Service Coverage Period

UKG provides support 24 hours a day, seven days a week, 365 days a year, for high priority issues. UKG provides support during business hours for medium and low priority issues.

Support Language

Support is provided in English and may be provided in French, German and Spanish in some regions during local business hours.

Support Exclusions

Support services do not include service to the Subscription Services resulting from, or associated with:

1. Failure to use the Subscription Services in accordance with UKG's published specifications;
2. Customer's end user computer or operating system malfunctions, including browser and internet connection, or failure of the internet;
3. Services required for Subscription Services programs or conversions from products or software not supplied by UKG; or
4. Implementation services, configuration changes, and custom reports.

Critical Outages

UKG will provide continuous effort on all high priority events through either bug identification, the development of a workaround, or problem resolution. If this effort goes beyond normal business hours, the

case may be passed to the after-hours team. On-going continuous effort may also be dependent on the customer's ability to provide a resource to work with UKG during this period.

Technical Escalation

UKG's case resolution process is a team based approach structured around specific features within the Subscription Services and staffed by UKG support engineers covering the full spectrum of skill sets and technical expertise. The teams are empowered to dynamically apply the appropriate resources to a case based on severity and complexity for the fastest resolution time possible.

The teams are also integrated with the development engineering and cloud operations staff and engage their assistance and technical guidance when necessary and/or directly escalate depending on case severity and time to resolve considerations.

For situations that contain multiple cases, an account or relationship manager may be assigned to act as a single point of contact and communication regarding case resolution status, action plan development, resource integration and implementation co-ordination. The account or relationship manager remains engaged until the situation has been successfully remediated.

Management Escalation

Customers may, at any time, ask to speak to a UKG global support manager if they experience dissatisfaction with the level of service received with respect to a specific case or service in general. To contact a UKG global support manager, please telephone your UKG support services center and ask to speak to a manager. Phone numbers are listed on the UKG Community at <https://community.kronos.com/s/article/KB13193>.

Remote Support

UKG utilizes a web-based screen-sharing tool of its choosing that enables UKG to support Customers by empowering our support representatives to remotely view the computer of a Customer's user. By connecting through the internet or via intranets and extranets, support representatives will work in real time

with Customer's users and quickly escalate to desktop sharing, which features mutual mouse and keyboard control and whiteboard capability.

UKG Community

UKG provides Customers with access to the UKG Community, which includes access to how-to articles and discussion boards, as well as the ability to open support cases. The UKG Community helps Customers make the most of its UKG solutions by putting tools and resources at its fingertips in a collaborative, intuitive online space — a space that makes opening a case, accessing support, and viewing all Customer's account information easier than ever.
