6. DISCUSSION AND POSSIBLE ACTION ITEMS:

6.A. Discussion and possible action on any and all matters regarding the designation of a Vice Mayor. (City Council)

Mayor Gerardo Sanchez commented this item was brought to his attention. First and foremost, there are a couple of things occurring right now as he speaks. During the past couple of weeks, especially with funding for the Port of Entry I, there has been discussion that they might cut funding for the construction. He is verifying this information and this means that he and the Vice Mayor will have to be traveling. He understands it is pandemic time but there is a possibility they might have to go to Mexico City or Washighton D.C., so the Vice Mayor will have to be working a lot with him. He has also been receiving phone calls as people are worried about who is going to represent the city in the Yuma Metropolitan Planning Organization (YMPO). The Vice Mayor will be attending the meetings and is going to be a representative. Mayor Gerardo Sanchez will be substituting when the Vice Mayor is not able to attend. The biggest concern there is, is the state might be switching the money advocated for Los Alamos, so the city needs someone there who is going to be persistent and make sure that the funding for dangerours curve continues. The city needs to make sure that funding does not get removed, mitigated, or put somewhere else because of COVID-19. He does not want COVID-19 to be the reason why this money gets deviated. The economy of the City of San Luis, Arizona is dependant on the Port of Entry II.

Council Member Gloria Torres commented that in consideration of a new City Council, discussing this item should be considered in January when the new council takes office. This evening the council has the opportunity to be part of the decision. Vice Mayor Maria Cecilia Cruz can finish her two (2) weeks, then there will be a new person on board and maybe he is interested in becoming the new Vice Mayor.
Mayor Gerardo Sanchez said it is a good comment but he needs a decision now and he also stated that he cannot afford to have a new person as the Vice Mayor for the reasons he indicated above.

Vice Mayor Maria Cecilia Cruz strongly agrees with Mayor Gerardo Sanchez and the reason why this is, is that they are already threatening to take funding away in these two (2) separate areas. We need a person who has experience, who is strong in voicing the city's opinion in the city, and cannot put a person who is not going to be devoted to this time.

Council Member Jose Ponce commented this is like a slap on the face and an insult to the City Council; the Vice Mayor is saying that only two (2) people are capable of doing it and this is an insult. He added that he agrees with Council Member Gloria Torres, and if a nomination needs to be done tonight, he nominates Council Member Africa Luna-Carrasco.

Council Member Africa Luna-Carrasco commented she understands and agrees that this cannot go like Mayor Gerardo Sanchez says it is going, but they are a a seven (7) member City Council and all should be able to participate in one way or another in all these very important issues that the city has been fighting for since she can remember. She does not think it is fair that it is left up to him and the Vice Mayor, whoever that person is appointed. It is a seven (7) member team and need to start working as a team. She also added that if the rest of the City Council does not have the experience, it is because they have not been asked to participate at that level.

Council Member Mario Buchanan Jr. commented he is not interested in a position like this as he does not have the time. He knows he is not being appointed by anyone, but it is an important position to take care of when Mayor Gerardo Sanchez is not around or even the City Council; the community needs to be well represented and he understands that anyone can do it as long as they have the time.

Council Member Matias Rosales commented that being he was Vice Mayor for many terms or a year before Vice Mayor Maria Cecilia Cruz, it does take a lot of time, and this was pre COVID-19. He does not know what is going to happen here forward regarding the traveling, but being part of the Port Authority and seeing all the emails that are coming; whoever wants to step up to the plate, whoever gets appointed for this, does need to be able to commit the time to travel at some point. He did not hear Vice Mayor Maria Cecilia Cruz say no one else is qualified for it, she just stated that whoever is going to be appointed, who ever wants to take that responsibility, needs to commit the time required. It is their own and as City Council, if he recalls correctly, they are supposed to review this item once a year. When he was appointed Vice Mayor, he was appointed out of the hospital and was Vice Mayor for five (5) years.

Vice Mayor Maria Cecilia Cruz has been the Vice Mayor for two (2) years; he agreed with Mayor Gerardo Sanchez.

Mayor Gerardo Sanchez commented he personally wanted Council Member Matias Rosales to be the Vice Mayor because he knows what is going on and does not want to start from scratch. His biggest concern is the need to use contacts to make sure the city does not lose this funding.

MOTION: Vice Mayor Maria Cecilia Cruz/Council Member Mario Buchanan Jr. to nominate Matias Rosales as the next Vice Mayor due to the reason he has the experience and the city needs somebody who is a strong advocate for the City of San Luis with all the experience that he has with the Yuma Port Authority. Motion passed unanimously.

6.C. Discussion and possible action on any and all matters regarding Ordinance No. 401. An ordinance of the Mayor and City Council of the City of San Luis, Arizona, for the management of trees in the City of San Luis and practices for the care of the trees and removal when in the health, safety, and welfare interests of the residents; amending the San Luis City Code; repealing any conflicting provision; providing for severability, and providing for penalties. (Lizandro Galaviz, Director of Parks and Recreation)

Mr. Lizandro Galaviz, Director of Parks & Recreation, explained that in conjunction with Community Development and Public Works, this ordinance will support the care and development of the city's trees focusing on long term of becoming a tree city in the future. This has a health benefit and has a shade for individuals using the open spaces; a lot of the maintenance is already done by city employees and staff is currently looking at more training to better maintain and also are developing a nursery and other projects that will increase the planting of trees in the city.

6.D. Discussion and possible action on any and all matters regarding the appointment of one (1) City of San Luis resident to serve on the City of San Luis Planning and Zoning Commission. (Jose A. Guzman, Director of Planning and Zoning)

Mr. Jose Guzman, Director of Planning & Zoning, mentioned the city currently has six (6) Commission Members and the Commission is supposed to be seven (7) members. Staff received a letter from Commission Member Daniel Bazua, resigning from the Commission and there are two (2) applications submitted from interested citizens for this position; Mr. George Amaya and Mr. Edel Silva. Staff recommens that the City Council appoint a resident for this position since having a full Commission is important for the future growth of the city.

MOTION: Vice Mayor Matias Rosales/Council Member Maria Cecilia Cruz to appoint George Amaya as a Planning & Zoning Commissioner to build vacancy created by Daniel Bazua which term expires January 31, 2023. Motion passed unanimously.

The vote was as follows:

Mayor Gerardo Sanchez	Aye

6.E. Discussion and possible action on any and all matters regarding Resolution No. 2146. A resolution of the Mayor and Council of the City of San Luis, Arizona approving Las Quintas de San Luis 3 Development Agreement between the City of San Luis, Arizona, and Riedel Holdings, L.L.C., and repealing Resolution No. 2058. (Jose A. Guzman, Director of Planning and Zoning)

Mr. Jose Guzman, Director of Planning & Zoning, explained that a development agreement for Las Quintas 3 was approved approximately two (2) years ago. The layout of the development changed. Instead of 19 lots they are now proposing 10 lots. Therefore this is just the rezoning from R1-12 to R1-20, the only difference is the minimum lot size, which is 20,000 square feet and the open space requirement changed from 5% to 2%, so it was reduced. The same previous conditions apply to the development agreement, only condition number 2 was changed for the open space requirement and added the second to last condition which refers to the offset from Quintero Street. The developer did not agree with condition number 1 and this condition, but staff mentioned that the traffic study is required by Ordinance No. 390.

The alignment with Quintero Street is a concern, they submitted a way to alleviate this requirement, to add a medium on County 22nd Street, but it is under review by city staff, so it was added to the development agreement just in case it is an issue.

Mr. Najeh Edais, Engineer, stated this is another beautiful project in the City of San Luis and they reduced the number of blocks from 20 to 10 to make them large and different. He added that one of the things that Mr. Guzman has not mentioned is that they met with city staff and discussed this. The medium is not their idea but the city engineers's idea, and they agreed to it. This medium solves the problem of the offset of the street, it came out as a solution to that problem.

They also discussed the traffic impact study and the decision was made during that meeting that it is not required because the traffic impact study is not going to do anything. All the improvements that the city want, they did, they are widening the entire County 22nd Street from 10th Avenue to the canal with curbs, gutter, and sidewalks, including the medium that Mr. Eulogio Vera asked for; what will a traffic impact study going to do for 10 lots? However, if the city wants it, they will do it, but he thinks it is ridiculous.

ITEM:

Discussion and possible action on any and all matters regarding Resolution No. 2148. A resolution of the Mayor and City Council of the City of San Luis, authorizing the submission of an application to the United States Department of Interior, Bureau of Reclamation for transportation and utility systems and facilities lease for the downtown parking lot project. **(Jenny Torres, Economic Development Manager and Jose A. Guzmán, Director of Planning & Zoning)**

SUMMARY:

The city developed the City of San Luis Master Plan for Downtown Parks and Parking lots as part of a request by the Bureau of Land Management (BLM) and Bureau of Reclamation (BOR) to process an application for lease of the land for public use. The City of San Luis proposes to submit an application to BOR to develop parking lot areas linking to the proposed urban park downtown. The parking lot is broken down into a central parking area, east parking area, and west parking area. The engineer's cost estimate for the park is approximately $2,202,600.00. The development of a master plan and acquisition of the land is the first step in moving this project forward. Staff estimates that it will take a couple of years to phase out the project upon funding availability. BOR requires that the governing board of the organization adopt a resolution and files the document with the application.

Staff is requesting approval of Resolution No. 2148 and provide the City Manager authority to sign any pertinent documents.

City of San Luis
Master Plan for Downtown Parks and Parking Lots

Prepared by:
James Davey and Associates, Inc. and Thompson Design Architects

April 2018

The Downtown area of the City of San Luis, Arizona, has several larger properties that are under the federal land ownership. These properties include a powerline right-of-way that runs east to west across the Downtown Area between E Street and F Street and is used for a 34.5KV powerline operated and maintained by the Yuma County Water Users' Association. This powerline right-of-way along with adjacent E and F Streets is now used unofficially as a parking lot. Federal lands in Downtown San Luis also include land running from Main Street to the north and eat to Juan Sanchez Blvd. that was reserved by the United States for a future alignment of Highway 95. As there no longer is a plan to realign Highway 95, this land is now vacant except for parking uses. These federal lands are understood to be under the management of the U.S. Bureau of Reclamation and consists of over 11 acres, including some of the undeveloped E and F Street right-of ways.

To better use these federal properties in Downtown San Luis, the City hired James Davey and Associates and Thompson Design Architects to prepare a master plan for the use of the properties for park facilities and for parking lots. The master plan will be useful in obtaining federal approval for use of the lands, will provide a base line for budgeting for future capital improvements, and may also assist in applying for grants to assist in funding the projects. The park areas are to consist of a 'Main Street Park' located along the east side of Main Street from just north of C Street to E Street, and a 'West Park' area located south of the Post Office building and between Mesa Street and Archibald Street. The parking lot features are to be constructed primarily along the powerline right-of-way between Main Street and Fourth Avenue and along the old planned Highway 95 right-of-way north of F Street to Juan Sanchez Blvd. Parking and road improvements will also be provided for the West Park area. A pedestrian bridge is also proposed crossing Main Street to tie the facilities together, along with walking and bike paths throughout the area.

To be able to construct the proposed parks and parking lots, a land use contract will need to be obtained from the U.S. Bureau of Reclamation. Preliminary meetings were held with Reclamation to discuss this. In addition, permitting will be required by the Yuma County Water Users' Association to allow for use of the powerline right-of-way. Use of the powerline right-of-way will also require design coordination with the Water Users' to ensure no conflicts with their power line and if conflicts exist between the power line and the planned facilities, relocation of power poles may be necessary.

The total cost for constructing the park facilities and the parking lots is estimated at $6,566,000. The parks and parking lots are described in the following sections. A detailed cost estimate is included at the end of this report.

Parks

Four new developed park areas are proposed in this master plan concept. These park areas are linked by walking pathways and the pedestrian bridge to create one singular urban park in the downtown San Luis area. The parks consist of passive amenities such as:

- Covered Ramadas – Different sizes and shapes are proposed to fit different needs
- Bench Areas
- Recreational Play Field Areas
- Walking Paths – Serve to connect new proposed parking areas
- Street Crossings - Serve to link park areas across roadways
- Trees and Landscaping include shrubbery and grass areas

The parks also consist of active amenities such as:

- Splash Park – Consists of fountains and play pools
- Concert Pavillion – A raised covered stage area for performances and public gatherings
- Vendor Kiosks – Fixed kiosks may be rented to vendors during large Concert Pavillion events
- Restroom Facilities
- San Luis Police Department Substation to be used during large events
- Power and area lighting throughout the park areas

It is proposed that during large events the curve where D Street meets Main Street could be closed to vehicular traffic making the connecting parks a completely pedestrian venue crossing the roadway.

A raised pedestrian bridge connects the park areas across Main Street. The pedestrian bridge is proposed to also serve as an iconic welcoming element into the Downtown area.

Parking Lots

Following the Park exhibits are five exhibits showing the planned parking lot facilities. Altogether, if all planned parking lots are constructed, some 475 parking spaces will be created.

The parking lots are broken down into a central parking area, between Main Street and 1st Avenue, east parking areas between 1st Avenue and 4th Avenue, and an area of parking on roadway improvements around the West Park.

Common design elements for all parking lots include typical 10’ x 20’ parking spaces, handicap parking spaces as required, 24’ drive aisle, multiple points of access for all parking lots to help ensure good traffic circulation, perimeter fencing to help provide security, and landscaped traffic islands and storm water retention areas. Parking lots will be paved with asphalt pavement and perimeter curbs will be provided to control traffic flows. Street lights will be provided throughout the parking lots.

Central Parking Lot. For the central parking lot area, that area between Main Street and 1st Avenue and extending north to Juan Sanchez Blvd., two main were prepared. In the northeast corner of this area the Sunset Community Health Center is located and they have approached the City about using a portion of the available property for private parking. Therefore, one alternative makes full use of all available property with about 299 parking spaces provided, and one alternative leaves development of the area adjacent to Sunset Community Health Center for development by them.

The central parking lot area will also include a 12' walking path and a 10' bicycle path connecting the Main Street park to Juan Sanchez Blvd. and the parks and schools to the north of it, and an 8' wide walking path connecting 1st Avenue to Main Street and the pedestrian bridge to the West Park area.

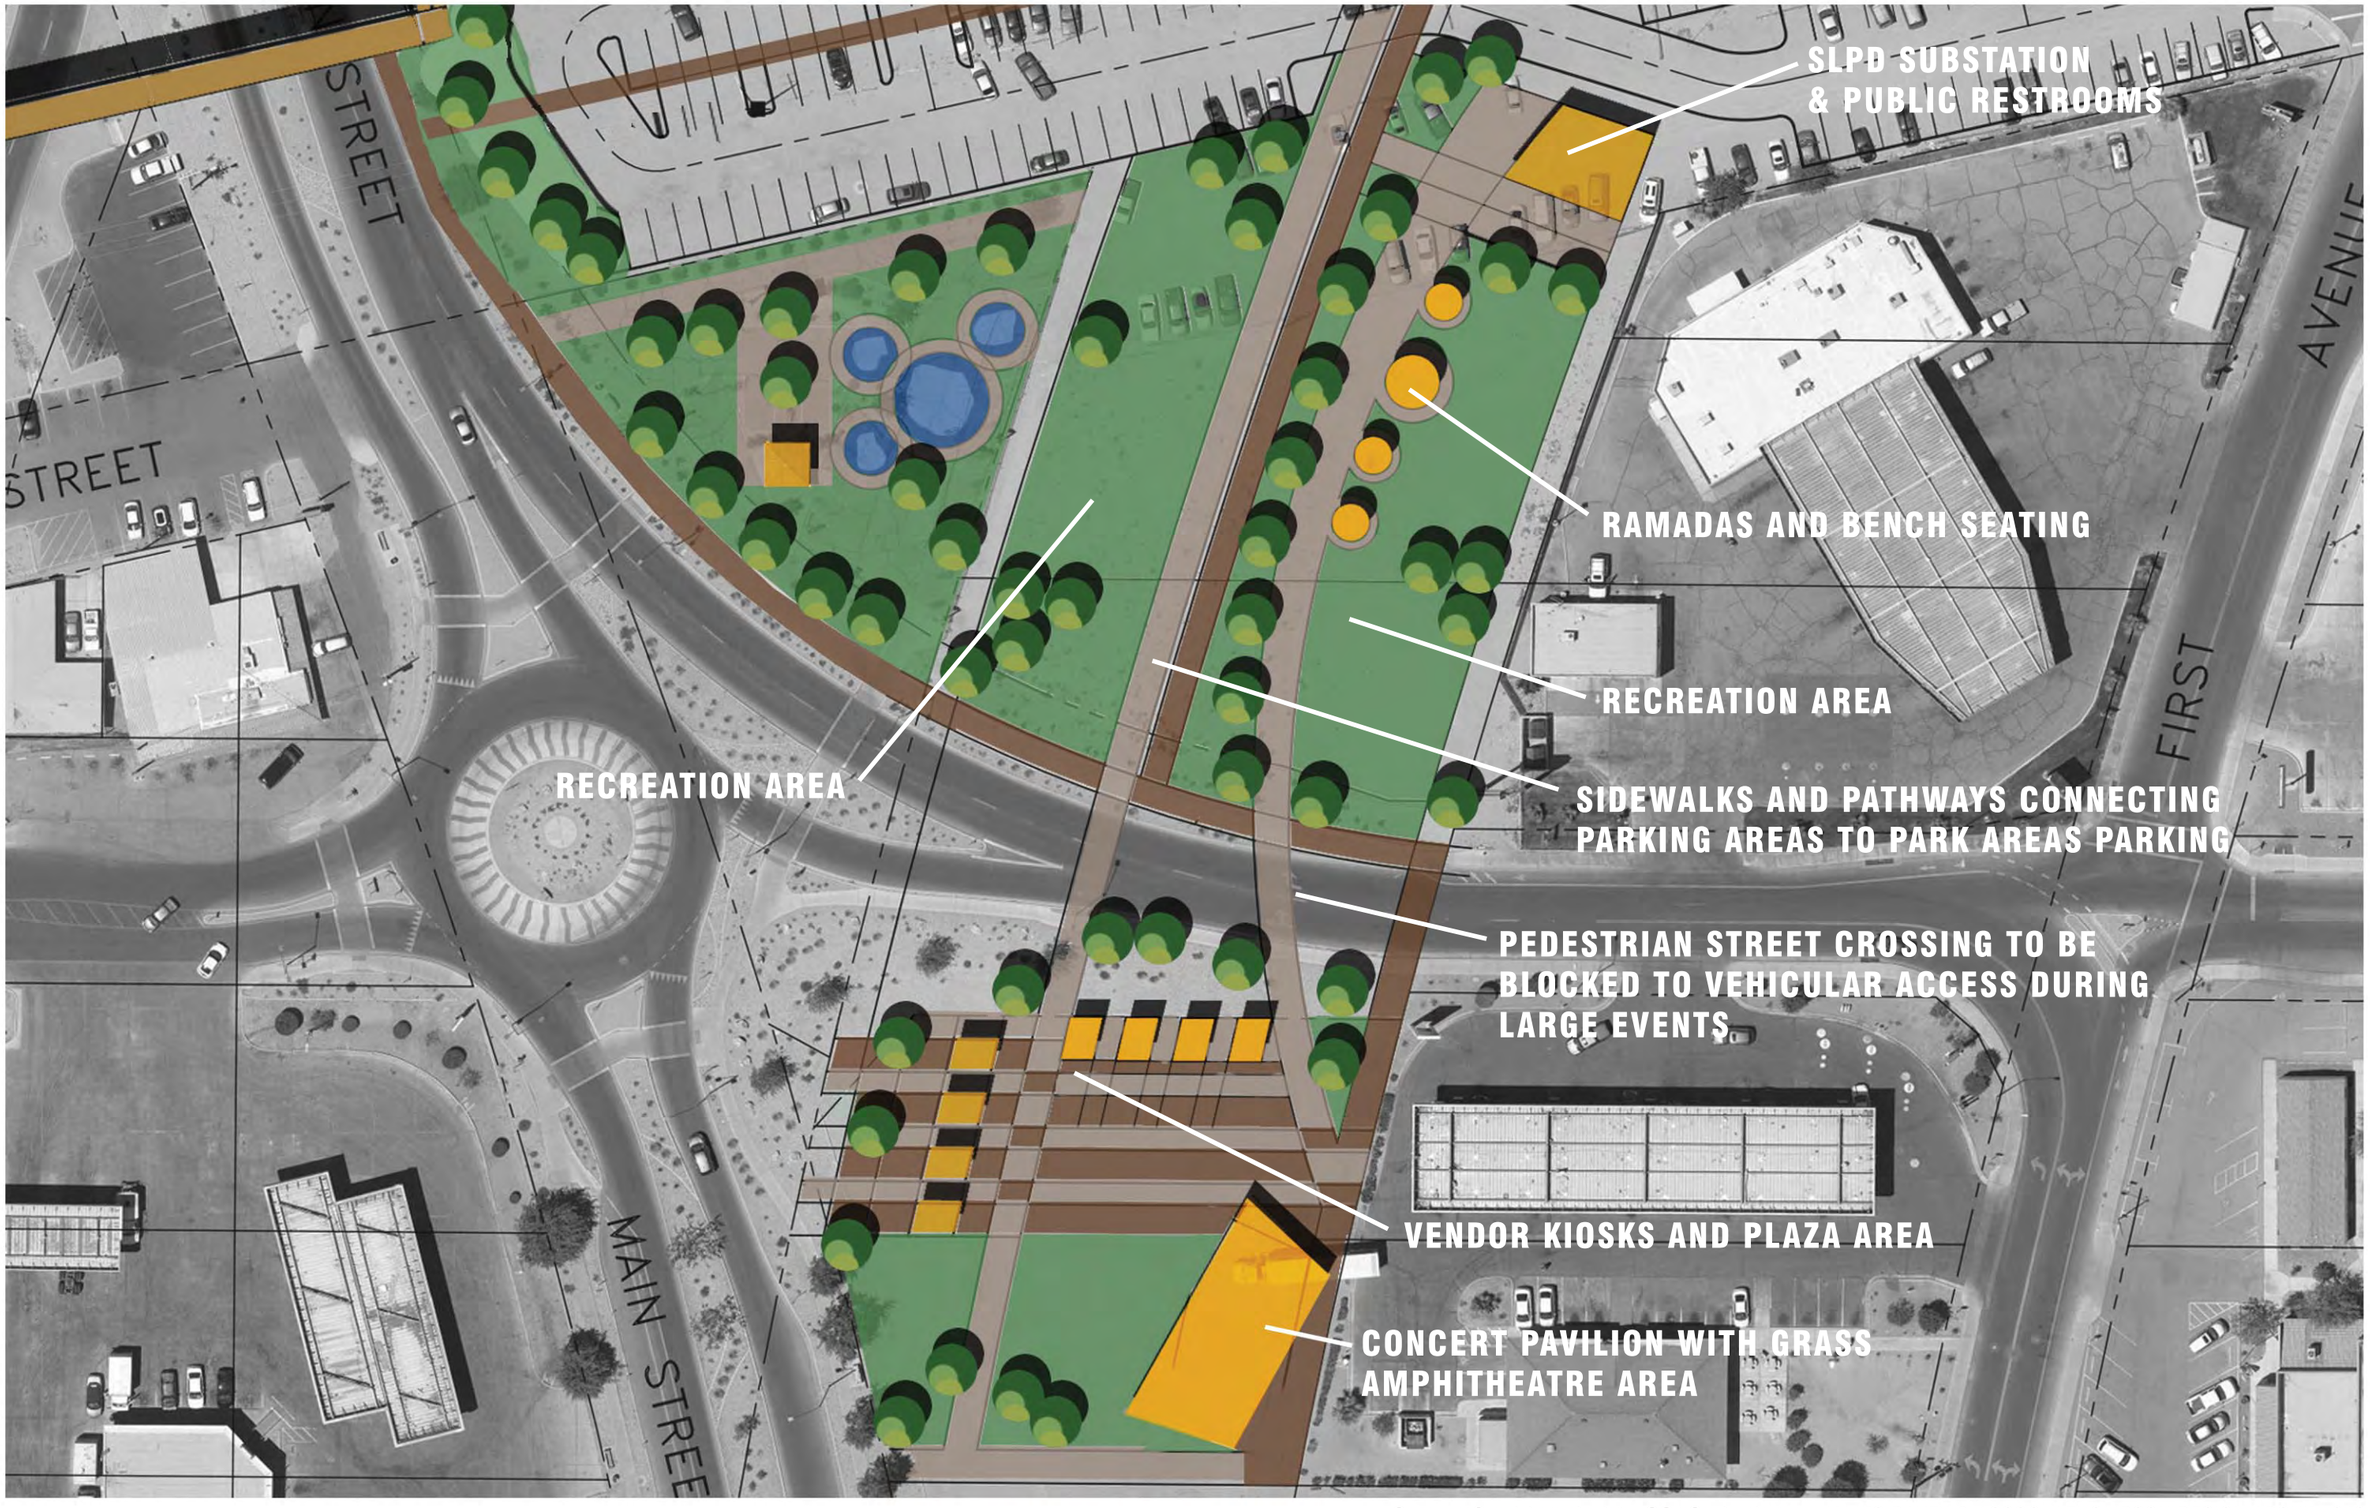

East Park Lots. The east parking lots consists of two similar parking lots, one between 1st Avenue and 3rd Avenue (Caesar Chavez Street) and one between there and 4th Avenue. The parking lots are planned for about 82 and 80 parking spaces, respectively. The parking lot property between Caesar Chavez Street and Fourth Avenue may also be partially used for a storm water retention basin and if so that will reduce the number of potential parking spaces.

The east parking lots are also planned to include bus lanes along E Street. The bus lanes will serve as staging areas and pickup and drop off areas for buses transporting workers to and from agricultural fields.

West Park Area Roadway and Parking Improvements. For the development of the park south of the Post Office, the adjacent streets will need to be further improved and some parking spaces provided. As only the north side of F Street is currently fully improved adjacent to the park area, roadway improvements are shown on the exhibits to include improving Mesa Street, E Street and F Street as 40' wide roadways with curb and gutter and sidewalks. In addition, some 16 parking spaces are planned along E Street for users of the park.

ITEM:

Discussion and possible action on any and all matters regarding Resolution No. 2149. A resolution of the Mayor and City Council of the City of San Luis, authorizing the submission of an application to the United States Department of Interior, Bureau of Land Management for a recreational and public purpose lease for the downtown park project. **(Jenny Torres, Economic Development Manager; Jose A. Guzman, Director of Planning & Zoning)**

SUMMARY:

The city developed the City of San Luis Master Plan for Downtown Parks and Parking lots as part of a request by the Bureau of Land Management (BLM) and Bureau of Reclamation (BOR) to process an application for lease of the land for public use. The City of San Luis proposes to submit an application to BLM to developed park areas linked by walking paths and a pedestrian bridge to create one singular urban park downtown. The engineer's cost estimate for the park is approximately $3,458,000.00. The development of a master plan and acquisition of the land is the first step in moving this project forward. Staff estimates that it will take a couple of years to phase out the project upon funding availability. BLM requires that the governing board of the organization adopt a resolution and files the document with the application.

Staff is requesting approval of Resolution No. 2149 and provide the City Manager authority to sign any pertinent documents.

City of San Luis
Master Plan for Downtown Parks and Parking Lots

Prepared by:
James Davey and Associates, Inc. and Thompson Design Architects

April 2018

The Downtown area of the City of San Luis, Arizona, has several larger properties that are under the federal land ownership. These properties include a powerline right-of-way that runs east to west across the Downtown Area between E Street and F Street and is used for a 34.5KV powerline operated and maintained by the Yuma County Water Users' Association. This powerline right-of-way along with adjacent E and F Streets is now used unofficially as a parking lot. Federal lands in Downtown San Luis also include land running from Main Street to the north and eat to Juan Sanchez Blvd. that was reserved by the United States for a future alignment of Highway 95. As there no longer is a plan to realign Highway 95, this land is now vacant except for parking uses. These federal lands are understood to be under the management of the U.S. Bureau of Reclamation and consists of over 11 acres, including some of the undeveloped E and F Street right-of ways.

To better use these federal properties in Downtown San Luis, the City hired James Davey and Associates and Thompson Design Architects to prepare a master plan for the use of the properties for park facilities and for parking lots. The master plan will be useful in obtaining federal approval for use of the lands, will provide a base line for budgeting for future capital improvements, and may also assist in applying for grants to assist in funding the projects. The park areas are to consist of a 'Main Street Park' located along the east side of Main Street from just north of C Street to E Street, and a 'West Park' area located south of the Post Office building and between Mesa Street and Archibald Street. The parking lot features are to be constructed primarily along the powerline right-of-way between Main Street and Fourth Avenue and along the old planned Highway 95 right-of-way north of F Street to Juan Sanchez Blvd. Parking and road improvements will also be provided for the West Park area. A pedestrian bridge is also proposed crossing Main Street to tie the facilities together, along with walking and bike paths throughout the area.

To be able to construct the proposed parks and parking lots, a land use contract will need to be obtained from the U.S. Bureau of Reclamation. Preliminary meetings were held with Reclamation to discuss this. In addition, permitting will be required by the Yuma County Water Users' Association to allow for use of the powerline right-of-way. Use of the powerline right-of-way will also require design coordination with the Water Users' to ensure no conflicts with their power line and if conflicts exist between the power line and the planned facilities, relocation of power poles may be necessary.

The total cost for constructing the park facilities and the parking lots is estimated at $6,566,000. The parks and parking lots are described in the following sections. A detailed cost estimate is included at the end of this report.

Parks

Four new developed park areas are proposed in this master plan concept. These park areas are linked by walking pathways and the pedestrian bridge to create one singular urban park in the downtown San Luis area. The parks consist of passive amenities such as:

- Covered Ramadas – Different sizes and shapes are proposed to fit different needs
- Bench Areas
- Recreational Play Field Areas
- Walking Paths – Serve to connect new proposed parking areas
- Street Crossings - Serve to link park areas across roadways
- Trees and Landscaping include shrubbery and grass areas

The parks also consist of active amenities such as:

- Splash Park – Consists of fountains and play pools
- Concert Pavillion – A raised covered stage area for performances and public gatherings
- Vendor Kiosks – Fixed kiosks may be rented to vendors during large Concert Pavillion events
- Restroom Facilities
- San Luis Police Department Substation to be used during large events
- Power and area lighting throughout the park areas

It is proposed that during large events the curve where D Street meets Main Street could be closed to vehicular traffic making the connecting parks a completely pedestrian venue crossing the roadway.

A raised pedestrian bridge connects the park areas across Main Street. The pedestrian bridge is proposed to also serve as an iconic welcoming element into the Downtown area.

Parking Lots

Following the Park exhibits are five exhibits showing the planned parking lot facilities. Altogether, if all planned parking lots are constructed, some 475 parking spaces will be created.

The parking lots are broken down into a central parking area, between Main Street and 1st Avenue, east parking areas between 1st Avenue and 4th Avenue, and an area of parking on roadway improvements around the West Park.

Common design elements for all parking lots include typical 10’ x 20’ parking spaces, handicap parking spaces as required, 24’ drive aisle, multiple points of access for all parking lots to help ensure good traffic circulation, perimeter fencing to help provide security, and landscaped traffic islands and storm water retention areas. Parking lots will be paved with asphalt pavement and perimeter curbs will be provided to control traffic flows. Street lights will be provided throughout the parking lots.

Central Parking Lot. For the central parking lot area, that area between Main Street and 1st Avenue and extending north to Juan Sanchez Blvd., two main were prepared. In the northeast corner of this area the Sunset Community Health Center is located and they have approached the City about using a portion of the available property for private parking. Therefore, one alternative makes full use of all available property with about 299 parking spaces provided, and one alternative leaves development of the area adjacent to Sunset Community Health Center for development by them.

The central parking lot area will also include a 12' walking path and a 10' bicycle path connecting the Main Street park to Juan Sanchez Blvd. and the parks and schools to the north of it, and an 8' wide walking path connecting 1st Avenue to Main Street and the pedestrian bridge to the West Park area.

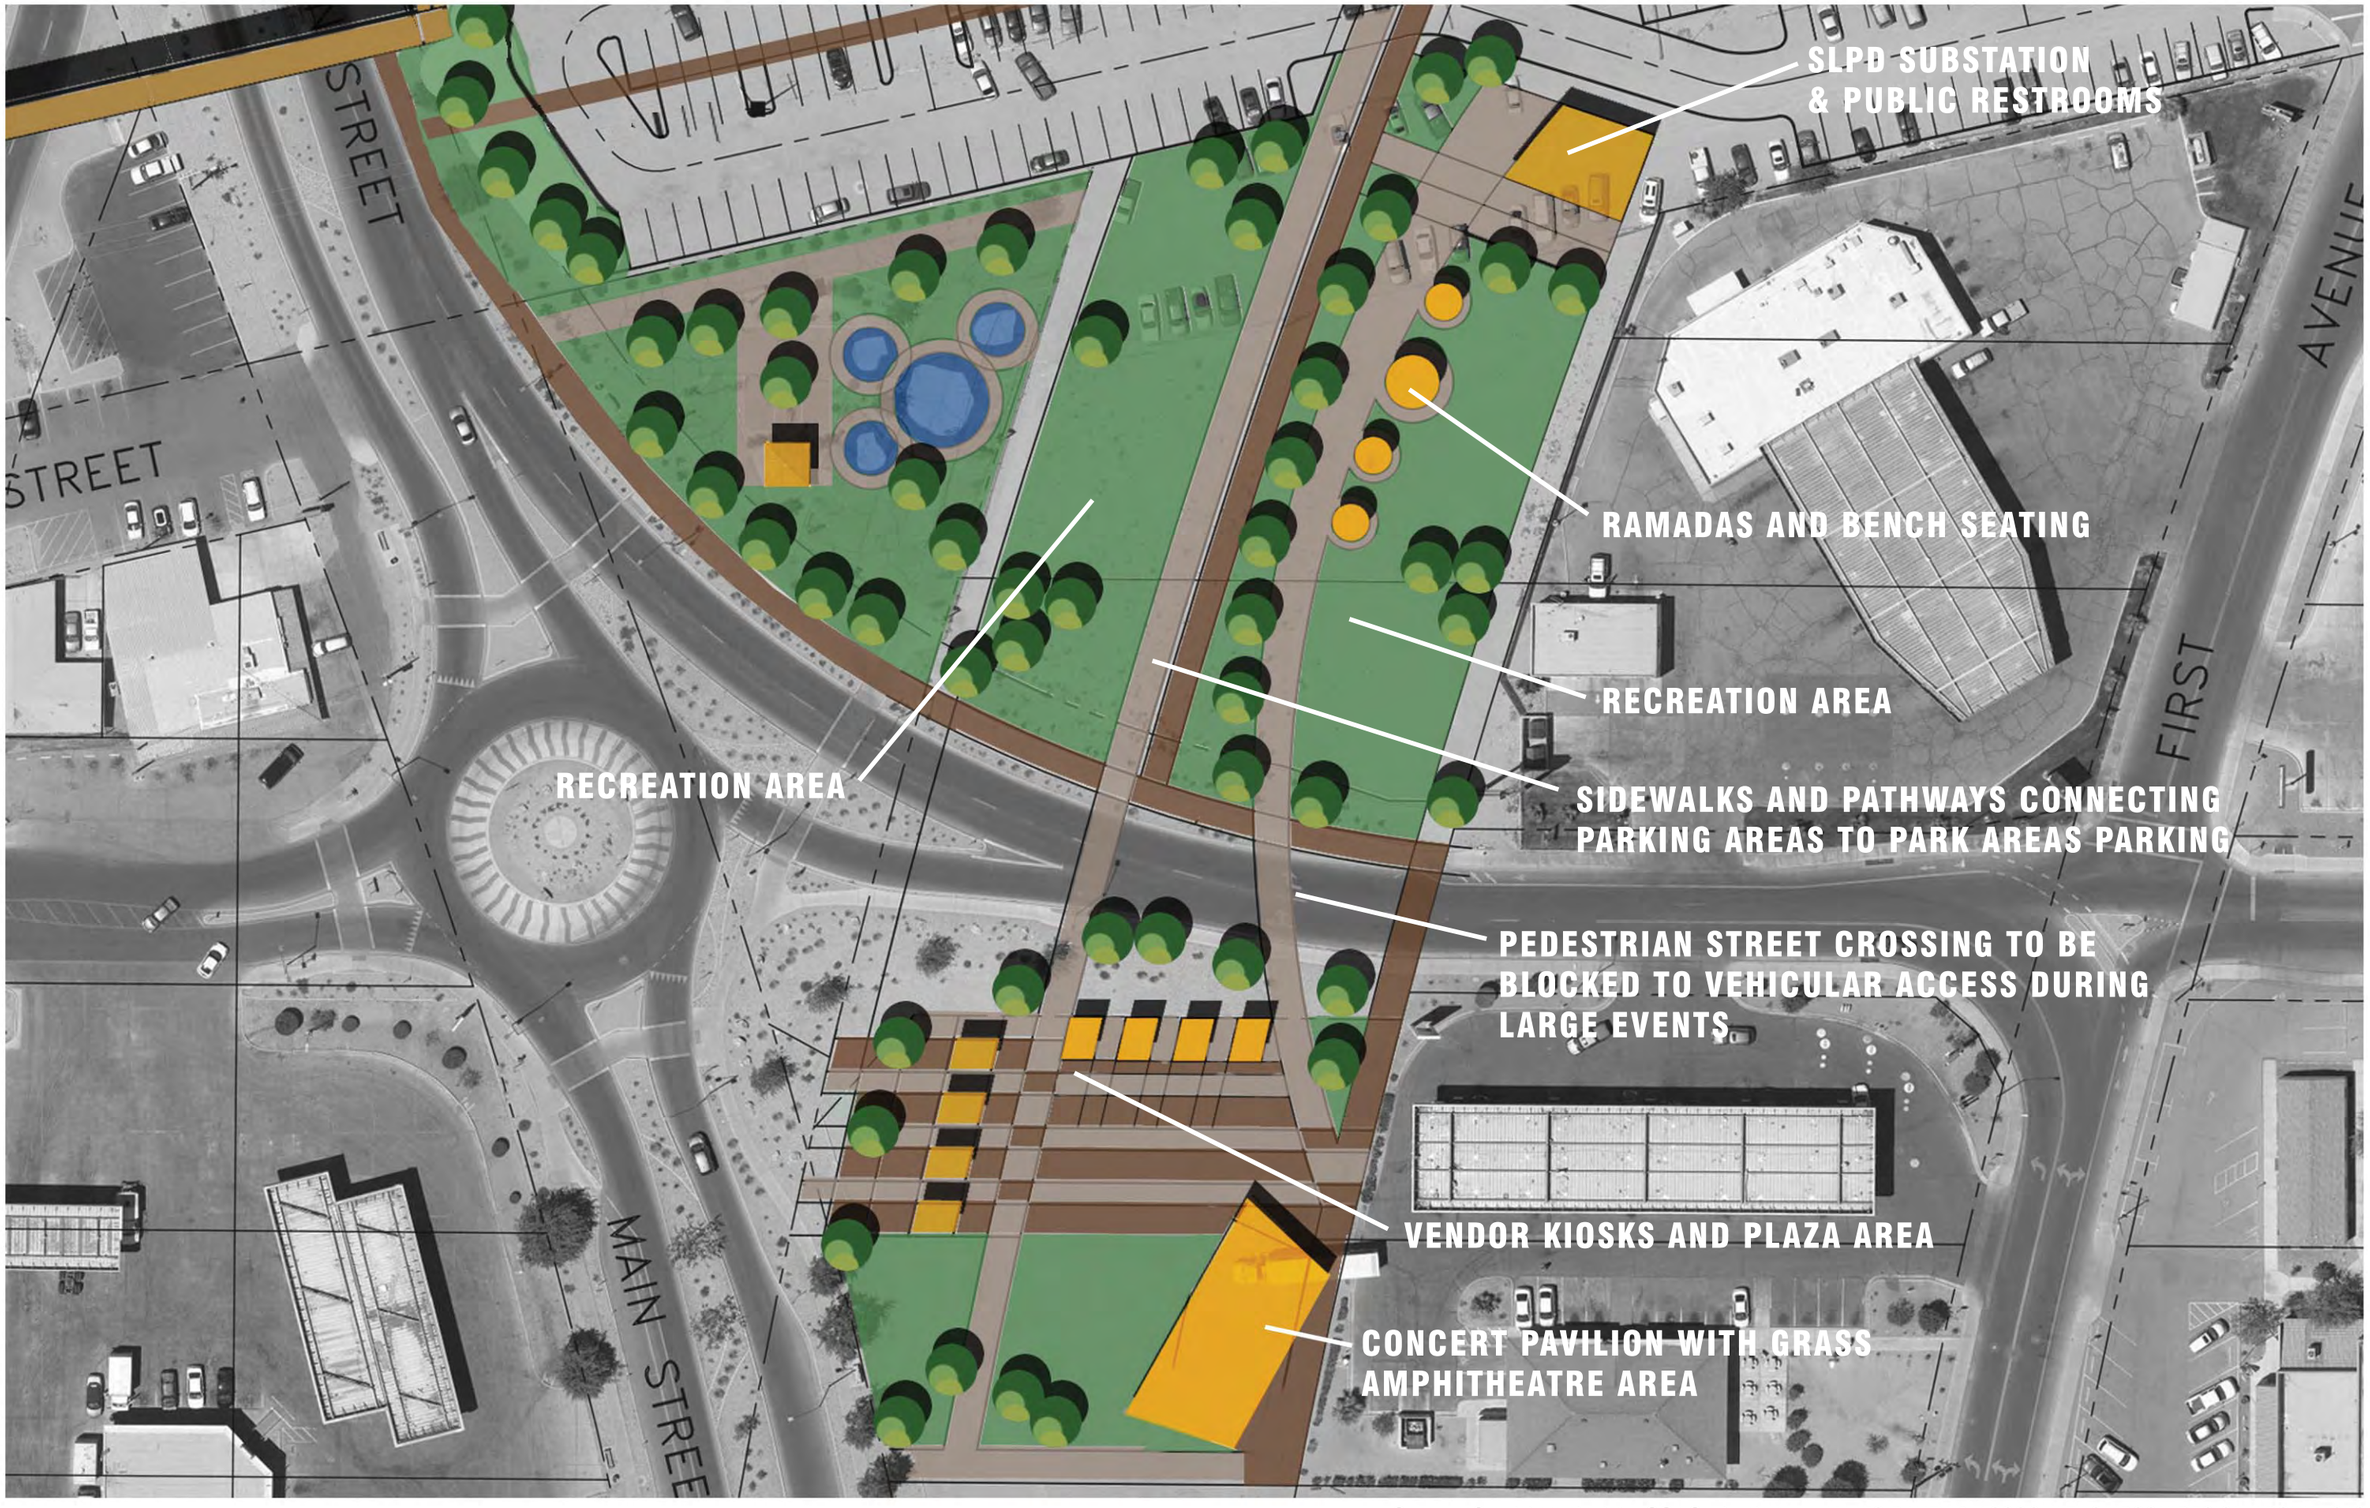

East Park Lots. The east parking lots consists of two similar parking lots, one between 1st Avenue and 3rd Avenue (Caesar Chavez Street) and one between there and 4th Avenue. The parking lots are planned for about 82 and 80 parking spaces, respectively. The parking lot property between Caesar Chavez Street and Fourth Avenue may also be partially used for a storm water retention basin and if so that will reduce the number of potential parking spaces.

