# WHAT IS CTE

- Career and Technical Education
- Are programs that prepares students for high-wage, high-demand careers.
- CTE covers many different fields, including health care, information technology, advanced manufacturing, hospitality and management and many more.
- CTE encompasses everything from classroom learning to certification programs to work-based learning opportunities outside the classroom.

# CTE Benefits

-CTE helps guide students towards a career path, it helps them find their interest on what could be their possible work environments.

-CTE helps reduce the number of unemployed graduates, and the number of students who don't pursue any career after high school. Meaning that students once they graduate, can work while they are earning a degree to gain more experience.

# CTE Program Highlights

## AWC Dual Credit Enrollment

CTE Programs have dual credit opportunities

## Industry Certifications

CTE Programs offer various Industry Certifications to prepare students for the workforce or postsecondary advancement

# CTE Program Highlights

## Film and TV

- New Remodeled Studio
- Certification: Adobe Premiere
- Film and TV has received 1st place for 3 years consecutively in Broadcast Journalism Regional Competition, among many other competitions.
- Recognized as a Gold Chapter Award at the state level for FBLA.

## Film & TV

Classroom

New Lab area

# CTE Program Highlights

## Stagecraft

- Is a program preparing students to participate in the technical and management areas of the performing arts and entertainment industry.
- OSHA 10 General Industry, OSHA 10 Construction Industry, and OSHA 30 Construction Certifications
- Work-Based Learning includes strategies that allow students to go beyond the classroom and into the community to develop student competencies. The activities allow students to apply classroom theories, explore career options at the work site, and connect classroom learning to work.

The Play That Goes Wrong

# San Luis Haunted House (community service)

Stagecraft CTSO Students lead community volunteers as they assisted in the haunted house for the San Luis Parks and Rec halloween spooktacular event, building sets and as actors for the event.

Letter from City of San Luis  
Parks and Recreation.

Good Afternoon Teachers,

On behalf of the Youth Center I am writing this email to Thank You for your help and support in this year's Spooktacular Festival. We really appreciate your help in getting all your students interested to be volunteering in our event. We specially thank you for taking time in your day to talk to us and for letting your students collaborate with the whole process.

We could not have done it without your support and your students. We are very appreciative of your assistance and looking forward to continuing to work together. If there is anything that you need from us we are more than happy to help you, please let us know.

We would love to invite you teachers and volunteers to this year's Youth Center Posada. Join us this Wednesday December 14<sup>th</sup>, 2022 from 5:00pm – 8:30pm to celebrate another year of great experiences in our Youth Center.

Again, Thank you!

## FBLA

-Total SLHS membership **247**

## Educators Rising

-Total SLHS membership **104**

# Our Experiences

My journey with CTE has been remarkable for the past four years. I have developed skills such as teamwork, leadership, and communication. I have also been able to create incredible bonds with people and memories I will remember for many years. CTE is so important for students to work on not only themselves but their future career goals. With CTE, I discovered that I want to major in social work and minor in Film.

-Kamyla Ruiz

# Our Experiences

My journey with CTE has been phenomenal for only my second year in a CTE Program. I have learned so much through my program and SkillsUSA that will stay with me for the rest of my life. I've been able to travel to places I never thought I would visit at my age. I've met people and businesses from all over the country. To me, CTE is very important for students as it prepares them for their future careers. Through CTE, I have been able to find a part-time job and start my career as a welder.

-Raul Rivas

## Funding for CTE

Thanks to the State and Federal funding for CTE programs. SLHS CTE Students would not have been able to have these opportunities, such as earning certifications, equipment that meets industry standards, Leadership Trainings, and many other opportunities. This is the main reason we need your support and advocacy for Education and CTE, which is why our government representatives need to continue supporting education funding.
