MEMORANDUM

To: City of Sheridan
From: Brad Thimmesch
Subject: General Equipment Reserve and General Fund Reserve
Date: July 8, 2025

Mayor and Council,

Both the General Fund Reserve and a Fleet Reserve have come up a few times at Council meetings. Currently, there is a City Code for each of these reserves and a resolution for the General Fund Reserve. As brought up by the Governing Body, City staff do want to clean up the current policies for these reserves and propose the following changes as represented by the proposed Ordinance No. 2294.

Before going into the specific reserves, I do want to provide some background. Wyo. Stat. § 16-4-105 regulates both of these reserves:

(a) A municipality may accumulate retained earnings in any enterprise or intragovernmental service fund or accumulate a fund surplus in any other fund. With respect to the general fund the accumulated fund balance may be used to meet any legal obligation of the municipality or to:

(ii) Provide a reserve to meet emergency expenditures.

(b) A municipality may appropriate funds from estimated revenue in any budget year to a reserve for capital improvements and for depreciation within any capital improvements fund, and for the purpose of purchasing or replacing specified equipment or a depreciation reserve for equipment, which has been duly established by ordinance. Money in the reserves may be allowed to accumulate from year to year until the accumulated total is sufficient to permit economical expenditure for the specified purposes. Disbursements from reserves shall be made only by transfer to a revenue account within a capital improvements fund pursuant to an appropriation for the fund. The amount appropriated to reserves under this subsection in any budget year shall not exceed ten percent (10%) of the municipality's total revenues for that budget year.

Additionally, you will notice that Wyo. Stat. § 16-4-105(b) outlines how a reserve works. A reserve is not and cannot be a Fund, but it is an "account" within a Fund. When the City wants to use money from a reserve the money must first be transferred to an appropriate "revenue account" that is also within a Fund. Then from this revenue account, the money can be used.

I. Capital Equipment Reserve

Currently, City Code 2-91 – General Fixed Assets Replacement Reserve Fund provides:

A general fixed assets replacement reserve fund is created and established which will be used only as a depreciation reserve fund for purchase of equipment accounted for in the general fixed assets fund or transferred to a capital improvements fund for funding additions and replacements to general fixed assets. Annually the city treasurer will report to the city council on the adequacy of the general fixed assets replacement reserve fund as to fund replacements for the next thirty years.

I do not believe this “Reserve Fund” is currently being used or if it ever has been. Additionally, this current Reserve Fund can be used for any fixed asset such as buildings, equipment, vehicles, infrastructure, and fixtures.

The new proposed City Code 2-91 – Capital Equipment Reserve provides:

The Capital Equipment Reserve is created and established for the purpose of accumulating and maintaining funds to be used only for the maintenance, purchase, or replacement of equipment. The amount of revenue appropriated to the Capital Equipment Reserve for a fiscal year shall not exceed ten percent (10%) of the City's total revenues for that fiscal year.

The proposed updates clarify that this is a reserve “account” and not a Fund. Additionally, as discussed by the Governing Body, this reserve is only for accumulating and maintaining funds for the sole purpose of being used for our fleet and equipment. The reserve will be maintained within the City’s General Fund and from there, the money can be transferred to any revenue account to purchase approved parts, equipment, or vehicles needed for the City.

II. General Fund Reserve

Currently, there are two (2) policies for a general reserve, City Code 2-92 and Resolution 17-14.

City Code 2-92 – General Cash Reserve Fund provides:

A general cash reserve fund is created and established which will be used only to finance expenditures from the beginning of the budget year until general property taxes and other revenues are collected and to meet emergency expenditures. Amounts will be added annually to the reserve until the reserve is ten percent of the general fund's operating budget. When needed, transfers will be made to the general fund. If needed to meet emergency expenditures the general cash reserve fund will be replenished from the general fund in subsequent budgets as soon as the budget allows. Interfund loans per Section 16-4-117 of the Wyoming State Statutes can be made from the general cash reserve fund to fund unforeseen expenses. The general cash reserve fund will be replenished from the appropriate fund in subsequent budgets as soon as the fund's budget allows.

Resolution 17-14 is provided with this memo for your review.