The east parking lots are also planned to include bus lanes along E Street. The bus lanes will serve as staging areas and pickup and drop off areas for buses transporting workers to and from agricultural fields.

West Park Area Roadway and Parking Improvements. For the development of the park south of the Post Office, the adjacent streets will need to be further improved and some parking spaces provided. As only the north side of F Street is currently fully improved adjacent to the park area, roadway improvements are shown on the exhibits to include improving Mesa Street, E Street and F Street as 40' wide roadways with curb and gutter and sidewalks. In addition, some 16 parking spaces are planned along E Street for users of the park.

ITEM:

Discussion and possible action on any and all matters regarding the annual pension funding policy for public safety personnel required by HB 2097. **(Monica Castro, Director of Finance)**

SUMMARY:

The Governor signed HB 2097 on April 3, 2018, now A.R.S. § 38-863.01 requires that cities annually adopt pension funding policies for public safety personnel (police and fire) every year. The law prescribes the contents of the policies. The Finance Department has prepared the policies for public safety personnel of the Police and Fire Departments for the years 2018 and 2019 to be compliant with these requirements. The law further requires that the City Council formally accept the city's share of the assets and liabilities under the Arizona Public Safety Personnel Retirement System ("System") based on the System's actuarial valuation. Finally, the law requires that the City Council post the policies on the city's official website.

RECOMMENDATION / SUGGESTED MOTION:

I MOVE TO :
- ADOPT THE PENSION FUNDING POLICIES AS PRESENTED,
- ACCEPT THE CITY'S SHARE OF THE ASSETS AND LIABILITIES UNDER THE ARIZONA PUBLIC SAFETY PERSONNEL RETIREMENT SYSTEM'S ACTUARIAL VALUATION REPORT, AND
- ORDER THAT THE APPROPRIATE CITY STAFF POST THE PENSION FUNDING POLICIES ON THE CITY'S WEBSITE.

Public Safety of San Luis
Public Safety Personnel Retirement System
Pension Funding Policy

The intent of this policy is to clearly communicate the Council's pension funding objectives and its commitment to our employees and the sound financial management of the Public Safety and to comply with new statutory requirements of Laws 2018, Chapter 112.

Several terms are used throughout this policy:

Unfunded Actuarial Accrued Liability (UAAL) – Is the difference between trust assets and the estimated future cost of pensions earned by employees. This UAAL results from actual results (interest earnings, member mortality, disability rates, etc.) being different from the assumptions used in previous actuarial valuations.

Annual Required Contribution (ARC) – Is the annual amount required to pay into the pension funds, as determined through annual actuarial valuations. It is comprised of two primary components: normal pension cost – which is the estimated cost of pension benefits earned by employees in the current year; and, amortization of UAAL – which is the cost needed to cover the unfunded portion of pensions earned by employees in previous years. The UAAL is collected over a period of time referred to as the amortization period. The ARC is a percentage of the current payroll.

Funded Ratio – Is a ratio of fund assets to actuarial accrued liability. The higher the ratio the better funded the pension is with 100% being fully funded.

Intergenerational equity – Ensures that no generation is burdened by substantially more or less pension costs than past or future generations.

The Public Safety's police and fire employees who are regularly assigned hazardous duty participate in the Public Safety Personnel Retirement System (PSPRS).

Public Safety Personnel Retirement System (PSPRS)

PSPRS is administered as an agent multiple-employer pension plan. An agent multiple-employer plan has two main functions: 1) to comingle assets of all plans under its administration, thus achieving economy of scale for more cost efficient investments, and invest those assets for the benefit of all members under its administration and 2) serve as the statewide uniform administrator for the distribution of benefits.

Under an agent multiple-employer plan each agency participating in the plan has an individual trust fund reflecting that agencies' assets and liabilities. Under this plan all

contributions are deposited to and distributions are made from that fund's assets, each fund has its own funded ratio and contribution rate, and each fund has a unique annual actuarial valuation. The Public Safety of San Luis has two trust funds, one for police employees and one for fire employees.

Council formally accepts the assets, liabilities, and current funding ratio of the Public Safety's PSPRS trust funds from the June 30, 2018 actuarial valuation, which are detailed below.

TIER 1 & 2

Trust Fund	Assets	Accrued Liability	Unfunded Actuarial Accrued Liability	Funded Ratio
San Luis Police	$ 6,313,361	$ 9,734,876	$3,421,515	64.85%
San Luis Fire	$ 5,672,764	$ 6,364,801	$ 692,037	89.13%
Public Safety of San Luis Totals	$11,986,125	$16,099,677	$4,113,552	74.45%

TIER 3

Trust Fund	Assets	Accrued Liability	Unfunded Actuarial Accrued Liability	Funded Ratio
Public Safety Totals	$3,270,698	$3,663,430	$392,732	89.29%

PSPRS Funding Goal

Pensions that are less than fully funded place the cost of service provided in earlier periods (amortization of UAAL) on the current taxpayers. Fully funded pension plans are the best way to achieve taxpayer and member intergenerational equity. Most funds in PSPRS are significantly underfunded and falling well short of the goal of intergenerational equity.

The Council's PSPRS funding ratio goal is 100% (fully funded) by June 30, 2036.
Council established this goal for the following reasons:

- The PSPRS trust funds represent only the Public Safety of San Luis's liability
- The fluctuating cost of an UAAL causes strain on the Public Safety's budget, affecting our ability to provide services
- A fully funded pension is the best way to achieve taxpayer and member intergenerational equity

Council has taken the following actions to achieve this goal:

- Maintain ARC payment from operating revenues – Council is committed to maintaining the full ARC payment (normal cost and UAAL amortization) from operating funds. The estimated combined ARC for FY20 is $493,618 and $296,814 for Police and Fire respectively, and will be able to be paid from operating funds without diminishing Public Safety services.

Based on these actions the Council plans to achieve its goal of 100% funding by June 30, 2036, in accordance with the amortization timeline set forth by the PSPRS June 30, 2018 Actuarial Valuation.

ITEM:

Discussion and possible action on any and all matters regarding authorization for employee COLA adjustment for FY 2020. **(Monica Castro, Director of Finance)**

SUMMARY:

Due to the uncertainty faced this year with COVID-19, the budget for FY 2020-21 did not include the third phase adjustment of the salary adjustment. This third adjustment would have made it possible to bring the majority of employees to 100% of the market. Currently, employees are above 90%, but many of them are below 100%.

In addition, this year our employees are facing many challenges, and life has changed from how we know it. Social distancing and the increase in numbers of COVID-19 cases have called for the cancellation of our annual recognition event; additionally, this pandemic has caused financial hardships to many of our employees. Many of them have faced unexpected medical bills, among other issues.

We are recommending for employees to be paid out a COLA adjustment of $650.00 for FT employees and $300.00 for PT employees, in order to provide some relief to our employees during these difficult times.

RECOMMENDATION / SUGGESTED MOTION:

I MOVE TO APPROVE THE COLA ADJUSTMENT AS PRESENTED.

WHEREAS, the statewide ballot measure I-23-2020, known as "Smart and Safe Arizona Act" has been certified as Proposition 207 and placed on the November 3, 2020 general election ballot and contains provisions authorizing the possession, consumption, purchase, processing, manufacturing or transporting of marijuana by an individual who is at least twenty-one (21) years of age; authorizing possession, transport, cultivation or processing of marijuana plants in a primary residence by adults over 21 years or older; allowing a nonprofit medical marijuana dispensary or other non-dispensary applicants to apply to the Department of Health Services to become a licensed marijuana establishment authorized to engage in the retail sale,

RE: PROPOSITION 207 – LEGALIZATION OF MARIJUANA INITIATIVE

==========

On the November 3, 2020, ballot is Proposition 207, which seeks to legalize possession of small amounts of marijuana in Arizona. A copy of the initiative is attached to this memorandum. The highlights of the bill are:

1. Adults 21 and older would be able to possess 1 ounce of marijuana with no more than 5 grams of it being marijuana concentrates (extracts).

2. Limits home cultivation to 6 plants at an individual's primary residence and 12 plants at a residence where two or more individuals who are at least 21 years old reside at one time.

3. The Arizona Department of Health Services ("ADHS") would have to establish recreational marijuana regulations on or before April 5, 2021.

4. A 16% excise tax (the same as cigarettes and alcohol) would be placed on recreational marijuana products. Money from the excise tax would fund various state agencies and be dispersed between community college districts, police departments, fire departments and the Highway User fund.

5. Marijuana use would remain illegal in public places (restaurants, parks, sidewalks, etc.). Offenders are guilty of a petty offense.

6. No marijuana products could be sold that imitate brands marketed to children or look like humans, animals, insects, fruits, toys, or cartoons.

7. Marijuana edibles will be limited to a maximum of 10mg of THC per edible and limited to a maximum of 100mg of THC per package of edibles.

8. Employers have the right to maintain a drug- and alcohol-free workplace.

9. Driving, flying, or boating impaired to even the slightest degree by marijuana would remain illegal (i.e., zero-tolerance rule).

10. Marijuana testing facilities will test marijuana for harmful contaminants (i.e., pesticides, molds, etc.).

11. "Qualified early applicants" (qualifications are currently undetermined) can apply for a recreational dispensary license (approx. 145 licenses will be available) with the ADHS. Any remaining or additional licenses will be provided by random selection.

12. The ADHS may issue a marijuana establishment license (recreational marijuana dispensary license) to no more than two recreational dispensaries per county that contains no medical marijuana dispensaries, or one recreational dispensary license per county that contains one medical marijuana dispensary (the ADHS will accept applications from January 19, 2021 – March 9, 2021).

13. On or before April 5, 2021, medical marijuana dispensaries will be able to sell recreational marijuana to adults until the ADHS issues licenses for recreational dispensaries.

14. Medical marijuana dispensaries that obtain a recreational marijuana dispensary license(s) could operate both entities in the same and or shared location.

15. Possession Offenses:

(a) Possessing more than one ounce but less than 2.5 ounces would be a petty offense.

(b) Minors caught with less than one ounce would receive up to a $100 fine and four hours of drug counseling for a first offense.

(c) Escalating penalties:

(i) A second offense would be up to a $100 fine and eight hours of drug counseling.

(ii) A third offense would be a Class 1 misdemeanor.

16. Smoking in a public place would be a petty offense.

17. On or after January 1, 2023, the ADHS can adopt rules to permit recreational marijuana deliveries.

18. Beginning on July 12, 2021, people convicted previously of possessing less than an ounce of marijuana or six or fewer plants or paraphernalia can petition to have the record expunged.

Licensing Businesses

With respect to the number of available licenses to sell recreational marijuana, the proposed §36-2854 puts an upper limit on the number of available licenses in the state to no more than one for every ten licensed pharmacies in Arizona, which puts the estimated number at about 145. In addition, there would be two licenses available for every county that does not have medical marijuana in the county and one license for counties with medical marijuana. Provisions are made for a program for 26 additional licenses for a "social equity ownership program." Whether any of these licensed facilities would desire to establish a business in San Luis is unknown. The provisions in the law for medical marijuana remain unchanged. Proposition 207 adds new and additional provisions.

Provisions Key to San Luis

For the City of San Luis, the key provisions are to be found at §36-2857. While other parts of the law will have impacts, this is the major section that impacts the city. (Other parts of the law, for example, impact the city's ability to collect sales tax in the same manner as the sales tax would apply to any other retail sale and impact the police department's ability to enforce current laws regarding sale, possession, and cultivation of marijuana)

The key Section 36-2857provides:

Localities; marijuana establishments and marijuana testing facilities

A. A LOCALITY MAY:

1. *Enact reasonable zoning regulations that limit the use of land for marijuana establishments and marijuana testing facilities to specified areas.*

2. *Limit the number of marijuana establishments or marijuana testing facilities, or both. 3. prohibit marijuana establishments or marijuana testing facilities, or both.*

3. *Regulate the time, place and manner of marijuana establishment and marijuana testing facility operations.*

4. *Establish reasonable restrictions on public signage regarding marijuana, marijuana establishments and marijuana testing facilities.*

5. *Prohibit or restrict delivery within its jurisdiction.*

B. A COUNTY MAY EXERCISE ITS AUTHORITY PURSUANT TO SUBSECTION A OF THIS SECTION ONLY IN UNINCORPORATED AREAS OF THE COUNTY.

C. A LOCALITY MAY NOT ENACT ANY ORDINANCE, REGULATION OR RULE THAT:

1. Is more restrictive than a comparable ordinance, regulation or rule that applies to nonprofit medical marijuana dispensaries.

2. Makes the operation of a marijuana establishment or marijuana testing facility unduly burdensome if the locality has not prohibited marijuana establishments or marijuana testing facilities.

3. Conflicts with this chapter or rules adopted pursuant to this chapter.

4. Prohibits the transportation of marijuana by a marijuana establishment or marijuana testing facility on public roads.

6. Restricts or interferes with the ability of a dual licensee or an entity eligible to become a dual licensee to operate a nonprofit medical marijuana dispensary and a marijuana establishment cooperatively at shared locations.

7. Except as expressly authorized by this section or section 36-2851, prohibits or restricts any conduct or transaction allowed by this chapter, or imposes any liability or penalty in addition to that prescribed by this chapter for any conduct or transaction constituting a violation of this chapter.

Despite the above language, there is another section which, on the surface, appears to contradict what a local government can do. ARS §36-2857(A)(3) provides:

"A locality may…prohibit marijuana establishments and marijuana testing facilities or both."

However, ARS §36-2857(C)(1) states:

"A locality may not enact any ordinance, regulation or rule that is more restrictive than a comparable ordinance, regulation or rule that applies to nonprofit medical marijuana dispensaries."

We cannot outright ban medical marijuana dispensaries, so how can we totally ban marijuana establishments and marijuana testing facilities or both? Right now, it is unclear as to what the eventual outcome will be. The working group at the City

Attorneys Association is comfortable with the provisions in the Model Ordinance. An observation by one member, Andrew Miller of Paradise Valley, is that the safest course of action is to regulate in the zoning code and treat these establishments the same way as medical marijuana.

Basically, there are two types of uses in Proposition 207.

(1) The first is a '**marijuana establishment**,' which sells and cultivates marijuana and produces marijuana products. A license for such an establishment would allow the license holder to do all three things.

(2) The second is where the retail sales occur. The second is a '**marijuana testing facility**,' which is a place where marijuana is tested for potency and to determine if contaminants are present. Cultivation and production are uses that can be separated from the location where retail sales occur.

So, in the end, there are four distinct types of operations: 1) sales, 2) cultivation, 3) production; 4) testing.

As stated above, §36-2857 would, if one is not impacting existing medical marijuana provisions, appear to allow San Luis to ban the new establishments. San Luis would be allowed to permit them but limit the number in the city. San Luis would be allowed to pick which facilities it liked and ban the ones it did not. The new law allows the retail sales facilities to do home delivery – sort of like Domino's pizza delivery. Proposition 207 imposes a statewide ban on delivery until the state adopts regulatory rules. The law has sections that appear to allow San Luis to impose restrictions upon or outright ban home delivery. However, there are also sections which appear to contradict the ability to do a total ban forever. Once again, Proposition 207 is a bit unclear.

Proposition 207 specifically provides at §36-2851 that San Luis, as an employer, has the right to maintain a drug-free workplace. Hence, our current rules regarding marijuana in the workplace remain intact and unaffected.

Attached as an additional exhibit is a proposed model ordinance coming from the League of Arizona Cities and Towns. This ordinance gives the following general options:

- Option A. Prohibiting marijuana establishments and testing facilities.
- Option B. Prohibiting marijuana establishments and testing facilities except for dual license facilities (medical marijuana and recreational marijuana at the same place.)

- Option C. Prohibits marijuana establishments but allows testing facilities. (Sub-option permits dual operations only and allowing testing facilities.)

- Option D. Permits marijuana establishments but prohibits testing facilities.

If the City Council decides it wants to allow either marijuana establishments or testing facilities or both, it can still regulate them. The model ordinance gives examples of those regulations one might want to consider. If simply prohibiting these uses, then there is no need for further regulation.

An area to also consider is home delivery and whether to prohibit or restrict it. This is another area of contradictory provisions in Proposition 207. There is a statewide ban on delivery services until the state adopts regulations, so there is time to regulate. But this is an area one needs to be concerned about.

Remember, this law does not impact medical marijuana facilities or our existing regulations. So far, to date, while some have attempted to get a medical marijuana license from the state to operate in San Luis, no one has been able to get such a license, and, as a result, there is no dispensary here.

Under the medical marijuana law, folks who qualify for medical marijuana can grow up to 12 plants in their homes if no dispensary is located within a certain distance. As that distance is exceeded in San Luis, those who qualify for medical marijuana can grow their own. Current restrictions limit growing to the indoors. Under Proposition 207, any adult can grow up to 6 plants, and two adults at the same residence can grow up to a total of 12 plants. Again, this is limited to indoors or rural areas where one must use binoculars to see the plants.

Undoubtedly the Police Department and the Planning and Zoning Department will have recommendations to make to City Council. If there are any questions, please do not hesitate to ask.

SUMMARY:

Background

In April of 2012, the City of San Luis passed Ordinance No. 312 regulating medical marijuana in the zoning code in response to state law on medical marijuana. It provides for the regulation of medical marijuana dispensaries and medical marijuana off-site cultivation locations;

On November 3, 2020, the voters of Arizona approved a 17-page initiative, Proposition 207, relating to the adult-use, regulation, and taxation of recreational marijuana. On November 30, 2020, it went into effect when the Governor issued the Proclamation certifying the vote. However, THC contained in marijuana remains a Schedule I Controlled Substance under federal law. Proposition 207 contains provisions authorizing the possession, consumption, purchase, processing, manufacturing, or transporting of marijuana by an individual who is at least twenty-one (21) years of age; authorizing the possession, transport, cultivation, or processing of marijuana plants in a primary residence by adults over 21 years or older; allowing a nonprofit medical marijuana dispensary or other non-dispensary applicants to apply to the Department of Health Services to become a licensed marijuana establishment authorized to engage in the retail sale, cultivation and manufacturing of marijuana; and allowing the Department, or another entity designated by the Department, to become a marijuana testing facility to test the potency of marijuana and detect any harmful contaminants. Proposition 207 authorizes marijuana establishments to use chemical extraction or chemical synthesis, including butane and other flammable gases, to extract marijuana concentrate, which poses a threat to the health, safety, and security of the community and increases the responsibilities of law enforcement and other City departments to respond to violations of state and local laws, including building, electrical and fire codes.

The purpose of this text amendment is to enact reasonable zoning regulations to limit the number of marijuana establishments and prohibit marijuana testing facilities in the City.

Citizen Review

As required by State Statute and the City Code, a Citizen Review Meeting was held on December 1, 2020, at 6:00 P.M., do to the pandemic, this meeting was conducted via teleconference. Notice of the

meeting was published in the local newspaper and the public was able to connect to the meeting or send out questions or comments via email before the meeting. The intent of this meeting was to allow the public to learn about the text amendment, ask questions and/or express any comments or concerns. There were no people from the public connected to the teleconference neither did the City received any comments or questions prior to the meeting.

Summary
A "Marijuana Establishment" means

A. an entity licensed by the Department to operate all of the following:

1. A single retail location where the licensee may sell marijuana and marijuana products to consumers, cultivate marijuana, and manufacture marijuana products.
2. A single off-site cultivation location at which the licensee may cultivate marijuana, process marijuana, and manufacture marijuana products, but from which marijuana and marijuana products may not be transferred or sold to consumers.
3. A single off-site location at which the licensee may manufacture marijuana products and package and store marijuana and marijuana products, but from which marijuana and marijuana products may not be transferred or sold to consumers.

(Note: Department means the Arizona Department of Health Services.)

The text amendment prohibits Marijuana Establishments except for a dual licensee who operates both a nonprofit medical marijuana dispensary and marijuana establishment cooperatively in a shared location and has not forfeited or terminated the nonprofit medical marijuana dispensary registration from the Department.

The safety provisions of the text amendment provide that cultivation, extraction, manufacturing, or processing by a marijuana establishment, medical marijuana dispensary, or dual licensee shall only occur in compliance with the regulations of all of the most current building and fire codes as adopted by Chapter 150 of the City Code. The operation of a marijuana testing facility is prohibited in the city.

RE: PROPOSITION 207 – LEGALIZATION OF MARIJUANA INITIATIVE

==========

On the November 3, 2020, ballot is Proposition 207, which seeks to legalize possession of small amounts of marijuana in Arizona. A copy of the initiative is attached to this memorandum. The highlights of the bill are:

1. Adults 21 and older would be able to possess 1 ounce of marijuana with no more than 5 grams of it being marijuana concentrates (extracts).

2. Limits home cultivation to 6 plants at an individual's primary residence and 12 plants at a residence where two or more individuals who are at least 21 years old reside at one time.

3. The Arizona Department of Health Services ("ADHS") would have to establish recreational marijuana regulations on or before April 5, 2021.

4. A 16% excise tax (the same as cigarettes and alcohol) would be placed on recreational marijuana products. Money from the excise tax would fund various state agencies and be dispersed between community college districts, police departments, fire departments and the Highway User fund.

5. Marijuana use would remain illegal in public places (restaurants, parks, sidewalks, etc.). Offenders are guilty of a petty offense.

6. No marijuana products could be sold that imitate brands marketed to children or look like humans, animals, insects, fruits, toys, or cartoons.

7. Marijuana edibles will be limited to a maximum of 10mg of THC per edible and limited to a maximum of 100mg of THC per package of edibles.

8. Employers have the right to maintain a drug- and alcohol-free workplace.

9. Driving, flying, or boating impaired to even the slightest degree by marijuana would remain illegal (i.e., zero-tolerance rule).

10. Marijuana testing facilities will test marijuana for harmful contaminants (i.e., pesticides, molds, etc.).

11. "Qualified early applicants" (qualifications are currently undetermined) can apply for a recreational dispensary license (approx. 145 licenses will be available) with the ADHS. Any remaining or additional licenses will be provided by random selection.

12. The ADHS may issue a marijuana establishment license (recreational marijuana dispensary license) to no more than two recreational dispensaries per county that contains no medical marijuana dispensaries, or one recreational dispensary license per county that contains one medical marijuana dispensary (the ADHS will accept applications from January 19, 2021 – March 9, 2021).

13. On or before April 5, 2021, medical marijuana dispensaries will be able to sell recreational marijuana to adults until the ADHS issues licenses for recreational dispensaries.

14. Medical marijuana dispensaries that obtain a recreational marijuana dispensary license(s) could operate both entities in the same and or shared location.

15. Possession Offenses:

(a) Possessing more than one ounce but less than 2.5 ounces would be a petty offense.

(b) Minors caught with less than one ounce would receive up to a $100 fine and four hours of drug counseling for a first offense.

(c) Escalating penalties:

(i) A second offense would be up to a $100 fine and eight hours of drug counseling.

(ii) A third offense would be a Class 1 misdemeanor.

16. Smoking in a public place would be a petty offense.

17. On or after January 1, 2023, the ADHS can adopt rules to permit recreational marijuana deliveries.

18. Beginning on July 12, 2021, people convicted previously of possessing less than an ounce of marijuana or six or fewer plants or paraphernalia can petition to have the record expunged.

Licensing Businesses

With respect to the number of available licenses to sell recreational marijuana, the proposed §36-2854 puts an upper limit on the number of available licenses in the state to no more than one for every ten licensed pharmacies in Arizona, which puts the estimated number at about 145. In addition, there would be two licenses available for every county that does not have medical marijuana in the county and one license for counties with medical marijuana. Provisions are made for a program for 26 additional licenses for a "social equity ownership program." Whether any of these licensed facilities would desire to establish a business in San Luis is unknown. The provisions in the law for medical marijuana remain unchanged. Proposition 207 adds new and additional provisions.

Provisions Key to San Luis

For the City of San Luis, the key provisions are to be found at §36-2857. While other parts of the law will have impacts, this is the major section that impacts the city. (Other parts of the law, for example, impact the city's ability to collect sales tax in the same manner as the sales tax would apply to any other retail sale and impact the police department's ability to enforce current laws regarding sale, possession, and cultivation of marijuana)

The key Section 36-2857provides:

Localities; marijuana establishments and marijuana testing facilities

A. A LOCALITY MAY:

1. *Enact reasonable zoning regulations that limit the use of land for marijuana establishments and marijuana testing facilities to specified areas.*

2. *Limit the number of marijuana establishments or marijuana testing facilities, or both. 3. prohibit marijuana establishments or marijuana testing facilities, or both.*

3. *Regulate the time, place and manner of marijuana establishment and marijuana testing facility operations.*

4. *Establish reasonable restrictions on public signage regarding marijuana, marijuana establishments and marijuana testing facilities.*

5. *Prohibit or restrict delivery within its jurisdiction.*

B. A COUNTY MAY EXERCISE ITS AUTHORITY PURSUANT TO SUBSECTION A OF THIS SECTION ONLY IN UNINCORPORATED AREAS OF THE COUNTY.

C. A LOCALITY MAY NOT ENACT ANY ORDINANCE, REGULATION OR RULE THAT:

1. Is more restrictive than a comparable ordinance, regulation or rule that applies to nonprofit medical marijuana dispensaries.

2. Makes the operation of a marijuana establishment or marijuana testing facility unduly burdensome if the locality has not prohibited marijuana establishments or marijuana testing facilities.

3. Conflicts with this chapter or rules adopted pursuant to this chapter.

4. Prohibits the transportation of marijuana by a marijuana establishment or marijuana testing facility on public roads.

6. Restricts or interferes with the ability of a dual licensee or an entity eligible to become a dual licensee to operate a nonprofit medical marijuana dispensary and a marijuana establishment cooperatively at shared locations.

7. Except as expressly authorized by this section or section 36-2851, prohibits or restricts any conduct or transaction allowed by this chapter, or imposes any liability or penalty in addition to that prescribed by this chapter for any conduct or transaction constituting a violation of this chapter.

Despite the above language, there is another section which, on the surface, appears to contradict what a local government can do. ARS §36-2857(A)(3) provides:

"A locality may…prohibit marijuana establishments and marijuana testing facilities or both."

However, ARS §36-2857(C)(1) states:

"A locality may not enact any ordinance, regulation or rule that is more restrictive than a comparable ordinance, regulation or rule that applies to nonprofit medical marijuana dispensaries."

We cannot outright ban medical marijuana dispensaries, so how can we totally ban marijuana establishments and marijuana testing facilities or both? Right now, it is unclear as to what the eventual outcome will be. The working group at the City

Attorneys Association is comfortable with the provisions in the Model Ordinance. An observation by one member, Andrew Miller of Paradise Valley, is that the safest course of action is to regulate in the zoning code and treat these establishments the same way as medical marijuana.

Basically, there are two types of uses in Proposition 207.

(1) The first is a '**marijuana establishment**,' which sells and cultivates marijuana and produces marijuana products. A license for such an establishment would allow the license holder to do all three things.

(2) The second is where the retail sales occur. The second is a '**marijuana testing facility**,' which is a place where marijuana is tested for potency and to determine if contaminants are present. Cultivation and production are uses that can be separated from the location where retail sales occur.

So, in the end, there are four distinct types of operations: 1) sales, 2) cultivation, 3) production; 4) testing.

As stated above, §36-2857 would, if one is not impacting existing medical marijuana provisions, appear to allow San Luis to ban the new establishments. San Luis would be allowed to permit them but limit the number in the city. San Luis would be allowed to pick which facilities it liked and ban the ones it did not. The new law allows the retail sales facilities to do home delivery – sort of like Domino's pizza delivery. Proposition 207 imposes a statewide ban on delivery until the state adopts regulatory rules. The law has sections that appear to allow San Luis to impose restrictions upon or outright ban home delivery. However, there are also sections which appear to contradict the ability to do a total ban forever. Once again, Proposition 207 is a bit unclear.

Proposition 207 specifically provides at §36-2851 that San Luis, as an employer, has the right to maintain a drug-free workplace. Hence, our current rules regarding marijuana in the workplace remain intact and unaffected.

Attached as an additional exhibit is a proposed model ordinance coming from the League of Arizona Cities and Towns. This ordinance gives the following general options:

- Option A. Prohibiting marijuana establishments and testing facilities.
- Option B. Prohibiting marijuana establishments and testing facilities except for dual license facilities (medical marijuana and recreational marijuana at the same place.)

- Option C. Prohibits marijuana establishments but allows testing facilities. (Sub-option permits dual operations only and allowing testing facilities.)

- Option D. Permits marijuana establishments but prohibits testing facilities.

If the City Council decides it wants to allow either marijuana establishments or testing facilities or both, it can still regulate them. The model ordinance gives examples of those regulations one might want to consider. If simply prohibiting these uses, then there is no need for further regulation.

An area to also consider is home delivery and whether to prohibit or restrict it. This is another area of contradictory provisions in Proposition 207. There is a statewide ban on delivery services until the state adopts regulations, so there is time to regulate. But this is an area one needs to be concerned about.

Remember, this law does not impact medical marijuana facilities or our existing regulations. So far, to date, while some have attempted to get a medical marijuana license from the state to operate in San Luis, no one has been able to get such a license, and, as a result, there is no dispensary here.

Under the medical marijuana law, folks who qualify for medical marijuana can grow up to 12 plants in their homes if no dispensary is located within a certain distance. As that distance is exceeded in San Luis, those who qualify for medical marijuana can grow their own. Current restrictions limit growing to the indoors. Under Proposition 207, any adult can grow up to 6 plants, and two adults at the same residence can grow up to a total of 12 plants. Again, this is limited to indoors or rural areas where one must use binoculars to see the plants.

Undoubtedly the Police Department and the Planning and Zoning Department will have recommendations to make to City Council. If there are any questions, please do not hesitate to ask.

ITEM:

Discussion and possible action on any and all matters regarding Order No. 2020-19. An order of the Mayor and City Council of the City of San Luis, Arizona, authorizing and directing the entering into the "One Arizona Opioid Settlement Memorandum of Understanding" regarding a plan to allocate potential global settlement funds from the class action titled "In Re National Prescription Opiate Litigation." **(Kay Marion Macuil, City Attorney)**

SUMMARY:

The "One Arizona Opioid Settlement Memorandum" ("MOU") is a ***plan,*** not a settlement of the class action titled "In Re National Prescription Opiate Litigation" ("Class Action"). The MOU plans to allocate funds from a ***potential*** global settlement of the Class Action and other litigation outside the class action. It uses the model allocation devised by the Negotiation Class Counsel in the Class Action, which allocates to the local governments their proportionate share of the impact of the opioid crisis based on data reported to the Federal Government. The allocation model does ***not*** use population.

Four (4) of the thirteen (13) pharmaceutical supply chain defendants have expressed an interest in a global settlement. However, as conditions to settle, they require that the 50 states and the District of Columbia be included in a global settlement, not just the nation-wide counties, cities, and towns in the Class Action. The defendants also require 100% participation for a maximum dollar pay-out.

Joining the MOU does not bind the City of San Luis to any particular Class Action outcome. Staff recommends adoption of the MOU.

Next Steps

If the decision is to join in the plan, the signed MOU is due to the Arizona Attorney General by Tuesday, December 15, 2020.

ONE ARIZONA OPIOID SETTLEMENT MEMORANDUM OF UNDERSTANDING

General Principles

- The people of the State of Arizona and Arizona communities have been harmed by the opioid epidemic, which was caused by entities within the Pharmaceutical Supply Chain.
- The State of Arizona, *ex rel.* Mark Brnovich, Attorney General (the "State"), and certain Participating Local Governments are separately engaged in litigation seeking to hold the Pharmaceutical Supply Chain Participants accountable for the damage they caused.
- The State and the Participating Local Governments share a common desire to abate and alleviate the impacts of the Pharmaceutical Supply Chain Participants' misconduct throughout the State of Arizona.
- The State and the Participating Local Governments enter into this One Arizona Opioid Settlement Memorandum of Understanding ("MOU") to jointly approach Settlement negotiations with the Pharmaceutical Supply Chain Participants.
- This MOU has been drafted collaboratively to maintain the Parties' existing or potential legal claims (to the extent legally cognizable) while allowing the Parties to cooperate in exploring all possible means of resolution.
- Nothing in this MOU binds the Parties to a specific outcome. Any resolution under this MOU will require a subsequent acceptance by the State and the Participating Local Governments of a final opioid Settlement plan.
- Nothing in this MOU should alter or change the right of the State or any Participating Local Government to pursue its own claim. The intent of this MOU is to join the Parties to seek a Settlement or Settlements with one or more Pharmaceutical Supply Chain Participants.

A. Definitions

As used in this MOU:

1. "Approved Purpose(s)" shall mean those uses identified in the agreed Opioid Abatement Strategies attached as Exhibit A.
2. "Litigation" means existing or potential legal claims against Pharmaceutical Supply Chain Participants seeking to hold them accountable for the damage caused by their misfeasance, nonfeasance, and malfeasance relating to the unlawful manufacture, marketing, promotion, distribution, or dispensing of prescription opioids.

3. "Opioid Funds" shall mean monetary amounts obtained through a Settlement as defined in this MOU.

4. "Participating Local Government(s)" shall mean all counties, cities, and towns within the geographic boundaries of the State that have chosen to sign on to this MOU. The Participating Local Governments may be referred to separately in this MOU as "Participating Counties" and "Participating Cities and Towns" (or "Participating Cities or Towns," as appropriate).

5. "Parties" shall mean the State and the Participating Local Governments.

6. "Pharmaceutical Supply Chain" shall mean the process and channels through which licit opioids are manufactured, marketed, promoted, distributed, or dispensed.

7. "Pharmaceutical Supply Chain Participant" shall mean any entity that engages in or has engaged in the manufacture, marketing, promotion, distribution, or dispensing of licit opioids.

8. "Settlement" shall mean the negotiated resolution of legal or equitable claims against a Pharmaceutical Supply Chain Participant when that resolution has been jointly entered into by the State and the Participating Local Governments.

9. "Trustee" shall mean an independent trustee who shall be responsible for the ministerial task of releasing the Opioid Funds that are in trust as authorized herein and accounting for all payments into or out of the trust.

B. Intrastate Regions

1. The State of Arizona will be divided into regions, each of which will be referred to as a "Region" and will consist of: (1)a single Participating County and all of its Participating Cities and Towns; or (2) all of the Participating Cities and Towns within a non-Participating County. If there is only one Participating City or Town within a non-Participating County, that single Participating City or Town will still constitute a Region. Two or more Regions may at their discretion form a group ("Multicounty Region"). Regions that do not choose to form a Multicounty Region will be their own Region. Participating Cities and Towns within a non-Participating County may not form a Region with Participating Cities and Towns in another county.

2. The LG Share funds described in Section C(1) will be distributed to each Region according to the percentages set forth in Exhibit B. The Regional allocation model uses three equally weighted factors: (1) the amount of opioids shipped to the Region; (2) the number of opioid deaths that occurred in that Region; and (3) the number of people who suffer opioid use disorder in that Region. In the event any county does not participate in this MOU, that county's percentage share shall be reallocated proportionally amongst the Participating Counties by applying this same methodology to only the Participating Counties.

3. In single-county Regions, that county's health department will serve as the lead agency responsible for distributing the LG Share funds. That health department, acting as the

lead agency, shall consult with the cities and towns in the county regarding distribution of the LG Share funds.

4. For each Multicounty Region, an advisory council shall be formed from the Participating Local Governments in the Multicounty Region to distribute the collective LG Share funds. Each advisory council shall include at least three Participating Local Government representatives, not all of whom may reside in the same county. Each advisory council shall consult with the Participating Local Governments in the Multicounty Region regarding distribution of the collective LG Share funds.

5. For each Region consisting of the Participating Cities and Towns within a non-Participating County, an advisory council shall be formed from the Participating Cities and Towns in the Region to distribute the LG Share funds. Each advisory council shall include at least three representatives from the Participating Cities and Towns in the Region, or a representative from each Participating City and Town if the Region consists of fewer than three Participating Cities and Towns. In no event may more than one individual represent the same city or town. To the extent any Participating Cities or Towns in the Region are not represented on the advisory council, the advisory council shall consult with the non-represented Participating Cities and Towns regarding distribution of the collective LG Share funds.

C. Allocation of Settlement Proceeds

1. All Opioid Funds shall be divided with 44% to the State ("State Share") and 56% to the Participating Local Governments ("LG Share").[1]
2. All Opioid Funds, regardless of allocation, shall be utilized in a manner consistent with the Approved Purposes definition, as ultimately memorialized in a Settlement that becomes an order of the court. Compliance with this requirement shall be verified through reporting, as set out in Section F.
3. The LG Share will be distributed to each Region as set forth in Section B(2). Participating Counties and their constituent Participating Cities and Towns may distribute the funds allocated to the Region amongst themselves in any manner they choose. If the county and its cities and towns cannot agree on how to allocate the funds, Exhibit C reflects a default allocation that will apply. The default allocation formula uses historical federal data showing how the specific county and the cities and towns within it have made opioids-related expenditures in the past. If the county or any cities or towns within a Region do not sign on to this MOU and subsequent Settlement, and if the Participating Local Governments in the Region cannot agree on how to allocate the funds amongst themselves, they shall reallocate the funds proportionally amongst themselves by applying this same methodology to only the Participating Local Governments in the Region.

[1] This MOU assumes that any opioid settlement for Native American Tribes and Third-Party Payors, including municipal insurance pools, will be dealt with separately.

4. If the LG Share for a given Participating Local Government is less than $500, then that amount will instead be distributed to the county in which the Participating Local Government is located to allow practical application of the abatement remedy. If the county did not sign on to the Settlement as defined herein, the funds will be reallocated to the State Share.
5. The State Share shall be paid by check or wire transfer directly to the State through the Trustee, who shall hold the funds in trust in a Qualified Settlement Fund (QSF) for the benefit of the State to be promptly distributed as set forth in C(1) herein. The LG Share shall be paid by check or wire transfer directly to the Participating Local Governments through the Trustee, who shall hold the funds in trust in a QSF for the benefit of the Participating Local Governments to be promptly distributed as set forth in B(2), C(1), C(3), and C(4) herein.
6. The State Share shall be used only for (1) Approved Purposes within the State or (2) grants to organizations for Approved Purposes within the State.
7. The LG Share shall be used only for (1) Approved Purposes by Participating Local Governments within a Region or Multicounty Region or (2) grants to organizations for Approved Purposes within a Region or Multicounty Region.
8. The State will endeavor to prioritize up to 30% of the State Share for: opioid education and advertising related to awareness, addiction, or treatment; Department of Corrections and related prison and jail opioid uses, and opioid interdiction and abatement on Arizona's southern border, including grants to assist with the building, remodeling and/or operation of centers for treatment, drug testing, medication-assisted treatment services, probation, job training, and/or counseling services, among other programs.

D. Participation of Cities and Towns

1. By virtue of signing on to the MOU and Settlement, each Participating County will receive 60% of its available LG Share. The Participating County will receive up to an additional 40% of its available LG Share by securing the participation of its constituent cities and towns as signatories to this MOU and the Settlement. The sliding scale attached as Exhibit D will determine the share of funds available to the Participating County.

2. If a Participating County does not achieve 100% participation of its cities and towns within the period of time required in a Settlement document for subdivision participation, the remaining portions of the LG Share that were otherwise available to the Participating County will be reallocated to (i) the State Share and (ii) the LG Share for the Participating Counties which have achieved 100% participation of their cities and towns in accordance with the percentages described in Sections B(2), C(1), and C(3), and set forth in Exhibits B and C.

E. Payment of Counsel and Litigation Expenses

1. The Parties anticipate that any national Settlement will provide for the payment of all or a portion of the fees and litigation expenses of certain state and local governments.

2. If the court in *In Re: National Prescription Opiate Litigation*, MDL No. 2804 (N.D. Ohio) or if a national Settlement establishes a common benefit fund or similar device to compensate attorneys for services rendered and expenses incurred that have benefited plaintiffs generally in the litigation (the "Common Benefit Fund"), and requires certain governmental plaintiffs to pay a share of their recoveries from defendants into the Common Benefit Fund as a "tax," then the Participating Local Governments shall first seek to have the settling defendants pay the "tax." If the settling defendants do not agree to pay the "tax," then the "tax" shall be paid from the LG Share prior to allocation and distribution of funds to the Participating Local Governments.[2]

3. Any governmental entity that seeks attorneys' fees and expenses from the Litigation shall seek those fees and expenses first from the national Settlement. In addition, the Parties agree that the Participating Local Governments will create a supplemental attorney's fees and costs fund (the "Backstop Fund").

