All recipients must comply with the requirements of Title VI of the Civil Rights Act of 1964 (42 U.S.C. § 2000d et seq.), codified at 6 CFR Part 21 and 44 CFR Part 7, which provides that no person in the United States will, on the grounds of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance.

Article X - Civil Rights Act of 1968

All recipients must comply with Title VIII of the Civil Rights Act of 1968, which prohibits recipients from discriminating in the sale, rental, financing, and advertising of dwellings, or in the provision of services in connection therewith, on the basis of race, color, national origin, religion, disability, familial status, and sex (42 U.S.C. § 3601 et seq.), as implemented by the Department of Housing and Urban Development at 24 CFR Part 100. The prohibition on disability discrimination includes the requirement that new multifamily housing with four or more dwelling units—i.e., the public and common use areas and individual apartment units (all units in buildings with elevators and ground-floor units in buildings without elevators)—be designed and constructed with certain accessible features (see 24 CFR § 100.201).

Article Y - Limited English Proficiency (Civil Rights Act of 1964, Title VI)

All recipients must comply with the Title VI of the Civil Rights Act of 1964 (Title VI) prohibition against discrimination on the basis of national origin, which requires that recipients of federal financial assistance take reasonable steps to provide meaningful access to persons with limited English proficiency (LEP) to their programs and services. Providing meaningful access for persons with LEP may entail providing language assistance services, including oral interpretation and written translation. In order to facilitate compliance with Title VI, recipients are encouraged to consider the need for language services for LEP persons served or encountered in developing program budgets. Executive Order 13166, Improving Access to Services for Persons with Limited English Proficiency (August 11, 2000), requires federal agencies to issue guidance to recipients, assisting such organizations and entities in understanding their language access obligations. DHS published the required recipient guidance in April 2011, DHS Guidance to Federal Financial Assistance Recipients Regarding Title VI Prohibition Against National Origin Discrimination Affecting Limited English Proficient Persons, 76 Fed. Reg. 21755-21768, (April 18, 2011). The Guidance provides helpful information such as how a recipient can determine the extent of its obligation to provide language services; selecting language services; and elements of an effective plan on language assistance for LEP persons. For additional assistance and information regarding language access obligations, please refer to the DHS Recipient Guidance <https://www.dhs.gov/guidance-published-help-department-supported-organizations-provide-meaningful-access-people-limited> and additional resources on <http://www.lep.gov>.

FY15 Interoperability Replacement Program

PROJECT NARRATIVE

9. Provide a scope of work/description for this project as well as a description of the need. How will this project support and enhance jurisdictional capabilities that are directly related to the Initiative identified on the previous tab under item 4. The character limit for this section is 1,000. Do not use any special characters such as hyphens or apostrophes.

This grant request proposes to replace 15 portable radios per year over the next three years that are set to be discontinued by the manufacturer. We have been notified by Motorola that our current radios, purchased in 2006, will be discontinued and no longer supported with parts or service from Motorola. Without this grant the City of San Luis does not have the resources to replace these radios. Without this grants support we will not be able to maintain our current status of interoperability with other county public safety agencies under the Yuma Regional Communications System.

10. What is the sustainability plan for this project/equipment?

We will begin to set aside funds each fiscal year to plan for the replacement of these radios should Motorola discontinue manufacturing/supporting the requested radios.

11. Can partial funding be accepted for this project? If so, what specific items, dollar amount(s), and quantities? If you indicate you can accept partial funding, you MUST list priorities (including items, dollar amounts, and quantities).

The replacement of these radios is the first priority of our department. Any radios that can be replaced this grant cycle will be less radios to be replaced in the future. Any assistance the State Homeland Security Grant Program can provide us will continue to support us with interoperability with the other agencies in our county, YRCS.

PROJECT JUSTIFICATION

12. Enter the 2011 - 2014 State Homeland Security Strategy Objectives (EXAMPLE : 1.1.0) and Action Item(s) Numbers (EXAMPLE:1.1.4) that relate to this project and explain how this project supports the State Homeland Security Strategy.

To learn more about the State Homeland Security Strategy, refer to the following website:

<http://www.azdohs.gov/Grants/SHSS.asp>

YRCS is a regional communication public safety grade radio system that is formed from the multiple partnerships that include local, state, tribal and federal agencies. The system provides operable and interoperable communications between its users for information sharing and officer safety. This project will strengthen interoperable communication by upgrading our existing unsupported radios to maintain interoperable communications with other YRCS agencies. This project aligns itself with Objective 1.1.0 and action item 1.1.3.

13. Include how this project fits into one (or more) of the State Initiatives. Please refer to the "PROJECT ADMIN PAGE" under Item 4. Provide any additional justification that supports this project. The character limit for this section is 1,000. Do not use any special characters such as hyphens or apostrophes.

Strengthen Interoperable Communications Capabilities - In 2006 our agency became a part of the YRCS this gave us the necessary radio coverage for public safety interoperability, users will have access to the systemwide interoperable talkgroups in an area they could not before. Our original radios have now come to the end of their life and will no longer be manufactured or supported by Motorola. The City of San Luis does not have the resources to replace these valuable pieces of equipment. If these radios are not replaced, we will be required to drop from the YRCS and move to a stand alone system. It is our priority to maintain interoperability communications with all county agencies. With funding from this grant opportunity, this will allow for multiple jurisdictions to assist on an incident knowing that their interoperability will work. Radio communications is the lifeline of the public safety community.

14. Describe in detail the goals and objectives of the proposed project. Be sure to address what your organization's current capabilities are, and how the current capabilities of your organization will be impacted or enhanced as a result of this grant. The character limit for this section is 1,000. Do not use any special characters such as hyphens or apostrophes.

Our goal is to maintain interoperable communications with all county agencies. Presently, all officers and vehicles have interoperable communications with all county agencies. Our current communications system is no longer being supported or manufactured by Motorola. Without the help of this funding we will not be able to maintain our current state of readiness. If we do not purchase new radios we will no longer have communications with the other public safety agencies in Yuma County. The City of San Luis does not have the resources to purchase this equipment on our own and must rely on the assistance of this grant. With funding from this grant opportunity, this will allow for multiple jurisdictions to assist on an incident knowing that their interoperability will work. Radio communications is the lifeline of the public safety community. By upgrading to the newer supported radios, our agency will have increased reliability, interoperability, and service ability.
