**Subject:** [EXTERNAL] SRO & COPS Grants  
**Importance:** High

Good Afternoon Lieutenant Santana,

The School Safety (SRO Grant) will be opening up in AZ next Monday, September 16, 2019.

For that matter, we have identified the sources of data that we will need to gather for the Schools Safety & COPS Hiring Grant Programs.

I know you have been kind enough to help with gathering some of the data from your various points of contact.

Can you please help us to obtain data on the yellow highlighted areas below:

Arizona Youth Survey  
Juvenile Court Statistics  
Local Crime Rates (I believe Ms. Bonilla at PD has this info)  
Parent/Family Survey  
School Crime Statistics  
School Policy Violation Data  
Student Survey  
Suspension and expulsion data

Teacher/staff survey

Truancy/attendance data

Other: Border Statistics – U.S. Customs//Border Patrol (Ms. Smalls at CBP has been my contact in the past, but she has advised that she is unable to provide specific data to the San Luis area, she can only provide data for the overall Border of AZ with Mexico; however, I know that you mentioned that you could talk to her or someone else in CBP to see if you can get specific data specifically for San Luis, AZ).

We greatly appreciate the help your agency and yourself have provided to our district.

Respectfully,

**Antonio T. Garcia**

**Subject:** Requested US SLAZ Port of Entry Stats

Greetings Antonio! Here are the stats you requested, as far as stats I added specific drug seizures at the U.S. Port of Entry and added stats from 2018 till June of 2019. On the other attachment, you will see stats on how many pedestrians, vehicles and vehicle passengers cross the San Luis Port of Entry on a monthly basis. If you have any questions please let me know so I can clarify...

I'm hoping that I get something from the Yuma Sector U.S. Border Patrol by tomorrow, but as of now the stats from the San Luis Port of Entry are the most important ones since they are stats strictly related to San Luis, Arizona. The stats from what I'm waiting for are drug seizure stats only from the US Border Patrol, which includes all of Yuma County...

I know that Eli has already emailed you all the other requested stats, which I'm sure was very helpful. We're excited about the grant and hope we get it. If there is anything else we can help out please don't hesitate to contact me!

Thank you,

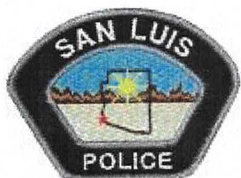

### Lt. Marco Santana - PIO

**Subject:** RE: Question on New Potential SRO Officers

**Officer Adrian Hemmer:** I have been a police officer for over 10 years. I first began my law enforcement career with the Quechan Tribal Police Department and had the opportunity to assist my agency at the time not just as a patrol officer, but also as a physical fitness instructor and a field training officer. With the San Luis Police Department, which is a bigger agency, I have had the opportunity to work as a School Resource Officer for San Luis High School under our current program. During the times I've participated in the program, I worked on drug related cases, developed leads and provided information to the appropriate investigating units within the Criminal Investigations Section. I served as a liaison between school and the police department and provided information to students and school personnel about law enforcement matters. The opioid crisis in our local community has become a concern, I have assisted school administration in emergency crisis planning and building security matters. I have assisted on providing a course of training for school personnel in handling opioid crisis situations, which have included on dealing with a overdoses that have happened inside the school. The most important thing that I have focused on achieving in the past is on increasing the visibility and accessibility of police in an educational setting. Below is a list of trainings and certifications that I have attend;

- Physical Fitness Instructor,
- Field Training Officer course,
- Arizona School Resource Officers Association,
- Drug Recognition courses,
- Behavioral Health Intervention and Strategies for Law Enforcement,
- Standard Field Sobriety Test/Horizontal Gaze Nystagmus,
- Mental Health First Aid,
- Active Shooter Incident Response,
- Law Enforcement Administration of Naloxone (NARCAN)
- General Instructor School.

I believe the training and experience that I have attained throughout the years, will help better serve and perform the duties as a full time School Resource Officer for the Gadsden Elementary School District. In addition to my professional experience, I also volunteer and assist with the Explorer Program, which is coordinated by members of the San Luis Police Department.

**Officer Jose Rojas:** My first experience as a law enforcement officer began during my employment with the Yuma County Sheriff's Office, where I served as a detention enforcement officer for 3 years. I left YCSO

after becoming employed as a police officer with the San Luis Police Department, where I have been for the last 3 years. With the San Luis Police Department, I have had the opportunity to work as a School Resource Officer for San Luis High School under our current program. During the times I've participated in the program, I worked on drug related cases, developed leads and provided information to the appropriate investigating units within the Criminal Investigations Section. I served as a liaison between school and the police department and provided information to students and school personnel about law enforcement matters. The opioid crisis in our local community has become a concern, I have assisted school administration in emergency crisis planning and building security matters. I have assisted on providing a course of training for school personnel in handling opioid crisis situations, which have included on dealing with a overdoses that have happened inside the school. The most important thing that I have focused on achieving in the past is on increasing the visibility and accessibility of police in an educational setting. Below is a list of trainings and certifications that I have attend;

- Mental Health First Aid,
- Arizona School Resource Officers Association,
- Drug Recognition courses,
- Behavioral Health Intervention and Strategies for Law Enforcement,
- Standard Field Sobriety Test/Horizontal Gaze Nystagmus,
- Active Shooter Incident Response,
- Law Enforcement Administration of Naloxone (NARCAN),
- Navigating with Knowledge: LE Interactions with Individuals with Intellectual & Development Disabilities,
- Fake ID Recognition,
- Tactical Medicine for Law Enforcement,
- General Instructor School.

I believe the training and experience that I have attained throughout the years, will help better serve and perform the duties as a full time School Resource Officer for the Gadsden Elementary School District. In addition to my professional experience, I also volunteer and assist with Youth Programs in the Yuma County.

**Subject:** [EXTERNAL] Question on New Potential SRO Officers  
**Importance:** High

Good Afternoon Chief Jessup,

We have one question that directly relates to the specific experience, expertise and resources as a law-enforcement officer will be utilized to address the identified priority focus areas of the school?

Full Question as shown in the grant application is highlighted below in yellow:

**11. To be completed for officers only: Describe how the officer's experience, expertise, and resources as a law-enforcement or juvenile probation officer will**

**be utilized to address your identified priority focus areas. Do not include Law-Related Education (LRE) or School Safety Assessment and Prevention Team activities as this will be asked in a later question.**

**Therefore, for your two new officers: Mr. Adrian Hemmer and Mr. Jose Rojas can you please provide us with their specific experience, expertise, and resources as a law-enforcement or juvenile probation officer on how this will be utilized to address your identified priority focus areas.**

Thank you for your continued support as we move forward with this grant application.

Antonio Garcia