You will notice that both of these policies together can be contradictory and confusing. City Code 2-92 provides that the reserve can only be used from the beginning of the budget year until revenues are collected and it only needs to be ten percent (10%) of the General Fund's operating budget. Resolution 17-14 provides the reserve should be maintained at an amount equivalent to six (6) months of annual General Fund expenses and shall only be reduced below three (3) months in extreme emergency circumstances. This Resolution also provides additional regulations on how and for what the reserve funds can be used.

The new proposed City Code 2-92 General Fund Reserve provides:

- (a) The General Fund Reserve is created and established for the purpose of accumulating and maintaining funds to be used for emergency expenditures. The balance of the General Fund Reserve shall be maintained at twenty-five percent (25%) of the General Fund's expenditures for that fiscal year. If the balance of the General Fund Reserve is below twenty-five percent (25%) of the General Fund's expenditures, then funds shall be added annually to the General Fund Reserve, as the budget allows, until the General Fund Reserve's balance is twenty-five percent (25%) of the General Fund's expenditures.
- (b) Any transfers from the General Fund Reserve that will decrease the balance below twenty-five percent (25%) of the General Fund's expenditures must be for emergency expenditures and approved by the Governing Body.
- (c) Any transfers from the General Fund Reserve that will not decrease the balance below twenty-five percent (25%) of the General Fund's expenditures must be approved by the Governing Body.
- (d) Interfund loans, pursuant to Wyo. Stat. Section 16-4-117, can be made from the General Fund Reserve to fund unforeseen expenses.

City Staff, after talking with our auditors and other Wyoming cities, have determined that maintaining a reserve at 25% of the General Fund's expenditures provides enough funding to maintain the City's operations in an emergency. The proposal also clearly defines when and how the City can use these reserve funds. If the proposed expense keeps the reserve at or above 25%, then only the approval of the Governing Body is required. However, if the proposed expense drops the reserve below 25%, then the proposed expense must be for an emergency and approved by the Governing Body. This also means that the Governing Body has the discretion to determine whether or not the proposed expense is an emergency.

Additionally, because Resolution 17-14 will still contradict and may confuse the process with this new proposed policy for the General Fund Preserve, City Staff will be bringing forward the included proposed resolution for revoking Resolution 17-14 on the third and final reading of Ordinance No. 2294.

If you have any questions or concerns, please let me know.

RESOLUTION 17-14

A RESOLUTION Adopting the General Fund Reserve Policy for the City of Sheridan

WHEREAS, past experience has shown the City of Sheridan experiences fluctuations of revenues; and

WHEREAS, well run municipal governments judiciously prepare for both boom and bust economic conditions by setting aside funds over time; and

WHEREAS, the primary objectives are to increase reserves to plan for contingencies and to maintain adequate reserves to preserve a good credit rating; and

WHEREAS, City staff has briefed the Council and the Council desires to provide direction to current and future staff through the formal adoption of the General Reserve Fund Policy.

NOW, THEREFORE, BE IT RESOLVED that the governing body of the City of Sheridan hereby directs the following General Fund Reserve Policy be adopted as follows:

GENERAL FUND RESERVE POLICY

I. POLICY:

The City of Sheridan shall increase, and then maintain, a General Fund Reserve equivalent to six months of the annual General Fund expense and shall only be reduced below three months in extreme emergency circumstances.

II. OBJECTIVE:

To achieve the policy stated above proposed budgets shall be presented to council for adoption that will, over time, elevate the General Fund Reserve to the six month reserve amount.

The primary objectives, in priority order, of the City of Sheridan reserve shall be:

- i. Plan for contingencies: such as funding for extreme events, local events, revenue declines, and unanticipated expenditures of a non-recurring nature or realizing unexpected opportunities for growth.
- ii. Maintain an adequate level of reserves to maintain good standing credit rating.

III. DEFINITION OF GENERAL FUND RESERVES:

The calculation of General fund reserves, made up of Non-spendable, Restricted, Committed and Assigned Fund Balances, shall include all general fund revenues included each budget year, less the expenditures for the year, and shall exclude revenues restricted to specific uses such as One Cent optional sales/use taxes, Capital Facilities optional sales/use taxes or funds appropriated to local governments by other entities where use of those funds has been restricted, such as state supplemental funding. The level of reserves identified in Section I above refers to General Fund expenditures.