4. The Backstop Fund is to be used to compensate counsel for Participating Local Governments that filed opioid lawsuits by September 1, 2020 ("Litigating Participating Local Governments"). Payments out of the Backstop Fund shall be determined by a committee consisting of one representative from each of the Litigating Participating Local Governments (the "Opioid Fee and Expense Committee").

5. The Backstop Fund shall be funded as follows: From any national Settlement, the funds to be deposited in the Backstop Fund shall be 14.25% of the LG Share of each payment (annual or otherwise) to the State of Arizona for that Settlement. No portion of the State Share shall be used for the Backstop Fund or in any other way to fund any Participating Local Government's attorney's fees and costs.

6. The maximum percentage of any contingency fee agreement permitted for compensation shall be 25% of the portion of the LG Share attributable to the Litigating Participating Local Government that is a party to the contingency fee agreement, plus expenses attributable to that Litigating Participating Local Government. Under no circumstances may counsel collect more for its work on behalf of a Litigating Participating Local Government than it would under its contingency agreement with that Litigating Participating Local Government.

7. Any funds remaining in the Backstop Fund in excess of the amounts needed to cover private counsels' representation agreements shall revert to the Participating Local Governments according to the percentages set forth in Exhibits B and C, to be used for Approved Purposes as set forth herein and in Exhibit A.

[2] This paragraph shall not apply to any Settlement with distributors McKesson, Amerisource Bergen, and Cardinal Health or manufacturer Johnson & Johnson.

F. Compliance Reporting and Accountability

1. The Trustee shall provide an up-to-date accounting of payments into or out of the trust and/or its subaccounts upon written request of the State or a Participating Local Government.

2. The State, Regions, and Participating Local Governments may object to an allocation or expenditure of Opioid Funds solely on the basis that the allocation or expenditure at issue (1) is inconsistent with provision C(1) hereof with respect to the amount of the State Share or LG Share; (2) is inconsistent with an agreed-upon allocation, or the default allocations in Exhibits B and C, as contemplated by Section C(3); or (3) violates the limitations set forth in F(3) with respect to compensation of the Trustee. The objector shall have the right to bring that objection within two years of the date of its discovery to a superior court in Maricopa County, Arizona.

3. Out of the Opioid Funds, reasonable expenses up to 0.005% shall be paid to the Trustee.

4. The Parties shall maintain, for a period of at least five years, records of abatement expenditures and documents underlying those expenditures, so that it can be verified that funds are being or have been utilized in a manner consistent with the Approved Purposes definition.

5. At least annually, each Region or Multicounty Region shall provide to the State a report detailing for the preceding time period (1) the amount of the LG Share received by each Participating Local Government within the Region or Multicounty Region, (2) the allocation of any awards approved (listing the recipient, the amount awarded, the program to be funded, and disbursement terms), and (3) the amounts disbursed on approved allocations. In order to facilitate this reporting, each Participating Local Government within a Region or Multicounty Region shall provide information necessary to meet these reporting obligations to a delegate(s) selected by the Region or Multicounty Region to provide its annual report to the State.

6. At least annually, the State shall publish on its website a report detailing for the preceding time period (1) the amount of the State Share received, (2) the allocation of any awards approved (listing the recipient, the amount awarded, the program to be funded, and disbursement terms), and (3) the amounts disbursed on approved allocations. In addition, the State shall publish on its website the reports described in F(5) above.

7. 2. The State and the Participating Local Governments further agree to keep each other reasonably informed of all other global settlement negotiations with Pharmaceutical Supply Chain Participants. Neither this provision, nor any other, shall be construed to state or imply that either the State or the Participating Local Governments (collectively, the "Arizona Parties") are unauthorized to engage in settlement negotiations with Pharmaceutical Supply Chain Participants without prior consent or contemporaneous participation of the other, or that either party is entitled to participate as an active or direct participant in settlement negotiations with the other. Rather, while the State's and the Participating Local Government's efforts to achieve worthwhile settlements are to be collaborative, incremental stages need not be so.

3. The State or any Participating Local Government may withdraw from coordinated Settlement discussions detailed in this Section upon 10 business days' written notice to the other Arizona Parties and counsel for any affected Pharmaceutical Supply Chain

Participant. The withdrawal of any Arizona Party releases the remaining Arizona Parties from the restrictions and obligations in this Section.

4. The obligations in this Section shall not affect any Party's right to proceed with trial or, within 30 days of the date upon which a trial involving that Party's claims against a specific Pharmaceutical Supply Chain Participant is scheduled to begin, reach a case-specific resolution with that particular Pharmaceutical Supply Chain Participant.

CLASS COUNSEL MEMORANDUM:
HOW THE ALLOCATION MODEL WORKS

The allocation model for the Negotiation Class addresses how settlement funds intended for local governments would be distributed among them. It is designed to be as simple as possible, while still treating all cities, counties, and other municipal entities fairly. A number of cities and counties have been litigating actively and have been actively involved in developing the allocation mechanism. Some of them have stepped forward as Class Representatives of the Negotiation Class. The allocation mechanism does not use litigation as a factor and in no way favors these entities. The voting pools address litigating status, and Class members' own litigation costs may be recovered, upon application, from the Class Members' Special Needs Fund described below in Section F. The allocation model itself treats all Class members, regardless of litigating status, in precisely the same manner.

The allocation model uses three factors to determine the share of a global settlement that each county will receive. These three factors address the most critical causes and effects of the opioid crisis: (1) the number of persons suffering opioid use disorder in the county[1]; (2) the number of opioid overdose deaths that occurred in the county; and (3) the amount of opioids distributed within the county.

The allocation model gives each of these factors a straightforward, one-third weighting. The model is designed not to favor small, medium, or large counties based only on their population. Although population is taken into account indirectly, because each of the three factors above tends

[1] The term "county" as used in this explanatory document includes Louisiana parishes, New England townships, and Puerto Rico *municipios*.

to increase with population, the model allocates global settlement funds proportionally to where the opioid crisis has caused actual harm.

There are no perfect mechanisms to measure the three factors. To ensure that the model is as unbiased and transparent as possible, the model uses only data collected and reported by the federal government. This is critical because the model follows the reporting mechanisms deemed most relevant by federal public health authorities. The calculation process is explained below.

Note that the allocation model determines the percentage share of a settlement that each county will obtain, but does not itself determine how a county and the cities or other municipalities that are fully or partially within the county will divide this share. *See* Section E below.

A. Factor One: Opioid Use Disorder

"Opioid use disorder" refers to dependence upon or abuse of prescription pain relievers and/or heroin, including addiction.[2] Statistics on opioid use disorder are collected by the U.S. Department of Health and Human Services (DHHS), and reported in the National Survey on Drug Use and Health (NSDUH).[3]

The allocation model uses NSDUH data to count the number of persons with opioid use disorder, both by county and nationally.[4] Each county is then assigned a percentage representing

Admin., Ctr. for Behavioral Health Statistics and Quality, 2017 *National Survey on Drug Use and Health: Methodological Summary and Definitions* (Sept. 2018), at 53, 128, 147, available at https://bit.ly/2LGmrLB [hereinafter "2017 NSDUH: Methodological Summary and Definitions"] (defining "Opioid Use Disorder" and "Heroin Use Disorder" for purposes of the survey).

[3] NSDUH data are accessible publicly at https://bit.ly/2HqF554.

its share of the total number of people with OUD in the nation. For example, during the operative time period, there was an annual average of 9,554 persons with opioid use disorder in Cuyahoga County, Ohio, and 2,138,591 persons nationally; so Cuyahoga County is assigned a score of 0.45% for this factor.[5]

B. Factor Two: Overdose Deaths

The Multiple Causes of Death (MCOD) data are county-level, national mortality data reported by the National Center for Health Statistics (NCHS), the Centers for Disease Control and Prevention (CDC), and DHHS. The CDC makes summarized MCOD data, including counts of deaths caused by opioid drug poisonings, accessible online through a reporting system known as WONDER (Wide-ranging ONline Data for Epidemiologic Research).[6] Because it is well established that deaths caused by opioid overdose are underreported, and that underreporting varies geographically in predictable ways, the model applies a standard, accepted method (the

capturing around 4.7% of the U.S. population ages 12 years or older in the recent past. Because opioid use disorder data are available by state but not by county, the model imputes the number of people with OUD in each county of a state by distributing the number of people with OUD in that state across counties in proportion to opioid misuse rates, which are available at a more granular level. Specifically, the NSDUH makes available opioid misuse rates at a sub-state level, including county-level data for some more populous counties and multi-county data for others. The model uses NSDUH data for the period 2007-16. Since the Court issued its Order Appointing Interim Class Counsel on August 19, 2019, the allocation model has been refined to impute the number of people with OUD in each county using the population ages 12 years or older, rather than total population, thereby improving the accuracy of these estimates. Population figures are taken from the Bridged-Race Population Estimates dataset produced by the U.S. Census Bureau and National Center for Health Statistics, and available online at https://wonder.cdc.gov/bridged-racepopulation.html.

prescription pain relievers, or both in the past year. *See* 2017 NSDUH: Methodological Summary and Definitions, at 146. Around 0.8% of the U.S. population 12 years of age or older is estimated to meet this definition. NSDUH survey respondents were classified as having Opioid Misuse if they used prescription pain relievers for a non-medical purpose or used heroin any time during the past year. *See id.* at 146, 215. Opioid misuse is a broader measure than opioid use disorder,

[5] All figures cited herein are approximations. The allocation model itself uses figures that are precise to several decimal places.

[6] *See* CDC WONDER, *About Multiple Cause of Death Data, 1999-2017*, https://bit.ly/2p8hDkp (last visited June 13, 2019). The model uses MCOD death data for the period 2006-16.

"Ruhm adjustment") to un-summarized MCOD data to estimate opioid overdose deaths in each county.[5]

The allocation model uses adjusted MCOD data to count the number of deaths caused by opioid overdose, both by county and nationally. Each county is then assigned a percentage share. For example, during the operative time period, there were 2,139 opioid overdose deaths in Cuyahoga County, Ohio, and 348,554 deaths nationally; so Cuyahoga County is assigned a score of 0.61% for this factor.[6]

C. Factor Three: Amount of Opioids

The United States Drug Enforcement Agency (DEA) collects statistics on the amount of opioids shipped to a given location, and reports them in a database known as "ARCOS" (Automation of Reports and Consolidated Orders System). The model uses ARCOS data to

[6] The allocation model is based on the best available overdose data, which depends upon reporting. Opioid overdose deaths may have been systematically under-reported in Puerto Rico for a number of reasons. In addition, following Hurricane Marta in 2017, Puerto Rico has faced heightened challenges in gathering death data and its medical and social services infrastructure (and thus its ability to address the opioid crisis) has been severely affected. This is an example of one function of the Class Members' Special Needs Fund: to address and equalize special circumstances, affecting specific Class members, that cannot be captured in an overall allocation system.

measure opioid amounts by counting "morphine milligram equivalents," or MMEs.[7][8] The model counts MMEs instead of pills because different opioid drugs have different strengths—for example, a 10-mg hydrocodone pill has 10 MMEs, a 10-mg oxycodone pill has 15 MMEs, and a 10-mg hydromorphone pill has 30 MMEs.

The model measures the amount of MMEs that were shipped to a given location, both by county and nationally. Unlike with Factor One and Factor Two, however, the model does not simply examine, for each county, the percentage of all MMEs shipped nationally. Instead, the model first adjusts the number of MMEs in each county based on the extent to which those MMEs produced a negative outcome. The model makes this adjustment because the oversupply of opioids had more deleterious effects in some counties than in others.[9]

---

[7] Specifically, the model uses detailed ARCOS data for the period 2006-14 produced by the DEA in *In re: National Prescription Opiate Litigation*, MDL No. 2804. Although data for

[8] -12 has been made public, data for 2013 and 2014 is subject to a confidentiality order.

[9] Mechanically, the MME adjustment works as follows. First, the model calculates for each county two separate ratios: (1) an opioid use disorder (OUD) ratio, and (2) an opioid overdose death ratio. The OUD ratio is calculated by dividing the percentage of people 12 years of older in a county with OUD by the percentage of people 12 years or older nationally with OUD. So, if OUD is 10% more common in a county than nationally, that county's OUD ratio is 1.1. Next, the model calculates an opioid overdose death ratio in the same way. The county's MMEs are then multiplied by the higher of the two ratios. To take Cuyahoga County, Ohio as an example: In Cuyahoga County, 0.87% of people ages 12 years or older have OUD; whereas, nationally, the rate is 0.81%. So Cuyahoga County has an OUD ratio of approximately 1.07 (i.e., 0.87% ÷ 0.81%), reflecting that residents of the county are 7% more likely to have OUD than the average American. Likewise, on average, slightly more than 15.2 out of every 100,000 people in Cuyahoga County died of an opioid overdose annually between 2006 and 2016; whereas, nationally, slightly fewer than 10.2 out of every 100,000 people died of an opioid overdose annually during the same period. So Cuyahoga County has a death ratio of approximately 1.50 (i.e., 15.2 ÷ 10.2), reflecting that residents of the county were 49% more likely to die of an opioid overdose during that period than was the average American. Because 1.50 is the higher of Cuyahoga's two ratios, its MMEs are scaled upwards by 50%. This does not mean that Cuyahoga will receive 50% more than it otherwise would receive. On the contrary, because all counties' MMEs are being scaled, this adjustment within Factor Three results in a 3.9% increase to Cuyahoga's ***total allocation***, from 0.46% of the national allocation to 0.48%. Ultimately, Factor Three takes into account not only

As with the other factors, each county is assigned a percentage representing its share of the national total for this factor. For example, and for illustrative purposes only, Cuyahoga County,

the number of MMEs that were shipped to each county, but also the degree of harm those MMEs caused.

Ohio's adjusted MMEs from 2006-14 are 8,550,855,474, and the sum of all counties' adjusted MMEs is 2,244,287,429,195, so Cuyahoga County is assigned a score of 0.38% for this factor.[10]

D. Final Calculation

As mentioned above, each of the three factors is given an equal, one-third weight. For example, and for illustrative purposes only, Cuyahoga County, Ohio would receive the following three scores: (1) 0.45% for Opioid Use Disorder; (2) 0.61% for Overdose Deaths; and (3) 0.38% for MMEs. The average of the County's three scores is 0.48%. Accordingly, Cuyahoga County would receive 0.48% of any global settlement amount. Put differently, if a defendant reaches a national, global settlement with all cities and counties that results in an initial disbursement of $750 million to cities and counties, Cuyahoga County would be allocated approximately $3.6 million of that amount.

E. Distribution Within Counties

The allocation model described above determines how funds will be allocated among *counties.*[11] The next step is for each county and the cities *within* that county to reach agreement on how allocated funds will be directed within the county to abate the crisis. The county and the cities within it may share the funds however they choose.

---

[10] Since the Court issued its Order Appointing Interim Class Counsel on August 19, 2019, the allocation model has been revised to exclude from Factor Three any shipments to buyers identifiable as mail order pharmacies since those opioids for the most part were sent to other locations rather than being distributed locally. The national total for Factor Three (and the other two factors) previously had increased when the allocation model was expanded to include Puerto Rico in addition to the 50 states and the District of Columbia.

[11] See footnote 1 above as to the definition of the term "county" for purposes of this explanatory document.

If a county and the cities within it cannot reach agreement on how to share the county's allocation, then a court-appointed Special Master will divide the funds. Unless one of the local governments provides an alternative approach for the Special Master's consideration, he or she will divide the funds by applying a formula that relies on federal data showing how counties and the cities within them historically have split funding for government functions potentially relevant to opioid abatement.[12]

For example, and for illustrative purposes only, Cuyahoga County, Ohio contains 59 cities, including Cleveland and Parma. The federal data show that Cuyahoga County is responsible for 64.5% of local government spending in the county on functions potentially relevant to opioid abatement, while Cleveland is responsible for 17.4% of spending, Parma is responsible for 1.5%

[12] Specifically, the formula draws on US Census Bureau data on local government spending by function. The Census of Governments Survey of State and Local Government Finances polls all state, county, township, city, and special district governments every five years, with 2012 being the most recent data available. This data covers cities and counties for 98% of the U.S. population. Data for some additional jurisdictions was backfilled from a survey of a sample of jurisdictions performed in 2016. Finally, state-specific regression analyses were employed to create estimates for the very small number of remaining jurisdictions. The functions or expenditure categories examined for each jurisdiction were: elementary and secondary education net of capital outlay, public welfare (including child protective services), hospitals net of capital outlay, health, police protection, fire protection, corrections net of capital outlay, housing and community development, and judicial and legal. In this context, "net of capital outlay" means that capital costs—for constructing new facilities and renovating existing ones—are excluded for those expenditure categories. If data from the 2017 Survey becomes available before the Special Master decides on the division of funds, it is anticipated that the Special Master would take those data into consideration in making a decision. Under the default intra-county allocation formula, when a city's total share of a settlement would be less than $500, that amount will instead be distributed to the government of the county in which the city lies to promote practical application of the abatement remedy. In the vast majority of such cases, the county government supplies the majority of the relevant government services in the county. Affected cities could seek recovery through a negotiated intra-county allocation, or from the Class Members' Special Needs Fund. In the rare circumstance that the city in question lies in a county that does not have a county government, the amount would instead go to the Class Members' Special Needs Fund, and Class members could seek recovery therefrom. *See* Section F, below, discussing that fund.

of spending, and the other cities in Cuyahoga County together are responsible for 16.6% of spending. Accordingly, if a defendant reaches a national, global settlement with all cities and counties that results in an initial disbursement of $750 million, and Cuyahoga County is allocated

$3.6 million, then, under the default intra-county allocation formula, Cuyahoga County government ultimately would receive approximately $2.3 million (64.5%) of the settlement funds allocated to the County, Cleveland would receive $625,226 (17.4%), Parma would receive $53,581 (1.5%), and the remaining cities in Cuyahoga County would receive smaller amounts, totaling $600,953 (16.6%). As noted above, the County government and city governments may agree to share the funds however they choose; the formula applies *only* if they cannot agree and no party to such a dispute presents an acceptable alternative formula to the Special Master.

F. The Class Members' Special Needs Fund

The Allocation Plan for the Negotiation Class would set aside fifteen percent (15%) of any recovery for the Class Members' Special Needs Fund. The Class Members' Special Needs Fund is monetary relief and/or reimbursement that will flow to members of the Negotiation Class, litigating or not, through an application process (i.e., outside of the classwide allocation formula). The Class Members' Special Needs Fund recognizes that, while the allocation formula utilizes objective data and reflects the input of public health economists and Class members, there may nevertheless be special circumstances in which equity requires that the particular needs of Class members on a local or regional basis need to be addressed in order to promote the purposes of the settlement, to fight and abate the opioids epidemic. Thus, the Class Members' Special Needs Fund creates flexibility by serving two functions: (1) it provides a source of recovery for the special needs and expenditures of any Class member that may fall outside of, or are otherwise not addressed by, the classwide allocation formula, which is designed based upon objective nationwide statistical information and models to serve the majority of class members; and (2) it recognizes the reality that the litigating entities that have advanced the litigation not only for themselves, but to the benefit of all others, may have incurred out-of-pocket costs in prosecuting the litigation. These

costs, incurred by the entities themselves (as distinct from costs of litigation borne by outside attorneys) such as the time and costs of their law departments or legal staffs, would be subject to reimbursement out of this fund, upon application and approval by a Court appointed Special Master.

The Class Members' Special Needs Fund best promotes the equitable allocation of the settlement among all class members by paying costs, incurred by the Class members themselves, that redounded to the common benefit, and by providing flexibility to fill in any gaps in the overall allocation system. To the extent that the segregated Class Members' Special Needs Fund is not fully utilized, any remaining amount will revert to the overall Class settlement fund.

Before the Court is Plaintiffs' Renewed and Amended Motion for Certification of Rule 23(b)(3) Cities/Counties Negotiation Class. Doc. #: 1820. Various Defendants and a handful of putative class members oppose the motion, as do 37 State Attorneys General and the Attorneys General of Guam and the District of Columbia. After consideration of all of the briefing on this motion, and oral argument held on August 6, 2019, and all of the prior proceedings herein, the Plaintiffs' Motion is **GRANTED-IN-PART**. This Memorandum opinion explains the Court's reasoning. An Order will issue separately.

I. THE NEGOTIATION CLASS CERTIFICATION MOTION

A. Background

On December 12, 2017, the Judicial Panel on Multidistrict Litigation (JPML) transferred all opioid-related litigation pending in federal courts throughout the United States to this forum for consolidated pretrial proceedings. Doc. #: 1. At present, this multidistrict litigation (MDL) encompasses more than 2,000 individual actions. Most of these constituent cases have been filed

by cities and counties throughout the United States seeking, *inter alia,* reimbursement for monies they have expended – and continue to spend – addressing the opioid crisis. The Defendants include numerous manufacturers, distributors, and pharmacies. Beyond the thousands of cases pending here, many other municipalities are litigating similar opioid-related lawsuits in state courts throughout the United States.

From the outset of this MDL, the Court has encouraged the parties to settle the case. Settlement is important in any case. Here, a settlement is especially important as it would expedite relief to communities so they can better address this devastating national health crisis. A Court-appointed Special Master (Professor Francis McGovern) has overseen extensive settlement negotiations. The Defendants have insisted throughout on the need for a "global settlement," that is, a settlement structure that resolves most, if not all, lawsuits against them arising out of the opioid epidemic. This has created an obstacle to settlement. In a standard settlement class action, the class members can opt out of the class after the settlement is reached. With thousands of counties and cities already litigating, the Defendants in this MDL are concerned that many of these Plaintiffs could opt out. The Defendants would then have paid a lot of money to settle non-litigating claims but would still have to litigate a host of potentially significant claims. This situation required creative thinking. The Special Master, in conjunction with experts and the parties in the case, developed an innovative solution: a new form of class action entitled "negotiation class certification."[1]

[1] The Special Master and Professor Rubenstein, the Court's expert in this matter, have produced a scholarly version of the idea. *See* Francis E. McGovern & William B. Rubenstein, *The Negotiation Class: A Cooperative Approach to Class Actions Involving Large Stakeholders* (Duke Law Sch. Pub. Law & Legal Theory Series, Paper No. 2019-41, 2019), https://papers.ssrn.com/sol3/papers.cfm?abstract_id=3403834.

The idea is to undertake the class certification and opt-out process prior to a settlement being reached, as is done in a normal class action geared toward trial. This will fix a class size and provide the Defendants a sense of the precise scope of the group with whom they are negotiating. The class members' rights are protected in several critical ways. At the front end, before having to make the opt-out decision, the class members can calculate their share of any future settlement; here, groups of Plaintiffs and Plaintiffs' attorneys have worked together to establish a public health-based settlement allocation plan, the details of which are all made available to the Class and public at a case website, www.opioidsnegotiationclass.info. At the back end, each class member will be entitled to vote (yes or no) on whether a proposed settlement amount is sufficient, and no settlement will be deemed accepted unless it garners a supermajority (75%) of those voting; here, a proposal will need to secure approval from six separate supermajority vote counts, reflecting different slices of the class. Additionally, of course, the Court protects the absent class members: Rule 23 requires that the Court make specific determinations before permitting a class action to go forward, Fed. R. Civ. P. 23(a), (b)(3), (c), (g), and similarly requires that the Court – independent of the class's vote – approve any proposed settlement and attorney's fees, Fed. R. Civ. P. 23(e), (h).

As discussed more fully below, the Court is mindful of the fact that this is a novel procedure and one opposed by the vast majority of State Attorneys General, who themselves are actively pursuing important State opioid litigation. The Court has determined that the procedure is a legitimate one, that certification is warranted based on the facts of the case, and that the whole process is more likely to promote global settlement than it is, as the Attorneys General argue, to impede it. Regardless, there is nothing coercive about this process: no Defendant has to employ it. There is nothing exclusive about this process: it does not interfere with the States settling their

own cases any way they want, and it does not stop parties in the MDL from settling in other ways. And there is nothing intrusive about this process: it does not stop any litigation from continuing and in no way interferes with the upcoming bellwether trials in this MDL. This process simply provides an option – and in the Court's opinion, it is a powerful, creative, and helpful one. The Court therefore grants certification of the negotiation class but, mindful of the objections that have been mounted against it, upon terms more carefully prescribed and delimited than those proposed by the Plaintiffs.

B. The Motion

By motion dated June 14, 2019, the Plaintiffs' leadership team in this MDL filed a motion on behalf of 51 cities and counties entitled, Motion for Certification of Rule 23(b)(3) Cities/Counties Negotiation Class, Doc. #: 1683; Doc. #: 1690 (corrected version). A variety of parties responded to this motion, including a group of Distributor Defendants, Doc. #: 1720, and a group of Pharmacy Defendants, Doc. #: 1723, but no Manufacturer Defendants. Moreover, two sets of State Attorneys General – representing 30 States, the District of Columbia, and Guam – sent letters to the Court registering their disapproval of the proposed motion. Doc. ##: 1726, 1727. The Court held a hearing on the initial motion on June 25, 2019, and at that time adopted a briefing schedule enabling the Plaintiffs to re-brief the motion in light of the filed oppositions. Accordingly, on July 9, 2019, the Plaintiffs filed a Renewed and Amended Motion for Certification of Rule 23(b)(3) Cities/Counties Negotiation Class. Doc. #: 1820; *see also* Doc. #: 2135 (Statement of City of Manchester, New Hampshire Supplementing Plaintiffs' Renewed Motion). On July 23, a set of nine Distributor and Pharmacy Defendants filed a brief opposing the motion, Doc. #: 1949, while a group of Manufacturing Defendants filed a brief asking the Court to clarify

the relationship of negotiation class certification to *American Pipe* tolling, Doc. #: 1952;[2] other Defendants subsequently noted their joinder in these responses, Doc. ##: 1954, 2057. A group of six (6) Ohio cities filed a brief in opposition, Doc. #: 1958, later joined by a seventh city, Doc. #: 2064, while another putative class member (City of Fargo, North Dakota) filed a brief asking the Court to clarify the end date for inclusion in a particular sub-group of the proposed negotiation class, Doc. #: 1953. A letter to the Court joined by 37 State Attorneys General, as well as the Attorneys General of the District of Columbia and Guam, strongly urged the Court to reject the motion. Doc. ##: 1951, 1955. The Ohio Attorney General, who signed that letter, also filed a separate letter of his own registering further opposition. Doc. #: 1973. On July 30, 2019, the Plaintiffs filed a reply to these oppositions. Doc. #: 2076. On August 6, 2019, this Court held a hearing on the motion.

C. The Proposed Process

The negotiation class certification process unfolds in five stages:

1. *Allocation/Voting*. Class members first develop a plan for allocating a lump sum settlement among the class and a plan for voting on the reasonableness of any lump sum settlement that is achieved. This enables each class member to know its settlement share and franchise prior to the opt-out deadline. Here, the MDL Plaintiffs' leadership has met with numerous groups of Plaintiffs and public health experts to create the allocation plan. Doc. #: 1820-1 at 49. The plan proposes distributing 75% of the lump sum to counties, with each county's share calculated according to three equally-weighted public health factors. *Id.* at 48–49, 55–60. The county's share is then divided among the county and its constituent cities, ideally through negotiated agreement.

[2] Movants disclaim any tolling effect of their motion, Doc. #: 2076 at 19, so the Court need not address this issue at this time.

Id. at 60. Of the remaining 25%, 10% is set aside for a "Private Attorneys' Fee Fund," from which private attorneys – defined as any counsel with representation agreements with one or more Class members executed as of June 14, 2019 – could seek fees in lieu of enforcement of private contingency fee contracts with their clients. *Id.* at 49–50. Finally, 15% is set aside for a "Class Members' Special Needs Fund," to cover the special needs and expenditures of any Class member that are not addressed by the class-wide allocation formula, including expenses associated with litigation. *Id.* at 96. All of these amounts are subject to Court approval and any of this 25% (the Private Attorneys' Fee Fund and the Class Members' Special Needs Fund) not so distributed is then re-distributed across the class according to the allocation plan. *Id.* at 95, 97.

The voting model is both simple and complex. Doc. #: 1820 at 8–9. If a lump sum settlement is reached with a Defendant, each class member will be given the opportunity to cast a single, simple, yes/no vote as to whether the size of the lump sum settlement is sufficient. The votes will then be counted to ensure the settlement is accepted by 75% of all voting entities by number, 75% of all voting entities by population, and 75% of all voting entities by allocation; each of those three types of votes will be counted twice, once among jurisdictions that had filed lawsuits as of June 14, 2019 ("litigating entities") and once among jurisdictions that had not ("non-litigating entities"). The various counts ensure that: (1) the plethora of smaller counties cannot alone control an outcome (the population vote guards against that); (2) the plethora of small-recovery counties cannot alone control an outcome (the allocation vote guards against that); and that (3) neither the litigating nor non-litigating entities alone can control an outcome.

Part IV of this Memorandum analyzes the equities of the allocation and voting plans.

2. *Class Certification.* With the allocation and voting plans in place, plaintiffs move for certification of the negotiation class, as have the present movants.

3. *Notice and Opt-Out Period.* If the Court approves the motion, the class members are given notice of class certification and an opportunity to opt out. Here, movants propose a 60-day opt-out period. During that time, class members can assess their share of a lump sum settlement and the proposed voting structure at the class website to determine whether they want to be part of this negotiating group.

4. *Lump Sum Settlement Negotiation.* At the conclusion of the opt-out period, with the size of the class set, the class is ready to negotiate a settlement with one or more defendants. No defendant is required to negotiate with the class and the underlying litigation activities continue unabated.

5. *Judicial Approval, Including Class Vote.* If a settlement is reached, the parties move for judicial approval, as required by Rule 23(e). That process encompasses three parts: (a) the Court must preliminarily approve the settlement, Fed. R. Civ. P. 23(e)(1); (b) class members are then given their opportunity to vote on the settlement, and they may file objections with the Court, Fed. R. Civ. P. 23(e)(5); and (c) if the Class votes to accept the settlement, class counsel moves for final approval. The Court would then make the same determination as to the settlement's reasonableness as Rule 23 requires it to do in any class action. Fed. R. Civ. P. 23(e)(2).

II. RULE 23 AUTHORIZES NEGOTATION CLASS CERTIFICATION

Rule 23 authorizes a court to certify a case, or issues within a case, for class treatment if certain requirements are met. Since adoption of the current version of Rule 23 in 1966, courts have generally certified two types of class actions: trial class actions and settlement class actions. The present motion asks this Court to certify a "negotiation class action." The concept and

procedure are set forth above. The question addressed here is whether Rule 23 authorizes this procedure. The Court finds that it does.

An important starting point is that the text of Rule 23 does not dictate, nor therefore limit, the uses to which the class action mechanism can be applied. Rule 23(a) and (b) set forth the requirements that must be met before a court can certify a class, but neither specifies that the class to be certified is for "trial" or "settlement" purposes. Defendants point to the fact that several passages in Rule 23 specifically reference settlement, as opposed to trial, classes. Doc. #: 1949 at 7. They argue that these passages demonstrate that the Rule authorizes only trial and settlement classes. *Id.* Their argument is not convincing. The passages they reference were not added to Rule 23 until December 2018, yet 21 years before that – when Rule 23 contained no explicit reference to settlement class actions – the Supreme Court affirmed courts' use of the settlement class action device. *Amchem Prod., Inc. v. Windsor*, 521 U.S. 591, 618 (1997). Moreover, the passages that were added in 2018 do not authorize settlement classes but simply identify certain procedures relevant to those types of class actions.

The history of class action law provides further support for this new use of the class action procedure. Soon after Rule 23's adoption in 1966, parties began asking courts to certify settlement class actions, that is, cases that had already been settled prior to the court's certification of a class. *See, e.g.*, *Philadelphia Hous. Auth. v. Am. Radiator & Standard Sanitary Corp*., 323 F. Supp. 364 (E.D. Pa. 1970), *aff'd and modified sub nom. Ace Heating & Plumbing Co. v. Crane Co*., 453 F.2d 30 (3d Cir. 1971). This development was deemed novel and had its share of detractors. *See Manual for Complex Litigation* § 1:46 (4th ed. 1977) ("There is, to say the least, serious doubt that this practice is authorized by Rule 23 as amended, even if it is conceded that the courts are expected to develop new methods of employing the amended Rule 23."). Many critics made the same

argument then that detractors of the proposed negotiation class make now: that the use is not authorized by the rule. The lower courts rejected this argument, and in its 1997 decision in the *Amchem* case, the Supreme Court affirmed that Rule 23 authorized settlement class actions. *Amchem*, 521 U.S. at 618 (noting that "all Federal Circuits recognize the utility of Rule 23(b)(3) settlement classes" and approving use of the device). The Defendants' reliance on *Amchem* for the proposition that "in recent years [the Supreme Court has] repeatedly warned that new innovations that go beyond the express scope of Rule 23 are prohibited," Doc. #: 1949 at 8 n.8, is therefore unpersuasive and inapposite.

Finally, it is not surprising that the history of Rule 23 supports different uses of the class action device, and the text does not prohibit these, because Rule 23 is equitable in nature and its purpose is to provide practical means for addressing complex litigation problems. Myriad judicial decisions have accordingly supported liberal application of Rule 23. *See, e.g.*, *Schneider v. Elec. Auto-Lite Co*., 456 F.2d 366, 370 (6th Cir. 1972) ("[T]he District Court was correct in liberally interpreting Rule 23 in order to avoid burdensome litigation and to give efficient disposition to this action.").

One aspect of the negotiation class action process that differs from a settlement class action is that class members must make their decision whether to opt out before knowing the size of the settlement. Some argue this violates the Due Process Clause. Doc. #: 1958 at 8–12. It does not. In a normal trial class action, class members must make their opt-out decision at the outset of the suit, before the result is known, and no one argues that process is unconstitutional. Moreover, in that process, if their trial attorneys later settle the case, Rule 23 enables a Court to offer a second opt-out opportunity but does not require it to do so. Fed. R. Civ. P. 23(e)(4). If there were a constitutional right to opt out once the outcome was known, Rule 23 would require a second opt-

out opportunity, not just authorize it. Here, class members are given sufficient information to make an informed decision about whether they want to bind themselves to a negotiation process, from which they will receive a known portion of the outcome and in which they will get a right to vote on the settlement. Moreover, the Court always retains the option of enabling a second opt-out opportunity if circumstances require.

The Defendants also note that a few courts have rejected the 75% voting idea when employed outside the class action context, Doc. #: 1949 at 25–26 (citing *Tax Auth., Inc. v. Jackson Hewitt, Inc.*, 898 A.2d 512, 521 (N.J. 2006); *Hayes v. Eagle-Picher Indus., Inc.*, 513 F.2d 892, 894–95 (10th Cir. 1975)), and argue that the voting process therefore cannot be employed within the class action context. But the two contexts are distinct: class members in class actions, unlike individual mass tort plaintiffs, are not given individualized settlement approval rights. All class members are automatically bound unless they can and do opt out. Moreover, in a normal settlement class action, class members may either object or opt out, but if they object and lose their objection, they cannot then opt out: they are instead bound to a settlement with which they disagree. The voting process is therefore consistent with the class action mechanism.

More generally, the Defendants argue that a negotiation class violates Article III because it is somehow unrelated to a judicial function. Doc. #: 1949 at 7–8. They concede, as they must, that a settlement class is legitimate, noting that it assists a court in its judicial function of "entering a judgment of approval on a class settlement." *Id.* at 8. But negotiation class certification serves an even more important judicial function at an even more important juncture in the litigation: in certifying a negotiation class, the Court undertakes the familiar judicial function of ensuring that the class certification requirements are met and the absent class members' interests are protected by those who purport to represent them, *prior to those agents negotiating a settlement for the*

absent class members. Negotiation class certification therefore corrects one of the long-standing concerns of settlement class actions: that un-approved agents have settled un-certified claims. *See, e.g.*, *Ace Heating & Plumbing Co. v. Crane Co.,* 453 F.2d 30, 33 (3d Cir. 1971) (examining argument that lawyer, "having bargained the settlement terms with defendants prior to his official designation by the court as class representative . . . may be under strong pressure to conform to the defendants' wishes"). Moreover, assisting parties in creating a settlement, particularly in a large case of this type with contested liability and adversarial litigation, is itself a meaningful judicial function. *See, e.g.*, *In re Nat'l Prescription Opiate Litig*., 927 F.3d 919, 923 (6th Cir. 2019) (noting, without censure, that "[t]he district court presiding over this potentially momentous MDL has repeatedly expressed a desire to settle the litigation before it proceeds to trial").

III. THE REQUIREMENTS OF CLASS CERTIFICATION ARE MET

A. The Claims and Issues

Rule 23(c)(1)(B) states that: "An order that certifies a class action must define the class and the class claims, issues, or defenses, and must appoint class counsel under Rule 23(g)." Fed. R. Civ. P. 23(c)(1)(B). The Defendants argue that the movants have failed to proffer sufficient evidence in support of their motion and/or that the motion is not tethered to a particular complaint. Doc. #: 1949 at 9–13. (Defendants also complain about a lack of discovery concerning the class representatives. *Id*. at 12 n.13. They filed two briefs in response to movants' original proposal, Doc. ##: 1720, 1723, and appeared at the June 25, 2019 hearing on the motion, yet never asked for or filed a motion seeking discovery).

The current motion does not arise in a factual vacuum. This MDL has been pending for nearly two years. The Court has undertaken extensive review of the factual and legal issues in the case. Several bellwether trials will commence shortly and the Court has ruled on critical motions

to dismiss, myriad discovery matters, and a variety of complex and voluminous summary judgment motions. The Court and parties are deeply steeped in the legal and factual issues in the case, and the extensive record of the case – now over 2,500 entries on the MDL docket alone – provides more than sufficient factual and legal context for a decision on class certification. The Defendants' concern that the present motion is not tethered to a specific complaint implies that there is an absence of relevant pleading in this matter. If there is a problem in this case, however, it is one of glut, not famine: there are more than 2,000 complaints pending here, many of which exceed 300 pages in length. Although parties sometimes make class allegations in their complaint, Defendants point to no precedent holding that class allegations in a complaint are a necessary prerequisite to a class certification motion under Rule 23; similarly, although in MDLs of this type there are sometimes master complaints, there is no MDL-specific (or any other) rule requiring such a complaint and, absent specific agreement to the contrary, such complaints are typically purely administrative in nature. *See* William B. Rubenstein, 3 *Newberg on Class Actions* § 10:15 (5th ed. 2019) [hereinafter *Newberg on Class Actions*].

Contrary to the Defendants' assertions, the movants specifically point the Court to the allegations contained in Cuyahoga County, Ohio's pleadings. Doc. #: 1820-1 at 78 n.40. Given the Court's extensive knowledge of the heavily-developed legal and factual record in this matter, and the discretion Rule 23 delegates to it, the Court adopts movants' approach but utilizes as its reference the allegations in substantially similar complaints filed by Summit County, Ohio (Doc. ##: 513, 1466). The Court references the Summit County pleadings for several inter-related reasons: (1) Summit County is one of two bellwether cases set for trial in the coming month, with its facts and legal allegations well-known to the Court and litigants; (2) Summit County's complaint was extensively tested through motions to dismiss covering thousands of pages of

documents and nearly a year of litigation, Doc. #: 1203; (3) Summit County's complaint was the basis of a "short form complaint" process that enabled all plaintiffs in this MDL to incorporate by reference certain of the legal and factual allegations therein, Doc. #: 1282; (4) the vast bulk of the 49 putative class representatives – and numerous other plaintiffs – have accordingly adopted the Summit County pleadings.[3]

The Summit County complaint and related short-form complaint enabled MDL plaintiffs – by checking a few boxes – to adopt two federal RICO claims and a set of factual allegations encompassing, *inter alia*, issues arising out of the federal Controlled Substances Act. The first RICO claim, levelled against manufacturers labelled "RICO Marketing Defendants," alleges the manufacturers engaged in a variety of activities that misled physicians and the public about the need for and addictiveness of prescription opioids, all in an effort to increase sales. *See* Summit County Pleadings, Doc. #: 513, ¶¶ 814–48 (facts), ¶¶ 878–905 (law), Short Form Complaint Ruling, Doc. #: 1282-1 at 3 ¶3, at 3–4, ¶5. The second RICO claim, levelled against manufacturers and distributors labelled "RICO Supply Chain Defendants," alleges these defendants ignored their responsibilities to report and halt suspicious opioid sales, all in an effort to artificially sustain and increase federally-set limits (quotas) on opioid sales. *See* Summit County Pleadings, Doc. #: 513, ¶¶ 849–77 (facts) ¶¶ 906–38 (law), Short Form Complaint Ruling, Doc. #: 1282-1 at 3 ¶3, at 3–4, ¶5. The complaints also allege that the Controlled Substances Act required the manufacturers,

[3] The Court is aware that as Summit County's bellwether trial has approached, the County has settled with some defendants and that the County is no longer proposed as a class representative. Doc. #: 2583 at 5. However, using its complaints as the reference for analysis of the claims and issues suitable for class certification remains appropriate given that so many other plaintiffs here have adopted those same claims and issues through the short-form process and/or have filed complaints that are substantially identical in relevant passages to the Summit County complaint. *See, e.g.*, Second Amended Complaint of Cabell County Commission (W.Va.), Doc. #: 518; Second Amended Complaint of County of Monroe, Michigan, Doc. #: 522; Second Amended Complaint of Broward County, Florida, Doc. #: 525.

distributors, and pharmacies to create internal systems to identify, report, and suspend unlawful opioid sales, and that defendants failed to meet those obligations; these factual allegations underlie the second RICO claim above and are also pertinent to adjudication of myriad state-based legal claims, from public nuisance to negligence. *See* Summit County Pleadings, Doc. #: 513, ¶¶ 504, 506–659, Short Form Complaint Ruling, Doc. #: 1282-1 at 3 ¶ 3.

