2080 Wilson Way

Fort Sam Houston, TX 78234

SUBJECT: Joint Base San Antonio review of Zone Change in APZ II- PLZC20250055-44,46

1. Zone Change in APZ II- PLZC20250055-44,46 has been reviewed by JBSA-RND organizations. JBSA affirmatively recommends the proposed zoning change is permitted, however, there are additional comments for consideration in planning and development.
  - a. Subject parcel is located within Randolph AFB Accident Potential Zone II (APZ II). Per the 2017 RND Air Installations Compatible Use Zones (AICUZ) study, Warehousing and storage services, SLUCM No. 63.7, is permitted within APZ II with a maximum Floor-to-Area Ratio (FAR) of 2.0. Retail trade, SLUCM No. 50, is generally permitted within APZ II with a maximum FAR of .28. Approximately .4 acres located on the southeast corner of the subject tract is with-in the 65 Db DNL plus noise contours generated from flying missions at JBSA RND. Retail trade and Warehousing/storage services are permitted with-in these noise zones. Additionally, due to the proximity to the primary approach/departure flight tracks of RND AFB, expect regular and increasing levels of noise.

  - c. To mitigate potential interference with existing JBSA operational systems, please coordinate with 502 CS Spectrum Manager prior to use of any Spectrum dependent systems (i.e.: two-way radio communications, or any type of wireless technologies) during construction. If applicable, coordination requested by facility user prior to installation/use of any Spectrum dependent commercial or manufacturing equipment.

- d. Any proposed exterior construction plans, construction or alteration projects which include vertical elements (equipment: cranes, towers: communication or water) may require FAA review to verify no hazard to flight navigation prior to issuance of any construction permits.

- e. The FAA recommends criteria of land-use practices in their Advisory Circular 150/5200- 33C, Hazardous Wildlife Attractants on or Near Airports, which is applicable to properties within five miles of JBSA-Randolph. Unwavering consideration for this aviation safety hazard is vital.[https://www.faa.gov/airports/resources/advisory\\_circulars/index.cfm/go/document.current/documentnumber/150\\_5200-33](https://www.faa.gov/airports/resources/advisory_circulars/index.cfm/go/document.current/documentnumber/150_5200-33).

2. The items presented above are efforts to enhance the safety of the community and minimize noise impacts due to the proximity of low flying aircraft. Improperly managed development may create unnecessary risk to both the community and flight operations as well as affect the overall capability of the military at this location.