IV. DEFINITIONS OF FUND BALANCE:

Per GFOA Financial Policies chapter 4 fund balance is the difference between assets and liabilities in a governmental fund. A portion of fund balance can be non-spendable (fixed assets), restricted (grants), committed (encumbered), assigned (to balance budget), and unassigned. Further the definition of fund balance within the Wyoming State Statutes is the excess of liabilities, reserves and contributions over fund asset, as reflected by a municipality's books of account.

- i. **Non-spendable fund balance**: Fund balance in this category is *inherently non-spendable*, such as the long-term portion of loans receivable, fixed assets, and inventories.
- ii. **Restricted fund balance**: *Externally enforceable limitation* on the use of fund balance, imposed by parties such as creditors, grantors, or laws or regulations of other governments.
- iii. **Committed fund balance**: This encompasses limitation *imposed by the government on itself* at its highest level of decision making (resolution).
- iv. **Assigned fund balance**: This category is for the portion that *is earmarked for an intended use*. It could be used to offset a gap in the budget stemming from decline in revenues or a portion could be assigned to pay for an upcoming special project.
- v. **Unassigned fund balance (UFB)**: This is the *remainder* when items i through iv are considered at the end of the fiscal year.

V. APPROVED RESERVES USES

City Council approval, as stated in the Section II, is required to use reserves. It is the responsibility of the department heads to:

- i. Present a balanced budget to the Mayor and Council for adoption each budget period.
- ii. Report to the Mayor and City Council during the fiscal year if the revenues will not support expenditures for the year
- iii. If General Fund Reserves are to be used in response to V (ii) in this section:
 - a. A report to Mayor and Council on a recommendation for use of reserves to complete the fiscal year limited to fund:
 - i. Temporary decreased revenues such as the City's share of taxes and royalties.
 - ii. Unexpected facility repairs or replacements
 - iii. Emergency expenditures in the case of floods, winter weather events, or other natural disasters
 - b. Propose a plan to replenish the targeted fund balances within one to three years of use.
- iv. Reserves shall not be used for employee salaries, wages and/or benefits where not supported by a sustainable financial plan

VI. USE OF UNASSIGNED FUND BALANCE:

Once the minimum annual contribution to the General Fund Reserve has been met any additional use of Unassigned Fund Balance shall be used for the following prioritized uses:

- i. Prepay existing debt
- ii. New expenditures of one time uses that achieve future operating cost reductions.
- iii. Replenish reserves or increase amounts held in reserve above level in Section I above.

VII. ADDITIONS TO GENERAL FUND RESERVES:

Annually, at a minimum, \$100,000 of Unassigned Fund Balance shall be placed into the General Fund Balance until such time as the General Fund Reserve has been met as stated in Section 1 above. This is a budgeted item each budget period, either each fiscal year or biannually.

VIII. RATIONALE FOR RESERVE POLICY

i. RESERVE LEVEL DETERMINATION:

Government Finance Officers Association (GFOA) is the premier authority on governmental finance in the United States. The GFOA Financial Policies chapter 4 recommends a minimum of two months of general fund reserves. The GFOA also recognizes each city's risk factors should be taken into consideration when establishing the reserves policy to allow for included extreme events, revenue stability, expenditure volatility, leverage, liquidity, other funds, and growth. Well run Wyoming first class cities all have between three and six month's reserves.

The City of Sheridan has identified the following, but not limited to, risks and economic indicators to be considered when making recommendations' for annual/biannual budgets, use of the General Fund Reserves and modifications to the General Fund Reserve Policy stated in Section I.

- Sales and Use Tax Volatility
- State Funding Uncertainty
- State Pensions Liabilities
- Health Care Costs
- Inflation/Deflation or other national trends.
- Building Permit Activity
- State and Local Employment Statistics
- CREG Report
- Economic Index's
- Gasoline Taxes

ii In light of all the known current and future expenditure risks coupled with uncertain/volatile revenue streams, it is prudent to achieve a General Fund Reserve of six months of expenditures as stated in Section 1 above.

IX. REVIEW OF RESERVES:

A reassessment of the risk/opportunities will be done during budget, or when sudden changes occur, to assess any necessary changes. If the assumptions for risk have changed, the level for the reserve will be reviewed and may be adjusted accordingly.

