SWAT

Training:

No standard training this month. Training set for the 9th was cancelled due to a callout that started late on the 8th into the 9th and multiple Operators not being able to attend.

11 SWAT members attended the TTPOA conference April 23-27. The following is a list of courses taken during the conference by our officers:

NVG Operator, Advanced Tactical Rifle, Vehicle Based Hostage Rescue Techniques, Vehicle Containment Techniques, Armored Vehicle Applications and Operations, On-Demand Skills Training, Dynamic Pistol Performance, LPVO for Patrol Rifle Use, Rushing the Shot (Sniper Foundation).

We also had the opportunity to listen in on a debrief conducted by Houston PD's NorthTac unit which was responsible for the takedown and investigation into the Houston Armored Car Sniper around 2016.

We also heard from Director of National Intelligence Tulsi Gabbard who gave a speech on law enforcement particular to tactical teams. This was an awesome opportunity for our guys to see the impact of their actions reference a national scale.

Overall, the conference was extremely beneficial. It was an outstanding opportunity for our new Operators to see and interact with other teams and gain essential training for their roles on our SWAT team.

Callouts:

The team was busy this month with a total of 6 operations. We had three SWAT Light activations and three full-team activations. Four of these six were pre-planned high-risk search warrants and two were call-outs to active scenes by patrol.

On April 4, a SWAT light was conducted at 709 S. Missouri Ave. in reference to Jonathan Ortega believed to be barricaded in the residence after committing an aggravated assault with a knife. Ortega was not located in the residence and it was later learned that he had escaped from the residence when patrol had initially responded. Ortega was later located and arrested.

On April 7, a SWAT light activation was issued to assist DEA with a federal search warrant. We participated in the operation, but DEA cancelled the operation several hours in after making a decision not to execute the search warrant on this date.

On April 8, a full-team activation was issued in reference to locating and apprehending Evan James, who was the suspect in an aggravated assault with a firearm. James was also believed to have made suicide-by-cop statements and had a history of suicidal ideations. James was located at 2202 Barberry Road north of Roswell. Operators were sent to the area to conduct surveillance and observation while the team briefed. James left the residence erratically in a vehicle during the briefing and was taken into custody during a vehicle takedown when he arrived back at the victim's house of 203 Calle Del Sol. James was taken into custody without incident and a firearm was observed in the vehicle with him. James was arrested and charged in this case.

On April 11, a SWAT Light activation was issued in reference to Humberto Velarde possibly barricading in the residence of 1815 Cambridge after being suspected of an armed robbery with a handgun. Velarde was taken into custody without issue at the residence and turned over to CID where he was arrested and charged for the armed robbery.

On April 21, a full-team activation was issued reference two high-risk search warrants. The team was utilized to execute a federal search warrant issued by DEA. This was a pre-planned operation with multiple moving parts. A high-risk stop was conducted on the target when he left the residence and he was taken into custody, along with another male, without incident. The team then simultaneously executed the warrants for two homes with an additional six people being detained. Evidence was recovered from the residences that will assist the ongoing investigation into narcotics trafficking from these two properties. The case is still active with DEA.

On April 28, a full-team activation was issued reference two high-risk search warrants stemming from a shooting investigation that began on April 16. The two addresses were 1020 S. Plains Park Drive and 615 W. Mathews. The target from 615 W. Mathews was detained by CID during our planning phase and we adjusted to secure this residence second. At 1020 S. Plains Park, a male refused to exit the home for almost 15 minutes. This resulted in the use of a noise-flash distraction device and led us to believe the target could be hiding in the attic. OC Vapor was introduced into the attic with negative results. RFD responded to assist in airing out the residence. 615 W. Mathews was secured without incident but a door had to be breached on an outbuilding in order to secure it for CID.

Accomplishments:

11 members successfully completed training at the TTPOA conference in Round Rock, TX.

Plans for Next Month:

Training will be held on May 14 and May 28 next month. May 14 will focus on lessons learned from the TTPOA conference. We are working on coordinating with Ruidoso PD for a joint training in Ruidoso this month. This would provide the opportunity for fresh venues for our personnel and a fresh/different environment.

Equipment Update:

Rifle rated shield was received. The replacement sniper rifle has been ordered.