Based on these pleadings, which are common across many, if not most, of the MDL litigants and putative Class Representatives, the Court will analyze the movants' request to certify for class treatment:[4]

1. a RICO claim arising out of the alleged Opioid Marketing Enterprise, as against five (5) named Defendants – Purdue, Cephalon, Janssen, Endo, and Mallinckrodt – under Rule 23(b)(3) (Doc. #: 1820-1 at 83);

2. a RICO claim arising out of the alleged Opioid Supply Chain Enterprise, as against eight (8) named Defendants – Purdue, Cephalon, Endo, Mallinckrodt, Actavis, McKesson, Cardinal, and AmerisourceBergen – under Rule 23(b)(3) (Doc. #: 1820-1 at 84); and,

3. two issues related to Defendants' obligations under the Controlled Substances Act, against thirteen (13) named Defendants – Purdue, Cephalon, Endo, Mallinckrodt, Actavis, Janssen, McKesson, Cardinal, AmerisourceBergen, CVS Rx Services, Inc., Rite-Aid Corporation, Walgreens, and Wal-Mart – under Rule 23(c)(4) (Doc. #: 1820-1 at 91 n.46 & at 84–86):

    a. What are the specific obligations of each defendant under the federal Controlled Substances Act ("CSA"), 21 U.S.C. § 801 *et seq*. and its implementing regulations, 21 C.F.R. § 1301 *et seq*., arising out of the requirement that registrants "provide effective controls and procedures to guard against theft and diversion of controlled substances," 21 C.F.R. § 1307.71(a)?

    b. Did each defendant's action satisfy these obligations with respect to prescription opioids?

[4] The Court uses simple names for the 13 Defendants listed in the following numbered paragraphs, but adopts the definitions of the related Defendant entities set out in the Summit County Complaint, Doc. #1466 at 13–35.

B. The Class Certification Standard

The Sixth Circuit has held that: "Any class certification must satisfy Rule 23(a)'s requirement of numerosity, commonality, typicality, and adequate representation [and] fit under at least one of the categories identified in Rule 23(b)." *Clemons v. Norton Healthcare Inc. Ret. Plan*, 890 F.3d 254, 278 (6th Cir. 2018). Under Rule 23(b)(3), class certification is appropriate if (1) "the questions of law or fact common to class members predominate over any questions affecting only individual members," and (2) class resolution "is superior to other available methods for fairly and efficiently adjudicating the controversy." Fed. R. Civ. P. 23(b)(3). Additionally, Rule 23(c)(4) states that "[w]hen appropriate, an action may be . . . maintained as a class action with respect to particular issues." Fed. R. Civ. P. 23(c)(4). The Sixth Circuit recently affirmed the utility of such "issue certification," explaining that Rule 23(c)(4) "contemplates using issue certification to retain a case's class character where common questions predominate within certain issues and where class treatment of those issues is the superior method of resolution." *Martin v. Behr Dayton Thermal Prod. LLC*, 896 F.3d 405, 413 (6th Cir. 2018), *cert. denied*, 139 S. Ct. 1319 (2019). After confirming existence of a cognizable class, this Court will accordingly consider all of the factors of Rule 23(a) and 23(b)(3) as they apply to both the RICO claims and the CSA issues, as against each relevant Defendant.

C. The Class is Ascertainable

Rule 23(b)(3) classes must be ascertainable. *Cole v. City of Memphis*, 839 F.3d 530, 541 (6th Cir. 2016). For a class to be ascertainable, the "class definition must be sufficiently definite so that it is administratively feasible for the court to determine whether a particular individual is a member of the proposed class." *Young v. Nationwide Mut. Ins. Co.*, 693 F.3d 532, 537–38 (6th Cir. 2012) (citation omitted). It is administratively feasible for the Court to determine class

membership if the class is defined by reference to objective criteria, and with reasonable accuracy. *See id.* at 538–39; *Rikos v. Procter & Gamble Co*., 799 F.3d 497, 525 (6th Cir. 2015).

The present motion seeks certification of a single national class, defined as:

> all counties, parishes, and boroughs (collectively, "counties"); and all incorporated places, including without limitation cities, towns, villages, townships, and municipalities, as defined by the United States Census Bureau (collectively "cities") as listed on the Opioids Negotiation Class website, opioidsnegotiationclass.com.

Doc. #: 1820 at 3. The class definition is based on purely objective criteria and is accompanied by an Excel spreadsheet at the website that lists the names of each of the proposed class members in 34,458 rows. The class is therefore not only ascertain***able***, its membership has been ascertain***ed***. Defendants argue that the complexity of governmental structures across the country creates some ambiguous situations and they provide a single such example. Doc. #: 1949 at 3 n.3. Such minor technical issues can be worked out going forward. For purposes of class certification, the Court finds that the class is adequately defined.

D. Rule 23(a)(1): The Class is So Numerous That Joinder is Impracticable

Rule 23(a)(1) requires that the class be "so numerous that joinder of all members is impracticable." Fed. R. Civ. P. 23(a)(1). The Sixth Circuit has held that "no strict numerical test exists to define numerosity," *In re Whirlpool Corp. Front-Loading Washer Prod. Liab. Litig.*, 722 F.3d 838, 852 (6th Cir. 2013), but that "'substantial' numbers . . . are sufficient to satisfy this requirement." *Id.* The proposed class consists of 34,458 public entities dispersed throughout the entire United States. Defendants explicitly concede that "numerosity is self-evident here." Doc. #: 1949 at 13. The Court finds that the class is so numerous that joinder of all members would be impracticable and thus that this requirement has been satisfied.

E. Rule 23(a)(2): There are Common Questions of Law or Fact

Rule 23(a)(2) requires plaintiffs to prove that "there are questions of law or fact common to the class." Fed. R. Civ. P. 23(a)(2). Despite the Rule's use of the plural "questions," the Supreme Court has held that a single common question will suffice. *Wal-Mart Stores, Inc. v. Dukes*, 564 U.S. 338, 359 (2011). Yet, "because the commonality requirement is qualitative, not quantitative," 1 *Newberg on Class Actions* § 3:22, at least one common issue must be central to the litigation, *see Wal-Mart*, 564 U.S. at 350 ("That common contention, moreover, must be of such a nature that it is capable of classwide resolution—which means that determination of its truth or falsity will resolve an issue that is central to the validity of each one of the claims in one stroke.").

This putative class action occurs within a multi-district litigation (MDL). In creating this MDL, the Judicial Panel on Multidistrict Litigation (JPML) has steered thousands of individual actions pending throughout the nation to this Court. Its authority to do so turns on the presence of common questions. 28 U.S.C. § 1407(a) ("When civil actions involving one or more common questions of fact are pending in different districts, such actions may be transferred to any district for coordinated or consolidated pretrial proceedings."). In initiating this MDL, the JPML held:

> All actions involve common factual questions about, *inter alia*, the manufacturing and distributor defendants' knowledge of and conduct regarding the alleged diversion of these prescription opiates, as well as the manufacturers' alleged improper marketing of such drugs. Both manufacturers and distributors are under an obligation under the Controlled Substances Act and similar state laws to prevent diversion of opiates and other controlled substances into illicit channels. Plaintiffs assert that defendants have failed to adhere to those standards, which caused the diversion of opiates into their communities.

Doc. #: 1 at 3. Rejecting the argument that uncommon issues would generate inefficiencies if an MDL were formed, the JPML concluded: "All of the actions can be expected to implicate common

fact questions as to the allegedly improper marketing and widespread diversion of prescription opiates into states, counties and cities across the nation . . . ." *Id.*

While commonality for pre-trial centralization purposes under § 1407 may not be precisely the same test as commonality for class certification purposes under Rule 23, it is close[5] and, regardless, the JPML's recitation, like the movants' papers, Doc. #: 1820-1 at 64–66, 81, identifies common issues that are qualitatively decisive for Rule 23 purposes. Moreover, there is direct evidence of the commonality of the claims and issues in this matter given that the short-form complaint process enabled MDL plaintiffs to adopt these specific claims and issues, and many did so. The Court finds that there are questions of both law and fact, as to the specified claims and issues, common to the class with respect to each relevant Defendant; the discussion in sub-section I, below, concerning whether these common questions predominate, sets forth with more particularity the specific common RICO and CSA issues.

F. Rule 23(a)(3): The Class Representatives' Claims are Typical of Those of the Class

Rule 23(a)(3) requires that "the claims or defenses of the representative parties [be] typical of the claims or defenses of the class." Fed. R. Civ. P. 23(a)(3). "Typicality is met if the class members' claims are 'fairly encompassed by the named plaintiffs' claims'" such that "by pursuing their own interests, the class representatives also advocate the interests of the class members." *In re Whirlpool Corp.*, 722 F.3d at 852–53 (6th Cir. 2013) (quoting *Sprague v. Gen. Motors Corp.*,

[5] Defendants rely on *In re Saturn L-Series Timing Chain Prod. Liab. Litig.*, No. 8:07CV298, 2008 WL 4866604, at *25 n.21 (D. Neb. Nov. 7, 2008) to argue that "[c]lass certification thus cannot be bootstrapped from the existence of an MDL." Doc. #: 1949 at 27. But the footnote that they reference distinguished the JPML's finding of *commonality* from Rule 23's finding of *predominance*. Moreover, in referencing the JPML's commonality finding as a good description of the common issues in this case, the Court is not "bootstrapping" on those findings; it is making its own independent determination of the presence of these findings and using the JPML's recitation as a descriptor.

133 F.3d 388, 399 (6th Cir. 1998)). "The test for typicality is not demanding . . . . [T]he plaintiffs' claims need not be identical to those of the class; typicality will be satisfied so long as the named representatives' claims share the same essential characteristics as the claims of the class at large." 1 *Newberg on Class Actions* § 3:29 (internal quotation marks and footnotes omitted).

As to the claims and issues identified for class treatment, the Court finds that the Class Representatives' claims are typical of those of the Class. The movants propose a total of 49 different counties and cities – from 30 states – to serve as Class Representatives.[6] The Court has reviewed the complaints (and where filed, short-form complaints) of each of the 49 proposed Class Representatives. These complaints demonstrate that the Class Representatives and the absent Class Members share an identity of interests. All are cities or counties, and are all generally interested in the same end: recouping money they have been forced to pay to address the opioid epidemic and ameliorating that epidemic. If the Class Representatives pursue their own interests identified in these complaints, they will necessarily be pursuing the interests of the absent class members. There is nothing unique about any of the proposed Class Representatives that would set them apart in meaningful ways from the absent class members.

The Defendants set forth a list of contentions to the contrary, Doc. #: 1949 at 38–39, but most are either irrelevant, recede in importance given the Court's adoption of the short-form complaint claims and issues for certification ("Differences in the causes of action asserted in the complaints . . . Differences in the identities of the defendants . . . Differences in the nature and quality of evidence available . . . ."), or are differences that do not defeat typicality ("Differences in the . . . scope of opioid-related harms . . . ."), *see Daffin v. Ford Motor Co.*, 458 F.3d 549, 553

[6] The movants initially proposed 51 class representatives, Doc. #: 1820 at 2, but later withdrew two (Cuyahoga County, Ohio and Summit County, Ohio). Doc. #: 2583 at 5.

(6th Cir. 2006) (finding typicality requirement met where class representative's and "other class members' claims arise from the same practice . . . [and] the same defect . . . and are based on the same legal theory. Typicality is satisfied despite the different factual circumstances regarding the manifestation of the [defect] . . ."); 1 *Newberg on Class Actions* § 3:43 ("Courts routinely find that the proposed class representative's claims are typical even if the amount of damages sought differ from those of the class or if there are differences among class members in the amount of damages each is claiming.").

As to the RICO claims and CSA issues, the proposed Representatives' claims align with those of the class. The Court therefore finds that the claims of the 49 proposed Class Representatives are typical of those of the Class, as to the specified claims and issues, with respect to each relevant Defendant.

G. Rule 23(a)(4): The Class Representatives Will Adequately Represent the Class

Rule 23(a)(4) requires that "the representative parties will fairly and adequately protect the interests of the class." Fed. R. Civ. P. 23(a)(4). The Court looks to two criteria in determining adequacy of representation: "1) the representative must have common interests with unnamed members of the class, and 2) it must appear that the representatives will vigorously prosecute the interests of the class through qualified counsel." *Young v. Nationwide Mut. Ins. Co.*, 693 F.3d 532, 543 (6th Cir. 2012) (quoting *In re Am. Med. Sys., Inc.,* 75 F.3d 1069, 1083 (6th Cir. 1996)).

Movants propose 49 Class Representatives. In their moving brief, movants describe each entity and briefly summarize how the opioid epidemic has impacted it. Doc. #: 1820-1 at 19–46. As above, the Court has also reviewed all of the relevant complaints and short-form complaints. Those documents demonstrate that each of the proposed Class Representatives is a member of the Class and each shares the same overriding interests as the other members of the Class in addressing

the consequences of the opioid epidemic. Moreover, as each of these entities is a governmental unit – some, like Chicago, enormous – the Court is confident that the representatives have the capacity to perform the functions of being actively engaged in the litigation, assisting Class Counsel with settlement negotiations, and, importantly, monitoring Class Counsel to ensure that the Class's interests remain paramount.

Most, if not all, of the proposed Class Representatives are entities that have been active in opioid litigation prior to the filing of the class action motion ("litigating entities"). This of course is of great value to the class: the litigating entities understand the case best and have been expending their own resources for years in a way that may now benefit the whole class. Many are large counties or cities with significant resources, skilled counsel, and enormous expertise as to the opioid epidemic. Who better to serve as representatives of a class? Defendants latch on to the fact that the allocation mechanism favors class representatives that primarily seek monetary relief for past damages over non-litigating entities that may be more interested in non-monetary relief, Doc. #: 1949 at 21–22, and that the voting scheme requires separate sets of approval from litigating and non-litigating entities, Doc. #: 1949 at 23–25. Below, the Court addresses the fairness of the allocation mechanism and finds no immediate fault. For present purposes, it reveals no fundamental conflict between litigating and non-litigating entities as to pursuit of this case against the Defendants that would render the list of 49 proposed representatives inadequate. *See* 1 *Newberg on Class Actions* § 3:58 ("Only conflicts that are fundamental to the suit and that go to the heart of the litigation prevent a plaintiff from meeting the Rule 23(a)(4) adequacy requirement."). Similarly, the Court rejects the Defendants' contention that there is a fundamental conflict between counties as a group and cities as a group that would require separate counsel and sub-classing. Doc. #: 1949 at 19–21, 25. It is true that if a settlement is reached, each county and

its constituent cities will need to work together – or, arguably, negotiate against one another – to divide the county-level allocation amongst themselves. But these negotiations are local in nature, will vary county to county, and, contrary to the Defendants' assertions, there is not one set of interests shared by all counties that fundamentally conflicts with one set of interests shared by all cities.

Lesser concerns are as easily dismissed. The State Attorneys General suggest that the range of Class Representatives is incomplete because it does not encompass representatives from each of the 50 states nor, they allege, from "smaller counties and cities." Doc. #: 1951 at 7; *see also* Doc. #: 1973 at 5. Here, the Court has considered for certification two federal (RICO) claims and several issues related to federal law (CSA) that are similar across the country and class. This is not a situation requiring class representatives from each of the 50 states. Moreover, the list of Class Representatives encompasses smaller areas such as Cass County, North Dakota; City of Concord, New Hampshire; County of Fannin, Georgia; and County of Gooding, Idaho. Doc. #: 1820 at 1. Importantly, as discussed more fully below, the allocation formula rebuts any concerns that hard-hit small counties are disadvantaged in some way by the movants' proposal. Finally, some of the Class Representatives are individually represented by lawyers who simultaneously represent States that are objecting to certification of this Class. Doc. ##: 1949 at 17; 1949-2 at 16–17. The Court finds that this situation does not disqualify these entities from serving as Class Representatives.[7] The Class Representatives themselves have no conflict and, as generally large governmental units, they have the capacity to balance advice they might get from their individual

[7] Defendants' citation to the Seventh Circuit decision in *Culver v. City of Milwaukee*, 277 F.3d 908, 913 (7th Cir. 2002), on this point is inapposite. Doc. #: 1949 at 18. That case did not deal with the question of a class representative's separate lawyer, but rather with the class representative's lawyer as (former) class counsel. *Culver*, 277 F.3d at 913.

lawyers against their responsibilities to the whole Class. The Court's conclusion is buttressed by the fact that there are both dozens of other Class Representatives and a set of experienced Class Counsel, each of whom represents only counties and cities, not States.

Like the putative Class Members, the 49 proposed Class Representatives have allegedly been adversely impacted by the Defendants' actions with regard to the manufacturing and distribution of opioids and they seek to be compensated for their losses. The Court finds that the Class Representatives, individually and as a group, will adequately represent the interests of the class members, as to the specified claims and issues, with respect to each Defendant.

H. Rule 23(g): Class Counsel Are Adequate

Rule 23(g) states that "a court that certifies a class must appoint class counsel." Fed. R. Civ. P. 23(g). In undertaking this appointment, the Rule directs the Court to consider: "(i) the work counsel has done in identifying or investigating potential claims in the action; (ii) counsel's experience in handling class actions, other complex litigation, and the types of claims asserted in the action; (iii) counsel's knowledge of the applicable law; and (iv) the resources that counsel will commit to representing the class." *Id.*

Movants propose the "the appointment of Jayne Conroy and Christopher Seeger as Co-Lead Negotiation Class Counsel and Gerard Stranch, Louise Renne, Zachary Carter, and Mark Flessner as Negotiation Class counsel," Doc. #: 1820 at 2, and have submitted Declarations from five of these lawyers, and a letter from one other, attesting to their experience, knowledge of the case, and willingness to commit resources. Doc. ##: 1820-1, Ex. A; 1821. As this Court has already held in appointing Interim Class Counsel:

> These documents demonstrate that Seeger is a very experienced and successful class action attorney, fully qualified to represent the Class. Two of the remaining five (Conroy and Stranch) have significant and impressive experience in leadership roles in mass tort MDLs in particular, Doc. #: 1820-1, Ex. A, while the remaining

> three are or were legal counsel for large cities (Renne/San Francisco; Carter/New York; and Flessner/Chicago), Doc. #: 1820-1 at 52. All have been involved in opioid-related litigation. Applying Rule 23(g)'s four factor test, the Court finds that these lawyers are well-situated to represent the Class.

Doc. #: 2490 at 3.

In its Orders regarding appointment of Interim Class Counsel, Doc. ##: 2490, 2493, the Court acknowledged the significant contributions to date of the MDL Negotiation Committee, the members of which are identified in Doc. #: 118. While most of these lawyers will not serve as Class Counsel for the Negotiation Class, their depth of knowledge about this case and their general expertise can continue to provide significant benefit for the Class. Accordingly, the Court's Order will clarify that there is no bar to Class Counsel working with the MDL Negotiation Committee members in negotiating with Defendants, nor is there any bar to these MDL lawyers applying to share Class Counsel duties in the future should their representational situations change. However, as the Court's order appointing interim Class Counsel clarified, only Class Counsel will "(a) represent the Class in settlement negotiations with Defendants; (b) sign any filings with this or any other Court made on behalf of the Class; (c) assist the Court with functions relevant to a class action, such as but not limited to maintaining the Class website and executing a satisfactory notice program; and (d) speak on behalf of the Class in Court." Doc. #: 2490 at 5. Thus, only Class Counsel can bind the Class and Class Counsel must independently approve all final decisions concerning any Class-based settlement and be the sole signatories on behalf of the Class of all Class-based term sheets, settlement agreements, or similar documents.

With these clarifications in the final certification order, the Court finds that the proposed Class Counsel will alone act for the Class and will fairly and adequately represent the interests of the class.

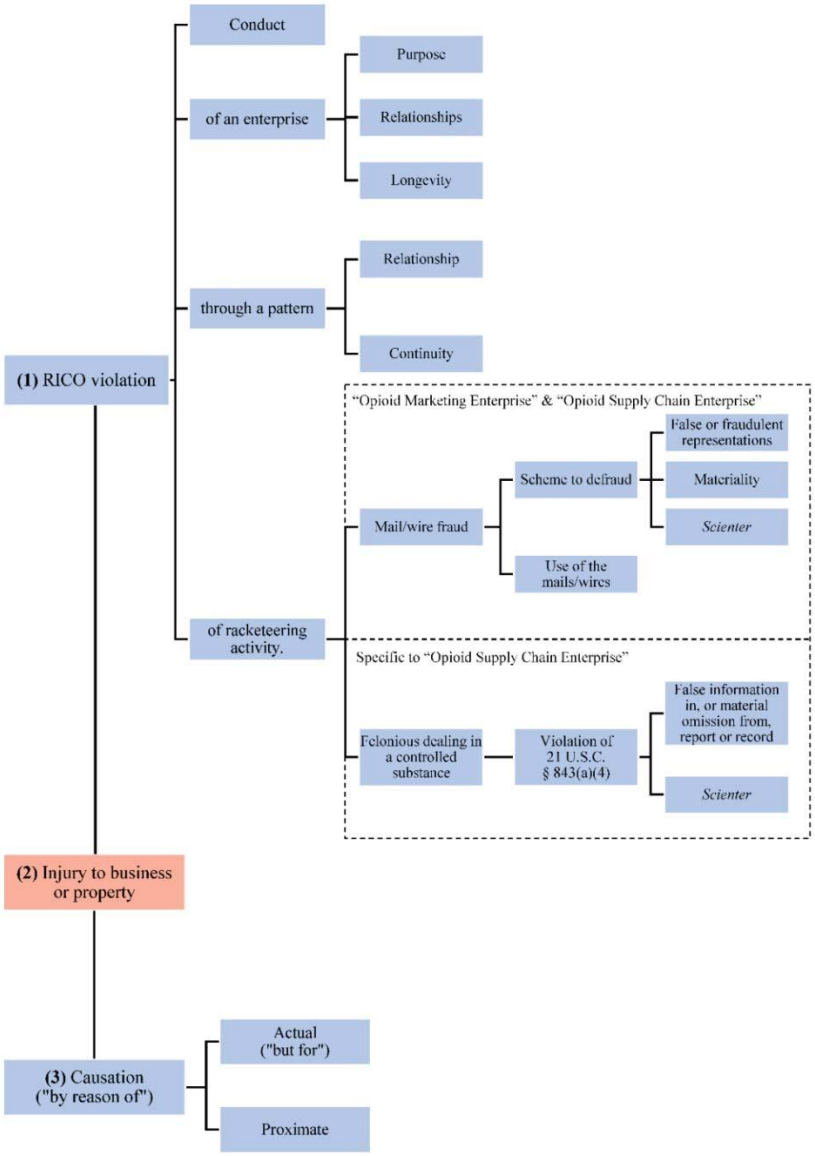

I. Rule 23(b)(3): Common Questions of Law or Fact Predominate

Rule 23(b)(3) requires that "questions of law or fact common to class members predominate over any questions affecting only individual members." Fed. R. Civ. P. 23(b)(3). The predominance inquiry consists of two steps: "[a] court must first characterize the issues in the case as common or individual and then weigh which predominate." *Martin v. Behr Dayton Thermal Products LLC*, 896 F.3d 405, 413 (6th Cir. 2018) (alteration in original) (quoting 2 William B. Rubenstein, *Newberg on Class Actions* § 4:50 (5th ed. 2010)). Common questions are those where "the same evidence will suffice for each member to make a prima facie showing." *Sandusky Wellness Ctr., LLC v. ASD Specialty Healthcare, Inc.*, 863 F.3d 460, 468 (6th Cir. 2017) (citation and internal quotation marks omitted).

1. *RICO Claims*

To prevail on their federal civil RICO claims, the Plaintiffs will have to establish that (1) the defendants committed a RICO violation, (2) there was an injury to the Plaintiffs' businesses or properties, and (3) said injury occurred "by reason of" the RICO violation. *See Aces High Coal Sales, Inc. v. Cmty. Bank & Tr. of W. Georgia*, 768 F. App'x 446, 453 (6th Cir. 2019). In turn, the elements of a RICO violation are "(1) conduct (2) of an enterprise (3) through a pattern (4) of racketeering activity." *In re ClassicStar Mare Lease Litig.*, 727 F.3d 473, 483 (6th Cir. 2013) (citation omitted). Each of these prongs then breaks down into various elements. In the diagram below, the Court sets forth these elements and sub-elements and characterizes each as either common (blue) or individual (orange).

RICO ELEMENTS: COMMON (BLUE) vs INDIVIDUAL (ORANGE)

As is visually evident, there are a host of issues and sub-issues within the RICO claims. As applied to Plaintiffs' allegations concerning the existence of two national enterprises that disseminated a set of standard falsehoods in marketing and distributing opioids, all of the elements except injuries are common, not individual. Many courts have so held in similar circumstances. *See, e.g.*, *Just Film, Inc. v. Buono*, 847 F.3d 1108, 1121 n.3 (9th Cir. 2017) (noting that the issues involved in proving a RICO violation "are appropriate for classwide litigation because they focus on" the defendants' conduct); *In re U.S. Foodservice Inc. Pricing Litig.*, 729 F.3d 108, 118 (2d Cir. 2013) ("[F]raud claims based on uniform misrepresentations . . . are appropriate subjects for class certification.") (citation and internal quotation marks omitted); *McMahon Books, Inc. v. Willow Grove Assocs.*, 108 F.R.D. 32, 39 (E.D. Pa. 1985).

Defendants argue that causation should be characterized as an individual issue, Doc. #: 1949 at 37, but in this case – as to these RICO claims – the characterization of causation as common, not individualized, is supported by law and fact. Legally, plaintiffs alleging RICO claims predicated on mail and wire fraud may show third-party reliance and "need not show, either as an element of [their] claim or as a prerequisite to establishing proximate causation, that [***they***] relied on the defendant's alleged misrepresentations." *Bridge v. Phoenix Bond & Indem. Co.*, 553 U.S. 639, 661 (2008); *see also Brown v. Cassens Transp. Co.*, 546 F.3d 347, 357 (6th Cir. 2008). Factually, this Court has already held that the "[p]laintiffs have alleged sufficient facts to support a . . . direct chain of causation" involving third-party reliance. Doc. #: 1203 at 9–10 (listing steps in chain). Specifically, the Plaintiffs argue they suffered injuries because others (doctors, patients, etc.) relied on the Defendants' misrepresentations, enabling the Defendants to sell more opioids than the legitimate medical market could support. Whether there was such third-party reliance is a question susceptible to class-wide proof, justifying characterization of this issue as common.

The numerous common issues obviously predominate. The fact that the "injury" prong alone is plausibly individualized does not alter this conclusion. Predominance does not require that *every* element can be established by class-wide proof, *see Sandusky*, 863 F.3d at 468, and the predominance requirement is satisfied "when liability can be determined on a class-wide basis, even when there are some individualized damage issues," *Beattie v. CenturyTel, Inc.*, 511 F.3d 554, 564 (6th Cir. 2007) (citation and internal quotation marks omitted). Similarly, the fact that affirmative defenses may arise, and apply only to some class members, "does not compel a finding that individual issues predominate over common ones." *Bridging Communities Inc. v. Top Flite Fin. Inc.*, 843 F.3d 1119, 1125 (6th Cir. 2016) (citations and internal quotation marks omitted).

Given this analysis, it is not surprising that many courts within this Circuit have found that common issues predominate in the adjudication of specific RICO claims. *See Williams v. Duke Energy Corp.*, No. 1:08-CV-46, 2014 WL 12652315 at *14 (S.D. Ohio Mar. 13, 2014); *Lauber v. Belford High Sch.*, No. 09-CV-14345, 2012 WL 5822243 at *9 (E.D. Mich. Jan. 23, 2012) (bifurcating issues of liability and damages); *Gokare v. Fed. Express Corp.*, No. 2:11-CV-2131-JTF-CGC, 2013 WL 12094870 at *14 (W.D. Tenn. Nov. 22, 2013) (for settlement purposes). This Court also so concludes.

2. *CSA Issues*

The pleadings in this case, as discussed above, raise several specific issues arising out of the Controlled Substance Act for which movants seek certification: the nature of each Defendant's obligations under the Act and the question of whether each Defendant complied with those obligations. Doc. #: 1820-1 at 84. These issues may arise in the adjudication of a federal (RICO) claim and of various state-law claims. The Court finds that common issues predominate in the resolution of these two specific issues, standing alone. Applying the Sixth Circuit's holding in

Martin, the Court finds that both issues are "capable of resolution with generalized, class-wide proof" and "need only be answered once because the answers apply in the same way" across the Class. *Martin*, 896 F.3d at 414. The fact that these issues may be relevant to the pursuit of state-based legal claims that vary across the class, or to legal claims that entail the resolution of individualized issues of causation or damages, "does not mean that [these] individualized inquiries taint the certified issues." *Id.* On the contrary, the certified issues can be addressed without overlapping with other issues that may or may not be common. For example, the Summit County complaint sets forth that the CSA issues are relevant to, *inter alia*, its common law absolute public nuisance claim, Doc. #: 513 at ¶ 1010, and its negligence claim, *id.* at ¶¶ 1042, 1045, 1060. Resolution of the certified issues would speak to the duty and breach elements of a negligence claim, for example, without pretermitting non-class resolution of the causation and damage elements. Moreover, since the Court is certifying for classwide treatment only the specific issues identified, there are no "individualized inquiries that outweigh the common questions prevalent *within each issue*." *Martin*, 896 F.3d. at 414 (emphasis added).[8]

In sum, the Court finds that common issues predominate over individualized issues with respect to both the RICO claims and the CSA issues, with respect to each specifically-identified Defendant.

[8] Heeding the Sixth Circuit's guidance, the Court is aware of the potential Seventh Amendment concerns raised by issue class certification and "will take care to conduct any subsequent proceedings in accordance with the Reexamination Clause." *Id*. at 416–17. Of course, since the Court is certifying the class solely for purposes of negotiation, these concerns are not present. Nonetheless, the Court notes the Sixth Circuit's conclusion that, "if done properly, bifurcation will not raise any constitutional issues." *Id*. at 417 (citations and internal quotation marks omitted).

J. Rule 23(b)(3): A Class Action is a Superior Method of Adjudication

For a class action to be maintained, Rule 23(b)(3) requires the Court to determine that "a class action is superior to other available methods for fairly and efficiently adjudicating the controversy." Fed. R. Civ. P. 23(b)(3). This requirement "is designed to achieve economies of time, effort, and expense, and promote . . . uniformity of decision as to persons similarly situated, without sacrificing procedural fairness or bringing about other undesirable results." *Pipefitters Local 636 Ins. Fund v. Blue Cross Blue Shield of Michigan*, 654 F.3d 618, 630 (6th Cir. 2011) (alteration in original) (internal quotation marks omitted) (quoting *Amchem Prod., Inc. v. Windsor*, 521 U.S. 591, 615 (1997)). Rule 23(b)(3) itself further enumerates four specific factors speaking to the desirability of a class suit. Fed. R. Civ. P. 23(b)(3)(A)–(D). Here, all cut in favor of certification of both the two RICO claims and two CSA issues as against all Defendants:

1. *The class members' interests in individually controlling the prosecution or defense of separate actions*. This MDL consists of nearly 2,000 individual actions by class members. That would appear to cut against class certification, as it seems that many class members are capable of, and are, litigating individually. However, the proposed class consists of more than 34,000 entities, meaning that a small fraction of them (fewer than 6% here in federal court) are litigating individually. The vast bulk of class members are not actively involved in opioid litigation. This factor cuts in favor of certifying a nationwide class. This is particularly true in the negotiation class certification context for two reasons: (a) any litigant interested in individually controlling its action can opt out and the proposed procedure will in no way interfere with that individual litigation, yet (b) negotiation class certification simultaneously engages absent class members in the negotiation and voting process. To the extent this factor favors individual control and involvement, the Court finds that the negotiation class will further that end, not impede it.

2. *The extent and nature of any litigation concerning the controversy already begun by or against class members*. As just noted, there are about 2,000 individual cases within this federal MDL and many more filed in state courts. Among those in coordinated pre-trial proceedings in this forum, a few have advanced toward bellwether trials, but all others are at earlier litigation phases. The proposed negotiation class will not displace or interfere with any of this on-going litigation. At the same time, this on-going litigation will resolve only a small quantity of the class's claims, as noted above, meaning that the extent of the on-going litigation is limited compared to the size of the class. This factor cuts in favor of certifying a nationwide negotiation class.

3. *The desirability or undesirability of concentrating the litigation of the claims in the particular forum*. The JPML has already coordinated the many pending cases in this forum. This factor therefore cuts in favor of certifying a negotiation class, as a class approach is an efficient means of handling the 2,000 individual matters that are here.

4. *The likely difficulties in managing a class action.* This prong is inapplicable to the proposed negotiation class, as the proposal is not for litigation or trial, but simply for settlement negotiations. *Amchem*, 521 U.S. at 620 (holding that where the plaintiffs' class certification "proposal is that there be no trial," it is unnecessary to "inquire whether the case, if tried, would present intractable management problems").

The Attorney General of the State of Ohio argues that a class action is not a superior form of adjudication because the claims are more properly the province of the States, not the cities and counties. Doc. #: 1973 at 4. The letter joined by roughly 40 Attorneys General implies the same point without explicitly saying so. Doc. #: 1951 at 3–4. If the Attorneys General believe they control their local governments' litigation, then they can attempt to foreclose it directly. To date,

they have made no effort in this Court to shut down their constituent entities' cases. Until they do so, this Court remains vested with more than 2,000 separate actions by cities and counties from throughout the United States. The Court cannot pretend these cases do not exist. The Judicial Panel on Multidistrict Litigation has ordered it to coordinate pretrial litigation in most of these cases and Article III requires it to resolve those directly filed here.

* * *

For the foregoing reasons, the Court finds that all of the class certification requirements are met with respect to the two RICO claims and two CSA issues, as to each relevant Defendant on each claim or issue. In reaching these conclusions, the Court makes clear that it has not certified these claims or issues for trial. Because of the limited nature of negotiation class certification, including the fact that no defendant is required to utilize this process, many Defendants in this MDL did not even file opposition briefs. The analysis in this Memorandum Opinion is in no way meant to foreclose any Defendant from making any argument in opposition to a later motion for class certification, if such a motion is ever made here or in another forum. The Court's Order will so hold.

IV. THE COURT WILL LIKELY BE ABLE TO FIND THAT THE ALLOCATION AND VOTING PLAN TREAT CLASS MEMBERS EQUITABLY RELATIVE TO EACH OTHER

Rule 23 requires judicial approval of any proposed class action settlement. Fed. R. Civ. P. 23(e). The Rule sets forth a two-step process whereby the Court first ascertains whether the settlement is sufficiently likely to be approved as to warrant sending notice of it to the class, Fed. R. Civ. P. 23(e)(1)(B)(i), and then, after a notice and objection period, the Court makes a final determination of whether the settlement is "fair, reasonable, and adequate," Fed. R. Civ. P. 23(e)(2). One of the factors the Court must consider in making these assessments is whether "the proposal treats class members equitably relative to each other." Fed. R. Civ. P. 23(e)(2)(D). This means that if a monetary settlement is reached, this Court will be required to find that the money is being allocated fairly among the class members.

At this stage in the case, no settlement has been reached. However, with the negotiation class certification proposal, the movants have identified the settlement allocation and voting plans up front. They have done so to provide information to each class member about its relative share of any settlements reached and its relative enfranchisement under this proposal, so as to make the class member's current opt-out opportunity as meaningful as possible. The allocation and voting plans are therefore fixed – class members will make opt-out decisions based on them – and they will not change if a settlement is reached. Given that this class certification order could set in motion an elaborate negotiation and settlement process, the Court has stated that it should make a preliminary determination of the equity of these plans, given that it "would be perverse – and an enormous waste of judicial and social resources – to launch this whole negotiation class only to later hold that the allocation scheme, identified at the outset, was inequitable *ab initio*." Doc. #: 2529 at 3.

The Court specifically focused on the fact that both the voting and allocation plans distinguish between: (1) putative class members that filed litigation arising out of the opioid epidemic by June 14, 2019 ("litigating entities"), Doc. #: 1820-1 at 52, and (2) those class members that had not filed such litigation ("non-litigating entities"). As noted above, 10% of any settlement achieved for the Class will be set aside to help defray the legal fees of the litigating entities alone, with any unused portion flowing back into the full class's recovery fund, Doc. #: 1820-1 at 95–96; another 15% of any settlement is set aside for two purposes, one of which is to help defray the litigation expenses of the litigating entities alone, with, again, any unused portion flowing back into the full class's recovery fund, *id*. at 96; the proposed voting structure requires separate supermajority approvals from different sets of litigating class members and non-litigating class members, *id*. at 53-55; and litigating entities primarily drafted the proposal. To assist the Court in evaluating these distinctions, and in lieu of sending notice to and seeking reactions from the whole class at this stage in the proceedings, the Court asked Special Master Cathy Yanni to file a report analyzing whether the proposed allocation and voting plans treat the non-litigating class members equitably. Doc. #: 2529.

On September 10, 2019, Special Master Yanni filed a 17-page report in response to the Court's request. Doc. #: 2579. The Court has carefully reviewed Special Master Yanni's thoughtful and thorough report and adopts her findings. As to the allocation plan, the Court agrees with Special Master Yanni's conclusion that the method for allocating the core class recovery (75% of the fund) reflects a lot of hard work and is a significant and eminently fair step toward resolution of these many cases. Nothing in the allocation model appears to skew toward any group other than those hardest hit by the opioid epidemic. The Attorney General of Ohio argues that the model favors large cities (many of which serve as Class Representatives), as opposed to smaller

hard-hit counties he identifies by name, Doc. #: 1973 at 5, but his understanding is incorrect. A review of the allocations to the counties he identifies demonstrates that the smaller, hard-hit counties appropriately receive more recovery per capita than larger counties that have been less-severely impacted.[9] Similarly, a handful of counties filed an objection to the plan, arguing that the counties hardest hit by the epidemic, as measured by the allocation tool, are not necessarily the same counties that have been forced to expend the most resources combatting the epidemic. Doc. #: 1958 at 6–7. The model sets aside 15% of the class's recovery in its Special Needs Fund to, *inter alia,* address precisely these sorts of possible problems. There are a variety of intricacies of the model – how counties and cities will divide their county's recovery; how to deal with cities with recoveries so small as to be impractical to distribute; how the model works when a county opts out but its cities do not, etc. – but despite opponents' contentions, Doc. #: 1949 at 19–23, none of these is fatal and the movants' approach to each – as reflected in the updated notice and FAQ documents – is thoughtful and defensible.

Separate from the fairness of the allocation tool governing 75% of the class's recovery, the Court agrees with Special Master Yanni's conclusions that there is no inequity created by setting aside funds to address the litigation costs and legal fees of the parties that filed the early cases. As she notes, the "litigating class members are responsible for, *inter alia*, launching this litigation in state and federal courts, generating the establishment of this MDL, pursuing bellwether cases, uncovering critical facts through the discovery process, and creating significant negotiating

[9] Application of the allocation tool at the case website shows that the large counties the Ohio Attorney General identifies have per capita settlement values of $2.79 (Cuyahoga); $4.46 (Franklin); and $3.43 (Summit), for an average of $3.56; the smaller counties on whose behalf the Attorney General protests have settlement values of $4.64 (Adams); $6.08 (Jackson); $2.65 (Perry); $6.15 (Ross); $5.68 (Scioto) and $3.01 (Vinton), for an average of $4.70, or 32% greater than the large counties.

leverage." Doc. #: 2579 at 7. Given these facts, if a settlement is reached, these early champions of the class will likely be able to demonstrate that they are eligible for fees and costs from a common fund and, indeed, it may be unfair to them to force them to bear these costs alone. *Id.* at 7–8. Additionally, as Special Master Yanni notes, all fees and costs in a class action must be adjudicated according to the procedures set forth in Rule 23(h) and this Court will carefully scrutinize each fee request, as well as the total amount of fees paid from the class's recovery to all of the many attorneys involved here – Class Counsel, the MDL leadership, litigating-entity lawyers, etc. – to ensure that the Class is not unduly taxed. *Id.* at 8. Importantly, the model clarifies that any monies in these separate pools that are not distributed to litigating entities would revert to the entire class.

The Court also accepts Special Master Yanni's conclusion that the voting plan – requiring separate sets of votes from litigating entities and non-litigating entities – does not treat the non-litigating counties unfairly. As she concluded:

> (1) all class members have the same franchise (one vote); (2) the vote-counting mechanism understandably ensures that any settlement is approved by a majority of the class, counted by head, by population, and by impact; (3) the vote-counting mechanism further ensures against the non-litigating class members approving a low settlement unacceptable to the litigating class members; (4) that assurance is defensible on the grounds that the litigating entities are the most knowledgeable about the value of the class's claims; and (5) the fact that nonlitigating entities must separately approve the settlement tempers concerns that the litigating entities will settle low to recover their costs, as does the fact that the litigating entities are likely to be able to spread their costs across the whole class as described above.

Id. at 13.

Finally, having found that neither the allocation nor voting mechanisms enshrine any fundamental intra-class conflict between litigating and non-litigating entities, Special Master Yanni concluded that a single set of class representatives and class counsel could represent the whole class, without the need for sub-classes. *Id.* at 13–17. The Court agrees.

V. THE NOTICE AND EXCLUSION PLANS ARE SUFFICENT

A. Notice

The moving parties submitted proposed notices and a notice plan, Doc. #: 1820-2, Ex. A, and Interim Class Counsel subsequently submitted updated versions of these documents. Doc. ##: 2583, 2583-1, 2583-2. The Court has carefully reviewed these documents and finds that they comply with the requirements of Rule 23 and that, as due process requires, they are "reasonably calculated, under all the circumstances, to apprise interested parties of the pendency of the action and afford them an opportunity to present their objections [or otherwise safeguard their interests]." *Vassalle v. Midland Funding LLC*, 708 F.3d 747, 759 (6th Cir. 2013) (citation and internal quotation marks omitted).