- G.** DSA - Councilmember Luhman encouraged everyone to enjoy the Rodeo and downtown; reminded people to attend the Pow Wow and the Rodeo Parade
- H.** Justice JPB - Councilmember Brantz shared the board will be working on their budget at their meeting next week
- I.** Mayor Bridger reminded people that chairs for the parade are becoming an issue and asked people to wait until 9pm the night before the parade. This allows for continued downtown shopping, safety, parking, etc.
- J.** Councilmember Wood reminded people that barricades for the parade will be going up on Friday at 5am. If they must be moved for people’s access, he reminded everyone these are City property and should not be damaged in any way, and asked people to return them to how they found them

- K.** Councilmember Brantz reminded downtown store owners that while it's kind to let friends and family set up in front of their businesses, it's important to remember that the sidewalks are public property. He also emphasized that the parade is for the kids - and the seats along the curb should be saved for them
- L.** Councilmember Leichtnam encouraged everyone to keep an eye out for the City snow plows in the parade - the blades have been painted by local elementary school children
- M.** City Administrator Stuart McRae
 - a. On Wednesday and Thursday of this week, the Army Core of Engineers will be in town. They will attend a Ribbon Cutting at Mill Park at 2pm on Thursday. The public is welcome to attend
 - b. On Friday at 1pm, Ramaco will be hosting the ribbon cutting of the Brook Mine. The Governor, as well as other state leaders, will be present
 - c. MDU provided a notice to the City regarding their upcoming project of gas line replacements. The City will coordinate with MDU for street closures, however this is an MDU project. Please contact MDU directly with questions or concerns
 - d. A Finance Committee Meeting will be scheduled in the near future. Current members of the governing body include the Mayor and Councilmember Patceg. This will be scheduled after July 21st as Councilmember Wood will be voted onto that committee at that July 21 council meeting
 - e. Reminder that there is a QR code on the back of the printed agendas and once scanned, people can download the presentations from the council meeting, available no later than the morning following council meetings. If people are interested in Everbridge, the QR code on the presentation will be available as well so people can sign up for notifications

13. Mayor Bridger adjourned the meeting at 6:34 pm.

MEMORANDUM

To: City of Sheridan
From: Brad Thimmesch
Subject: Sheridan County Travel and Tourism and City of Sheridan Operations Agreement
Date: July 8, 2025

Mayor and Council,

The most recent operating agreement between the City and Sheridan County Travel and Tourism ("SCTT") expires June 30, 2025. Instead of letting the current operating agreement automatically renew, City Staff wished to update or modify some of the key terms and obligations. These updates or modifications are:

1. **Term:** The initial term was updated from five (5) years to two (2) years (July 1, 2025, through June 30, 2027). Additionally, the automatic renewal term was also updated from five (5) years to two (2) years. This may extend the Agreement out to June 30, 2029, with the option for either party to terminate the Agreement prior to the conclusion of the first term.
2. **Employees:** This was updated to reflect the current employment procedures between the parties. SCTT has full discretion and responsibility for managing their employees with the exception that SCTT's employees are subject to the City's employment policies. Additionally, SCTT has access to the City's HR Director.

FYI, Wyo. Stat. § 39-15-211(a)(ii)(B) regulates the revenues collected from excise tax on the sales of lodging services, which has the primary purpose for local travel and tourism promotions.

3. **Accounting/Payroll and Fiscal Management:** This was updated to reflect the current payroll and fiscal management procedures between the parties. The City shall continue to provide accounting/payroll and fiscal management services. SCTT payments to the City increased from \$40,000 to \$60,000 with a 5% increase each fiscal year. Additionally, a new clause was added to obligate SCTT to provide the City with all revenue sources and accounting practices and notice of any new or changing revenue sources, accounting practices, or cash withdrawals within fifteen (15) days of their implementation. This is to prevent any surprises and ensure a timely and smooth audit process.
4. **City Travel and Tourism Funds:** This paragraph was removed because the City no longer collects lodging taxes.

5. **Materials and Equipment:** This was updated to reflect any materials and equipment currently in the possession of SCTT is the property of SCTT, and the City shall not be required to repair or replace any material or equipment in the possession of SCTT.

SCTT has already approved and signed this new operating agreement. If you have any questions or concerns, please let me know.

MEMORANDUM

To: City of Sheridan
From: Brad Thimmesch
Subject: EMS Agreement, Amendment B
Date: July 8, 2025

Mayor and Council,

The Emergency Medical Services Agreement (the “Agreement”) between the City, Sheridan County, and Wyoming Regional EMS, LLC was entered into by the parties on or around November 1, 2022. The term of the Agreement is November 19, 2022, through June 30, 2027, with automatic renewal periods of two (2) years.

