailer team upon completion. A list was made that will be active for the next six months. The results are: 1. Det. Duran 2. Ofc. J. Dollar 3. Ofc. Delacruz 4. Ofc. L. Cardiel. After the trailer tryouts, negotiator selections were made. Sgt. Brad Bailey was moved to the Negotiations Team as a permanent member. Ofc. L. Cardiel was moved into a temporary position on the Negotiations Team while he works towards joining the tactical side.

Operators then conducted training at a vacant building in the vicinity of the airport on entries for the afternoon.

On Thursday, August 28, SWAT was scheduled to assist in the warrant round-up with SID. This was cancelled after the call-out the morning of the 28th.

Call-Outs:

On Thursday, August 28th, at approximately 0047 hours, the SWAT team was activated in reference to active gunfire and officers pinned down in the 600 block of E. 6th St. Patrol Officers had initially responded to a call of a suicide/domestic disturbance where a male said he was going to kill himself and was armed with rifles and pistols. The female in the residence had tried to fight the male for the firearms upon patrol's arrival. Immediately upon patrol making contact with the male inside the residence he fired upon them with a rifle at a rate consistent with automatic gunfire. Patrol officers returned fire and retreated to positions of cover. The suspect continued to fire at patrol officers that arrived on scene and was observed wearing body armor. One RPD Officer and one CCSO Deputy were both struck by gunfire and later treated for non-life-threatening issues. The suspect continued firing for over half an hour, during which time 7 RPD Officers, 2 NMSP, and 1 CCSO Deputy returned fire. The suspect was shooting at light and sound outside. Two SWAT Snipers, Sgt. Atencio and Ofc. Juarez, both engaged the suspect with fire during this time.

Team members responded extremely quickly to the scene and took over perimeter areas and established sniper support. Officers also conducted evacuations throughout the block due to the gunfire. Mutual aid was called for from Eddy County Regional SWAT for Sniper and Armor support. Eddy County did respond with their Bearcat at our request.

SWAT Negotiators Sgt. Reese and Ofc. Romero were able to communicate with the suspect via telephone after he called 911 at 0117. During this time the suspect stated that he had several more firearms, 10 lbs of Tannerite, and a flashbang. The suspect also threatened to turn the gas on in his residence in a suicide attempt. The suspect did deploy the flashbang out the front door after saying he did not want to hold it anymore. The suspect also stated that he had been struck by gunfire and wanted to surrender.

Negotiations continued until approximately 0152 hours when the suspect surrendered himself to SWAT Officers in the front of the residence. At approximately 0155 hours SWAT entered and cleared the

residence. There was no sign of gas in the residence and the Tannerite was observed unmixed and safe. At approximately 0202 hours the residence was secured and held for the investigation.

All SWAT officers had to complete interviews with NMSP before being released. This took until approximately 1030 hours.

Accomplishments- SWAT's response to the above callout proved the capability, professionalism and sense of duty of the team. I am extremely proud of the team and their actions that night. Members were able to go from receiving gunfire to negotiating a peaceful surrender. Their actions reflect positively on the Roswell Police Department.

Plans for Next Month- SWAT will be conducting Public Venue Protection and response during the air races scheduled September 10-14. Six members are being assigned daily, including two active threat response teams, a sniper-overwatch team, and a Commander and Team Leader. This will be in lieu of the first training of the month. The second training will be scheduled for September 25 and will be a full-team training, in an effort to have some sense of uniformity. Night-vision bridges have come in for Sgt. Atencio and Ofc. Berumen's rifles. The estimate for two clip-on night-vision systems and five sets of binoculars have been sent to administration for approval and ordering.

Equipment Update- New call-out uniforms have been ordered for the Operators. Operators will turn over their current call-out uniforms to Snipers, Trailers, and TEMS

Several SWAT members have applied to other agencies and are likely to be hired within the next month. Officer Juarez has accepted a position with HSI and has turned in his two-week notice. At least another two Operators and one Trailer are still in the process with other agencies and are likely to be hired soon. Agent Mendoza and Ofc. Gamboa will both be given the opportunity to complete the PT Test and Qualification on September 8 for the current vacancy and Officer Juarez's opening. An Operator testing will have to be completed after this to establish a list for the likely vacancies. If the current staff do decide to leave and are replaced, it would be beneficial to implement an on-boarding process and dedicated training to the new Operators to increase effectiveness.

The callout above shows a need for a Bearcat. The MRAP is too tall to provide effective cover for officers in this scenario. While the MRAP can be used for officer rescue scenarios, it is not ideal due to its height and loading difficulty.

The callout above shows the need for new night-vision equipment and training. This would have been an ideal scenario to employ clip-on night vision for the snipers.

Real-Time Crime Center

On August 8, the drone responded to a burglary in progress at 613 S. Atkinson. As it arrived, we captured an officer chasing the suspect from the house. The officer tackled the suspect and began to struggle with him on the ground. Sgt. Wrenn was able to relay the information to responding units on behalf of the officer who was fighting.

On August 19, the drone responded to an agency assist at 114 S. Mulberry. NMSP had a subject flee on foot during a warrant service. The drone was able to identify an area where the subject may have been hiding based on dogs nearby that were barking in that direction. The female suspect was observed emerging from the area. Sgt. Wrenn and Lt. Fry were able to relay the information to units on the ground who located the female hiding near a shed in the 600 block of E. Alameda.

On August 27, the drone assisted SID on surveillance for a residence they were about to conduct a search warrant on. Nova units were able to observe a lot of activity in the backyard of the residence, which assisted SID in deciding when and where to approach the residence.
