5. ITEMS REQUIRING DISCUSSION AND/OR ACTION

5. A. Discussion and possible action on any and all matters regarding Subdivision Case No. 2020-075P. A request by Edais Engineering, Inc., on behalf of Riedel Holdings LLC, property owner, for the preliminary plat approval for Riedel Office Condominiums Subdivision to be located on Lot B-1 and B-2 of the Riedel Plaza Shopping Center, San Luis, Arizona.

A. Staff Presentation

Jose A. Guzman, Director of Planning and Zoning, summarized staff report recommending approval of Subdivision Case No. 2020-075P for the preliminary plat of Riedel Office Condominiums Commercial Subdivision with the condition that the applicant addresses all comments on letter dated April 13, 2020.

Chairman Pinzon asked, "Is it going to be two buildings and one building is already there?" **Guzman** responded, "the first building of the west side is already under construction, the owner submitted a building permit to be as a regular building part of the Riedel Plaza but then it was decided to do it condominium style. The process should have been done first the subdivision plat and then the building permit."

Chairman Pinzon stated, "I see that there are two buildings with six units in which one building shows 5 units and the other one has 6 units." **Najeh Edais, Edais Engineering**, responded "both of them are six units." **Mr. Guzman** stated, "Each building is six units, staff has received updated plans which reflect 6 units on both buildings."

Commission Member Barraza stated, "On the letter addressed to the developer item no. 5 there is a question from the City Engineer. Does it require any separate lot or easement? There was a special use permit and a variance for a cell tower but not on that parcel, it was on the parcel to the west of this project. I was thinking if maybe they can cut the area of the tower and combine with the parcel on the west and make it part of the original parcel. Can something be added or talked about as part of the condition to fix this."

Chairman Pinzon asked Mr. Guzman, "If he knew what happen at the end of this process or what was agreed on this project." **Guzman** responded by recalling the conditional use permit was processed and then the applicant came to the city after the approval was requested to move the tower to the side because it was an empty lot. The director at that time made an executive decision allowing the action to occur. It was later determined by the City Attorney office that he did not have the authority to allow that change without going through the entire process. **Mr. Guzman** furthermore stated that he agrees with Commission Member Barraza as he mentioned this is an opportunity to fix the previous action.

Commission Member Fuentes asked if the applicant has a least met half of the comments from letter dated April 13, 2020. **Mr. Guzman** responded, "Yes, the applicant has address about 90 % of the comments, it is still under review by staff but most of the comments have been address." **Fuentes** asked, "Are we doing anything about the tower that Mr. Barraza mentioned." **Mr. Guzman** responded, that he has been talking to the applicant and the owner to see if they are willing to make this change during the process. **Barraza** asked Mr. Guzman, "If this is something that can be add to the recommendation or leave it as it is." **Mr. Guzman** responded, I am not sure if we can just add this as a condition as this was on a previous case." **Kay Macuil, City Attorney** responded, I would like to do some factual and legal research as to what exactly happen. I have heard from Mr. Gimbut former City attorney that yes it was allowed without going through P&Z

and City Council but it is status at this point, I would like to see where it is located and whether we can make that condition. At this point you can direct staff to study that possibility.

B. Action on Subdivision Case No. 2020-075P.

MOTION: Commission Member Javier Barraza / Chairman Pinzon to Approve Subdivision Case No. 2020-075P with the condition that the applicant addresses all comments on letter dated April 13, 2020 with addition to direct staff research the situation of tower if it is appropriate to fix it or leave it as non-conforming use. Motion passed unanimously.

The vote was as follows:

Chairman Marco A. Pinzon	Aye
Commission Member Javier Barraza	Aye
Commission Member Guillermina Fuentes	Aye
Commission Member Veronica Zavala	Aye

5. B. Discussion and possible action on any and all matters regarding Subdivision Case No. 2020-076F. A request by Edais Engineering, Inc., on behalf of Riedel Holdings LLC, property owner, for the preliminary plat approval for Riedel Office Condominiums Subdivision to be located on Lot B-1 and B-2 of the Riedel Plaza Shopping Center, San Luis, Arizona.

A. Staff Presentation

Jose A. Guzman, Director of Planning and Zoning, summarized staff report recommending approval of Subdivision Case No. 2020-076F for the preliminary plat of Riedel Office Condominiums Commercial Subdivision with the condition that the applicant addresses all comments on letter dated April 13, 2020.

Chairman Pinzon asked if one condition is missing in the recommendation letter does the item go to council or would the item have to be held until they are all completely met. **Mr. Guzman** responded, "They have to be all addressed, maybe they do not have to be completed, but as long as staff is ok with how they are going to meet the conditions, we will present it to council. And if any conditions

are going to be addressed from the approval of the council or during the construction, we will add those conditions for council approval.”

Commission Member Guillermina Fuentes stated, “I think the conditions must be met before going to council for final plats. If they do compromise, they will be doing what needs to be done.

Chairman Pinzon asked, “So for example if this project gets approved but one aspect is not completed on the date of extension or the allotted date, does the license get pulled or everything gets shut down? **Mr. Guzman** responded, “The actual plans or the actual document of the plat all the comments are addressed before they go to council. For example, the CC&R’s needs to be recorded with the plat we usually review before the recording of the plat and not before the council approval. All the specific on the plat would be addressed before presented to council.”