Rule 23(c) requires the Court in a class action under Rule 23(b)(3) to "direct to class members the best notice that is practicable under the circumstances, including individual notice to all members who can be identified through reasonable effort," and notes that such notice may be "by one or more of the following: United States mail, electronic means, or other appropriate means." Fed. R. Civ. P. 23(c)(2)(B). Here the notice will be sent by first-class United States mail to all class members. Doc. #: 2583 at 3–4. It will also be posted at the class website. *Id.* at 4. The notice will also be emailed to that sub-set of the class for which the notice administrator has email addresses. *Id*. at 4 n.1. The *method* requirements of Rule 23(c)(2)(B) are met.

The Rule further requires that the notice "clearly and concisely state in plain, easily understood language: (i) the nature of the action; (ii) the definition of the class certified; (iii) the class claims, issues, or defenses; (iv) that a class member may enter an appearance through an attorney if the member so desires; (v) that the court will exclude from the class any member who requests exclusion; (vi) the time and manner for requesting exclusion; and (vii) the binding effect

of a class judgment on members under Rule 23(c)(3)." Fed. R. Civ. P. 23(c)(2)(B)(i)–(vii). The notice packet contains a two-page notice along with a 13-page set of Frequently Asked Questions (FAQs), Doc. #: 2583-1, in a format recommended by the Federal Judicial Center, *see* Fed. Judicial Ctr., *Judges' Class Action Notice and Claims Process Checklist and Plain Language Guide* 8–9 (2010), https://www.fjc.gov/sites/default/files/2012/NotCheck.pdf. The two-page notice alone contains each of the seven pieces of information required by Rule 23 and the FAQs provide even more detailed information as to most. The *content* requirements of Rule 23(c)(2)(B) are met.

Beyond the basics, the Court notes, as discussed above, that the moving parties have gone to great lengths to make transparent the various aspects of this unique procedure – the allocation formula and its underlying components, the voting plans, etc. A class website, active since June, has provided a wealth of information to the putative class members and will continue to do so following certification. The moving parties have done a commendable job making transparent all of the moving parts of this novel procedure. The Court finds that the class members have been provided a wealth of pertinent information that will enable them to make informed decisions about whether to remain in or opt out of this Negotiation Class.

B. Exclusion

Rule 23(c)(2)(B) requires, for any class certified under Rule 23(b)(3), that the district court send notice to class members informing them "that the court will exclude from the class any member who requests exclusion," Fed. R. Civ. P. 23(c)(2)(B)(v), and specifying "the time and manner for requesting exclusion," Fed. R. Civ. P. 23(c)(2)(B)(vi). The Federal Judicial Center recommends that a form be provided to class members, *see Manual for Complex Litigation* (*Fourth*) §§ 21.311–21.312 (2004) [hereinafter *Manual for Complex Litigation*], and instructs that the form should "clearly and concisely explain the available alternatives and their consequences,"

id. at § 21.321. Exclusion notices should require "that class members (1) mail a letter or post card; (2) by a date certain; (3) to a specific address; (4) clearly identifying themselves and/or some information demonstrating their membership in the class" but "[c]lass members are not required to give reasons for opting out." 3 *Newberg on Class Actions* § 9:46. Rule 23 does not mandate a time period within which class members must exercise their exclusion right, but the *Manual for Complex Litigation* suggests that class members be given a "reasonable time" and states that courts "usually establish a period of thirty to sixty days (or longer if appropriate) following mailing or publication of the notice for class members to opt out." *Manual for Complex Litigation* § 21.321.

The movants propose that Class Members be required to fill out a designated Exclusion Request Form, Doc. #: 2583-2, and be given 60 days (until a date certain – November 22, 2019) to do so. Doc. #: 2583 at 5. The movants explain that the "form can be submitted to the Notice Administrator via either first-class mail or email." Doc. #: 2583 at 3. The Exclusion Request Form is part of the Notice packet and will be posted and distributed in the same manner as the Notice packet. *Id.* The movants further explain that:

> Exclusion Request Forms would not have to be notarized but, instead, would have to be executed with an averment, pursuant to 28 U.S.C. § 1746, that the city or county official has the authority to submit the exclusion request. Also, the form would contain an express acknowledgment of the consequences of opting out (including that the city or county will not share in any recovery achieved by the Class and that it may not be afforded an opportunity at a later date to revoke its opt-out request). Mandating use of a specific form for opting out should sharply reduce, if not eliminate altogether, both disputes as to whether opt-out requests comported Court-directed requirements as well as potential arguments about whether optouts genuinely understood the ramifications of their exclusion requests.

Id.

The Court has reviewed the Exclusion Request Form and finds that it meets the requirements of Rule 23. It clearly explains the ramifications of exclusion, and it provides exact

instructions about how and when to execute and return the form. The plan sufficiently protects the absent-class members' right to exclude themselves from this Class.

CONCLUSION

For the foregoing reasons, the Court certifies a Negotiation Class on the claims and issues identified, against the Defendants identified, and appoints Class Counsel. The Negotiation Class is authorized to negotiate settlements with any of the 13 sets of Defendants identified herein, on any of the claims or issues identified here, or those arising out of a common factual predicate. *See Moulton v. U.S. Steel Corp.*, 581 F.3d 344, 349 (6th Cir. 2009) ("The question [of whether a subsequent claim is barred] is not whether the definition of the claim in the complaint and the definition of the claim in the release overlap perfectly; it is whether the released claims share a 'factual predicate' with 'the claims pled in the complaint.'" (quoting *Olden v. Gardner*, 294 F. App'x 210, 220 (6th Cir. 2008))). *See generally* 6 *Newberg on Class Actions* § 18:19. If Class Counsel seek to utilize the Negotiation Class to negotiate against any other Defendants, they may later make a formal motion to amend the class certification order accordingly. As set forth in an accompanying Order, this Court does ***not*** authorize the Negotiation Class to negotiate on behalf of cities and counties against their State governments, as its proponents suggested. Doc. #: 1820-1 at 53. This puts to rest a concern raised by the Attorneys General. Doc. #: 1951 at 3.

As noted throughout, an Order accompanies this Memorandum Opinion.

UNITED STATES DISTRICT COURT
FOR THE NORTHERN DISTRICT OF OHIO
EASTERN DIVISION

IN RE: NATIONAL PRESCRIPTION OPIATE LITIGATION **THIS DOCUMENT RELATES TO:** **All Cases** **and** *The County of Summit, Ohio, et al., v. Purdue Pharma L.P. et al.,* Case No. 18-op-45090	**Case No. 1:17-md-2804** **Case No. 18-op-45090** **Judge Dan Aaron Polster** **ORDER CERTIFYING NEGOTIATION CLASS AND APPROVING NOTICE**

1. The Court held a hearing on August 6, 2019, to consider and determine Plaintiffs' Renewed and Amended Motion for Certification of a Rule 23(b)(3) Cities/Counties Negotiation Class. Doc. #: 1820.

2. Upon review and consideration of all of the papers and presentations submitted in connection with the proposed Negotiation Class, this Court finds and **ORDERS** the following:

3. This Court has been provided with information sufficient to enable it to determine that it is appropriate (a) to grant certification to a Negotiation Class; (b) to approve the proposed Notice Plan filed in Doc. #: 2583; (c) to set a deadline of November 22, 2019 for Class members to opt out; and (d) to thereafter confirm the membership of the Class by entry of an Order pursuant to Rule 23(c), giving all parties notice of the entities that are included in, and that are excluded from, the Class.

4. The Class is defined as:

> All counties, parishes, and boroughs (collectively, "counties"); and all incorporated places, including without limitation cities, towns, townships, villages, and municipalities (collectively "cities").

A complete list of Class Members is available on the Opioids Negotiation Class website, www.opioidsnegotiationclass.info.

5. By separate Memorandum Opinion, the Court has found:

- that the class is so numerous that joinder of all members is impracticable; that there are questions of law and fact common to the class; that the claims of the representative parties are typical of the claims of the class; and that the representative parties will fairly and adequately protect the interests of the class, as required by Fed. R. Civ. P. 23(a)(1)–(4);

- that questions of law and fact common to class members predominate over any questions affecting only individual members with respect to a RICO claim arising out of the alleged Opioid Marketing Enterprise, as against five (5) named sets of Defendants (Purdue, Cephalon, Janssen, Endo, and Mallinckrodt), and as to a RICO claim arising out of the alleged Opioid Supply Chain Enterprise, as against eight (8) named Defendants (Purdue, Cephalon, Endo, Mallinckrodt, Actavis, McKesson, Cardinal, and AmerisourceBergen), and that a class action is superior to other available methods for fairly and efficiently adjudicating the controversy, as required by Rule 23(b)(3); and

- that questions of law and fact common to class members predominate over any questions affecting only individual members with respect to two specific issues related to the obligations of 13 sets of Defendants (Purdue, Cephalon, Endo, Mallinckrodt, Actavis, Janssen, McKesson, Cardinal, AmerisourceBergen, CVS Rx Services, Inc., Rite-Aid Corporation, Walgreens, and Wal-Mart) under the Controlled Substances Act, and that a class action is superior to other available methods for fairly and efficiently adjudicating the controversy with respect to these issues, as required under Rule 23(c)(4), as interpreted by the Sixth Circuit in *Martin v. Behr Dayton Thermal Prod. LLC*, 896 F.3d 405 (6th Cir. 2018), *cert. denied*, 139 S. Ct. 1319 (2019).

The Court accordingly certifies the two RICO claims against the five and eight Defendants, respectively, under Rule 23(b)(3), and the two CSA issues against the 13 identified Defendants

under Rule 23(c)(4). The accompanying Memorandum Opinion clarifies that these 13 identified Defendants encompass families of companies.

6. In its Memorandum Opinion, the Court specifically found the 49 proposed Class Representatives' claims to be typical of those of the Class and found that these proposed Class Representatives will adequately represent the class. The Court accordingly appoints these 49 entities to serve as the Negotiation Class's Class Representatives:

> (1) County of Albany, New York; (2) City of Atlanta, Georgia; (3) Bergen County, New Jersey; (4) City of Baton Rouge/East Baton Rouge Parish, Louisiana; (5) Broward County, Florida; (6) Camden County, New Jersey; (7) Cass County, North Dakota; (8) City of Chicago, Illinois; (9) Cobb County, Georgia; (10) City of Concord, New Hampshire; (11) Cumberland County, Maine; (12) City of Delray Beach, Florida; (13) Denver, Colorado; (14) Escambia County, Florida; (15) Essex County, New Jersey; (16) County of Fannin, Georgia; (17) Franklin County, Ohio; (18) Galveston County, Texas; (19) County of Gooding, Idaho; (20) City of Grand Forks, North Dakota; (21) County of Hennepin, Minnesota; (22) City of Indianapolis, Indiana; (23) County of Jefferson, Alabama; (24) Jefferson County/ City of Louisville, Kentucky; (25) Jersey City, New Jersey; (26) Kanawha County, West Virginia; (27) King County, Washington; (28) City of Lakewood, Ohio; (29) City of Los Angeles, California; (30) City of Lowell, Massachusetts; (31) City of Manchester, New Hampshire; (32) Maricopa County, Arizona; (33) Mecklenburg County, North Carolina; (34) The Metropolitan Government of Nashville and Davidson County, Tennessee; (35) Milwaukee County, Wisconsin; (36) Monterey County, California; (37) City of Norwalk, Connecticut; (38) County of Palm Beach, Florida; (39) Paterson City, New Jersey; (40) City of Phoenix, Arizona; (41) Prince George's County, Maryland; (42) Riverside County, California; (43) City of Saint Paul, Minnesota; (44) City of Roanoke, Virginia; (45) County of Rockland, New York; (46) City and County of San Francisco, California; (47) County of Smith, Texas; (48) County of Tulsa, Oklahoma; and (49) Wayne County, Michigan.

7. In its separate Memorandum Opinion, and the prior Interim Class Counsel Orders (Doc. ##: 2490, 2493), the Court has found that lawyers Jayne Conroy, Christopher Seeger, Gerard Stranch, Louise Renne, Zachary Carter, and Mark Flessner meet the requirements to serve as Negotiation Class Counsel, as required by Rule 23(g). The Court accordingly appoints Jayne Conroy and Christopher Seeger to serve as Co-Lead Negotiation Class Counsel and Gerard

Stranch, Louise Renne, Zachary Carter, and Mark Flessner to serve as Co-Negotiation Class Counsel.

8. Class Counsel and only Class Counsel are authorized to (a) represent the Class in settlement negotiations with Defendants; (b) sign any filings with this or any other Court made on behalf of the Class; (c) assist the Court with functions relevant to a class action, such as but not limited to maintaining the Class website and executing a satisfactory notice program; and (d) represent the Class in Court.

9. As explained in the accompanying Memorandum Opinion, the Court finds that there is no bar to Class Counsel working with the MDL Negotiation Committee members in negotiating with Defendants, nor is there any bar to these MDL lawyers seeking to apply to share Class Counsel responsibilities in the future should their representational situations change. However, as noted above, only Class Counsel can bind the Class and thus Class Counsel must independently approve all final decisions concerning any Class-based settlement and be the sole signatories on behalf of the Class of all Class-based term sheets, settlement agreements, or similar documents.

10. In its Memorandum Opinion, the Court analyzed the scope of the claims and issues proposed for certification with reference to the complaints filed by Summit County, Ohio, Doc. ##: 513, 1466; these complaints also served as the basis for the Court's Order adopting a short-form complaint process in this MDL. Doc. # 1282. The Summit County, Ohio case number is accordingly attributed to this class action going forward and all matters in the class action will utilize the caption on this Order. For administrative convenience, the Clerk may assign a different

case number within the *Summit County* case for Class Action filings, to distinguish these from the individual filings in that case.

11. As explained in the accompanying Memorandum Opinion, the Court has found that the proposed Class Action Notice program submitted by Interim Class Counsel on September 10, 2019, Doc. #: 2583, meets the requirements of Rule 23. Accordingly, the proposed Class Action Notice program is approved for mailing to the whole Class, for posting on the Opioids Negotiation Class website, www.opioidsnegotiationclass.info, and for emailing to those members of the Class with email addresses known to the Notice provider. The Class Action Notice, Doc. #: 2583-1, shall be mailed to all entities listed as Class members on www.opioidsnegotiationclass.info as soon as possible. Epiq Global is hereby approved to serve as Class Notice provider, is authorized and directed to effectuate first-class mail and email notice to the Class, and is ordered to provide a Report to this Court, no later than December 1, 2019 on the completion of the Class Notice program.

12. As explained in the accompanying Memorandum Opinion, the Court has found that the proposed plan for enabling Class Members to exclude themselves from the class, submitted by Interim Class Counsel on September 10, 2019, Doc. ##: 2583, 2583-2, meets the requirements of Rule 23. Specifically, Class Members wishing to exclude themselves from – or "opt out" of – the class must request exclusion by signing the Exclusion Form, under penalty of perjury, and sending it via email to <info@OpioidsNegotiationClass.info> or via first-class mail to NPO Litigation, P.O. Box 6727, Portland, OR 97228-6727. This request must be signed by an official or employee authorized to take legal action on behalf of the County or City requesting exclusion. If the Class Member returns the Exclusion Request Form via email attachment, the email must be sent on or

before November 22, 2019. If the Class Member returns the Exclusion Request Form via mail, it must use first-class U.S. mail and the mailing must be postmarked on or before November 22, 2019.

13. The Order does not certify the Negotiation Class for any purpose other than to negotiate for the class members with the thirteen (13) sets of national Defendants identified above. Accordingly, this Order is without prejudice to the ability of any Class member to proceed with the prosecution, trial, and/or settlement, in this or any court, of an individual claim, or to the ability of any Defendant to assert any defense thereto. This Order does not stay or impair any action or proceeding in any court, and Class members may retain their Class membership while proceeding with their own actions, including discovery, pretrial proceedings, and trials. In the event a Class Member reaches a settlement or trial verdict, it may proceed with its settlement/verdict in the usual course without hindrance by virtue of the existence of the Negotiation Class. Such Class Member may not, however, collect on its individual settlement/judgment and also participate in any Class settlement fund.

14. This Order is without prejudice to any party's ability to oppose the certification of this or any other class, proposed for litigation or settlement, with respect to any opioids-related claim, defense, issue, or question. Accordingly, no class member or any party, or counsel to a party, to this proceeding may cite this Order or the accompanying Memorandum Opinion as precedent or in support of, or in opposition to, the certification of any class for any other purpose in any opioids-related litigation by or against any party thereto. Persons not parties to this proceeding are informed that this Order and the accompanying Memorandum Opinion are not

intended to serve as a precedent in support of, or in opposition to, any motion for class certification of any type pursued in any court on opioid-related matters.

15. This Order does not alter existing law with respect to the relationship between any State and its political subdivisions. As already ordered in appointing Interim Negotiation Class Counsel, Doc. #: 2490, Negotiation Class Counsel are authorized to negotiate settlements with Defendants on behalf of the putative class but are ***not*** authorized to negotiate on behalf of Class members within a given State against their State government should allocation disputes arise during or following State settlements.

16. This Order does not approve, or commence the approval process for, any specific settlement or proposed settlement. Any settlement reached with the Negotiation Class must and will be subject to the specific settlement approval process of Rule 23(e).

17. The Court adopts by reference as applicable to Class Counsel the time-keeping guidelines, spending limitations, and other requirements of its Order Regarding Plaintiff Attorney's Fees and Expenses entered in this MDL, Doc. #: 358.

18. If any settlement is reached under this process, supported by the Class, and approved by the Court, no attorney's fees of any kind will be distributed from the class's recovery or any other source except according to the procedures sets forth in Rule 23(h). This includes Class Counsel's fees, fees for attorneys representing litigating entities (as described in the Memorandum Opinion, for whom 10% of any recovery is set aside), fees for MDL common benefit work, fees for objectors, or any other fee requests.

19. This Order applies to the previously-identified 13 sets of national Defendants. None of these Defendants is required by this Order to engage with the Negotiation Class. This is

a voluntary mechanism developed to address the unique circumstances of this litigation, which the Court hopes will directly or indirectly facilitate the voluntary, fair, adequate and reasonable resolution of the cities' and counties' claims pending in these MDL No. 2804 proceedings and in related state court litigation, and promote the overall resolution of the litigation.

20. In light of its purpose to facilitate settlement, the Negotiation Class will terminate five (5) years from the date below, except as necessary to enable then-ongoing settlement negotiations, approval processes, enforcement and administration to be completed.

THIS DOCUMENT RELATES TO:	)	**Case No. 1:18-op-45090**

and	)	**ORDER CLARIFYING NEGOTIATION CLASS CERTIFICATION ORDER**
The County of Summit, Ohio, et al., v. Purdue Pharma L.P. et al., Case No. 18-op-45090	)	

On September 11, 2019, the Court certified a Negotiation Class. Doc. ##: 2590 (Memorandum Opinion); 2591 (Order). Class members have until November 22, 2019 to exercise their right to opt out of the Class. Two separate questions about the relationship of the class action to on-going legal proceedings have arisen. Given the importance of these issues to the Class members' pending opt-out decision, the Court provides the following two clarifications of its Order. Both clarifications relate to the initial Order's insistence that the Negotiation Class not disrupt on-going litigation. Specifically, the Court stated:

> [T]his [Negotiation Class Certification] Order is without prejudice to the ability of any Class member to proceed with the prosecution, trial, and/or settlement, in this or any court, of an individual claim, or to the ability of any Defendant to assert any defense thereto. This Order does not stay or impair any action or proceeding in any court, and Class members may retain their Class membership while proceeding with their own actions, including discovery, pretrial proceedings, and trials.

Doc. #: 2591 at ¶ 13.

FIRST CLARIFICATION – DUAL SETTLEMENTS

In the same paragraph of the class certification Order in which it noted that the Negotiation Class would not disrupt on-going proceedings, the Court further stated:

> In the event a Class Member reaches a settlement or trial verdict, it may proceed with its settlement/verdict in the usual course without hindrance by virtue of the existence of the Negotiation Class. ***Such Class Member may not, however, collect on its individual settlement/judgment and also participate in any Class settlement fund***.

Id. (emphasis added).

The highlighted language is not as precise as it should be. First, it fails to account for the fact that the Class is authorized to negotiate settlements with 13 sets of defendants and that a Class settlement may be defendant-specific. Thus, if a Class member collects on an individual settlement or judgment against one defendant, it may not participate in any Class settlement fund *as to that defendant*, but otherwise may participate in Class settlements as to other defendants.

The highlighted language also bars from participation in a Class settlement fund those Class members who have already collected on their settlement or judgment, without clarifying what "collect" means in this context. There are numerous ways in which individual judgments or settlements may precede, be intertwined with, or overlap Class settlements. The underlying principle is that Class members should not be able to participate in a Class settlement if that participation is inequitable to other Class members or to the defendant, given any related recovery from the same defendant. But the ways in which this issue could arise are many and complex and they evade a simple rule. The Court therefore deems it most prudent to re-state the principle as a presumption against double-recoveries, but to reserve authority to determine in the context of actual situations whether Class members with prior judgments or settlements should be precluded from participation in the Class's settlement.

For these reasons, the final sentence of ¶ 13 in Doc. #: 2591 is modified such that the paragraph's final two sentences, quoted above, shall read:

> In the event a Class Member reaches a settlement or trial verdict, it may proceed with its settlement/verdict in the usual course without hindrance by virtue of the existence of the Negotiation Class. There is a presumption that such Class Member may not, however, collect on its individual settlement or judgment and also participate in any Class settlement fund with respect to the same defendant(s), but the presumption may be overcome in particular circumstances upon good cause demonstrated to the Court, after notice to the Class Representatives, Class Counsel, and the pertinent defendant(s).

SECOND CLARIFICATION – CONTESTED JURISDICTION

Some members of the Negotiation Class filed opioid-related lawsuits in state courts, had their cases removed by the defendant(s) to federal court, and then transferred to the MDL by the Judicial Panel on Multidistrict Litigation. In some of these actions, the plaintiffs are contesting removal, and seeking remand to state court, on the grounds that the federal court lacks subject matter jurisdiction over their individual cases. One Class member in this situation—the City of Seattle—seeks clarification that a decision to remain in, and not opt out of, the Negotiation Class will not be viewed as a waiver of its arguments in support of remand of its individual case. *See, e.g., City of Seattle v. Purdue Pharma L.P., et al.*, Case No. 1:18-op-45089, Doc. #: 49 (Sept. 27, 2019). Specifically, the City of Seattle seeks an order "formally clarifying that participation in the Negotiation Class will not, and shall not, be construed as consent to this Court's jurisdiction or to otherwise waive pending remand motions." *Id.* at 2.

The Court grants Seattle's motion. Specifically, the Court again re-iterates that the Negotiation Class is not meant to affect any on-going litigation. As such, a Class member's decision to remain in the Negotiation Class in no way curtails its individual litigation, including its ability to seek remand of its individual action to state court on the grounds that that individual case falls outside the subject matter jurisdiction of the federal courts. Moreover, because federal

subject matter jurisdiction cannot be created by the consent of the parties, *Ammex, Inc. v. Cox*, 351 F.3d 697, 702 (6th Cir.2003) ("Subject-matter jurisdiction cannot be conferred by consent of the parties, nor can it be waived.") (citing *Alongi v. Ford Motor Co.*, 386 F.3d 716, 728 (6th Cir. 2004), a class member's choice to remain in a federal class action has no bearing on whether a federal court has subject matter jurisdiction over its individual lawsuit(s). A Class member's decision to remain in the Negotiation Class does, of course, subject it to the federal court's authority with respect to any matters pertinent to the class action itself.

IT IS SO ORDERED.

NORTHERN DISTRICT OF OHIO

EASTERN DIVISION

IN RE: NATIONAL PRESCRIPTION	MDL 2804
OPIATE LITIGATION	Case No.: 1:17-md-2804
THIS DOCUMENT RELATES:	Judge Dan Aaron Polster
ALL CASES	

CORRECTED [PROPOSED] RULE 23(c)(1)(B) NEGOTIATION CLASS MEMBERSHIP ORDER

1. This Court held a hearing on August 6, 2019 to consider and determine whether to grant class certification under Fed. R. Civ. P. 23(a)(1)-(4) and 23(b)(3) a Negotiation Class, defined as:

> All Counties, Parishes, and Boroughs (collectively, "Counties"); and all incorporated places, including without limitation cities, towns, villages, townships, and municipalities, as recognized by the United States Census Bureau (collectively "cities"); and listed on the Opioids Negotiation Class website, www.opioidsnegotiationclass.com.

2. On September 11, 2019, this Court issued a Memorandum Opinion (ECF No. 2590) and entered an Order (ECF No. 2591) certifying the proposed Negotiation Class, approving the proposed notice and opt-out procedures (including an opt-out deadline of November 22, 2019), and confirming the appointment of Negotiation Class Counsel.

3. On December 2, 2019, Negotiation Class counsel submitted a Report on Negotiation Class (ECF No. 2959) describing the notice and opt-out process and the interim calculations of the number of requests to opt-out of the Negotiation Class, as well as requests by certain Negotiation Class members to rescind their opt-out requests and remain in the Negotiation Class.

4. On January 10, 2020, Negotiation Class counsel submitted a Request for Entry of Proposed Rule 23(c)(1)(B) Negotiation Class Membership Order, setting forth (a) the Negotiation Class members that had submitted opt-out requests as of the opt-out deadline, (b) Negotiation Class members that had submitted opt-out requests after the opt-out deadline, and (c) Negotiation Class members that had requested to rescind their opt-out requests. Negotiation Class counsel advised that no settlement offer had yet been presented to the members of the Negotiation Class and requested that the Court exclude from the Negotiation Class all members that submitted opt-out requests (including requests submitted after the November 22, 2019 deadline), and allow to remain in the Negotiation Class any member that requested to rescind their opt-out request as of January 10, 2020. (Negotiation Class counsel advised that additional entities may seek to rescind their exclusion requests and Negotiation Class counsel may seek leave on noticed motion in the future to amend the Negotiation Class membership to allow such entities to remain in the Negotiation Class).

5. Upon review and consideration of the above papers, this Court **Orders** the following:

a. All Counties and cities (as defined in paragraph 1 above) that have not submitted an opt-out request (see Appendix A to this Order) are members of the Negotiation Class.

b. All Counties and cities (as defined in paragraph 1 above) that submitted an opt-out request, but rescinded that request as of January 10, 2020 (see Appendix B to this Order) are members of the Negotiation Class.

c. All Counties and cities (as defined in paragraph 1 above) that submitted an opt-out request on or before November 22, 2019 and have not rescinded that request (see Appendix C to this Order) are excluded from the Negotiation Class.

d. All Counties and cities (as defined in paragraph 1 above) that submitted an opt-out

request between November 23, 2019 and January 10, 2020 and have not rescinded that request (see Appendix D to this Order) are excluded from the Negotiation Class.

It is so ORDERED.

OPINION

CLAY, Circuit Judge. The latest appeal in this multi-district litigation ("MDL") relating to the opioid crisis centers on the district court's order certifying a "negotiation class" under Federal Rule of Civil Procedure 23. The court has certified a class of all cities and counties throughout the United States for purposes of negotiating a settlement between class members and

opioid manufacturers, distributors, and pharmacies. Appellants, objecting opioid distributors and retail pharmacies ("Defendants"), as well as six objecting Ohio cities, appeal the district court's order certifying this negotiation class. Appellees, putative representatives of the negotiation class ("Plaintiffs"), request us to approve this novel form of class action. For the reasons provided below, we decline to do so, and therefore **REVERSE** the district court's order.

BACKGROUND

The national prescription opioid MDL, consolidated in the Northern District of Ohio, consists of over 1,300 public-entity-led lawsuits, primarily filed by cities and counties. *In re Nat'l Prescription Opiate Litig.*, 927 F.3d 919, 923 (6th Cir. 2019). These cities and counties allege that opioid manufacturers, opioid distributors, and opioid-selling pharmacies and retailers acted in concert to mislead medical professionals into prescribing, and millions of Americans into taking and often becoming addicted to, opiates. *In re Nat'l Prescription Opiate Litig.*, 2018 WL 4895856, at *2–5, *36–37 (N.D. Ohio Oct. 5, 2018), *report and recommendation adopted in part and rejected in part*, 2018 WL 6628898 (N.D. Ohio Dec. 19, 2018). Plaintiffs allege that approximately 350,000 individuals in the United States died from an opioid overdose between 1999 and 2016. *Id.* at *2. The opioid industry's practices allegedly harmed Plaintiffs by forcing them to divert significant funding to emergency public health and public safety responses to the crisis. *Id.* at *37. Plaintiffs across the MDL allege numerous causes of action, including claims based upon the federal Racketeer Influenced and Corrupt Organizations Act ("RICO"), 18 U.S.C. § 1961 *et seq.*, its state analogues, state statutory public nuisance law, and several other state common law claims. *Id*. at *5, *31, *35, *41, *44, *46.

Throughout its time overseeing the MDL, the district court has repeatedly sought to facilitate settlements between the parties. *See, e.g.*, *In re Nat'l Prescription Opiate Litig.*, 332 F.R.D. 532, 536 (N.D. Ohio 2019) ("From the outset of this MDL, the Court has encouraged the parties to settle the case."); R. 800, Op. & Order, PageID # 18971 (noting that the court's order will assist "in litigating (and hopefully settling) these cases").[1] Plaintiffs aligned themselves with that goal when, on June 14, 2019, attorneys representing fifty-one cities and

counties moved to certify a negotiation class under Federal Rule of Civil Procedure 23(b)(3). *In re Nat'l Prescription Opiate Litig.*, 332 F.R.D. at 537. Plaintiffs sought to include within the class every city and county within the United States, some 34,458 identified municipal entities, *id.* at 543, unless a prospective class member exercised its right to opt-out within sixty days of class certification. *Id.* at 539.

The idea for a negotiation class was developed by Professor Francis E. McGovern, a special master appointed to aid the district court in the MDL, in collaboration with Professor William B. Rubenstein. *See* Francis E. McGovern & William B. Rubenstein, *The Negotiation Class: A Cooperative Approach to Large Claim Class Actions* (Duke Law Sch. Pub. Law & Legal Theory Series, Paper No. 2019-41, 2019), https://papers.ssrn.com/sol3/papers.cfm?abstract_id=3403834. The primary difference between a negotiation class and a litigation class is that rather than forming a class to aggregate and try common issues, as with a litigation class, the negotiation class is designed to attempt to reach a settlement while the individual MDL cases continue along their respective litigation paths. *In re Nat'l Prescription Opiate Litig.*, 332 F.R.D. at 539.

The difference between a negotiation class and a settlement class is that in the case of a negotiation class, the class certification and opt-out process occur prior to a settlement being reached. *Id.* at 537. This is to "fix a class size and provide the Defendants a sense of the precise scope of the group with whom they are negotiating," before settlement talks begin. *Id.* The court indicated that class members would likely not have a second opportunity to opt-out; they must decide at the negotiation class certification stage—without knowing the settlement figure—whether they wish to "bind themselves to a negotiation process, from which they will receive a known portion of the outcome and in which they will get a right to vote on the settlement." *Id.* at 540.[2]

Despite not knowing the terms of the proposed settlement before deciding to opt-out of the class, putative class members' rights are allegedly protected in two ways. For one, Plaintiffs developed a county-level formula allocating any eventual settlement with Defendants.

[2]The district court did note that it "always retains the option of enabling a second opt-out opportunity if circumstances require." *In re Nat'l Prescription Opiate Litig.*, 332 F.R.D. at 540; *see also* Fed. R. Civ. 23(e)(4).

Prospective class members could use the formula (available online) to ascertain what percentage of a settlement their county could expect to receive.[3] *Id.* at 537. This is meant to give prospective class members sufficient information to determine if they stand to gain access to a large enough percentage of any possible settlement to justify remaining in the negotiation class. Second, a proposed agreement could only be accepted by the class if a supermajority (i.e., 75%) of six categories of voting class members assent to it. *Id*. If a settlement receives supermajority support, then the parties may move for judicial approval of the agreement. The district court would then need to determine that the proposal is "fair, reasonable, and adequate" in accordance with Rule 23(e). This process is supposed to eliminate one common obstacle to settlement in cases involving classes certified under 23(b)(3): the uncertainty defendants have with respect to whether enough putative class members will not opt-out of a settlement class after a monetary figure is reached.[4] From a defendant's perspective, if too many class members opt-out, then the size of the settlement class may no longer justify the cost of the agreement because the defendant will remain exposed to litigation by the opt-out members. However, in the case of this negotiation class, as long as the settlement is approved by a supermajority of the class, every member—including those who oppose the settlement—will be bound by it.

Several distributor and pharmacy defendants objected to Plaintiffs' motion, as did six putative city class members, thirty-seven state Attorneys General, and the Attorneys General of the District of Columbia and Guam. *In re Nat'l Prescription Opiate Litig.*, 332 F.R.D. at 537–38. On September 11, 2019, the district court disregarded these complaints and certified the class. The court found that:

> [T]here is nothing coercive about this process: no Defendant has to employ it. There is nothing exclusive about this process: it does not interfere with the States settling their own cases any way they want, and it does not stop parties in the MDL from settling in other ways. And there is nothing intrusive about this process: it does not stop any litigation from continuing and in no way interferes

[3]The formula does not provide for a city-level allocation. Instead, the cities would need to negotiate with their respective counties for a portion of the county's allocation. *See In re Nat'l Prescription Opiate Litig.,* 332 F.R.D. at 538.

[4]Pursuant to Rule 23, only members of classes certified under Rule 23(b)(3), rather than (b)(1) or (b)(2), are entitled to notice of class certification and an opportunity to opt-out of the class. Fed. R. Civ. P. 23(c)(2)(A), (B).

> with the upcoming bellwether trials in this MDL. This process simply provides an option – and in the Court's opinion, it is a powerful, creative, and helpful one.

Id. at 537. The district court also found that Plaintiffs' federal RICO and Controlled Substances Act ("CSA") claims, 21 U.S.C. § 801 *et seq.*, which were brought by many Plaintiffs in the MDL, satisfied the threshold requirements of Rule 23(a) as well as the predominance and superiority requirements of Rule 23(b)(3). *Id*. at 548–51. On January 10, 2020, Plaintiffs informed the district court that only 556 of the 34,458 putative class members opted-out of the negotiation class.

The aggrieved Defendants and putative classes members then filed motions in this Court for permission to file an appeal of the class certification order under Federal Rule of Civil Procedure 23(f). *See* No. 19-0305, Doc. # 1 (motion by the objecting distributor and pharmacy defendants); No. 19-0306, Doc. # 1 (motion by the six objecting putative class member cities). Plaintiffs filed an opposition to these motions, but a motions panel of this Court rejected their arguments and granted the motions for permission to appeal. This consolidated appeal followed.

DISCUSSION

Plaintiffs first contend that this appeal was improvidently granted because the district court did not reach a final decision suitable for appellate review. However, we already rejected this argument when Plaintiffs raised it before the motions panel in opposition to Defendants' petition under Rule 23(f) to appeal the district court's certification order. The motions panel concluded that "the district court entered a final order to certify the class, with no indication that it will review its decision in the future." *See* No. 19-0305, Doc. 24; No. 19-0306, Doc. 22 (Guy, Griffin, Kethledge). We are not inclined to disregard that decision. *See Kraus v. Taylor*, 715 F.3d 589, 594 (6th Cir. 2013) (stating that "this court's interlocutory orders are rarely altered as a practical matter," although they may be changed); *Wallace v. FedEx Corp.*, 764 F.3d 571, 583 (6th Cir. 2014) (holding that "[l]ater panels cannot simply choose to disregard" decisions by the motions panel).

In any event, Plaintiffs' argument on this point is without merit. Rule 23(f) provides that "[a] court of appeals may permit an appeal from an order granting . . . class-action certification

under this rule." This is precisely what the district court intended to do through its order. It "certifie[d] a Negotiation Class on the claims and issues identified, against the Defendants identified, and appoint[ed] Class Counsel." *In re Nat'l Prescription Opiate Litig.*, 332 F.R.D. at 556. It authorized the class to "negotiate settlements with any of the 13 sets of Defendants identified herein, on any of the claims or issues identified here, or those arising out of a common factual predicate." *Id.* This situation is unlike the settlement class cases cited by Plaintiffs, in which courts rejected as premature appeals of a court's "conditional" certification of a settlement class for case management purposes (such as to provide notice to absent class members), reserving actual certification for a later date. *See, e.g.*, *In re Nat'l Football League Players' Concussion Injury Litig.*, 775 F.3d 570, 584–89 (3d Cir. 2014). In *National Football League*, the district court expressly stated in its order granting conditional certification of a settlement class that "the proposed settlement class and subclasses 'preliminarily satisf[ied]' the requirements of Rule 23(a) and (b)." *Id.* at 585 (quoting *In re Nat'l Football League Players' Concussion Injury Litig.*, 301 F.R.D. 191, 202 (E.D. Pa. 2014)). Conversely, the district court's decision to certify a negotiation class in this case was final. As the district court itself noted, the putative class members were asked to decide whether to "bind themselves to a negotiation process," with no guarantee of a second opportunity to opt-out after a settlement figure was reached. *In re Nat'l Prescription Opiate Litig.*, 332 F.R.D. at 540. Therefore, this appeal is not premature; Defendants and the opt-out cities have properly challenged the district court's "order granting . . . class-action certification." Fed. R. Civ. P. 23(f).

Plaintiffs also challenge whether Defendants have appellate standing to pursue this appeal, suggesting that because Defendants in this case may simply ignore the negotiation class "with no legal consequences . . . they are under no legal order and accordingly lack standing to appeal." (Appellee's Br. at 39.) A party has appellate standing—which is distinct from Article III standing—when that party is "aggrieved by a judgment or order of a district court." *Deposit Guaranty Nat'l Bank v. Roper*, 445 U.S. 326, 333 (1980); *see also City of Cleveland v. Ohio*, 508 F.3d 827, 836 (6th Cir. 2007) ("To have appellate standing, 'a party must be aggrieved by the judicial action from which it appeals.'" (quoting *Vogel v. City of Cincinnati*, 959 F.2d 594, 599 (6th Cir, 1992))).

Defendants are plainly aggrieved by the certification of a negotiation class. Although the district court was clear that no Defendant must negotiate with the class, its presence obviously affects the state of play. The negotiation class is designed to fundamentally alter the nature of the MDL—to foster settlement through a novel means of class action that binds an unprecedented number of municipalities into a single bloc. The district court noted that the purpose of the certification order was to "promote global settlement." *In re Nat'l Prescription Opiate Litig.*, 332 F.R.D. at 537. Defendants are pressured, or at least strongly incentivized, to negotiate with the class. The impact the negotiation class will have on the contours of future settlement discussions and the individual MDL cases suffices for appellate standing. *See also Blair v. Equifax Check Servs., Inc.*, 181 F.3d 832, 834 (7th Cir. 1999) ("[A] grant of class status can put considerable pressure on the defendant to settle, even when the plaintiff's probability of success on the merits is slight.").

We review the district court's decision to certify a class for an abuse of discretion. *In re Whirlpool Corp. Front-Loading Washer Prods. Liab. Litig.*, 722 F.3d 838, 850 (6th Cir. 2013). It is an abuse of discretion for a district court to commit a legal error in certifying a class. *See id.* Further, the Supreme Court has warned that district courts do not have the liberty to invent a procedure with "no basis in the Rule's text," even absent language expressly prohibiting it. *Wal-Mart Stores, Inc. v. Dukes*, 564 U.S. 338, 363 (2011); *see also Amchem Prods., Inc. v. Windsor*, 521 U.S. 591, 620 (1997) ("And, of overriding importance, courts must be mindful that the Rule as now composed sets the requirements they are bound to enforce. . . . The text of a rule thus proposed and reviewed limits judicial inventiveness.").

Class actions are "an exception to the usual rule that litigation is conducted by and on behalf of the individual named parties only." *Dukes*, 564 U.S. at 348 (quoting *Califano v. Yamasaki*, 442 U.S. 682, 700–701 (1979)). They can serve important judicial interests in efficiency and finality by aggregating common claims and resolving them via a single lawsuit rather than numerous piecemeal actions. In addition, where many individuals have suffered the same injury, but each concomitant claim would yield negligible relief to a single plaintiff, such claims would rarely be brought but for the availability of the class action device. *See Eisen v. Carlisle & Jacquelin*, 417 U.S. 156, 161 (1974) ("A critical fact in this litigation is that

petitioner's individual stake in the damages award he seeks is only $70. No competent attorney would undertake this complex antitrust action to recover so inconsequential an amount. Economic reality dictates that petitioner's suit proceed as a class action or not at all."). Class actions also allow private actors, who would otherwise be deterred from pursuing their insubstantial claims, to assist in the enforcement of the law and deter harmful behavior by defendants. *See Deposit Guaranty*, 445 U.S. at 339 ("The aggregation of individual claims in the context of a classwide suit is an evolutionary response to the existence of injuries unremedied by the regulatory action of government.").

Rule 23 balances these laudable goals against the individual rights of litigants by imposing demanding standards on class certification. For example, a court must determine that the class is "so numerous that joinder of all members is impracticable," that there are "questions of law or fact common to the class," that the claims or defenses of the representative party are "typical of the claims or defenses of the class," and that the representative party is able to "fairly and adequately protect the interests of the class." Fed. R. Civ. P. 23(a)(1)–(4); *see also Nessel ex rel. Michigan v. AmeriGas Partners, L.P.*, 954 F.3d 831, 835 (6th Cir. 2020) (observing that these four requirements "are the defining characteristics of Rule 23"). Moreover, when a court seeks to certify a class under Rule 23(b)(3), like the district court did in the present case, it must find that that "the questions of law or fact common to class members predominate over any questions affecting only individual members, and that a class action is superior to other available methods for fairly and efficiently adjudicating the controversy."

