Re: Woman Hollering Townhomes – Service Extension Request (SER)

Ms. Woodlee,

The Woman Hollering project is located in a 30.48-acre tract at 12535 Woman Hollering Road, in the Extraterritorial Jurisdiction of the City of Schertz, Texas. The property is located west of FM 1518 and north of Woman Hollering Road, a private roadway owned by a third-party individual in the Tom Williams subdivision. The subject tract used to have an existing single-family home that was recently demolished. The property is currently vacant/undeveloped and is proposed to be developed with up to 230 residential units, which could be townhomes or apartments with a proposed clubhouse, which would equal but not exceed 230 LUEs. No subdivision of the land is being proposed; the City of Schertz issued a “Certificate of Determination” in March 13, 2023 acknowledging that the City will not require platting given that the property is located in the ETJ.

This letter is being submitted to serve as the Service Extension Request (SER) for water (domestic, irrigation and fire flow) and wastewater services for this project. Per previous discussions with City staff, no water line extension will be required along Woman Hollering Road, a private dead-end road, where an existing 4” water line is already in place serving the properties in the cul-de-sac, and where no additional development is feasible due to the nature of the lot and street layout. A water meter is proposed to connect to the existing City of Schertz 12” water line on the west side of FM 1518 to serve the proposed Woman Hollering development; the proposed water meter size will be determined with site plan design when fixture unit counts become available. For wastewater service, an 8” wastewater line is proposed to be extended along the property’s frontage on the west side of FM 1518 and connect to the existing City of Schertz wastewater system on the east side of FM 1518. Per the wastewater analysis performed, the proposed 8” line will have adequate capacity to handle the 230 LUEs and estimated I&I (16,100 gpd) for the Woman Hollering development. An exhibit showing the proposed wastewater line extension and water meter is included with this submittal.

A “Will Serve Letter” was issued by the City of Schertz on December 6th, 2022, confirming the City’s availability to provide water and wastewater services for the Woman Hollering project. This SER is being submitted as the next step in the development process to show the proposed public improvements and confirm that water and wastewater capacity will be reserved in the City’s public utility systems for the requested 230 LUEs that are anticipated for the project.

Should there be any questions or comments, please do not hesitate to contact me via email at claudiam@malonewheeler.com or by phone at 512-618-0437. Thank you for your efforts on this project.

Sincerely,
Malone Wheeler, Inc.
