Greetings,

Please find my attached petition to PLZC20240091 **OPPOOSING** this plan.

I will attend this meeting in person to voice these concerns as well but would like to outline my argument here as well based on the attached guidance. I have lived in Schertz for almost a year now and have been serving on active duty for almost 18 years. When my family and I moved here we deliberately targeted the Schertz area and its communities. We were told how Schertz was well known for preserving green space and controlling development to strike a balance in its community. This proposal completely goes against these values.

- **Infrastructure** – The road systems in this area (I-35, frontage road, Eckhart road, green valley road, etc.) are not equipped to add in the level of commercial traffic that this will bring. Routinely I-35 is backed up and the traffic is immense. This pushes people onto the “side roads” which don’t amount to much more than hastily paved farm roads. These roads are riddled with potholes and slope dangerously to either side. Commercial traffic will only intensify this and add to an already frustrating situation. The small road of Eckhart and the two lane frontage road will be rendered almost useless to residents if this is allowed to go through while also destroying the already abysmal roads that we use to transit daily.

- **Property value** – As a new, first time homebuyer I have major concerns about the impact to my property value and the implications that will have on my future home. Adding in a large commercial warehouse area will most definitely negatively impact our property values. There are projected to be over 700 homes in our neighborhood which we were told was planned but did not buy expecting to have a large commercial/industrial park placed in our backyards. This is a slap in the face to your tax paying citizens and begs the question why? Would you want a large commercial logistics center built next to your neighborhood? This proposal will disenfranchise hundreds of honest, hard working home owners who trust you as the local government to make the right decisions and plan your city appropriately. Does Schertz want to sully its name with commercial property and bringing down home values to its tax payers? Will the city of Schertz be willing to collect less taxes as my neighbors and I will dispute and fight property taxes as this will have diminished the value of our homes and impacted us financially.

- **Green space** – Having just moved from Germany I am starkly reminded that the over development and greed in the American system is such that a quite area undeveloped is simply unacceptable. The companies that seek this don’t live here, they don’t care about our environment, ecosystem, or peace of mind. They care ONLY about money and using our resources and land to their advantage. I was told repeatedly by builders, locals, and others that Schertz is very strict on green space in developments, planting trees, and guarding against overdevelopment. Now I see this and ask myself what has changed? I don’t want to have to move but if this is pushed through as explained above it will impact my property value and will destroy the charm of the area that we moved to. This is totally unacceptable and disappointing from our new home. Every square inch of unused space doesn’t have to be developed and paved over. This is just another

example of overdevelopment and unnecessary construction. Re-zoning this is just an excuse to destroy beautiful land and add in even more eyesores.

- **Environmental Impact** – A large industrial complex like this will add to pollution both from sound and exhaust as well as the disruption to the natural ecosystem, rainwater disposition, and whatever excess and waste that is produced by the facility. This is unacceptable and should be seriously weighed in this discussion. Have there been surveys of the animals that inhabit this area. The birds and wildlife will be greatly impacted by this and there are federal laws protecting this kind of impact.

- **Safety** – I did not buy a house near an industrial complex for a reason. The increased traffic, large commercial vehicles, and poor infrastructure will be a problem. People will get hurt in car accidents and our little area will be overwhelmed with commercial vehicles and the employees that will work there. I urge you to think about this decision and ask yourself how you would feel if this was your neighborhood.

These reasons and many more are why I plan to attend the meeting on 8 May as well as many of my neighbors. I urge you to consider the impact this will have on us and the overall view of the city of Schertz. Please take the time to review this information, listen to our concerns, and preserve the democratic process that I have fought for in almost 18 years of military service.

I greatly appreciate your time and consideration.

COMMENTS: I am strongly opposed to this proposal. As a resident of this area this will negatively impact my property value and be a hazard. This area is not equipped to house a warehouse and the infrastructure which is already awful will continue to get worse. I moved to Schertz as I was told that it valued green space and preserved that in its city. This is not in that spirit and is unacceptable. I am hoping that our voices will be heard and this will be changed.

Dear Parklands Neighbor,

The City of Schertz is proposing a zoning change of large farm/ranch properties adjacent to our Parklands neighborhood. The properties affected are bounded by I35 Frontage Road, Eckardt Road and Froboese Lane. The zoning proposal will change from single family residential (R-1) to "General Business District (GB). This will allow developers to build a wide variety of business structures, up to but not including industrial business. Most likely the "General Business" construction may include warehouses, storage units, office buildings, automotive shops, etc. **These business activities are not comparable and will substantially devalue our properties.**

We urge you to consider the negative impact to our neighborhood that will result from this zoning change.

Please indicate your opposition by checking the appropriate box below and complete the information. You must be the owner of the property for a valid signature.

We need your help to collect as many signatures as possible by Thursday evening on May 2<sup>nd</sup>. We must submit the signatures to the City Counsel by noon on Friday May 3<sup>rd</sup>.

**Please strongly consider attending the hearing on Wednesday May 8<sup>th</sup> at 6 pm at Schertz City Hall Bldg 4, 1400 Schertz Prwy.**