We have recently affirmed that the Federal Rules of Civil Procedure "are binding upon court and parties alike, with fully the force of law" because they are "[p]romulgated pursuant to the Rules Enabling Act, 28 U.S.C. § 2072." *In re Nat'l Prescription Opiate Litig.*, 956 F.3d 838, 844 (6th Cir. 2020). Therefore, in assessing the lawfulness of the district court's order, "we begin with the text" of Rule 23. *See Limtiaco v. Camacho*, 549 U.S. 483, 488 (2007). "[W]hen [a] statute's language is plain, the sole function of the courts—at least where the disposition required by the text is not absurd—is to enforce it according to its terms." *Hartford Underwriters Ins. Co. v. Union Planters Bank, N.A.*, 530 U.S. 1, 6 (2000) (internal quotations omitted).

Rule 23 is replete with references to litigation and settlement classes. For example, the Rule begins by providing that class representatives "may sue or be sued . . . on behalf of all members." Fed. R. Civ. P. 23(a). Then, Rule 23(b)(1)(A) notes that "class actions may be maintained if . . . prosecuting separate actions . . . would create a risk of inconsistent or varying adjudications." And, as noted above, Rule 23(b)(3) provides that a class action certified under that provision must be "superior to other available methods for fairly and efficiently adjudicating the controversy." Settlement classes are specifically identified in Rule 23(e): "The claims, issues, or defenses of a certified class—*or a class proposed to be certified for purposes of settlement*—may be settled, voluntarily dismissed, or compromised only with the court's approval." (emphasis added). Notably, the Rule does not mention certification for purposes of "negotiation" or anything along those lines. While negotiation may lead to settlement, there is no discussion in Rule 23 identifying negotiation as a separate category of certification distinct from settlement.

Plaintiffs recognize this but maintain that Rule 23 does not explicitly prohibit negotiation classes. In their view, "the open-ended wording of Rule 23(b)(3) . . . [a]nd the text of Rule 23(c)(4)" indicate that a class can be certified for purposes other than trial or settlement. (Appellees' Br. at 40.) Moreover, Plaintiffs continue, Rule 23 did not explicitly sanction settlement classes until 2018. This, Plaintiffs contend, shows that the lack of express textual authorization is not necessarily fatal to a novel form of class action. Instead, in accordance with the district court's "'substantial discretion in determining whether to certify a class' . . . [t]he Negotiation Class certified in this case falls precisely within the latitude of district courts recognized by this Court." (*Id.* at 43 (quoting *Sandusky Wellness Ctr, L.L.C. v. ASD Specialty Healthcare, Inc.*, 863 F.3d 460, 466 (6th Cir. 2017)).)

What Plaintiffs fail to appreciate is that a new form of class action, wholly untethered from Rule 23, may not be employed by a court. The Supreme Court has specifically cautioned that "a mere negative inference does not in our view suffice to establish a disposition that has no basis in the Rule's text." *Dukes*, 564 U.S. at 363. In *Dukes*, the plaintiffs claimed that a Rule 23(b)(2) class action authorized to seek injunctive relief could also seek money damages because the issues related to injunctive relief predominated and there was no explicit textual prohibition

on that practice. *Id.* The Court rejected that attempt as incompatible with the text of Rule 23. *See id.* at 362–63. The Supreme Court has also emphasized that we are to be "mindful that the Rule as now composed sets the requirements [courts] are bound to enforce," that the Rule "limits judicial inventiveness," and that "[c]ourts are not free to amend a rule outside the process Congress ordered." *Amchem*, 521 U.S. at 620.

In their attempt to locate the negotiation class within the bounds of Rule 23, Plaintiffs compare negotiation classes to settlement classes and rely on the history of settlement classes to justify this expansion of Rule 23. However, the history of how settlement classes entered into common use only undermines Plaintiffs' overly-broad reading of the Rule's text. Although it was not until 2018 that settlement classes were expressly added to the text of Rule 23, the version of Rule 23(e) in effect before that time could be interpreted relatively easily to permit them. It read:

> A class action shall not be dismissed or *compromised* without the approval of the court, and notice of the proposed dismissal or *compromise* shall be given to all members of the class in such manner as the court directs.

Amchem, 521 U.S. at 620–21 (emphasis added) (quoting Fed. R. Civ. P. 23(e) (1997)). The Rule expressly contemplated courts overseeing "compromised" class actions, that is, class actions where a settlement has been privately negotiated and the parties wished to present it to the court. Implicit in that authority is, arguably, the authority to certify a class for that precise purpose. The Supreme Court was so untroubled by the regular certification of settlement classes that it referred to them as a "stock device." *Id.* at 618.

Rule 23(e), which is titled "Settlement, Voluntary Dismissal, or Compromise," now provides, "[t]he claims, issues, or defenses of a certified class—or a class proposed to be certified for purposes of settlement—may be settled, voluntarily dismissed, or compromised only with the court's approval." Unlike settlement classes under the pre-2018 Rule, there is no textual basis in this subsection—or any other—for the existence of a negotiation class. The class formed in the present case is not being formed for the purposes of litigation or "for purposes of settlement," but rather for the purposes of negotiation. At most, the class is being formed, pursuant to a set of rules outside the parameters of Rule 23, to explore the possibility of

negotiating a settlement. But the Rule contemplates settlement classes that are formed after a deal has been reached and the parties wish to formalize their arrangement. The district court even emphasized that participation in the negotiation class is not compulsory—no MDL plaintiff must join it, nor do any of the Defendants have to negotiate with it. It made clear that its certification order "does not approve, or commence the approval process for, any specific settlement or proposed settlement." (R. 2591, Order Certifying Negotiation Class, PageID # 413624.) This further distinguishes a negotiation class from a permissible settlement class because the latter presents the court with a proposal that would permit it to dispose of the case under appropriate circumstances contemplated by Rule 23. Ultimately, the speculative possibility that this negotiation class will settle a broad swath of the MDL does not bring it within the narrow textual confines of Rule 23 as a settlement class.

To hold otherwise would also ignore other elements of Rule 23(e) that clearly indicate certification of a class for settlement purposes may occur only after a settlement has been proposed. For example, before approving a proposed settlement, the court must determine that "class representative and class counsel *have* adequately represented the class," that "the proposal *was* negotiated at arm's length," and "the relief *provided* for the class is adequate." Fed. R. Civ. P. 23(e)(2) (emphasis added). None of these determinations can be made in the case of a negotiation class because there is no proposal to consider at the time the negotiation class is presented to the court for approval.

The language of Rule 23 that governs litigation classes also does not support Plaintiffs' interpretation of the Rule. It is true that litigation classes can lead to settlement, and, pursuant to Rule 23(e)(4), a court is not required to offer a second opt-out period before approving the agreement. This has the effect of forcing putative litigation class members in classes certified under Rule 23(b)(3) to decide whether to stay in the litigation class when it is first proposed for certification, with the knowledge that they may ultimately be bound by an unknown future settlement that they would play a marginal, if any, role in negotiating. So too in the case of the negotiation class in the present case. But the parallel ends there. The negotiation class was expressly certified for the purposes of fostering global settlement, rather than litigating common issues. That is presumably why the court indicated that the individual cases in the MDL would

proceed alongside the negotiation class. Rule 23 permits litigation classes primarily for the purposes of aggregating and adjudicating common claims for trial, which can avoid conflicting judgments in individualized proceedings and can more efficiently resolve the claims of the class through a single lawsuit. That aggregation cannot occur where, as here, independent cases continue in parallel with a negotiation class that will not bring any common claims to trial. Moreover, as will be discussed in greater detail below, the district court did not fully engage in the requisite analysis for a litigation class because it understood the negotiation class as constituting its preferred method of proceeding for the purposes of settlement. This further separates the negotiation class, as certified by the district court, from a litigation class.

The structure of Rule 23 also does not support Plaintiffs' novel attempt to certify a negotiation class. *See Dukes*, 564 U.S. at 363 (finding proposed interpretation of Rule 23(b)(2) unpersuasive, in part, because it did "obvious violence to the Rule's structural features"). As the above analysis suggests, a negotiation class does not fit into either the litigation class or settlement class tracks. The district court's order states that when the negotiation class begins its work it "will not displace or interfere with any of th[e] on-going litigation." *In re Nat'l Prescription Opiate Litig.*, 332 F.R.D. at 551. But in conducting the requisite Rule 23(a) and 23(b) certification analyses, the court must frame its inquiry in different ways depending on the type of class being certified. For example, in determining whether to certify a litigation class, courts must determine "how a trial on the merits would be conducted if a class were certified." *Sandusky*, 863 F.3d at 468 (quoting *Gene & Gene L.L.C. v. BioPay L.L.C.*, 541 F.3d 318, 326 (5th Cir. 2008)). In the case of a settlement class the analysis is in certain respects simpler. The Supreme Court observed in *Amchem* that "[c]onfronted with a request for settlement-only class certification, a district court need not inquire whether the case, if tried, would present intractable management problems . . . for the proposal is that there be no trial." 521 U.S. at 620 (citing Fed. R. Civ. P. 23(b)(3)(D)). As one leading treatise comments, courts "regularly certify settlement classes that might not have been certifiable for trial purposes because of manageability concerns." William B. Rubenstein, *Newberg on Class Actions* § 4:63 (5th ed. 2020). In fact, the district court in the present case made such a determination in finding that the manageability prong "is inapplicable to the proposed negotiation class, as the proposal is not for litigation or trial, but simply for settlement negotiations." *In re Nat'l Prescription Opiate Litig.,* 332 F.R.D.

at 551–52. The negotiation class device thus frustrates a court's analysis of whether a class action is the superior method of adjudication. It avoids some of the procedural requirements of litigation class certification without halting the underlying litigation and ideally settling the claims instead, as in the case of a settlement class.

This structural problem is compounded by the district court's attempt to frame the negotiation class as an "issue class." *See id.* at 556; *see also* Fed. R. Civ. P. 23(c)(4) ("[A]n action may be brought or maintained as a class action with respect to particular issues."). The district court certified the negotiation class based upon federal RICO and Controlled Substances Act claims brought by many of the putative class members, finding that "common issues predominate over individualized issues with respect to both." *In re Nat'l Prescription Opiate Litig.*, 332 F.R.D. at 551. Nevertheless, the court made clear that the class was permitted "to negotiate settlements . . . on any of the claims or issues identified here, *or those arising out of a common factual predicate*." *Id.* at 556 (emphasis added). Many of the claims "arising out of a common factual predicate" are disparate state law claims brought by cities and counties throughout the country. Therefore, while the court's predominance analysis might make some sense in the context of a litigation class or settlement class limited to resolving the narrow federal issues cited in the certification order, the court's order minimized or marginalized the myriad state law claims that arguably divide the putative class members. The district court's order creates confusion surrounding the scope of negotiations—a putative class member cannot be sure whether, and how, the negotiation class representatives, empowered by the court, will address their state law claims during settlement discussions.

Therefore, in certifying a negotiation class, the district court has papered over the predominance inquiry. *See Martin v. Behr Dayton Thermal Prods. LLC*, 896 F.3d 405, 413 (6th Cir. 2018) (holding that issue-class certification is appropriate "where common questions predominate *within* certain issues and where class treatment of *those issues* is the superior method of resolution" (emphasis added)). The issue class device permits a court to split common issues off for class treatment; it does not provide an end-run around the weighty requirements of Rule 23(b)(3). For example, the court needed to determine whether a class action is superior to other forms of adjudication by considering, among other criteria, "the class members' interests in

individually controlling the prosecution or defense of separate actions." Fed. R. Civ. P. 23(b)(3)(A). The district court found that because only "a small fraction" of the over 34,000 municipal entities are individually litigating their own claims, the negotiation class will increase "individual control and involvement" by engaging class members in the negotiation and voting process. *In re Nat'l Prescription Opiate Litig.*, 332 F.R.D. at 551. Actually, the district court's approach would do the opposite of increasing individual control and involvement by requiring class action participants to commit to the negotiation class without knowing the issue parameters or the amount or prospect of any potential recovery.

Therefore, even if the court were determined to be correct in its assessment of the federal law claims, there would remain the problem of potential and actual numerous state law claims. If the negotiation class can pursue settlement of all claims raised by the class members, it is possible that those members' individual control over their diverse or uncommon state law claims may be compromised. This is especially true because the district court has the authority to decline to offer a second opt-out period. *See* Fed. R. Civ. P. 23(e)(4).

The primary problem here is that the negotiation class ordered by the district court simply is not authorized by the structure, framework, or language of Rule 23. But even if not unauthorized, it is unlikely that the problems presented by the negotiation class, as conceived by the district court, can be overcome. For instance, even without prejudging whether common issues do in fact predominate in this MDL, we think that the court's analysis was made incomplete by its decision to restrict its reasoning to the common federal claims in order to certify a negotiation class. Rule 23's structure does not permit the court to evade a proper (b)(3) analysis by certifying a negotiation class based upon a few common federal issues, while at the same time empowering the class to negotiate settlement on virtually all claims brought by the class members. The district court's course of action neither fully satisfied the critical fairness concerns of Rule 23(b)(3), nor respected the important differences between litigation classes and settlement classes. We therefore believe that Plaintiffs' interpretation of Rule 23 does "obvious violence to the Rule's structural features." *Dukes*, 564 U.S. at 363.

Plaintiffs have also not shown why the options of a litigation class or settlement class are infeasible in the present case. While there are drawbacks to both approaches, the opioid crisis

MDL might be amenable to either. If common issues actually predominate, then a litigation class might be certifiable. Alternatively, Plaintiffs may privately seek a settlement with Defendants and ultimately propose an agreement to the court for certification of a settlement class. There is no apparent reason why some of the procedural elements of the negotiation class, such as the supermajority voting scheme and county-level allocation formula, could not be used to facilitate the participation of more Plaintiffs in a lawful settlement class.

In the final analysis, we do not see how the negotiation class can be squared with Rule 23. However innovative and effective the addition of negotiation classes would be to the resolution of mass tort claims—particularly those of grave social consequence—we are to be "mindful that the Rule as now composed sets the requirements [courts] are bound to enforce," and we "are not free to amend a rule outside the process Congress ordered." *Amchem*, 521 U.S. at 620. That process involves careful review of a proposed amendment by the Rules Advisory Committee, the Judicial Conference, the Supreme Court, and Congress. *See* 28 U.S.C. §§ 2072–74. After the Rules Advisory Committee has recommended a change to the Judicial Conference, that body may propose that the Supreme Court promulgate the amendment. Even if the Court does so, Congress may prevent the change through statutory enactment before the new rule goes into effect. *See id.* This multi-layered review process ensures that alterations to the Rules can only be made after thorough deliberations by multiple expert bodies, which can assess the virtues and drawbacks of a proposed change as well as evaluate the possible implications of the proposed rule across the entire judicial system, rather than by individual judges facing the pressures of litigation.

Additionally, this process is "properly tuned to the instruction that rules of procedure 'shall not abridge . . . any substantive right.'" *Amchem*, 521 U.S. at 620 (quoting 28 U.S.C. § 2072(b)). This is critical in the class action context where a certification decision, which is procedural, can abrogate the substantive rights of class members to pursue their claims independently by binding them to a litigation class or settlement class. The fact that negotiation class members in the present case must choose whether to opt-out before knowing the settlement amount only heightens our concern.

Perhaps in due course the Rules Advisory Committee and Judicial Conference will recommend revising Rule 23 to sanction the negotiation class, which the Supreme Court and Congress may then approve. Until that time, however, this novel mechanism is beyond the Rule's scope.

CONCLUSION

For the reasons provided above, we **REVERSE** the district court's judgment certifying a negotiation class and **REMAND** this case for further proceedings consistent with this opinion.

DISSENT

KAREN NELSON MOORE, Circuit Judge, dissenting. The Federal Rules of Civil Procedure were not written and have never been interpreted to manacle district courts that innovate within the Rules' textual borders. The district court has breathed life into a novel concept—a class certified for negotiation purposes—to aid in its Promethean duty to secure the just, speedy, and inexpensive resolution of this byzantine multidistrict litigation. We should be in the business of encouraging, not exterminating, such resourcefulness. Certifying a negotiation class honors the Rules' equitable heritage, complements the settlement class's history, hews to Federal Rule of Civil Procedure 23's textual requisites, and stirs no constitutional or policy qualms. So, with respect, I dissent.

I.

Text, origin story, and life cycle should propel our interpretation of the Federal Rules of Civil Procedure.

The Rules' "design[]," *Celotex Corp. v. Catrett*, 477 U.S. 317, 327 (1986), and "paramount command," *Dietz v. Bouldin*, — U.S. —, 136 S. Ct. 1885, 1891 (2016), are clear: courts should construe, administer, and employ the Rules to secure "the just, speedy, and inexpensive resolution of disputes," *id.* (citing Fed. R. Civ. P. 1). Embodying this edict are the plethora of Rules that invite district courts to apply the Rules' provisions with "local imagination."[1] Jack B. Weinstein, *After Fifty Years of The Federal Rules of Civil Procedure: Are the Barriers to Justice Being Raised?*, 137 U. Pa. L. Rev. 1901, 1911 (1989). Those who

P. 15(a)(2) ("The court should freely give leave [to amend pleadings] when justice so requires."); FED. R. CIV. P. 21 ("On motion or on its own, the court may at any time, on just terms, add or drop a party."); FED. R. CIV. R. CIV. P. 83 ("A judge may regulate practice in any manner consistent with federal law, rules adopted under 28 U.S.C. §§ 2072 and 2075, and the district's local rules. endowed the Rules with such flexibility drew on traditions of equity practice and were inspired by the contemporaneous shift toward placing substance over form.[2] *See id.* at 1906. The Rules' distinctive promulgation procedures similarly counsel against our suffocating the district court with textual piety. The Rules spring not from the head of Congress; the Supreme Court itself promulgates and implements the Rules. This, in large measure, eliminates judicial threats to separation-of-powers and emancipates courts from traditional concerns surrounding statutory interpretation, such as deference to Congress. *See* Joseph P. Bauer, *Schiavone: An Un-Fortune-ate Illustration of the Supreme Court's Role As Interpreter of the Federal Rules of Civil Procedure*, 63 Notre Dame L. Rev. 720, 720 (1988); *see also* Lumen N. Texts and canons of construction should not ensnare our interpreting and applying a Federal Rule of Civil Procedure. Rather, courts should contemplate a liberal reading that fulfills the Rules' broader design and that does justice for the parties. *See* Bauer, *supra*, at 720.[3]

This understanding of the Federal Rules of Civil Procedure is neither a historical footnote nor a scholarly chimera. The Supreme Court's refusal to strictly construe the Rules "inconsistent[ly] with the[ir] liberal atmosphere," *Hickman v. Taylor*, 329 U.S. 495, 505 (1947), continues throughout decades of precedent. The Rules contain no text providing for the power to rescind a jury discharge order and recall a jury for further deliberations, to hear a motion in

Jack B. Weinstein, *After Fifty Years of The Federal Rules of Civil Procedure: Are the Barriers to Justice Being Raised?*, 137 U. PA. L. REV. 1901, 1906 (1989). The Rules were "written to further, not defeat[,] the ends of justice," *Surowitz v. Hilton Hotels Corp.*, 383 U.S. 363, 373 (1966), and were "designed to further the due process of law that the Constitution guarantees," *Nelson v. limine, or to dismiss cases for forum non conveniens. *See Dietz*, 136 S. Ct. at 1891. Yet the Court approved each of these—and many other—creatures of district court creativity. *See id.*; *Link v. Wabash R. Co.*, 370 U.S. 626, 630–31 (1962); *Gulf Oil Corp. v. Gilbert*, 330 U.S. 501, 507 (1947). Courts are "necessarily vested" with the power "to manage their own affairs so as to achieve the orderly and expeditious disposition of cases"; such power is "governed not by rule or statute," *Dietz*, 136 S. Ct. at 1891 (quoting *Link*, 370 U.S. at 630–631), but by "considerations of justice," *United States v. Hasting*, 461 U.S. 499, 505 (1983). This principle has "long gone unquestioned" by the Supreme Court. *Link*, 370 U.S. at 631.[4]

Even when confronted with unfriendly text, the Court has capaciously interpreted theories underlying the Federal Rules of Civil Procedure to promote efficient litigation and to react to modern litigation trends. In *Hickman*, for instance, the Court conceded that the petitioner had failed to follow the black letter of Federal Rule of Civil Procedure 26, which espoused a "broad and liberal treatment" of discovery matters and seemingly required adverse attorneys to turn over documents formed in the course of their legal duties. 329 U.S. at 507. But, out of concern for the "public policy underlying the orderly prosecution and defense of legal claims," *id.* at 510, the Court fashioned the work-product exception to the discovery rules, *see id.* at 509–12. The 1986 summary judgment trilogy—*Celotex Corp. v. Catrett*, 477 U.S. 317, 327 (1986), *Anderson v. Liberty Lobby, Inc.*, 477 U.S. 242 (1986), and *Matsushita Electric Industrial Co. v. Zenith Radio Corp.*, 475 U.S. 574 (1986)—emerged from the same vein. Historically, district courts rarely granted summary judgment due to the "onerous" burden on moving parties articulated in *Adickes v. S. H. Kress & Co.*, 398 U.S. 144 (1970). *See* Craig M. Reiser, *The Unconstitutional Application of Summary Judgment in Factually Intensive Inquiries*, 12 U. Pa. J. Const. L. 195, 200 (2009). In the lead-up to the trilogy, the Court comprehended the need for a "strengthened, modern view of the summary judgment standard," *id.*, that adequately reflected how the "Federal Rules as a whole . . . are designed to 'secure the just, speedy, and inexpensive determination of every action.'" *Celotex*, 477 U.S. at 327 (quoting Fed. R. Civ. P. 1). But an

[4]*See also Goodyear Tire & Rubber Co. v. Haeger*, — U.S. —, 137 S. Ct. 1178, 1186 (2017) ("Federal courts possess certain 'inherent powers,' not conferred by rule or statute, 'to manage their own affairs so as to achieve the orderly and expeditious disposition of cases.'") (internal citations omitted); *Degen v. United States*, 517 U.S. 820, 823 (1996) ("Courts invested with the judicial power of the United States have certain inherent authority to protect their proceedings and judgments in the course of discharging their traditional responsibilities.").

encumbrance remained: Federal Rule of Civil Procedure 56's text. The Court admitted that two sentences in Rule 56(e) were added to disapprove of a line of cases that allowed a nonmoving party to resist a summary judgment motion by reference only to its pleadings. *See Celotex*, 477 U.S. at 325. But the Court found a path through the text's hot gates: although the sentences "were not intended to *reduce* the burden of the moving party, [the sentences] were not adopted to *add to* that burden" either. *Id.* Purpose—not plain text—bolstered the Court's creation of our modern summary judgment standards.[5]

In two cases of more recent vintage, *Bell Atlantic Corp. v. Twombly*, 550 U.S. 544 (2007), and *Ashcroft v. Iqbal*, 556 U.S. 662 (2009), the Court grafted a "plausibility standard" onto the Federal Rules of Civil Procedure's pleading requirement, *Twombly*, 550 U.S. at 560–61. Although the standard finds no support in Federal Rule of Civil Procedure 8's text, the Court determined that courts must conduct a "plausibility" analysis at the pleading stage "to avoid the potentially enormous expense of discovery in cases with no reasonably founded hope that the [discovery] process will reveal relevant evidence[.]" *Id.* at 559 (internal quotation marks and citation omitted); *see also Iqbal*, 556 U.S. at 685 (citing the costs that litigation imposes on government officials). Finally, text did not manacle the Court when it dealt with the meaning of "commonality" under Rule 23(a)(2) in *Wal-Mart Stores, Inc. v. Dukes*, 564 U.S. 338 (2011). Fretting that the proposed class lacked any "glue" to hold the alleged reasons for "literally millions of employment decisions" together, *id.* at 352, the Court defined "commonality" not by its plain meaning but by reference to academic literature[6] and precedent that emphasized the need for district courts to "rigorous[ly] analy[ze]" the Rule 23 prerequisites, *id.* at 350–51.

Multidistrict litigation's peculiar properties demand that we follow the Supreme Court's tack in this case. The genesis of multidistrict litigation mirrors the nativity of the Federal Rules of Civil Procedure. Multidistrict litigation's creators anticipated a "litigation explosion" coming to the federal courts and that permanent reform to federal civil procedure was necessary to

Understanding that "pretrial proceedings were increasingly becoming the main event in large-scale litigation," *id.* at 1713, scholars sculpted a system of "procedural exceptionalism," Abbe R. Gluck, *Unorthodox Civil Procedure: Modern Multidistrict Litigation's Place in the Textbook Understandings of Procedure*, 165 U. Pa. L. Rev. 1669, 1674 (2017), that allows judges to develop "flexible and creative" procedures in every multidistrict litigation case, *id.* at 1689. We should respect that every multidistrict litigation is unorthodox. *See id.* Courts overseeing multidistrict litigation are adept at replicating and refining procedures over time, in true common-law fashion. *See id.* at 1689–91 (noting the gradual development of "bellwether trials" and "fact sheets"). We should encourage liberal constructions of the Federal Rules of Civil Procedure that abet, rather than constrict, this process.

All of this is not to say that the Federal Rules of Civil Procedure's textual hooks do not apply to multidistrict litigation or class action certifications.[7] *See, e.g.*, *In re National Prescription Opiate Litig.* (*Opiate Litig. 6th Cir. Op. Apr. 15, 2020*), 956 F.3d 838, 841 (6th Cir. 2020) (reversing MDL court for allowing belated amended complaint in violation of Federal Rule of Civil Procedure 16(b)); *see also* Gluck, *Unorthodox Procedure*, *supra*, at 1706 (noting that MDL litigation judges themselves express a "desire for some decisional law"). We need no reminder that we are all textualists now.[8] But, even taken at face value, the text of Rule 23 does not prohibit the certification of a negotiation class.

[7]In practice, it appears that no judge overseeing multidistrict litigation adheres closely to the text of Rule 16. *See* Abbe R. Gluck, *Unorthodox Civil Procedure: Modern Multidistrict Litigation's Place in the Textbook Understandings of Procedure*, 165 U. PA. L. REV. 1669, 1688–89 (2017) ("[V]irtually all of the judges interviewed reported that typical MDL management goes far beyond the confines of Rule 16. As one judge put it: 'It's like Rule 16 on steroids. In the MDL, you need to strategize more. You have to look beyond immediate deadlines and see how all the pieces fit together.' . . . All of the judges respected the FRCP, but *every* judge opposed the idea of a new FRCP for MDLs or even a uniform common law approach.").

The majority observes that Rule 23 is "replete with references to litigation and settlement classes" and does not mention certification for the purposes of "negotiation." Maj. Op. at 10. Further, the majority reasons, Rule 23(e)'s language—particularly the use of the past tense—indicates that the certification of a class for settlement may occur only after a settlement has been proposed. Maj. Op. at 11–12. The majority is mistaken. The world of class actions is neither constituted in entirety nor cleft in two by the rigid categories of litigation classes and settlement classes. I find not one textual reference to the phrases "litigation class" or "settlement class" in the Rules. Indeed, the very first words of Rule 23(e) recognize that classes *that have already been certified* may settle or compromise their cases *in the future*: "The claims, issues, or defenses of a *certified class*—or a class proposed to be certified for purposes of settlement—*may be* settled, voluntarily dismissed, or compromised only with the court's approval." Fed. R. Civ. P. 23(e) (emphasis added). Certainly, references to certification for "settlement and litigation purposes" crop up in the Advisory Committee Notes. Fed. R. Civ. P. 23 advisory committee's note to 2018 amendment. But, as a matter of logic, negotiation is part and parcel of any class certified for settlement purposes. And the Rules' language does not separate the concept of negotiation from "settlement" or "compromise," Fed. R. Civ. P. 23(e); nor did the Rules Advisory Committee rip negotiation out of "issues related to settlement," Fed. R. Civ. P. 23 advisory committee's note to 2018 amendment. Thus, the district court's finding that Rule 23 permits certification for negotiation purposes is no "mere negative inference," *Dukes*, 564 U.S. at 363; such a reading is a permissible, and encouraged, contemplation of the Rule's plain text.

II.

The remarkable history of the negotiation class's ancestor, the settlement class, further buttresses the district court's certifying a class for negotiation purposes.

undergirding the Rule. *See* Issacharoff & Zimroth (Arthur R. The drafters "[f]ramed" the revised Rule 23 "for situations in which 'class-action treatment is not as clearly called for'" but "may nevertheless be convenient and desirable." *Id.* at 615 (internal citation omitted).[14]

True to form, history recurred. Soon after the 1966 revisions, yet another class action device arose going beyond Rule 23's plain text: the settlement class action. As early as 1970, a deluge of district courts began certifying classes for settlement purposes, *see* William B. Rubenstein, 2 Newberg on Class Actions § 4:93 n.1 (5th ed. June 2020 Update) (collecting cases); *see also* McGovern & Rubenstein, *supra*, at 54 n.199 (collecting cases), even though "there [was] an absence of clear textual authorization for settlement classes" in Rule 23, *In re Gen. Motors Corp. Pick-Up Truck Fuel Tank Prods. Liab. Litig.*, 55 F.3d 768, 786 (3d Cir. 1995). The Rule lacked any mention of "settlement," delineated no procedures to be followed for different kinds of class actions, and "contain[ed] no standards at all governing judicial approval of class action settlements." William W Schwarzer, *Settlement of Mass Tort Class Actions: Order Out of Chaos*, 80 Cornell L. Rev. 837, 841 (1995). This textual desert was no mistake—the framers of the 1966 revisions "conceive[ed] the rule as a trial-ready rule" and "[settlement] was not part of the discussion." Issacharoff & Zimroth (Arthur R. Miller comments), *supra*, at 126. Notwithstanding vague language in Rule 23(e) that required a court's

And that judges and lawyers were having difficulty and creating inconsistencies in the application of some of those rules. Those rules were underused, and it was thought time to rationalize them, to tie them together better than they had been tied in the 30s, and to clarify the text to capture the 25 years of experience, and to insert that experience under the Federal Rules of Civil Procedure into the rules.").

[14]Notably, the 1966 revisions, and Rule 23(b)(3) in particular, coaxed district courts to certify classes in "those cases in which a class action would achieve economies of time, effort, and expense, and promote uniformity of decision as to persons similarly situated, without sacrificing procedural fairness or bringing about other undesirable results." FED. R. CIV. P. 23 advisory committee's note to 1966 amendment. The 1966 revisions "enable[d] structural reform and broad remedial relief," Malveaux, *supra* note 9, at 327.

"approval" *before* a class action is "dismissed or compromised," Fed. R. Civ. P. 23(e) (1966),[15] the Rule plainly did not contemplate parties coming to court "with a done deal and fil[ing] the class action complaint *together* with the proposed class action settlement." Note, *Back to the Drawing Board: The Settlement Class Action and the Limits of Rule 23*, 109 Harv. L. Rev. 828, 829 (1996) (emphasis added). Notably, the courts' postponing formal certification—an inherent element of settlement class certification—disobeyed Rule 23(c)(1), which "command[ed] the court[s] to determine '[a]s soon as practicable after the commencement of [the] action' whether an action brought as a class action is to be 'so maintained.'" *Id.* at 829–30 (quoting Fed. R. Civ. P. 23(c)(1) (1996)).[16]

As settlement class actions flooded the dockets of the federal courts, appellate courts struggled to reconcile the existence of settlement classes with Rule 23's plain text.[17] The Courts of Appeals knew that settlement classes were "not specifically authorized by Rule 23," *General Motors*, 55 F.3d at 792, and demanded a "practical construction of the class action rule," *id.* at 794. But, because "settlement classes [were] not specifically precluded by [Rule 23] either," *id.* at 792, the Rule's text liberated the federal circuits to recognize that settlement classes had "utility," *Amchem*, 521 U.S. at 618, "afford[ed] considerable economies to both the litigants and the judiciary[,] and [are] also fully consistent with the flexibility integral to Rule 23," *General Motors*, 55 F.3d at 794. Settlement classes "jostl[ed] uneasily with the language of Rule 23(c)(1)[,]" *Mars Steel Corp. v. Cont'l Ill. Nat'l Co. of Chi.*, 834 F.2d 677, 680 (7th Cir. 1987); yet every federal appellate court and the Supreme Court declined to hold that courts were violating Rule 23 per se by certifying classes for settlement purposes, *Amchem*, 521 U.S. at 618.

[15]The full text of the 1966 Rule 23(e) was: "Dismissal or Compromise. A class action shall not be dismissed or compromised without the approval of the court, and notice of the proposed dismissal or compromise shall be given to all members of the class in such manner as the court directs." FED. R. CIV. P. 23(e) (1966).

[16]Rule 23(e) remained unchanged between 1966 and 1996. *Compare* FED. R. CIV. P. 23(e) (1966) *with* FED. R. CIV. P. 23(e) (1996).

[17]Confident that Rule 23 permitted settlement class actions to exist, some appellate courts skipped the textual analysis of the Rule altogether. *See In re Gen. Motors Corp. Pick-Up Truck Fuel Tank Prods. Liab. Litig.*, 55 F.3d 768, 794 (3d Cir. 1995) ("[F]ew cases since the late 1970's and early 1980's even bother to squarely address the propriety of settlement classes. Moreover, no court of appeals that has had the opportunity to comment on the propriety of settlement classes has held that they constitute a per se violation of Rule 23.").

Here, the district court's certifying a negotiation class has no direct antecedent. The bespoke five-stage certification process emerged from an academic chrysalis, *see generally* McGovern & Rubenstein, *supra*, and followed no specific procedure delineated in Rule 23. This emergence of a negotiation class simply follows the incremental development of settlement class actions. Rule 23 bore no references to "settlement" until 2003,[18] when the rules were revised to refer to "Settlement, Voluntary Dismissal, or Compromise" and to codify some district courts' procedures associated with proposed settlements in class actions. *See* Fed. R. Civ. P. 23(e) (2003). Thus, the Rules did not explicitly reference settlements in the class action context for thirty-seven years after the 1966 revisions and six years after the Supreme Court ratified settlement class certifications as a "stock device" in 1997, *Amchem*, 521 U.S. at 618. Yet during this decades-long textual vacuum, not only did courts of every tier repeatedly avow that Rule 23's text gave life to settlement class actions, but district courts also wrought sundry procedures that would, within ten years, constitute the "most elaborate settlement mechanism developed for class actions," *see Developments in the Law: Class Actions*, 89 Harv. L. Rev. 1318, 1555 (1976). Standing on not one textual pillar, district courts experimented with designating one attorney as the official class negotiator, forming subclasses to ensure that all viewpoints are represented in negotiations, playing with different types of notice, and conferencing informally with the parties. *See id.* at 1559–60. Subsequent revisions to Rule 23(e) in 2003 and 2018 merely "codified some existing practices," McGovern & Rubenstein, *supra*, at 56, which the Advisory Committee Notes

[18]There seems to be some confusion about when Rule 23 was amended to include references to settlement classes. *See* Maj. Op. at 11 ("[I]t was not until 2018 that settlement classes were expressly added to the text of Rule 23 . . . ."); *Opiate Litig.*, 332 F.R.D. at 539 ("Defendants point to the fact that several passages in Rule 23 specifically reference settlement, as opposed to trial, classes. . . . The passages they reference were not added to Rule 23 until December 2018."); Appellees' Br. at 41 ("It was not until December 1, 2018 that Rule 23 was amended to explicitly recognize settlement classes.") (citing FED. R. CIV. P. 23(e), advisory committee's note to 2018 amendment). Prior to 2003, Rule 23 contained no references to settlement, only to "Dismissal or Compromise." FED. R. CIV. P. 23(e) (2002) ("Dismissal or Compromise. A class action shall not be dismissed or compromised without the approval of the court, and notice of the proposed dismissal or compromise shall be given to all members of the class in such a manner as the court directs."). In 2003, Rule 23(e) was revised to refer to "Settlement, Voluntary Dismissal, or Compromise" and to codify some procedures for class actions that produced settlements. FED. R. CIV. P. 23(e) (2003); *see also* FED. R. CIV. P. 23(e) advisory committee's note to 2003 amendment ("Subdivision (e) is amended to strengthen the process of reviewing proposed class-action settlements."). The 2018 revisions codified some additional procedures related to settlements in class actions. *See* FED. R. CIV. P. 23(e) advisory committee's note to 2018 amendment ("Rule 23 is amended mainly to address issues related to settlement, and also to take account of issues that have emerged since the rule was last amended in 2003."). Thus, settlement classes were not expressly added to the text of Rule 23 until 2003, not 2018. But this altered timeline in no way affects the underlying historical takeaway—district courts certified settlement classes en masse for decades before the Rules contained any references to settlements in class actions.

thoroughly acknowledge, *see* Fed. R. Civ. P. 23 advisory committee's notes to 2003 and 2018 amendments.[19] The parallel between the settlement class and the negotiation class is unmistakable; by certifying a novel negotiation class via a series of new-fashioned procedures, the district court here embraces Rule 23's equitable heritage and the developments of district courts past.[20] We ought not disturb the relationship between the innovative experiments of district courts and the subsequent codification of those developments in the revisions of the class action rule.

The majority is not convinced that the negotiation class and the settlement class can be cut from the same cloth. The majority determines that the pre-2003[21] version of the Rule—specifically the presence of the words "compromise" and "compromised" in Rule 23(e)—can be "interpreted relatively easily to permit [settlement classes]." Maj. Op. at 11. Perhaps tellingly, the appellate courts of the 1970s and 80s that ratified the existence of settlement class actions did not rely on Rule 23(e)'s use of the term "compromise"; their decisions instead were based on textual analyses of Rule 23(d)'s "appropriate orders" clause and Rule 23(c)(1)'s "conditional orders" clause. *See Drawing Board*, *supra*, at 834; *see also General Motors*, *supra*, at 792–94 (explaining the appellate courts' different approaches as of 1995 to analyzing Rule 23's text). Clearly none of these turns of phrase provide the explicit textual authorization that the majority seeks to distinguish the apparent textual support prior to 2003 for "settlement classes" from the alleged lack of current textual support for "negotiation classes." These strategies to parse the

[19]The 2003 Advisory Committee Notes document that "[s]ubdivision (e)(1)(C) confirms and mandates the already common practice of holding hearings as part of the process of approving settlement, voluntary dismissal, or compromise that would bind members of a class[]" and that "[s]ubdivision (e)(4) confirms the right of class members to object to a proposed settlement, voluntary dismissal, or compromise." FED. R. CIV. P. 23 advisory committee's note to 2003 amendment. The 2018 Notes further document that "[t]he central concern in reviewing a proposed class-action settlement is that it be fair, reasonable, and adequate. Courts have generated lists of factors to shed light on this concern. . . . The goal of this amendment is not to displace any factor." FED. R. CIV. P. 23 advisory committee's note to 2018 amendment.

[20]Talented lawyers and judges have also experimented with settlement class actions in the context of multidistrict litigation, which has "fundamentally alter[ed] class action practice, and in particular, the role of class members as participants." Elizabeth J. Cabraser & Samuel Issacharoff, *The Participatory Class Action*, 92 N.Y.U. L. Rev. 846, 851 (2017).

[21]The majority cites to the 1997 version of Rule 23(e), *see* Maj. Op. at 11 (citing FED. R. CIV. P. 23(e) (1997)), which is the year that the Court decided *Amchem*. Rule 23 was amended once between 1997 and 2003 (in 1998). But the 1998 amendments did not alter the text of Rule 23(e), *compare* FED. R. CIV. P. 23(e) (1998) *with* FED. R. CIV. P. 23(e) (1997), so it is fair to refer to the 1997 version of Rule 23(e) as the "pre-2003" version of the Rule.

text of the pre-2003 version of Rule 23 are necessarily scattershot because the drafters of the rule *never intended* class certification for any purpose other than trial, *see* Issacharoff & Zimroth (Arthur R. Miller comments), *supra*, at 125. No judicial body, not even the Supreme Court, pretended otherwise when validating the existence of settlement class actions. Further, if the concept of "settlement" can be drawn from the word "compromise," surely the district court's derivation of "negotiation" from "settlement" and "compromise" is by no means far-fetched. The district court's development of a negotiation class has as much of a basis in current Rule 23 as the creation of settlement classes had in past versions of Rule 23. *See General Motors*, 55 F.3d at 792–94. Current Rule 23(e)(2)(B) embeds "negotiation" in settlement certification procedures. *See* Fed. R. Civ. P. 23(e)(2)(B) ("the proposal was negotiated at arm's length"). Indeed, the majority admits that "negotiation" is a critical ingredient of "settlement." Maj. Op. at 11 ("The [1966] Rule expressly contemplated courts overseeing 'compromised' class actions, that is, class actions where a settlement has been privately *negotiated* and the parties wished to present it to the court.") (emphasis added).

Certainly, as the Supreme Court has stated, "[t]he text of a rule thus proposed and reviewed limits judicial inventiveness," *Amchem*, 521 U.S. at 620, and I am mindful that we have previously reversed the district court for allowing parties in this case to amend their complaints under a standard that contradicted Federal Rule of Civil Procedure 16's plain text, *Opiate Litig. 6th Cir. Op. Apr. 15, 2020*, 956 F.3d at 844, and violated this court's holding in *Leary v. Daeschner*, 349 F.3d 888, 907 (6th Cir. 2003) (determining that "modification [of a scheduling order] is permitted under Rule 16 if Plaintiffs can demonstrate 'good cause' for their failure to comply with the original schedule, by showing that despite their diligence they could not meet the original deadline.") (citing Fed. R. Civ. P. 16 advisory committee's note to 1983 amendment). Here, there is neither text nor precedent to contravene. Given the absence of language in Rule 23 that bars the district court from distilling "negotiation" from "settlement" or "compromise," the district court's certifying a negotiation class is a permissible exercise of "find[ing] efficiencies within the Civil Rules, rather than [violating] them." *Opiate Litig. 6th Cir. Op. Apr. 15, 2020*, 956 F.3d at 845. And, by virtue of its innovative nature, the certification of this negotiation class violates not one iota of case law. Indeed, in the same decision where the Supreme Court reminded us that "[c]ourts are not free to amend a rule outside the process

Congress ordered," *Amchem*, 521 U.S. at 620, the Supreme Court *upheld* the existence of settlement class actions with nary a textual grumble. We should follow the Court's wake and preserve the class action ecosystem in which district court flexibility thrives.

