**Subject:** Re: [EXTERNAL] Briefing of Cities/Towns on Health District Preparedness for Disease Outbreak

Hello Susan,

I would like to take opportunity of this offer.

Our next regular meetings are March 11 and 25.

Let me know please,

Thank you,

Tadeo A. De La Hoya  
City Administrator

Good afternoon, colleagues – Our County Health District Director, Diana Gomez, has been in close contact with CDC and other federal agencies on an ongoing basis, and more recently regarding the Coronavirus as well as other typical illnesses that impact the US during this season.

Diana will be providing a briefing to the Board of Supervisors at their meeting March 9. The City of Yuma has requested a briefing by the Health Director at a Council meeting in the near future. I wanted to extend this offer to our other cities and towns.

Please let me know if you would like a Health District briefing and if so the date of the next meeting. I am copying Diana Gomez on this email so she is aware of your interest.

Thanks for your ongoing partnership for the benefit of our shared community.

Susan
