Re: 14th Street Elevated Water Tank
Award Recommendation
DSR No. 4414-II

Dear Mr. Dodson,

Bids for the project “Bid No. 2010-229 Repairs & Painting Of 14th St. Elevated Storage Tank” were received and opened on September 22, 2010 at 2:00 PM. Eight (8) bids were received as shown on the attached Bid Tabulation.

DMS Painting, Inc. is the low bidder at a total bid of \$134,900.00 and quoted completion time of one hundred (100) calendar days.

We have worked with DMS Painting on numerous elevated tank projects in the past and feel they are fully qualified and experienced to successfully handle this project.

DMS recently completed the City’s Godard elevated tank and 32nd St. ground reservoir rehabilitation project and several previous City tank projects. The jobs were successfully completed on time and within budget.

We, therefore, recommend the District award this contract to DMS Painting, Inc. at the quoted bid price of \$134,900.00 and one hundred calendar day completion time.

Please contact our office if you have any questions.

Respectfully submitted,

Randy S. Reichle, President
DSR & Associates, Inc.