III.

No doubt, a class action "may only be certified if the trial court is satisfied, after a rigorous analysis, that the prerequisites of Rule 23[] have been satisfied." *Gen. Tel. Co. of Sw. v. Falcon*, 457 U.S. 147, 161 (1982). The majority, Defendants, and the Six Cities maintain that the district court neglected Rule 23's essentials when certifying Plaintiffs' two federal RICO "claim[s]" "under Rule 23(b)(3)" and certifying "issues related to Defendants' obligations under the Controlled Substances Act" ("CSA") "under Rule 23(c)(4)."[22] *Opiate Litig.*, 332 F.R.D. at 542. Of course, courts certifying Rule 23(b)(3) class actions must comply with the "safeguards" of both Rule 23(a) and Rule 23(b)(3). *Amchem*, 521 U.S. at 621 ("The safeguards provided by the Rule 23(a) and (b) class-qualifying criteria, we emphasize, are not impractical impediments—checks shorn of utility—in the settlement-class context."). But the district court's findings regarding Rule 23(b)(3)'s predominance and superiority requirements and Rule 23(a)'s adequate representation prong conform to the rule's text and the Supreme Court's precedent.[23]

The majority and Defendants hurl an array of challenges at the district court's finding "that common issues predominate over individualized issues with respect to both the RICO claims and the CSA issues[.]" *Opiate Litig.*, 332 F.R.D. at 551. So, I begin with Rule 23(b)(3)'s first requirement—predominance. For class actions certified under Rule 23(b)(3), district courts

---

[22]The CSA issues are not independent from the RICO claims. Plaintiffs allege that the "factual allegations [arising under the CSA] underlie the second RICO claim [] and are also pertinent to adjudication of myriad state-based legal claims, from public nuisance to negligence." *Opiate Litig.*, 332 F.R.D. at 542.

[23]Rule 23(b)(3) requires that "the court finds that the questions of law or fact common to class members predominate over any questions affecting only individual members, and that a class action is superior to other available methods for fairly and efficiently adjudicating the controversy. The matters pertinent to these findings include: (A) the class members' interests in individually controlling the prosecution or defense of separate actions; (B) the extent and nature of any litigation concerning the controversy already begun by or against class members; (C) the desirability or undesirability of concentrating the litigation of the claims in the particular forum; and (D) the likely difficulties in managing a class action." FED. R. CIV. P. 23(b)(3). Rule 23(a)'s "Prerequisites" are that "[o]ne or more members of a class may sue or be sued as representative parties on behalf of all members only if: (1) the class is so numerous that joinder of all members is impracticable; (2) there are questions of law or fact common to the class; (3) the claims or defenses of the representative parties are typical of the claims or defenses of the class; and (4) the representative parties will fairly and adequately protect the interests of the class." FED. R. CIV. P. 23(a).

must "find[] that the questions of law or fact common to class members predominate over any questions affecting only individual members." Fed. R. Civ. P. 23(b)(3). Predominance "tests whether proposed classes are sufficiently cohesive to warrant adjudication by representation[,]" *Amchem*, 521 U.S. at 623, which requires "courts to give careful scrutiny to the relation between common and individual questions in a case[,]" *Tyson Foods, Inc. v. Bouaphakeo*, — U.S. —, 136 S. Ct. 1036, 1045 (2016). "The predominance inquiry 'asks whether the common, aggregation-enabling, issues in the case are more prevalent or important than the non-common, aggregation-defeating, individual issues.'" *Id.* at 1045 (quoting Rubenstein, 2 Newberg on Class Actions, *supra*, § 4:49).

That the RICO claims and CSA issues are common, rather than individual, issues should be uncontroversial, as the district court found that the "allegations concerning the existence of two national enterprises that disseminated a set of standard falsehoods in marketing and distributing opioids[,]" *Opiate Litig.*, 332 F.R.D. at 549, that underlie the RICO claims and CSA issues are "common across many, if not most, of the MDL litigants and putative Class Representatives[,]" *id.* at 542.[24] But Defendants criticize the district court's "declin[ing] to analyze predominance for the claims of the class as a whole" and "simply eliminat[ing] from consideration the numerous non-common issues and claims, including all the state-law claims asserted by class members." Defs.' Br. at 39–40; *see also* Maj. Op. at 14 ("[T]he court's order minimized or marginalized the myriad state law claims that arguably divide the putative class

[24]Defendants contend that "a large proportion of the class . . . do not even assert RICO claims." Defs.' Br. at 40. But there is no evidence that the district court abused its discretion in finding that the RICO claims and CSA issues are common claims. Summit County, Ohio submitted a complaint in this MDL that contained RICO claims and made factual allegations under the CSA. *Opiate Litig.*, 332 F.R.D. at 542; *see also* Summit County Complaint, No. 1:17-md-02804, R. 513. Summit County's complaint was the basis of a "short form complaint" process that "enabled all plaintiffs in this MDL to incorporate by reference certain of the legal and factual allegations therein." *Opiate Litig.*, 332 F.R.D. at 542; *see also* Op. and Ord. No. 1:17-md-02804, R. 1282. Accordingly, the "vast bulk of the [forty-nine] putative class representatives[,]" adopted the Summit County pleadings, *id.*, and "so many other plaintiffs here have adopted those same claims and issues through the short-form process and/or have filed complaints that are substantially identical in relevant passages to the Summit County complaint[,]" *id.* n.3; *see also* Appellees' Br. at 63 n.21 ("86.3% of class representatives assert RICO claims, 100% assert CSA-related public nuisance claims against Distributor Defendants, and 96.1% against Manufacturer Defendants[.]"). Indeed, Defendants themselves may have conceded that most of the putative class members allege RICO claims. *See id.* Regardless, the district court's predominance analysis should not hang on statistics because the predominance inquiry is qualitative, not quantitative. *See* CHARLES ALAN WRIGHT, ARTHUR R. MILLER, & MARY KAY KANE, 7B FEDERAL PRACTICE AND PROCEDURE § 1778 (3d ed. Apr. 2020 Update)) (collecting cases holding that predominance inquiry is not a quantitative test).

members.").[25] But predominance need not be "established for the *entirety* of the claims that a class is certified to address[,]" Defs.' Br. at 44; instead, the Supreme Court has held that "[w]hen 'one or more of the central issues in the action are common to the class and can be said to predominate, the action may be considered proper under Rule 23(b)(3) even though other important matters will have to be tried separately,'" *Bouaphakeo*, 136 S. Ct. at 1045 (quoting Charles Alan Wright, Arthur R. Miller, & Mary Kay Kane, 7AA Federal Practice and Procedure § 1778 (3d ed. 2005)). Such "important matters" include actual injury, *see Martin v. Behr Dayton Thermal Prods. LLC*, 896 F.3d 405, 414 (6th Cir. 2018), *cert. denied*, 139 S. Ct. 1319 (2019), damages, *see Bouaphakeo*, 136 S. Ct. at 1045; *see also Martin*, 896 F.3d at 414, and "some affirmative defenses peculiar to some individual class members[,]" *Bouaphakeo*, 136 S. Ct. at 1045. Here, any individual issues present in state law claims or RICO's injury element do not drown the common RICO claims and CSA issues. Yes, "the predominance inquiry must focus on common questions that can be proved through evidence common to the class." *In re Whirlpool Corp. Front-Loading Washer Prods. Liab. Litig.*, 722 F.3d 838, 858 (6th Cir. 2013) (citing *Amgen Inc. v. Connecticut Ret. Plans & Tr. Funds*, 568 U.S. 455, 466–468 (2013)). But "Rule 23(b)(3) . . . does *not* require a plaintiff seeking class certification to prove that each element of her claim is susceptible to classwide proof." *Amgen*, 568 U.S. at 469 (2013) (emphasis in original, internal citations and alterations omitted); *see also* Charles Alan Wright, Arthur R. Miller, & Mary Kay Kane, 7B Federal Practice and Procedure § 1778 (3d ed. Apr. 2020 Update) ("The common questions need not be dispositive of the entire action. In other words, 'predominate' should not be automatically equated with 'determinative.'") (footnote omitted). Here, Plaintiffs did not need to prove that their state law claims were certifiable for the district court to find that Plaintiffs' RICO claims and CSA issues are predominant, common claims. Aside from highlighting that the district court did not certify Plaintiffs' state law claims, Maj. Op. at 14, Defs.' Br. at 44–46, no one has sufficiently "explain[ed] how . . . [P]laintiff class's failure to prove an essential element of its claim for relief will result in individual questions predominating over common ones[,]" *Amgem*, 568 U.S. at 469.

[25]It is worth noting that we cannot evaluate whether RICO claims and CSA issues are present in the Six Cities' claims, as there is no accessible record that the Six Cities filed any complaints in the MDL. *See infra* note 33.

Contrary to the majority's and the Defendants' qualms, *see* Maj. Op. at 15; Defs.' Br. at 43, the district court's certifying factual allegations arising under the CSA per Rule 23(c)(4) is thoroughly legitimate. This court has already addressed the relationship between Rule 23(b)(3)'s predominance inquiry and Rule 23(c)(4), which provides that "an action may be brought or maintained as a class action with respect to particular issues." Fed. R. Civ. P. 23(c)(4). In *Martin v. Behr Dayton Thermal Products LLC*, we adopted a "broad view" that "instructs courts to engage in the predominance inquiry *after* identifying issues suitable for class treatment[,]" which "permits utilizing Rule 23(c)(4) even where predominance has not been satisfied for the cause of action as a whole," 896 F.3d at 411–13.[26] Here, the district court correctly identified that "the nature of each Defendant's obligations under the [CSA] and the question of whether each Defendant complied with those obligations" were common issues before proceeding with its predominance analysis. *Opiate Litig.*, 332 F.R.D. at 550. Indeed, this court has already considered and rejected a "narrow view" that would "prohibit[] issue classing if predominance has not been satisfied for the cause of action as a whole," *Martin*, 896 F.3d at 412; such an approach to predominance "would undercut the purpose of Rule 23(c)(4) and nullify its intended benefits[,]" *id.* at 413.[27]

Nor do the majority's policy objections undermine the district court's predominance analysis. Mysteriously, the majority concedes that the district court's "predominance analysis

[26]Other circuits have spoken to the interaction between Rules 23(b)(3) and 23(c)(4). The Second, Ninth, Fourth, and Seventh Circuits support the "broad" approach that this court embraced in *Martin v. Behr Dayton Thermal Products LLC*, 896 F.3d 405 (6th Cir. 2018), *cert. denied*, 139 S. Ct. 1319 (2019). *See Martin*, 896 F.3d at 411 (collecting cases). The Fifth Circuit has described the "narrow view" in a footnote. *See id.* at 412 (citing *Castano v. Am. Tobacco*, 84 F.3d 734, 745 n.21 (5th Cir. 1996)). Although the Eleventh Circuit "referenced" the narrow view "with tenuous support," *Martin*, 896 F.3d at 412 (citing *Sacred Heart Health Sys., Inc. v. Humana Military Healthcare Servs., Inc.*, 601 F.3d 1159, 1176 (11th Cir. 2010)), the Fifth Circuit's footnote has not been adopted by any other circuit, *see Martin*, 896 F.3d at 412. "[S]ubsequent caselaw from within the Fifth Circuit itself indicates that any potency the narrow view once held there has dwindled." *Martin*, 896 F.3d at 412 (citing *Steering Comm. v. Exxon Mobil Corp.*, 461 F.3d 598, 603 (5th Cir. 2006)).

[27]Defendants also argue that "[i]ssue certification under Rule 23(c)(4) is available only when a trial is contemplated." Defs.' Br. at 43. But, like the rest of Rule 23's language, nothing in Rule 23(c)(4)'s text limits the use of issue certification to classes certified for the purposes of trial. *See* FED. R. CIV. P. 23(c)(4). Nor is there any precedent in this circuit or any other circuit that suggests otherwise. It is worth bearing in mind that the "vast majority" of litigation class actions yield settlements and not judgments on the merits. Geoffrey P. Miller, *Rethinking Certification and Notice in Opt-Out Class Actions*, 74 UMKC L. Rev. 637, 640 (2006); *see also* William B. Rubenstein, 3 NEWBERG ON CLASS ACTIONS § 9:52 (5th ed.) ("[M]ost class actions today are settlement class actions in any case[.]"). Thus, issue certification is not fundamentally incompatible with class actions that involve negotiations and produce settlements.

might make some sense in the context of a litigation class or settlement class limited to resolving the narrow federal issues cited in the certification order." Maj. Op. at 14. No court has articulated different predominance tests for classes certified for different purposes, and we should not open that Pandora's box here. The majority also worries that certifying only the federal RICO claims and CSA issues "creates confusion surrounding the scope of negotiations[,]" specifically "whether, and how, the negotiation class representatives, empowered by the court, will address their state law claims during settlement discussions." *Id.* But it is unclear how the negotiation class creates any more uncertainty about the scope of negotiations than does a litigation class, where a court certifies certain issues for litigation but negotiations during the suit may yield a global settlement, or a settlement class, where putative class members receive notice of settlement without having participated in negotiations at all.

Of course, district courts ought to exercise "caution" in finding predominance in mass torts cases, particularly "when individual stakes are high and disparities among class members great." *Amchem*, 521 U.S. at 625. In the asbestos litigation, for example, the Supreme Court determined that it was impermissible to find predominance based entirely on "hundreds of thousands, perhaps millions, of individuals[',]" *Amchem*, 521 U.S. at 597, "shared experience[,]" *id.* at 622, of asbestos exposure because putative class members "were exposed to different asbestos-containing products, in different ways, over different periods, and for different amounts of time; some suffered no physical injury, others suffered disabling or deadly diseases[,]" *id.* at 609. The Court buoyed these concerns in a later case when holding that a class of 1.5 million women who alleged that their employer systematically discriminated against them on the basis of sex did not present "questions of law or fact common to the class" as required by Rule 23(a)(2); the Court determined that the women "identified no 'specific employment practice'—much less one that ties all their 1.5 million claims together[,]" *Dukes*, 564 U.S. at 357, and that the women "held a multitude of jobs, at different levels of Wal-Mart's hierarchy, for variable lengths of time, in 3,400 stores, sprinkled across 50 states, with a kaleidoscope of supervisors . . . , [and] subject to a variety of regional policies that all differed[,]" *id.* at 359–60 (internal citation omitted).

But "mass tort cases arising from a common cause or disaster may, depending upon the circumstances, satisfy the predominance requirement[.]" *Amchem*, 521 U.S. at 625 (citing Fed. R. Civ. P. 23 advisory committee's note to 1966 amendment). Here, Plaintiffs are not tens of thousands (or millions) of persons who have highly individualized experiences with and "health consequences of[,]" *id.* at 624, asbestos exposure who attempt to satisfy predominance based on "shared experience" alone, *cf. id.* at 622–26. Nor are Plaintiffs unable to point to a "specific" or "uniform" practice that would provide the basis for predominance per Rule 23(b)(3) or commonality per Rule 23(a)(2). *Cf. Dukes*, 564 U.S. at 355–60. Plaintiffs are cities and counties that accuse Defendants of instituting an unlawful marketing scheme and an illegal supply chain that violated RICO and the CSA. *See Opiate Litig.*, 332 F.R.D. at 542. These claims are not predicated on the highly individualistic experiences of specific persons within the cities and counties who have been impacted by the opioid crisis, nor are they predicated on the degree of harm supposedly caused by Defendants; whether these two schemes existed or not applies to all class member cities and counties with commensurate force. Because "the same evidence will suffice for each member to make a prima facie showing or the issue is susceptible to generalized, class-wide proof[,]" *Bouaphakeo*, 136 S. Ct. at 1045 (internal citations and alterations omitted), the district court did not abuse its discretion in finding predominance here.

Defendants home in on RICO's causation element, arguing that "proving causation for RICO claims typically necessitates individualized proof." Defs.' Br. at 40. In other contexts, whether harm was caused by individuals' reliance on alleged fraud may be an individual question that would predominate over common questions. Not so for RICO. Defendants' argument is at odds with both the Supreme Court's and our precedent. In *Bridge v. Phoenix Bond & Indemnity Co.*, 553 U.S. 639 (2008), the Supreme Court held that those who bring mail fraud claims under RICO do not have to demonstrate that they relied on the fraud to establish that their injuries were caused by the fraud. *See id.* at 649 ("[N]o showing of reliance is required to establish that a person has violated § 1962(c) by conducting the affairs of an enterprise through a pattern of racketeering activity consisting of acts of mail fraud."). Because "[f]or RICO purposes, reliance and proximate cause remain distinct," Plaintiffs "need only show use of the mail in furtherance of a scheme to defraud and an injury proximately caused by that scheme." *Wallace v. Midwest Fin. & Mortg. Servs., Inc.* 714 F.3d 414, 420 (6th Cir. 2013). RICO's

softened causation element "largely dooms the Defendants' attempt to identify individual issues of causation sufficient to preclude a finding of predominance." *Torres v. S.G.E. Mgmt., L.L.C.*, 838 F.3d 629, 638 (5th Cir. 2016); *see, e.g.*, *id.* at 638–40 (finding predominance existed when pyramid scheme victims sought to certify RICO claims because victims' being "necessary to the scheme[,]" "direct victims of the scheme," and "foreseeable victims of the alleged fraud" satisfied RICO's causation element).

The district court's treatment of Rule 23(b)(3)'s second requirement—superiority—is another source of consternation for the majority. But the district court's analysis of whether "a class action is superior to other available methods for fairly and efficiently adjudicating the controversy" per Rule 23(b)(3)'s four enumerated factors, *see* Fed. R. Civ. P. 23(b)(3)(A)–(D), does no "obvious violence to the Rule's structural features." Maj. Op. at 15 (quoting *Dukes*, 564 U.S. at 363). The district court was correct that it need not assess "[t]he likely difficulties in managing a class action" required by Rule 23(b)(3)(D) because the proposed certification "is not for litigation or trial, but simply for settlement negotiations," *Opiate Litig.*, 332 F.R.D. at 551–52; this finding is in lockstep with Supreme Court precedent, *see Amchem*, 521 U.S. at 620 (concluding that "[c]onfronted with a request for settlement-only class certification, a district court need not inquire whether the case, if tried, would present intractable management problems, for the proposal is that there be no trial[]") (citing Fed. R. Civ. P. 23(b)(3)(D)). Still, the majority frets that the district court seems to have bypassed the manageability analysis that Rule 23(b)(3)(D) requires of litigation classes "without halting the underlying litigation." Maj. Op. at 14. But the majority reads too much into the district court's permitting parties to this suit to litigate claims in tandem with the negotiation class's existence. In any Rule 23(b)(3) class action—litigation, settlement, or otherwise—putative class members are always entitled to opt out and pursue their day in court or to conduct settlement negotiations on their own terms. *See Dukes*, 564 U.S. at 367 ("Because the Rules Enabling Act forbids interpreting Rule 23 to abridge, enlarge or modify any substantive right, a class cannot be certified on the premise that [Defendant] will not be entitled to litigate its statutory defenses to individual claims.") (internal citations omitted). Because no kind of class certification "halt[s] the underlying litigation," Maj. Op. at 14, until settlement is reached, we need not fear any "violence," *id.* at 15, against Rule 23's structure here. Moreover, we should hesitate to overstate the significance of the

manageability prong, which will rarely warrant denial of certification of a class. *See In re Visa Check/MasterMoney Antitrust Litig.*, 280 F.3d 124, 140 (2d Cir. 2001) (Sotomayor, J.), *abrogated on other grounds by In re Initial Pub. Offerings Sec. Litig.*, 471 F.3d 24 (2d Cir. 2006); *see also* Rubenstein, 2 Newberg on Class Actions, *supra*, § 4:72.

The majority further assails the district court's analysis of the factor enumerated in Rule 23(b)(3)(A), which stipulates that "the class members' interests in individually controlling the prosecution or defense of separate actions" is a "pertinent" matter." Fed. R. Civ. P. 23(b)(3)(A). Disagreeing with the district court's assessing that a negotiation class "favors individual control and involvement" by engaging class members in the negotiation and voting process, *Opiate Litig.*, 332 F.R.D. at 551, the majority determines that the negotiation class "requir[es] class action participants to commit to the negotiation class without knowing the issue parameters or the amount or prospect of any potential recovery[,]" Maj. Op. at 15. These concerns are akin to the Six Cities' agonies about the negotiation class's opt-out timeline, which I address below and need not do so again here. In short, this straw man skims over the features of the negotiation class that provide class members with more input and control over settlement negotiations than they would have in a traditional litigation class or settlement class. *See* Part IV, *infra*.

Turning away from Rule 23(b)(3), we must also train our sights on the district court's compliance with Rule 23(a), as "[a]ny class certification must satisfy Rule 23(a)'s requirement of numerosity, commonality, typicality, and adequate representation." *Clemons v. Norton Healthcare Inc. Ret. Plan*, 890 F.3d 254, 278 (6th Cir. 2018).[28] When certifying a class, a district court must properly find that "the representative parties will fairly and adequately protect the interests of the class[,]" as required by Rule 23(a)(4), *see* Fed. R. Civ. P. 23(a)(4), according to this circuit's two-pronged adequacy-of-representation test. *Young v. Nationwide Mut. Ins. Co.*, 693 F.3d 532, 543 (6th Cir. 2012) ("1) [T]he representative must have common interests with unnamed members of the class[;] and 2) it must appear that the representatives will vigorously prosecute the interests of the class through qualified counsel.") (citing *In re Am. Med.*

[28]The Appellants preserve only their arguments regarding adequacy of representation. Although we need not reach the questions of whether the district court's numerosity, commonality, and typicality findings were proper, the record reveals that the district court did not abuse its discretion in making its determinations for these three Rule 23(a) requirements.

Sys., Inc., 75 F.3d 1069, 1083 (6th Cir. 1996)). Appellants take aim at two aspects of the district court's adequacy finding: financial conflicts and subclasses. Both missiles miss their mark.

No nefarious financial conflicts have erupted in this case yet. Defendants aver that the negotiation class representatives are "not required to prioritize prosecution of the interests of the class in negotiating a settlement over and above their own litigation interests," Defs.' Br. at 47, because "they remain free to pursue litigation of [their own] suits without considering the interests of absent class members," Defs.' Br. at 48. In sync, the Six Cities chide the district court for creating conflicts of interest by "put[ting] overwhelming financial pressure on counsel to settle the case" and "convey[ing] . . . disinclination to tolerate class litigation if the negotiations fail." Six Cities' Br. at 39. But Appellants err in their focus—"the adequacy requirement focuses on the desired attributes of those who seek to represent the class as opposed to the characteristics of the class." Rubenstein, 1 Newberg on Class Actions, *supra*, § 3:50. Here, Appellants' allegations of financial conflict are far too hypothetical and speculative; "[o]nly when attacks on the credibility of the representative party are so sharp as to jeopardize the interests of absent class members should such attacks render a putative class representative inadequate." *Gooch v. Life Inv'rs Ins. Co. of Am.*, 672 F.3d 402, 431 (6th Cir. 2012) (internal citation omitted); *see also* Wright, Miller, & Kane, 7B, *supra*, at § 1768 n.2 (collecting cases finding that mere speculation that conflicts might develop were insufficient to demonstrate inadequate representation). Appellants' unsubstantiated accusations that class representative cities are willing to throw unnamed class members under the bus are distinct from contexts where named parties' steep financial conflicts clearly and presently endangered the interests of other class members. *Cf., e.g.*, *Vassalle v. Midland Funding LLC*, 708 F.3d 747, 757 (6th Cir. 2013) (determining financial conflict existed when settlement would forgive debts of only class representatives because representatives had interest in ensuring settlement whereas unnamed class could contest their debts only in court); *Ortiz v. Fibreboard Corp.*, 527 U.S. 815, 852 (1999) (determining impermissible conflict of interest in Rule 23(b)(1)(B) class action when

named plaintiffs' counsel negotiated separate settlement of 45,000 pending claims, the full payment of which was contingent on successful global settlement agreement).[29]

Whether the district court should have divided these cities and counties into subclasses, *see* Fed. R. Civ. P. 23(c)(5), demands closer scrutiny. But, query, what subclasses are Appellants proposing? In neither their memorandum opposing certification nor their brief here do the Six Cities explicate how the district court should have severed the class. By explaining that the cities and counties "operate in vastly different factual and legal contexts, spread across all fifty States," Six Cities' Br. at 34, perhaps Appellants suggest the class should be split on a geographic basis. Ignoring, for now, that Appellants provide no specifics about how this division should work, geography or differences in state law are not compelling reasons to use subclasses here. A class need not be subdivided merely because certain claims may be more difficult to prove in some states over others due to geography. *See In re Deepwater Horizon*, 739 F.3d 790, 814 (5th Cir. 2014) (finding subclasses to be unnecessary even though "'causation becomes more difficult for a claimant [state] to establish the further one moves from the coast" and, in particular, the further one moves from the Macondo reservoir where the *Deepwater Horizon* incident occurred"). Likewise, "differently weighted interests" do not mandate subclasses. *Gooch*, 672 F.3d at 429. Here, multiple factors massage any geographical or legal rifts, *see Deepwater Horizon*, 739 F.3d at 813–14: the class was certified based on their federal claims—not their state claims—that nation-wide marketing and distribution schemes existed; the

[29]Perhaps this is not the financial conflict that we ought to be concerned with here. Plaintiffs allege that the Six Cities "are represented by the same counsel, who previously sought and was denied a leadership position representing all cities and counties and, who, curiously, is co-counsel with [Plaintiffs' Executive Committee] members in representing other Class Members who do not oppose the Class." Pls.'s Reply Br. Further Supp. Renewed and Am. Mot. Certification of Rule 23(b)(3) Cities/Counties Negotiation Class, No. 1:17-md-02804-DAP, R. 2076 at 18 n.16 (Page ID #286379). If Plaintiffs' allegations are true, the implications are deeply unpalatable. (It does appear that the Six Cities' counsel did seek, and was denied, a position on the Plaintiffs' Executive Committee.) *See* Mot. for Leave to File MSP Plaintiffs' Motion for Appointment to a Position on the Pls.' Executive Committee, No. 1:17-md-02804, R. 578.). Equally concerning: under its contract with counsel, at least one of the Six Cities "will not pay a legal fee unless it wins a monetary award" but "would give its [counsel] 25[%] of any settlement, verdict[,] or recovery of any kind." Bob Sandrick, *North Royalton joins litigation over opioid epidemic*, CLEVELAND.COM (Jan. 30, 2019), https://www.cleveland.com/north-royalton/2018/04/north_royalton_joins_litigatio html. This is a much larger share than the 10% set aside for class counsel under the negotiation class's allocation proposal. *See* Pls.'s Notice of Mot. and Mot. for Certification of Rule 23(b)(3) Cities/Counties Negotiation Class, No. 1:17-md-02804, R. 1683 at 10–12 (Page ID #46950–52). Amidst these black pots and kettles, we should refrain from finding that class counsel is the source of financial conflicts of interest in the present case.

negotiation class's proposed allocation plan addresses differences between counties in the number of persons suffering opioid use disorder, number of opioid deaths, amount of opioids distributed, *see* Pls.'s Corrected Notice of Mot. and Mot. for Certification of Rule 23(b)(3) Cities/Counties Negotiation Class, No. 1:17-md-02804, R. 1690-1, at 49–50 (Page ID #47150–51), and amount spent on previously filed opioid litigation, *see id.* at 44 (Page ID #567144); and the class's voting plan—which requires approval by 75% of six distinct groups—accounts for the cities' and counties' varying population sizes,[30] *see id.* at 8–9 (Page ID #47091–92).

Finally, the Six Cities have an obvious champion among the named Plaintiffs. The City of Lakewood sits in Cuyahoga County, where five of the Six Cities are located; Lakewood's income and racial diversity is also on par with that of various of the Six Cities',[31] and Lakewood's population (51,382) does not dwarf that of North Royalton (30,315).[32] *Cities and Counties*, In Re: National Prescription Opiates Litigation, https://www.opioidsnegotiationclass.info/ (last visited Sept. 14, 2020). Indeed, the forty-nine named counties and cities are spread across nearly every state and are of every size and variety. *See id.* The Six Cities need not rely solely on Lakewood to campaign for their interests as they also share similar population sizes with several other named plaintiffs, including Goodling County, Idaho (15,216) and Camden County, Georgia (51,402). *See id.* Even in the absence of any clear articulation of what geography- or law-based subclasses would look like, it is difficult

to comprehend how the spread of named representatives here does not protect the interests of the Six Cities or other class members.

Or perhaps the Six Cities demand that the class should be severed by interest. But the district court has already contemplated whether it was appropriate to divide class members by the most obvious axis of interests; because all named class members are "litigating entities," *Opiate Litig.*, 332 F.R.D. at 539 (internal quotation marks omitted), who had "filed lawsuits as of June 14, 2019[,]" *id.*, the district court tasked Special Master Yanni to investigate whether they adequately represented "non-litigating entities," *id.*, who had not filed lawsuits by that date, *see* Order Directing Special Master Yanni To Assess Fairness of Allocation and Voting Proposals To Non-Litigating Entities, No. 1:17-md-02804, R. 2529. Acknowledging that litigating class members may want to "settle fast to recover their outlay of costs" whereas "non-litigating class members might want to settle fast and cheap[,]" Special Master Yanni found that "[t]his is true of class members in all class actions and, standing alone, does not create any meaningful, much less fundamental intra-class conflict." Rep. of Special Master Cathy Yanni, No. 1:17-md-02804, R. 2579 (Page ID #413008). Based on the negotiation class's transparency regarding allocation issues and the voting plan, Special Master Yanni found that "there are no conflicts of interest, much less fundamental ones, between litigating and non-litigating class members as to negotiating settlements with defendants" and that the "fact that all of the proposed class representatives are litigating entities does not render them unable to represent the interests of the non-litigating class members in settlement negotiations." *Id.* at 15 (Page ID #413008). The district court adopted her "thoughtful and thorough" findings. *Opiate Litig.*, 332 F.R.D. at 553. In short, the district court has carefully considered any conflict of interests that may have existed along the most obvious tilt—litigating versus non-litigating entities—and, without any suggestion of abuse of discretion, we must uphold the district court.

But the Six Cities do not draw their battle lines based on the district court's deciding not to create subclasses based on litigating versus non-litigating status. Perhaps this is because all Six Cities present themselves as litigating entities—although they fail to clarify this at any point in their brief—whose interests would be adequately represented by all of forty-nine named

Plaintiffs, who are, again, all litigating entities.[33] But where the Six Cities would have us draw the lines is a riddle: their brief does not explain how to slice this class by interests, and their articulation of which class members' interests conflict with each other ambiguously relies on pure conjecture. *See* Six Cities' Br. at 34–35 ("a significant aspect of any settlement *may be* a commitment by industry members to . . . self-regulat[e]"; "promises of industry reform *may be* worth very little"); "maximizing Defendants' obligations to self-regulate *may be* a higher priority") (emphasis added). All of these theoretical interests plague any class action and are not an obvious source of conflicting interests. *See* Geoffrey P. Miller, *Conflicts of Interest in Class Action Litigation: An Inquiry into the Appropriate Standard*, 2003 U. Chi. Legal F. 581, 581 (2003) ("Because of the large numbers of claims and the potential for members of the class to be differently situated with respect to particular issues, tensions among class members are common, even ubiquitous."). Of course, objectors need not propose subclasses for their use to be proper. *See, e.g.*, *Amchem*, 521 U.S. at 603 (concluding that subclasses were warranted even though "[t]he complaint delineated no subclasses; all named plaintiffs were designated as representatives of the entire class."). But apart from litigating members' and non-litigating members' differing interests, it is difficult to comprehend what other interests would be so fundamentally incompatible as to undermine representation here—a difficulty that is evident in the Six Cities' nebulous arguments.

---

[33]In their brief, the Six Cities never clarify if they have filed a suit in the MDL, whether before or after June 14, 2019. Further, there is no accessible record in the district court docket that any of the Six Cities have filed any complaints in this matter. My understanding that they present themselves as "litigating entities" is based on the Six Cities' counsel's representations to the district court. *See* Transcript Procs. Before Hon. Dan Aaron Polster Tues., Aug. 6, 2019, No. 1:17-md-02804-DAP, R. 2147, at 15:19–16:15 (Page #ID 288093–94) ("THE COURT: All right. FERRARO: All right.").

Failing to conjure up a cogent theory of how even one specific conflict of interest mandates subclasses, the Six Cities stress that "there will also be differences in interests between class members regarding the relative importance of addressing past versus future harm." Six Cities' Br. at 35. But time does not part the sea here, as *all* class members have *both* past and future harms of uniform kind. In the context of the asbestos litigation, the Supreme Court rightfully expressed horror over certifying a "single giant class," *Amchem*, 521 U.S. at 626, for the "elephantine mass of asbestos cases," *Ortiz*, 527 U.S. at 821. That "currently injured" asbestos victims maintained "the critical goal [of] generous immediate payments" whereas "exposure-only plaintiffs" had an interest "in ensuring an ample, inflation-protected fund for the future[,]" sprouted a deep conflict of interest. *Amchem*, 521 U.S. at 626; *see also Ortiz*, 527 U.S. at 819 ("[A] class including holders of present and future claims (some of the latter involving no physical injury and claimants not yet born) requires division into homogeneous subclasses under [then] Rule 23(c)(4)(B), with separate representation to eliminate conflicting interests of counsel."). In the asbestos cases, there was an unambiguous wall between plaintiffs—who were either firmly in the "already injured" camp or squarely in the "not-yet-injured" camp—that created fundamentally incompatible interests in desiring present versus future relief. But here, Plaintiff counties and cities allege that nation-wide fraudulent marketing and distribution schemes *have already injured* their communities. Any differences lie in the magnitude of harm sustained and not in the kind of interests. Indeed, the Six Cities concede that all Plaintiffs have already sustained injury, as their analogy to the asbestos litigation's distinction between past versus future claims is the interests held by the "jurisdictions *hardest hit*" by the opioid crisis and those of the "jurisdictions that have *suffered* comparatively less harm to date[.]" Six Cities' Br. at 35 (emphasis added). And even if there are counties and cities in the class that, somehow, have not yet sustained any injury whatsoever from the opioid crisis—which even the Six Cities do not deign to assert—the possibility that some class members may not prevail on the merits of their individual claims does not defeat class membership. *See Deepwater Horizon*, 739 F.3d at 813 ("Class certification is not precluded simply because a class may include persons who have not been injured by the defendant's conduct.").

The only "future interest" that can be extrapolated from the Six Cities' brief is that it "*may be* a higher priority" for "jurisdictions that have suffered comparatively less harm to date"

to "maximiz[e] Defendants' obligations to self-regulate" or "restrict[] the scope of any waiver of claims for future injury." Six Cities' Br. at 35; *see also* Defs.' Br. at 49–50. Ignoring, again, the speculative nature of these supposed future interests, Appellants' distinguishing between past and future interests has no place in this case because *all* class members will suffer future harm. Unlike in the asbestos litigation, where individuals who were already injured by asbestos had no pecuniary interest whatsoever in creating a fund for those who have not been injured, every county and city in this country—even those that have been hit harder than others—share a uniform future interest in ensuring that opioid manufacturing and distribution will not affect their communities going forward. Again, any differences are of magnitude, not of kind. It is patently inconceivable that any city or county has categorically defeated the opioid epidemic and needs no financial support fighting the crisis going forward. *See, e.g.*, Summit County Complaint, No. 1:17-md-02804, R. 513 at 225 (estimating that Summit County has already spent $66 million on costs related to the opioid crisis and will likely spend another $89 million over the next five years). This case is more analogous to *Gooch v. Life Investors Insurance Co.*, where this court examined the adequacy of representation of a class that consisted of persons who have filed, or might file, medical claims, 672 F.3d at 429. In *Gooch*, the Defendant insurance company claimed that a conflict of interest persisted between persons with premium waivers, who had only an interest in past insurance payments, and persons without such waivers, who also bore an interest in attaining manageable premium rates. *See id.* But we rejected any overtures to divide the class by past and future interests, reasoning that those with premium waivers still had "*some* prospective financial interest in keeping [their] own premiums low" and that all class members "have an interest in maximal payment for [their medical] claims." *Id.* at 429–30. Similarly, by virtue of the ongoing nature of the opioid epidemic, cities and counties that have already sustained monetary losses maintain a prospective financial interest in ensuring that any settlement properly accounts for future interests. In sum, even a generous extrapolation of interests from the Six Cities' hazy arguments does not require the district court's balkanizing this class into subclasses.

IV.

Having established that history, text, and purpose empower the district court to certify a class for negotiation purposes and that the district court's reasoning properly adhered to Rule 23's requirements, I now inspect the Six Cities' baseless policy and constitutional grievances about the negotiation class's opt-out timeline.

The procedure for opting out of the negotiation class is akin to that of a litigation class—plaintiffs can decide to opt out after class certification but before a settlement is proposed. *See Opiate Litig.*, 332 F.R.D. at 537 ("The idea is to undertake the class certification and opt-out process prior to a settlement being reached, as is done in a normal class action geared toward trial."). Should negotiations produce a proposed settlement, Rule 23(e) gives the district court "discretion" to grant class members a second opportunity to opt out. Fed. R. Civ. P. 23(e)(4) advisory committee's note to 2003 amendment.[34] To the Six Cities, this order of operations "disarms" them of two sabers from the litigation class armory and two rapiers from the settlement class arsenal. Six Cities' Br. at 3. First, they argue that litigation class members can "negotiate[e] from a position of strength" because they can "credibly threaten class litigation (with commensurate potential liability)[.]" *Id.* at 24–25. Second, they assert that plaintiffs and defendants in a litigation class action have an "incentive to ensure fair and adequate treatment for all class members" because "negotiations take place against the backdrop of the district court's authority to allow class members another opt-out opportunity after the settlement is negotiated." *Id.* at 25. Third, they aver that "[Rule 23] allows [settlement] class members to review a settlement and opt out of the class if they are dissatisfied with its terms." *Id.* at 26. Fourth, they allege that "[settlement] class members are put to that opt-out choice only after the district court has determined, based on a thorough review of the final settlement proposal, that it is likely to approve the proposal and certify the class." *Id.* at 26 (citing Fed. R. Civ. P. 23(e)(1)(B)); *see also* Maj. Op. at 16 ("The fact that negotiation class members in the present case must choose whether to opt-out before knowing the settlement amount only heightens our concern in the

[34]The text of Rule 23(e)(4) reads: "New Opportunity to be Excluded. If the class action was previously certified under Rule 23(b)(3), the court may refuse to approve a settlement unless it affords a new opportunity to request exclusion to individual class members who had an earlier opportunity to request exclusion but did not do so." FED. R. CIV. P. 23(e)(4).

present case."). The Six Cities concede that the former two features are lacking in settlement classes and that the latter two are nonexistent in litigation classes. *See* Six Cities' Br. at 24–28; *see also id.* at 24 ("The two existing methods for settling class claims provide a balanced mix of advantages and disadvantages for plaintiffs and defendants[.]"). But they contend that the negotiation class's opt-out timeline unacceptably divests class members of all four protections. Therefore, the Six Cities grumble, class members are trapped in the "worst of both worlds," *id.* at 3—they lack both leverage in negotiations and an escape route from an unfavorable settlement, *see id.* at 10 ("The negotiation class is just a litigation class with no power to litigate, or a settlement class deprived of its opt-out rights.").

This is a misleadingly simplistic illustration of how class actions operate. Negotiation class members are not wedged between leaving the class entirely and accepting a suboptimal settlement; another avenue grants material clout to all class members. Under Rule 23(e)(5), class members can file objections with the court to oppose the terms of a proposed settlement or raise other issues with the class action prior to a settlement's approval. *See* Fed. R. Civ. P. 23(e)(5).[35] This route is familiar to the Six Cities; they filed an objection with the district court that asserted that the negotiation class inadequately accounted for the competing interests of class members and that the opt-out procedure is unconstitutional. *Opiate Litig.*, 332 F.R.D. at 553 (acknowledging Mem. Opp'n Renewed and Amended Mot. for Certification of Rule 23(b)(3) Cities/Counties Negotiation Class, No. 1:17-md-02804, R. 1958, as an "objection to the plan[.]"). Subsequently, the district court appointed an independent Special Master, *see* Order Directing Special Master Yanni, No. 1:17-md-02804, R. 2529,[36] who investigated and addressed whether the proposed allocation method would distribute a settlement equitably among the class

[35]Rule 23(e)(5)(A) provides that "[t]he objection must state whether it applies only to the objector, to a specific subset of the class, or to the entire class, and also state with specificity the grounds for the objection." FED. R. CIV. P. 23(e)(5)(A).