B. Action on Subdivision Case No. 2020-076F.

MOTION: Commission Member Javier Barraza / Commission Member Guillermina Fuentes to forward Subdivision Case No. 2020-076F to City Council with recommendation of approval subject to the applicant addressing review comments letter dated April 13, 2020 before scheduling this item to be presented to City Council.

Re: Subdivision Case No. 2020-0605F/Bienestar Estates 11-Final Plat

City staff has reviewed the final plat for Bienestar Estates 11 Subdivision and have the following comments:

City Engineer:

Plat

1. Sheet 2 – Keynote 3, referring to property along the north side of San Antonio Street, “New 20’ Utility and Access Easement to be Created Upon Recordation of the Plat.” As the property north of San Antonio Street has been or will be soon transferred to the City of San Luis, the Utility and Access Easement cannot be created by this plat. An alternative means of allowing this construction will be need to be found. The same goes for construction of the roadway taper along 19th Avenue and the subdivision’s retention basin.

Improvement Plans

1. Sheet 1 – Paving and Grading Plan
 - Check grades at southeast curb return of 19th Avenue and San Antonio Street and revise as needed. Grades do not appear to meet minimum slopes.
 - Add grade at west end of southwest curb return of San Antonio Street and Amarely Avenue.
 - Detail side slopes of retention basin – i.e., show full slope lengths, for example along north side of basin where existing grades vary from 159.3 to 156.8, instead of a 16’ wide slope at 4:1 the slope would vary from about 28’ wide to about 16’ wide.
 - Retention basin design will need to be approved of as required per agreement with the City. Submit landscaping plans.
 - Drainage report - add calculations of street capacities and spillway capacity.
2. Sheet 2 – 19th and 20th Avenue Improvements/Typical Sections
 - For the striping plans for 19th Avenue and 20th Avenue, stripe the roadways for only two through lanes, and a center turn lane (not 4 lanes as shown.) The outside lanes will extra width for bicycle paths.

City of San Luis

Planning and Zoning Department

Development Services · GIS · Building Safety · Code Enforcement

3. Sheet 3 – Water and Sewer Plan
 - At the tie in to the existing 10-inch water line at 20th Avenue and San Antonio, locate the new tee closer to the existing valves. Move the first 8-inch valve on San Antonio to immediately next to the 10"x8" tee.
 - Add water valve at the intersection of 19th Avenue and San Fernando Street, near where the blow-off valve will be removed.
4. Sheet 6 – Details and Water and Sewer Notes
 - Add note that all manholes shall be constructed of polymer concrete.

Public Works Department:

Sheet 3

- Remove one of the water valves on knuckle near lot 87.
- Add note to coordinate the installation of 5 water and sewer services to the north on San Antonio St.

Sheet 4

- Manhole 1 could be a standard manhole (with normal drop) and Manhole 00 be a drop manhole.
- Verify there is no conflict between sewer and water line on San Antonio St, San Diego St and Amarely.

Sheet 6

Make spillway thickness 6". It will provide minimum cover to rebar and will give you more room to set in place the welded wire mesh.

Planning and Zoning Department:

1. Under DEDICATION, please change the language to read "TO THE CITY OF SAN LUIS" instead of "TO THE PUBLIC".
2. Fence height must comply with the height requirements within the front setbacks as per City Code §152.219.
3. Make sure all items required as per Subdivision Regulations §5.3 are included.
4. Applicant must submit signed petitions for the creation of Improvement Districts as per Subdivision Regulations §3.17-5 to §3.17-7.
5. As per City Code §152.297(A)(1), required landscaping for a subdivision development shall include... the adjacent public right-of-way as required in §152.298 of the City Code. Landscape plans for the adjacent right-of-way shall be submitted in accordance with City Code §152.300. All landscape plans shall be reviewed and approved before presenting to Council for final approval, no deferral of plans is accepted.
6. As per City Code §152.078(E)(7), all residential development, at the time of subdivision development... shall provide the minimum net acreage of open space. Open space required for this subdivision is 5%. Provide calculation of open space proposed in acreage.

7. Bonds or Assurances shall be submitted in accordance with Subdivision Regulations Section 6.2
8. Comply with Subdivision Regulations Section 5.1.8.A- protective covenants.
9. Corner lots need to be at least 65 feet wide.
10. Comply with all requirements of Bienestar 11 Development Agreement.
11. Discuss with staff the possibility of adding curb and gutter on the north side of San Antonio, 19th and 20th Avenue.
12. Typical sections A/2 and D/2 show 2" AC pavement. Discuss with staff regarding 2 ½"-3" requirement.

Parks and Recreation Department:

1. Parks and Recreation Department will provide comments on all landscaping plans (Retention and R.O.W.) once the complete submittal is received.

Please be advised that the comments made here are tentative in nature. Until all documentation, information, and drawings are submitted and approved in final form, and all permits for construction are approved and issued, the City of San Luis reserves the right to make further comments or require further information or submissions. Any construction which occurs prior to issuance of proper permits is occurring in contravention of the ordinances of the City, and is occurring at the risk of the Developer.
