

YUMA REGIONAL MEDICAL CENTER
CANCER CENTER

February, 2020

Dear Mayor Gerardo Sanchez and Council members,

Presently, the YRMC Cancer Center Hispanic Support Group is considering our request for financial support in the sum of \$5,000.00.

This donation will be used for the benefit of our group members through the variety of activities that we regularly conduct throughout the month. In so far, we have been able to provide for monthly reunions, which require the investment of \$150.00, and even a trip whose sum was near \$3,200—all expense-free to our members.

Additionally, we held a dinner even in October titled “Short of Stars in the Center of Cancer” (Tarde de Estrellas en el Centro de Cancer) in which over 130 attendees gathered. We had a collective group of both patients and their loved ones. The budget for this event cost \$5,000 in dresses, food, music, equipment, decorations, and more.

All this effort, accomplished by our coordinators, friends, local businesses, and community in general, is directed towards and looking for individuals who are struggling through this battle with cancer—that they may find support and motivation from a family, such as we have all become, so they can face this terrible sickness that is robbing them of their physical and emotional health.

We thank you in advance for the support provided

Sincerely,

Maria Esparza, CHW and Hispanic Support Group coordinator