[36]Specifically, the district court asked Special Master Yanni to address "a. whether the proposed class action allocation method, allotting up to 10% of all recoveries to litigating entities' attorney's fees and up to another 15% to litigating entities' expenses is, from the perspective of the non-litigating entities, consistent with Rule 23(e)(2)(D)'s requirement that a settlement be distributed equitably among the class members; b. whether the proposed voting schemes, with three sets of votes counted separately among litigating entities and non-litigating entities, treats the latter group fairly; and, c. whether the proposed Class Representatives and Class Counsel can adequately represent the entire class, including non-litigating entities, as required by Rule 23(a)(4) and Rule 23(g), respectively." Order Directing Special Master Yanni To Assess Fairness of Allocation and Voting Proposals To Non-Litigating Entities, No. 1:17-md-02804, R. 2529, at 4–5 (Page ID #408988–89).

members and whether the proposed representatives could adequately represent the whole class, *see* Rep. of Special Master, No. 1:17-md-02804, R. 2579. Citing the report's findings, the district court responded to the Six Cities' objection. *See Opiate Litig.*, 332 F.R.D. at 553. The court found that "[n]othing in the allocation model appears to skew toward any group other than those hardest hit by the opioid epidemic[,]" *id.*, and that the negotiation class's proposed "Special Needs Fund" sufficiently accounted for the Six Cities' concerns, *see id.* In short, the objections procedure went off without a hitch: a putative class member exercised their right to air their grievances about the class certification process via an objection and the district court—enlisting an independent special master to assist in this case—extensively investigated and addressed their complaints. This is precisely how courts should accommodate class members' frustrations when certifying a class or when making other decisions in a class action.[37] Indeed, as parties to the settlement, the Six Cities, and any other class members, can continue to file objections going forward.[38] Threatening to opt out or actually opting out was not the Six Cities' only option; we should not ignore that The Six Cities know how to wield and swing a powerful tool—objector status—that is available for class members who wish to mold the certification process.[39]

[37]*See* MANUAL FOR COMPLEX LITIGATION, FOURTH, § 21.643 ("Objectors can provide important information regarding the fairness, adequacy, and reasonableness of settlements. Objectors can also play a beneficial role in opening a proposed settlement to scrutiny and identifying areas that need improvement.").

[38]*See id.* Those who claim the mantle of "objector" usually do so in the context of opposing the terms of a proposed settlement. *See* Edward Brunet, *Class Action Objectors: Extortionist Free Riders or Fairness Guarantors*, 2003 U. CHI. LEGAL F. 403, 407 n.22 (2003); *see also* Bruce D. Greenberg, *Keeping the Flies Out of the Ointment: Restricting Objectors to Class Action Settlements*, 84 ST. JOHN'S L. REV. 949, 950 (2010) ("'[A]bsent class members' are permitted to object that a proposed settlement is not fair, reasonable, and adequate."). This form of objection is compatible with the language of Rule 23(e)(5). *See* FED. R. CIV. P. 23(e)(5)(A) ("Any class member may object to the proposal if it requires court approval under [Rule 23(e)].") However, class action objectors "can emerge earlier than the exact time of a proposed settlement[,]" Brunet *supra*, at 474 n.22; objectors may oppose the definition of a class at the time of the Rule 23 certification hearing, *see id.*; object to the form, content, or timing of notice, *see* Greenberg, *supra*, at 970–72; or object to class counsel fees, *see id.* at 973–76. Theoretically, the Six Cities could have raised any number of objections under Rule 23(e)(5) even though a settlement has not been proposed in this case. Further, class members' filing an adequately formal and detailed objection with the district court preserved their right to raise objections on appeal. See WRIGHT, MILLER & KANE, 7B, *supra* note 24, § 1797.4 ("[T]he failure to formally object to a settlement at the trial level will preclude a class member from raising objections on appeal.").

[39]*See* Transcript, No. 1:17-md-02804-DAP, R. 2147, at 14:23–15:8 (Page ID #288092–93) (Mr. FERRARO: [W]e filed an objection on the Plaintiff's side on behalf of the handful of Ohio cities. . . . I was an

Even if we accept hypothetically that class members can meaningfully influence a class action only by opting out or threatening to do so, the Six Cities spin an untenable narrative about how the negotiation class's opt-out timeline disembowels them of any of the benefits that they would have been accorded in a litigation class or in a settlement class. A consistent theme emerges: the Six Cities assert that the negotiation class takes a readily available option off the table, and they embellish the practical significance of the option's absence. Consider the Six Cities' claim that the negotiation class "divests the class representatives of their usual negotiating leverage by depriving them of the right to proceed to litigation as a class if Defendants' settlement demands are unreasonable." Six Cities' Br. at 10. No such "right" is deprived here.[40] The district court's certifying a negotiation class does not bar the Six Cities, or any other class members, from pursuing settlement or litigation on their own terms, regardless of whether they choose to remain in or exit from the class. *See Opiate Litig.*, 332 F.R.D. at 537; Ord. Clarifying Negotiation Class Certification Ord., Nos. 1:17-md-02804-DAP, 1:18-op-45090, R. 2713, at 2–3 (Page ID #419213–14).[41] Of course, solo litigation does not carry as much weight as class litigation. But if the Six Cities really believed that a litigation class was the best vehicle for this suit, they could have proposed a litigation class before or as an alternative to the motion to certify a negotiation class. Indeed, the Six Cities could propose a litigation class for their state law claims, which are not the subject of the negotiation class, at this very moment.

Further, the Six Cities overstate the amount of leverage that is created by class members' threatening litigation in negotiations. It is widely known that the "vast majority" of class actions

[40]Even if it wanted to, the district court could not prevent the Six Cities from litigating their claims. *See Dukes*, 564 U.S. at 367 ("Because the Rules Enabling Act forbids interpreting Rule 23 to abridge, enlarge or modify any substantive right, a class cannot be certified on the premise that [Defendant] will not be entitled to litigate its statutory defenses to individual claims.") (internal citations omitted).

[41]*See Opiate Litig.*, 332 F.R.D. at 537 ("[The negotiation class] does not stop parties in the MDL from settling in other ways. And there is nothing intrusive about this process: it does not stop any litigation from continuing and in no way interferes with the upcoming bellwether trials in this MDL. This process simply provides an option[.]"). In a subsequent order, the district court clarified that those who chose to remain in the class could independently settle or litigate their claims, so long as they do not participate in double recovery with respect to the defendants with which they have settled or against whom they have obtained a judgment. *See* Ord. Clarifying Negotiation Class Certification Ord., Nos. 1:17-md-02804-DAP, 1:18-op-45090, R. 2713, at 2–3 (Page ID #419213–14).

certified under Rule 23(b)(3) result in settlement, not a judgment after trial on the merits. Geoffrey P. Miller, *Rethinking Certification and Notice in Opt-Out Class Action*s, 74 UMKC L. Rev. 637, 640 (2006); *see also* Rubenstein, 3 Newberg on Class Actions, *supra*, § 9:52 (5th ed.) ("[M]ost class actions today are settlement class actions in any case[.]"). The threat of litigation is not a genuine source of leverage; rather, it is the possibility of certification that packs power in the punch. *See* Geoffrey P. Miller, *supra*, at 642 ("For defendants, certification of a large-scale class action can turn an insignificant case into one with potentially devastating liability exposure."). Despite holding themselves out as litigating entities,[42] the Six Cities—who have not clarified otherwise in their brief—have not referred to or cited any complaint filed in this suit. So to maintain their means to *threaten* litigation—which they can already pursue either on their own or as a class—the Six Cities ask this court to eliminate Plaintiffs' primary source of bargaining power and potentially force all parties into a litigation that no one else wants to pursue.[43] Because "it is difficult to see" how the "preserv[ation of] such a purely theoretic individual interest meaningfully furthers litigant autonomy," Ryan C. Williams, *Due Process, Class Action Opt Outs, and the Right Not to Sue*, 115 Colum. L. Rev. 599, 617–18 (2015), we should resist the urge to capitulate to the Six Cities' bold request to transform this 33,000-strong class into the tale of Six Cities.

Similarly unconvincing is the Six Cities' assertion that litigation class members' ability to opt out after a settlement is proposed guarantees fair treatment for all class members. *See* Six Cities' Br. at 25. The Six Cities skim over how the district court "may"—not must—grant class members a second opportunity to opt out after a settlement is tendered; they also conveniently

---

[42]Again, the Six Cities' brief never clarifies whether they have filed a suit in this case, and there is no accessible record that any of the Six Cities have filed complaints. For the purposes of analysis in this section, I assume that they are litigating entities based on the Six Cities' counsel's representations to the district court. *See* Transcript, No. 1:17-md-02804-DAP, R. 2147, at 15:19–16:15 (Page #ID 288093–94), 20:11–20:16 (Page ID #288098), 21:6–25 (Page ID #288099); *see also supra* note 33.

[43]*See* Appellees' Br. at 10 ("The purpose of the Negotiation Class was only to provide a vehicle for settlement discussions with any defendant that sought to take advantage of this structure."); *Opiate Litig.*, 332 F.R.D. at 537 ("The Court has determined that . . . the [negotiation class] process is more likely to promote global settlement than it is . . . to impede it"); *id.* at 536–37 ("The Defendants have insisted throughout on the need for a 'global settlement,' that is, a settlement structure that resolves most, if not all, lawsuits against them arising out of the opioid epidemic."); Six Cities' Br. at 1 ("[A]llowing settlement class members to 'opt out of the class after the settlement' is reached . . . was objectionable [to the district court] because it posed the risk that 'many of the[] Plaintiffs could opt out,' depriving Defendants of the global settlement they desired.") (internal quotation marks omitted) (citing *Opiate Litig.*, 332 F.R.D. at 537).

omit that Rule 23(e)(4), the source of this potential second opt out, applies in *any* class action in which a settlement is proposed. Fed. R. Civ. P. 23(e)(4). Should this negotiation class's deliberations yield a settlement proposal, Rule 23(e)(4) will still be triggered. Another wrinkle is missing from the Six Cities' brief—Rule 23(e)(4)'s "[n]ew [o]pportunity to be [e]xcluded[,]" Fed. R. Civ. P. 23(e), did not exist in the Federal Rules of Civil Procedure until 2003, *see* Fed. R. Civ. P. 23 advisory committee's note to 2003 amendment; *see also* Wright, Miller, & Kane, 7B, *supra*, § 1797.5. Between 1966 and 2003, if a court did not "[keep] the opt-out window open throughout the litigation" or "beyond the time of settlement," Kenneth S. Rivlin & Jamaica D. Potts, *Proposed Rule Changes to Federal Civil Procedure May Introduce New Challenges in Environmental Class Action Litigation*, 27 Harv. Envtl. L. Rev. 519, 531 (2003), members of a litigation class had no choice but to stomach whatever settlement came down the chute. Here, the Six Cities' risk is ameliorated by the existence of Rule 23(e)(4) and by the district court's expressly reserving the right to provide a second opt-out opportunity. *See Opiate Litig.*, 332 F.R.D. at 540 ("Moreover, the [c]ourt always retains the option of enabling a second opt-out opportunity if circumstances require.").

Again, the significance of a possible post-negotiation opt-out opportunity should not be exaggerated—in practice, courts are hesitant to invoke their discretion under Rule 23(e)(4) to allow a second round of opt-out rights to class members. *See Low v. Trump Univ., LLC*, 881 F.3d 1111, 1121 (9th Cir. 2018) ("[W]hile some class action settlements allow a second opt-out opportunity, they are unusual and probably result from the bargaining strength of the class negotiators[] rather than any due process concerns.") (internal quotation omitted); *see also* 2 McLaughlin on Class Actions § 6:21 n.8 (16th ed. 2019) (collecting cases that "reject[] the suggestion that a second opt-out should be granted as a matter of course, even if the terms of the settlement change after the expiration of the initial opt-out period[]"); Theodore Eisenberg & Geoffrey Miller, *The Role of Opt-Outs and Objectors in Class Action Litigation: Theoretical and Empirical Issues*, 57 Vand. L. Rev. 1529, 1544 n.64 (2004) (describing the "unusual situation where, post settlement, the court allows a second round of opt-out rights to class members who previously did not exercise their right to exclude themselves"). If the district court does refuse to grant a second chance to opt out of this negotiation class, such a decision would be par for the course in the class action context. Because the creation of a second opt-out juncture is just as

unlikely and abounds with as little consequence here as in any class action, negotiation class members do not shoulder any more risk of tying themselves to the mast of an unknown settlement than litigation class members do.

The Six Cities also exaggerate the benefits afforded to class members who can opt out after a settlement has been proposed. Again, the Six Cities neglect to mention that Rule 23(e)(1)(B) requires district courts to conduct a thorough review of a final settlement proposal in *any* class action, Fed. R. Civ. P. 23(e)(1)(B), and that the district court has already stipulated that it will do so in this case should negotiations produce a proposed settlement, *Opiate Litig.*, 332 F.R.D. at 539 (citing Fed. R. Civ. P. 23(e)(1) for the proposition that "the [c]ourt must preliminarily approve the settlement"). The Six Cities are correct, however, that, unless the district court permits a second opt-opt opportunity under Rule 23(e)(4), members of the negotiation class may not be allowed to opt out after a settlement is proposed. Accordingly, it is also true that members of the negotiation class are unable to opt out if they are "dissatisfied with [the settlement's] terms." Six Cities' Br. at 26. But, once again, the Six Cities paint a picture of the negotiation class's opt-out timeline that obfuscates the reality of class action proceedings. The Supreme Court has been clear—due process demands only that class members are given one opportunity to opt out of a Rule 23(b)(3) class. *See Phillips Petroleum Co. v. Shutts*, 472 U.S. 797, 812 (1985); *cf. Dukes*, 564 U.S. at 363 ("In the context of a class action predominantly for money damages we have held that absence of notice and opt out violates due process.") (citing *Shutts*, 472 U.S. at 812). Notwithstanding the Six Cities' unconvincing recapitulation of their storm of arguments regarding leverage, the threat of litigation, and the benefits of reviewing a settlement before deciding the opt out, Six Cities' Br. at 41–44, they have failed to explicate why the inability to opt out after receiving notice of settlement, which has long-defined the litigation class, is suddenly constitutionally or statutorily suspect here.

Moreover, the Six Cities rely on yet another dubious premise that does not cohere with how class actions operate in practice—that the guarantee of opting out after receiving notice of the settlement provides a realistic safeguard for class members. In practice, members of classes, including settlement classes, almost never choose to opt out. *See* Eisenberg & Miller, *supra* at 1532, 1557–59 (finding that opt-out rates for all class actions and for settlement class actions are,

on average, less than 1%).[44] Exiting a settlement class is rarely realistic for most parties, who "would then be required to conduct his or her own lawsuit, the costs of which would usually exceed any expected enhancement in consideration that could be achieved by individual litigation." Geoffrey P. Miller, *supra*, at 640; *see also Shutts*, 472 U.S. at 809 ("[T]his lawsuit involves claims averaging about $100 per plaintiff; most of the plaintiffs would have no realistic day in court if a class action were not available."). Thus, "[t]he option value conferred on absent plaintiffs by late certification, in other words, [is] often worthless." Geoffrey P. Miller, *supra*, at 640.

The risks associated with requiring class members to make an early opt out decision are undeniable: the cities and counties may not be allowed to opt out the class if negotiations yield a dissatisfactory proposed settlement. But, again, Appellants' reducing the entire class action enterprise's certification procedures into a narrative of "leave or remain" perpetuates a false dichotomy. The Six Cities neglect to couple their cherry-picking of these risks with a candid acknowledgement of how these hazards are uniformly latent in all class actions or how the negotiation class' attributes mend some of these deficiencies. In the negotiation class, potential class members can help develop the plan for allocating the settlement among the class and for voting on a proposed settlement—an opportunity that they would be denied in a settlement class. *See Opiate Litig.*, 332 F.R.D. at 538. Further, negotiation class members know the settlement distribution mechanism ahead of their opt-out decision, unlike in a litigation class. *See id.* Because the district court's certification fixes the class size early, negotiation class members are prepared to calculate their share of any future settlement, which they could not do in either a settlement or litigation class. *See id.* at 537. After a proposed settlement, negotiation class members have the opportunity to vote on the settlement via a carefully calibrated voting plan that requires supermajorities (here, 75%) of six distinct groups. *See id.* at 538. This voting structure renders it highly unlikely that class members—especially the most engaged class members, like the Six Cities—would be bound to a woefully dissatisfying settlement. These protections are far more robust than those guaranteed by the ordinary settlement class, where class members are

[44]For class actions where the district court approved a settlement, the mean percentage of opt-outs was 0.7% and the median was 0.1%. *See* Theodore Eisenberg & Geoffrey Miller, *The Role of Opt-Outs and Objectors in Class Action Litigation: Theoretical and Empirical Issues*, 57 VAND. L. REV. 1529, 1558 (2004).

almost always forced to accept a meager amount without any chance for input at all. The Six Cities would have us believe that the negotiation class is the "worst of both worlds." Six Cities' Br. at 3. But such a characterization selectively highlights the pitfalls that are endemic to any kind of class action while surreptitiously concealing the ways that the negotiation class ameliorates those dangers.

It is difficult to comprehend how we can satisfy the Six Cities' demands. We cannot force the district court to allow the Six Cities a second opportunity to opt out after they receive notice of settlement; class members are not entitled to a second opt-out opportunity under Rule 23(e)(4)'s plain text and the Supreme Court's precedent in *Phillips Petroleum Co. v. Shutts*, 472 U.S. 797 (1985). If we abolish the negotiation class and impose the litigation class or settlement class structure onto Plaintiffs, we expose them to the exact same, if not worse, risks that the Six Cities raised in their briefs. In the likely scenario that Plaintiffs pursue a settlement class instead, we will have robbed Plaintiffs of their bargaining power and will obfuscate any transparency about settlement distribution. Because any deficiencies in the negotiation class will be just as, if not more, potent in a litigation or settlement class, we should not capitulate to the Six Cities' request that we sail Plaintiffs' claims away from the cliffs and into the whirlpool.

V.

I agree that we should not disregard the motion panel's decision, *see* No. 19-0305, R. 24; No. 19-0306, R. 22, that this court may exercise our "sole," and "unfettered," Fed. R. Civ. P. 23, advisory committee's note to 1998 amendment, discretion to "permit an appeal from an order granting or denying class-action certification [under Rule 23]," Fed. R. Civ. P. 23(f). But as a matter of both procedure and logic, we should decline to reach the merits of this interlocutory appeal.

Appellate standing "does not have its source in the jurisdictional limitations of Art[icle] III"[45] but is "derived from the statutes granting appellate jurisdiction and the historic practices of

Let us start with Defendants' stated aggravations with the district court's certifying a negotiation class. Defendants assert that they have a "stake in the controversy[,]" Defs.' Br. at 55 (citing *City of Cleveland*, 508 F.3d at 836–38), because they "face material harm from the improper certification" and because the certification "diverts resources away from permissible modes of resolving cases in this national MDL[,]" "is replete with conflicts of interest, cannot be relied upon to achieve meaningful results, and is structured so that any settlement that might be reached would be vulnerable to attack." Defs.' Br. at 55–56.[47] Even if taken as true, these brief

[46]In *Roper*, the Supreme Court credited 28 U.S.C. § 1291 as the statute that permits appellate jurisdiction. *Roper*, 445 U.S. at 333 ("Congress has vested appellate jurisdiction in the courts of appeals for review of final decisions of the district courts.") (citing 28 U.S.C. § 1291). Notably, a different statute, 28 U.S.C. § 1292(e), is implicated when appellate courts review district courts' class certifications under Federal Rule of Civil Procedure 23(f). *See* Fed. R. Civ. P. 23, advisory committee's note to 1998 amendment ("Subdivision (f). This permissive interlocutory appeal provision is adopted under the power conferred by 28 U.S.C. § 1292(e)."). The Court's decision in *Roper* predates the 1998 promulgation of Rule 23(f). But the *Roper* Court refused to limit its appellate standing analysis to "that narrow category of circumstances where appeal was allowed prior to final judgment as a matter of right under 28 U.S.C. § 1291[,]" and did not "intend[] to preclude motions under 28 U.S.C. § 1292(b) seeking discretionary interlocutory appeal for review of the [class action] certification ruling[.]" *Roper*, 445 U.S. at 336 n.8. Given the Court's prior application of appellate standing analysis to a class certification appeal arising under § 1292(b)—one of the provisions used for interlocutory review prior to the 1998 revisions, *see* WRIGHT, MILLER & KANE, 7B, *supra* note 24, § 1802—the Court's appellate standing precedent is clearly relevant to the present case.

[47]Defendants also claim that they have "a concrete interest in reversal of the district court's certification based on inaccurate and unsupported Rule 23 findings" and express concern about the "potential future application" of "those findings." Defs.' Br. at 56. An "asserted [] concern that [] success in some unspecified future litigation would be impaired by *stare decisis* or collateral-estoppel application of the [d]istrict [c]ourt's ruling" can "suppl[y] the personal stake in [an] appeal." *Roper*, 44 U.S. at 337. But Defendants concede that the district court explicitly prohibited parties from invoking its decision for precedential effect and cite only one motion by a party—who is not a member of the negotiation class—that potentially disobeyed the district court. Defs.' Br. at 56–57. Because the

and vague concerns paint the broadest strokes about the class certification's nature and its hypothetical effects on the multidistrict litigation. Such unsubstantiated generalities fail to articulate Defendants' "*personal* stake," *Roper*, 445 U.S. at 336 (emphasis added), or "continuing *individual* interest," *id.* (emphasis added), in the district court's certifying this negotiation class. *Cf. id.* (recognizing that credit card holders' "desire to shift part of the costs of litigation to those who will share in its benefits if the class is certified and ultimately prevails" constituted "a continuing individual interest" in the issue of class certification).

Even if we were to look beyond the four corners of their brief, our conferring appellate standing on Defendants here exceeds logic. True, the existence of the negotiation class may "affect[] the state of play" and the Defendants may be "pressured, or at least strongly incentivized, to negotiate with the class." Maj. Op. at 8. The district court itself indicated that the "[negotiation class] process is more likely to promote global settlement than it is . . . to impede it." *Opiate Litig.*, 332 F.R.D. at 537. But Defendants cannot be aggrieved by an entity that they have total authority to ignore. *See id.* at 537–39 (assuring Defendants that "[t]here is nothing coercive about this process: no Defendant has to employ it" and that "[n]o defendant is required to negotiate with the class[.]"). Negotiation with the class is not the "exclusive" way to resolve this suit; parties can choose to settle "their own cases any way they want[.]" *Id.* at 537. Nor can Defendants be aggrieved by something that they have been seeking from the beginning of this suit—a global settlement. *See id.* at 536–37 ("The *Defendants* have insisted throughout on the need for a 'global settlement,' that is, a settlement structure that resolves most, if not all, lawsuits against them arising out of the opioid epidemic.") (emphasis added); *see also* Six Cities' Br. at 1; Appellees' Br. at 10. Defendants cannot now claim that a global settlement hangs over them when it was Defendants themselves who strove to dangle the sword to begin with. Because "[a] party who receives all that he has sought generally is not aggrieved by the judgment affording the relief and cannot appeal from it," *Roper*, 445 U.S. at 333, Defendants lack appellate standing here.

---

certification carries no stare decisis or collateral-estoppel implications, Defendants' alleged "concrete interest" does constitute a "stake in this controversy."

Although the Six Cities fail to address appellate standing altogether in their brief, they might claim a "stake in the controversy" based on their objector status per Rule 23(e)(5). But their bizarre posture in the present case confounds me. Because the Six Cities have not referred to or cited any complaint filed in this suit, we cannot assess the pre-certification claims or leverage that they purportedly sacrificed to stay in the class. They had every opportunity to follow the fraction (1.6%) of the class that timely opted out to pursue settlement or judgment on their own terms. *See* Appellees' Br. at 72. Instead, the Six Cities chose to join the other 98.4% of America's 33,000 cities and counties by remaining in the class. Now that they are one with the class, the Six Cities' options are endless. They can continue to litigate and bargain alongside the negotiation class's existence, so long as they do not double-dip into a potential settlement yielded by the class's negotiations. Or they could do nothing and simply reap the windfall of a transparent negotiation process to which they would not be entitled in a traditional litigation or settlement class structure. Instead, they have distinguished themselves as the *only* class members to have appealed class certification; curiously, the Six Cities filed their notice of appeal on November 8, 2019, *see* Case Opening Letter, No. 19-4099, R. 1—fifteen days *before* the opt-out deadline on November 8, *see Opiate Litig.*, 332 F.R.D. at 555.

Why the Six Cities choose to demolish the negotiation class—an entity that they need not be a member of—instead of exercising their ability to settle or sue either within or outside the class's confines is beyond comprehension. We ought to be wary of objectors who "may be seeking only personal gain" and "us[e] objections to obtain benefits for themselves rather than assisting in the settlement-review process[,]" Fed. R. Civ. P. 23, advisory committee's note to 2018 amendment.

We should decline to hear this appeal on the merits in light of these flaws in appellate standing of Defendants and the Six Cities. As the majority apparently sees appellate standing differently, I have focused on explaining why we should uphold the certification of the negotiation class.

VI.

Finally, this suit has (somehow) waded into the family feud between Plaintiff cities and counties and the states that they sit in. Amici state attorneys general need not fear the cities and counties' encroaching on state sovereignty in this case.

States may invoke *parens patriae* and sue to protect "quasi-sovereign interest[s]," such as the "the health and well-being—both physical and economic—of its residents in general." *Alfred L. Snapp & Son, Inc. v. Puerto Rico*, 458 U.S. 592, 607 (1982). Amici state attorneys general—hailing from twelve states and the District of Columbia—aver that Plaintiff cities and counties "are, in effect, suing as *parens patriae*." Amici States Br. at 3. Plaintiffs do no such thing. These cities and counties seek damages for the direct harm that they allegedly sustained from Defendants' supposedly unlawful activities; their complaints detail the astronomical sums of money that these localities have spent on costs tied to the opioid crisis, including millions of dollars spent on opioid drugs, health care plans, and workers' compensation. *See, e.g.*, Summit County Complaint, No. 1:17-md-02804, R. 513 at 226 (estimating that county "spent roughly $66 million on costs tied to the opioid crisis," projecting "another $89 million [in costs] over the next five years," alleging "a total cost to the County of $155 million over the ten year period 'simply trying to keep up with the epidemic'"); Webb County Complaint, No. 1:17-md-02804, R. 108, at 109–10 (Page ID #671–72) (alleging county "has paid hundreds of millions of dollars for opioid drugs, the treatment related to the misuse, addiction and/or overdose of opioids, and the abatement of the societal harms"); City of Chicago Complaint, No. 17-md-2804, R. 512 at 268–69 (alleging that "the City spent more than $13.9 million for over 320,000 claims for opioids" and that city "health plans alone spent more than $2.3 million for the treatment of opioid abuse and dependency"). It is perfectly within the prerogative of counties and cities to try to recoup these enormous expenditures.

Moreover, cities and counties are well-positioned to pursue litigation against opioid manufacturers and distributors.[48] Counties and cities are the "unit of government that is closest

[48]Lawsuits initiated by cities and counties "are now a prominent feature of the American legal landscape." Eli Savit, *States Empowering Plaintiff Cities*, 52 U. MICH. J.L. REFORM 581, 587 (2019). In recent years, American counties and cities have "amplif[ied] their voices on the national stage]" by "increasingly launching lawsuits, an area

to residents," Eli Savit, *States Empowering Plaintiff Cities*, 52 U. Mich. J.L. Reform 581, 584 (2019), and their role on the frontline of the opioid epidemic battle is evident from the vast sums of money that these localities have spent. The depletion of their coffers coupled with their intimate relationship with their communities drives these cities and counties to seek the best outcome for their citizens. Naturally wishing to protect state treasuries, amici attorneys general contend that the negotiation class "damage[s] [] state interests by diverting finite opioid-settlement funds to political subdivisions and away from the States." Amici States' Br. at 3. But history has made clear that "it is simply untrue that states generously pass along to cities the resources earned from plaintiff's-side litigation." Savit, *supra*, at 596. In the 1990s, states' attorneys general reached a global settlement of $246 billion with tobacco companies, but "very little of that money ultimately went to cities" even though cities and counties "incurred significant financial losses as a result of tobacco's adverse health consequences." *Id.* (internal citations omitted). There is already reason to worry that funds will not trickle down from state to local treasuries in the context of the opioid epidemic; "in one of the opioid litigation cases that has already resolved, a significant portion of the money 'recovered' by the governmental entities has not been allocated to opioid-related expenses." *See* Michelle L. Richards, *Pills, Public Nuisance, And Parens Patriae: Questioning The Propriety Of The Posture Of The Opioid Litigation*, 54 U. Rich. L. Rev. 405, 408 (2020).[49] In sum, Plaintiff cities and counties merely "seek[] reimbursement for monies they have expended—and continue to spend—addressing the opioid crisis[,]" *Opiate Litig.*, 332 F.R.D. at 536; this neither endangers state sovereignty nor undermines public policy.

---

that was long seen as the province of states" both to "protect their proprietary interests" and to "further the well-being of their residents." *Id.* at 582–83. Cities and counties have "br[ought] forwards hundreds of mass-tort style claims[,]" Sarah L. Swan, *Plaintiff Cities*, 71 VAND. L. REV. 1227, 1227 (2019), and have sued to "protect consumers, enforc[e] environmental protections, and vindicat[e] civil rights." Savit, *supra*, at 582–83, in the name of "pursu[ing] the perpetrators of the social harms that have devastated their constituents and their communities." *Swan*, *supra*, at 1227.

VII.

We should not focus exclusively on the naked words of Rule 23 at the expense of the Federal Rules of Civil Procedure's equitable backdrop and in ignorance of the obvious precedent set by the settlement class's creation and proliferation. All class actions certified under Rule 23(b)(3) for whatever purpose—litigation, settlement, or negotiation—must adhere to Rule 23(a)'s prerequisites and Rule 23(b)(3)'s demands; as long as the district court meticulously follows the dictates of the class action rule, what's in a name?[50] The present negotiation class certification presents no serious policy, constitutional, or state sovereignty entanglements. Accordingly, I respectfully dissent.

Re: One Arizona Opioid Settlement Memorandum of Understanding

Dear Ms. Macuil:

State and local governments across the country have been litigating against the opioid industry in response to their alleged unethical and illegal practices. Arizona now has an opportunity to settle with some of the manufacturers and distributors and secure financial resources to contend with the devastation that has been caused to our communities. **The total amount of money that Arizonans receive is dependent upon the number of local governments that participate, so I invite you to join our efforts.**

A major step to facilitating a resolution with the opioid parties was recently achieved. The State of Arizona and all 15 counties have now agreed to the **One Arizona Opioid Settlement Memorandum of Understanding** (the "*One Arizona Plan*" or "MOU"). This MOU provides a framework for distributing opioid settlement funds fairly and effectively throughout our state. Moreover, the *One Arizona Plan* treats both litigating and non-litigating political subdivisions equally.

Like all states engaged in this process, Arizona's MOU employs certain formulas and data collected by federal agencies such as (i) opioid use disorder rates, (ii) the number of opioid overdose deaths, and (iii) the amount and potency of opioids shipped to each community. U.S. Census Bureau data is also used to determine historical expenditures related to opioid abatement for designated areas. With this in mind, please be assured that my office has made every effort to maximize recovery for all cities and towns. In fact, under the MOU the State government's share of funds actually declines with the participation of more counties and cities. Nevertheless, this structure was agreed to because it will increase the overall benefit to Arizona's residents.

Also important to consider is what the *One Arizona Plan* will not do. Unlike some other states, Arizona's *MOU* does not create new foundations, form boards, or make political appointments to control the funding. In fact, our MOU does the exact opposite thus cutting red tape

and streamlining the grant process to quickly get the funds to those in need. Local governments are best able to utilize resources targeted for their constituents, so no state authorization is required for expenditure. The only requirements are that funds be spent in accordance with the approved purposes detailed in the *One Arizona Plan's* Exhibit A, and that basic reciprocal reporting be completed.

Standing together, we can maximize critically needed resources to assist Arizonans impacted by the opioid crisis, so our goal is 100% participation among cities and towns. I urge you to consider the *One Arizona Plan* with your legal counsel, execute the MOU in the space provided and return it to my office. The deadline to submit your signature page is **December 15, 2020 at 5:00 pm.** Any questions that you have may be addressed to Acting Section Chief Matthew du Mée at Matthew.duMee@azag.gov, or Assistant Attorney General Jennifer Bonham at Jennifer.Bonham@azag.gov.

Respectfully yours,

"One Arizona Opioid Settlement MOU"

General Principles

Free to pursue other resolutions – **Litigate individually.** (can litigate and participate, but if don't participate structured so less funds available to those LGs who participate if not 100% participation)	This is a **PLAN**, not the settlement. If there is a settlement, the litigating attorneys will send out a separate settlement agreement for City Council's consideration.	As a plan for fund distribution, it **does not bind** the parties to a **specific outcome** of the settlement itself.

Funds to be used to combat the opioid crisis List on Exhibit A

National Level

To settle with ~**34,459** governments,
anticipated Lump-Sum Settlement,
unknown amount but upwards of $20 billion is possible.

15% will go to a "Special Needs Fund" for Negotiation Class Members to apply for
(1) recover costs of litigating its own opioid lawsuit for cases before June 2019,
(2) local impacts of the opioid crisis not captured in the Allocation Model

Arizona Level

2.38% Arizona's Portion

Includes:

- the State of Arizona,
- 15 counties,
- 91 cities and towns

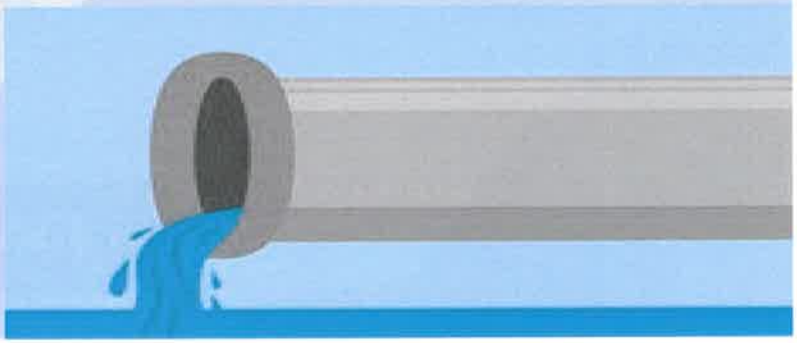

combined.

ARIZONA LEVEL

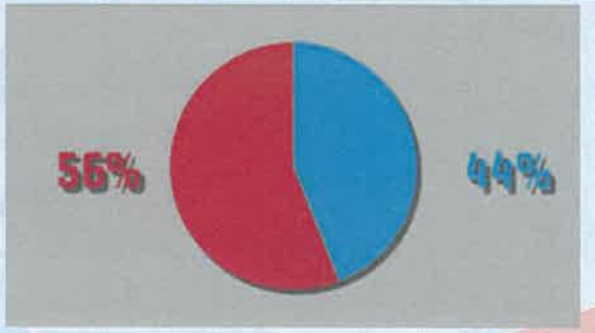

0.005% of the 2.38% of Arizona's Portion of the National Fund off the top for the Trustee to pay the state & LG's directly

INSIDE THE STATE OF ARIZONA LEVEL

56% to Participating Local Governments (LG Share) (Zero to those who don't participate)

LG's who are litigating outside the class action may participate

The State may consult with LG's as to the State allocation

44% to the State of Arizona (Arizona Has Pending Cases) The State will endeavor to prioritize up to 30% of its share for education & awareness, prison and jail populations rehabilitation, interdiction & abatement on the border including treatment facilities and services

All 15 Counties Signed the One Arizona Opioid Settlement MOU

For 100% of the counties signing, the counties get 60% of their allocations.

If 100% of the cities and towns sign, the counties will get the remaining 40% allotment.

If an individual county has less than 100% of its cities and towns to sign, then the sliding scale applies to that county. (Exhibit D of the One Arizona Opioid Settlement MOU)

Those counties that do not reach 100% participation the remainder will go to the State and the LG's share of those counties that achieved 100%.

County Health shall consult with cities & towns as to distributing County Funds

Region Level

2.008% of the 56% to LG's in the State goes to *our Region*

(Exhibit B of the One Arizona Opioid Settlement MOU)

Our Region = County: Yuma
Cities: San Luis and Somerton
Town: Wellton

Combined

Regional Level – Allocation Model

3 factors address the most critical causes and effects of the opioid crisis and are weighted equally (1/3-1/3-1/3):

(1) the amount of **opioids shipped** to the region (further explanation, next slide),
(2) the number of **opioid deaths** that occurred in the region and
(3) the number of people who suffer **opioid use disorder** in the region.

Regional Level – Allocation Model

The amount of opioids shipped to a Region is adjusted based on:
(1) opioid use disorder prevalence or
(2) the rate of opioid-involved deaths in the Region,
whichever is worse relative to national averages.

The model makes this adjustment because the oversupply of opioids had more harmful effects in some counties than in others. **The allocation model is designed *not* to favor either small or large Regions based solely on population**. The model allocates settlement funds in proportion to where the opioid crisis has caused actual harm.

Individual LG Level

4.8% of the 2.008% to *our Region* goes to San Luis (Exhibit C of the One Arizona Opioid Settlement MOU)

Note: Exhibit C has a percentage for each of the LG's in Our Region

County: Yuma

Cities: San Luis and Somerton

Town: Wellton

Individual LG Level – Allocation Model

3 Options for slicing the pie:

(1) The LG's (Yuma County, Cities of Yuma, Somerton & San Luis and Wellton) choose how to allocate the funds,
(2) Ask the Class Action Court in Ohio to appoint a special master to devise a formula

or . . .

Individual LG Level – Allocation Model

3 Options how to slice the pie continued – the default allocation:

. . .

(3) proportionate share based on historical federal data showing how the specific county and the cities within it have made opioids-related expenditures in the past.

Individual LG Level – Allocation Model

If the default allocation is used and a city's or town's share is **less than $500** options:

- distribute to the county in which the city or town lies to allow practical application of the abatement remedy.

Other remedies would be

- apply to the Special Needs fund or
- ask the Court to appoint a special master

Calculation

For simplicity, starting with $100.00 and not taking out for the litigation funds and trustee's fee, this is how it works:

- National $100.00
- Arizona 2.38% of $100.00 = $2.38
- LG's within Arizona 56% of $2.38 = $1.33
- Our Region 2.008% of $1.33 = $0.26
- San Luis' share 4.8% of $0.26 = $0.012

No Settlement Yet

- The Negotiation Class makes the possibility of a global settlement more feasible.
- There is no guarantee that there will be any settlement.
- It is possible that there will be settlements that do not encompass the Class, such as settlements between one or more Class Members and one or more Defendants.

The Negotiation Class will end September 11, 2024.

The Court has not made any decisions on the claims

All 15 Counties Signed the One Arizona Opioid Settlement MOU

If 100% of the cities and towns sign, the counties will get the remaining 40% allotment.

If an individual county has less than 100% of its cities and towns to sign, then the sliding scale applies to that county.
(Exhibit D of the One Arizona Opioid Settlement MOU)

Those counties that do not reach 100% participation the remainder will go to the State and the LG's share of those counties that achieved 100%.

County Health shall consult with cities & towns as to distributing County Funds

Region Level

2.008% of the 56% to LG's in the State goes to *our Region*

(Exhibit B of the One Arizona Opioid Settlement MOU)

Our Region = County: Yuma

Cities: San Luis and Somerton

Town: Wellton

Combined

Regional Level – Allocation Model

3 factors address the most critical causes and effects of the opioid crisis and are weighted equally (1/3-1/3-1/3):

(1) the amount of **opioids shipped** to the region (further explanation, next slide),
(2) the number of **opioid deaths** that occurred in the region and
(3) the number of people who suffer **opioid use disorder** in the region.

Regional Level – Allocation Model

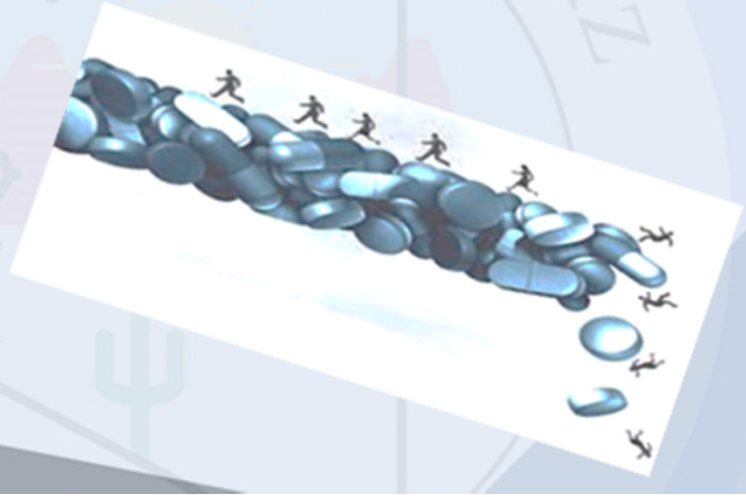

The amount of opioids shipped to a Region is adjusted based on:
(1) opioid use disorder prevalence or
(2) the rate of opioid-involved deaths in the Region,
whichever is worse relative to national averages.

The model makes this adjustment because the oversupply of opioids had more harmful effects in some counties than in others. **The allocation model is designed *not* to favor either small or large Regions based solely on population**. The model allocates settlement funds in proportion to where the opioid crisis has caused actual harm.

Individual LG Level

4.8% of the 2.008% to *our Region* goes to San Luis (Exhibit C of the One Arizona Opioid Settlement MOU)

Note: Exhibit C has a percentage for each of the LG's in Our Region

County: Yuma

Cities: San Luis and Somerton

Town: Wellton

Individual LG Level – Allocation Model

3 Options for slicing the pie:

(1) The LG's (Yuma County, Cities of Yuma, Somerton & San Luis and Wellton) choose how to allocate the funds,

(2) Ask the Class Action Court in Ohio to appoint a special master to devise a formula

or . . .

Individual LG Level – Allocation Model

3 Options how to slice the pie continued – the <u>default</u> allocation:

. . .

(3) proportionate share based on historical federal data showing how the specific county and the cities within it have made opioids-related expenditures in the past.

Individual LG Level – Allocation Model

If the default allocation is used and a city's or town's share is **less than $500** options:

- distribute to the county in which the city or town lies to allow practical application of the abatement remedy.

Other remedies would be

- apply to the Special Needs fund or
- ask the Court to appoint a special master

Calculation

For simplicity, starting with $100.00 and not taking out for the litigation funds and trustee's fee, this is how it works:

- National $100.00
- Arizona 2.38% of $100.00 = $2.38
- LG's within Arizona 56% of $2.38 = $1.33
- Our Region 2.008% of $1.33 = $0.26
- San Luis' share 4.8% of $0.26 = $0.012
