# UDC SECTION 21.5.4.D Criteria for Approval

## 2. Whether the proposed zoning change promotes the health, safety, and general welfare of the City.

- Staff has determined that the proposed zone change will not adversely affect the safety and health of the city.
- Additionally, as part of promoting the general welfare, it is good practice to encourage cohesive districts with zoning and land uses that are consistent with the surrounding area.
- The Main Street corridor is a mixed-used area with a variety of commercial and residential uses. This zone change request promotes the general welfare by creating that cohesiveness.

# UDC SECTION 21.5.4.D Criteria for Approval

## **3. Whether the uses permitted by the proposed change will be consistent and appropriate with existing uses in the immediate area;**

- The Main Street Mixed Use District (MSMU) permits a wide variety of uses, from less-intense commercial to single-family detached residences.
- This matches what is currently in the immediate area of the property.

## **4. Whether other factors are deemed relevant and important in the consideration of the amendment.**

- Main Street is the historical, geographical, and cultural heart of Schertz.
- The corridor sits in a flood zone and this presents challenges for development.
- Due to this, the city has adopted policies and has made efforts to incentivize the development of Main Street, such as the Local Flavor Grant and waiving some development application fees.
- Additionally, the city is currently in the design phase for reconstructing the Main Street thoroughfare itself. This rezone application builds on current and previous efforts to create a vibrant main street district for residents and visitors alike.

# Recommendation

**The proposed zone change conforms with the Comprehensive Plan, the surrounding land uses are consistent, and the Main Street Mixed Use District is uniquely appropriate for Main Street.**

**Therefore, Staff recommends approval of Ord 24-S-169.**

**The Planning and Zoning Commission held a public hearing on November 6, 2024 and made a recommendation of approval with a 4-0 vote.**
