

November 14, 2018

Miguel Alvarez
Lieutenant
San Luis Police Dept.
1030 E. Union St.
San Luis, AZ 85349

Dear Lieutenant Alvarez

This letter is to confirm the sole-source eligibility status of Benchmark Analytics' software platform for the early intervention and human capital management of law enforcement personnel.

Benchmark Analytics® is partially owned by the University of Chicago and is the exclusive licensee and sole distributor of the University of Chicago Center for Data Science and Public Policy's Early Warning/Intervention model. The University of Chicago's multi-year research base as well as the corresponding copyrighted, predictive models have been commercialized by Benchmark in the marketplace as First Sign.™ As such, First Sign is the only existing software-enabled, research-based Early Warning/Intervention model available for purchase in the market today.

Additionally, Benchmark Analytics® is the sole provider of the Case Action Response Engine™ or C.A.R.E., which is the only law enforcement-specific tool in the marketplace that recommends specific policing-centric and employee-based interventions in conjunction with First Sign. First Sign and C.A.R.E. work reciprocally together within the closed-loop Benchmark software platform to provide a total case management platform, complete with automated workflow and communications functionality.

For further information regarding Benchmark's status as a sole-source provider, please feel free to reach out with questions.

Best,

Ron Huberman
CEO, Co-Founder