Amendment A to the Agreement was executed by the City on May 13, 2024, which increased the City’s fee to \$12,854.70 per month for FY25. This amendment was required by the Agreement under Article 3.1.4 Second Year Adjustment.

The parties met earlier this year to discuss Wyoming Regional EMS’s services and the need for two (2) new ambulances within the next two (2) years for Sheridan County (the “Service Area”). As a result of this meeting, City Staff proposed the included Amendment B, which provides the following changes and obligations:

1. The City’s current monthly fee for FY25, \$12,854.70, will be locked in through FY27, the remainder of the Agreement’s term.
2. The City will no longer have to maintain and operate one (1) ALS certified ambulance with the necessary staff to be able to respond to 911 calls as required by Article 3.3 City Ambulance of the Agreement.
3. The City does not need to enter into an additional agreement with Wyoming Regional EMS to collect for services provided with the City’s ambulance as required by Article 7.2 City Fire Department Ambulance Response of the Agreement.
4. The City shall convey and transfer its ambulance, a 2022 Horton Ambulance, to Wyoming Regional EMS to be primarily used in the Service Area. Wyoming Regional EMS agreed that the City’s current ambulance will suffice as one (1) of the two (2) ambulances needed for the Service Area.
5. No later than August 31, 2026, the City shall pay Wyoming Regional EMS \$50,000 and Sheridan County shall pay Wyoming Regional EMS \$200,000 for the purchase of a new ambulance to be primarily used in the Service Area. Additionally, Wyoming Regional EMS

agrees that if the cost of the new ambulance is over \$250,000, then Wyoming Regional EMS will cover the excess costs, or if the cost of the new ambulance is under \$250,000, then Wyoming Regional EMS will save the remaining balance and use it for the purchase of an additional new ambulance in the future. At the meeting, Wyoming Regional EMS stated that this second new ambulance for our Service Area is approximately \$250,000.

The valuation of the City's current ambulance and payment by the City and County were determined as follows:

1. The value of the City's ambulance is approximately \$200,000.
2. The City's costs for maintaining the ambulance as required by the Agreement would amount to approximately \$50,000 for the next two (2) years, the remaining term of the Agreement.
3. From this understanding, the parties agreed that the approximate net value of the ambulance is \$150,000 (\$200,000 - \$50,000), as provided in Amendment B.
4. For the second ambulance, the City is paying \$50,000 and the County is making up for the City's conveyance of its ambulance by paying \$200,000.
5. Therefore, over the course of the next two (2) years, both the City and the County are contributing \$200,000 to Wyoming Regional EMS for the two (2) new ambulances needed in our Service Area.

Both Sheridan County and Wyoming Regional EMS have approved and signed Amendment B. If you have any questions or concerns, please let me know.

WHEREAS, Wyoming Regional's proposed replacement plan provides the need for two (2) new ambulances before the term of the EMS Agreement expires on June 30, 2027.

WHEREAS, the parties have met and agreed to amend the obligations provided under the EMS Agreement to accurately reflect the parties' expectations through the remainder of the term, June 30, 2027.

IT IS THEREFORE AGREED BY THE PARTIES:

1. **Article 3.1.1 City Payment is amended to include paragraph (d):**

- d. For Fiscal Years 26-27, beginning July 1, 2025, and ending June 30, 2027, the City shall be invoiced \$12,854.70 per month.

2. **Article 3.1.2 County Payment is amended to include paragraph (d):**

- d. For Fiscal Years 26-27, beginning July 1, 2025, and ending June 30, 2027, the County shall be invoiced \$12,854.70 per month.

3. **Article 3.3 City Ambulance** is hereby revoked in its entirety. The parties hereby agree that the City is no longer required to operate and maintain one (1) ALS certified ambulance with the necessary staff to be able to respond to any 911 calls.

4. **Article 7.2 City Fire Department Ambulance Response** is hereby revoked in its entirety. The parties hereby agree that this provision is no longer necessary or applicable because the City Fire Department will no longer have an ambulance upon executing this Amendment or soon thereafter.

5. The City shall convey and transfer title for the City's ambulance, 2022 Horton Ambulance, VIN: 1FDUF5HT2NED23242, to Wyoming Regional.
