

Letter of Commitment – Digital Equity Grant

Webb County Community Action Agency
520 Reynolds 2nd Floor, Laredo, Texas 78041

Dear TACAA,

We are pleased to confirm Webb County Community Action Agency' participation in the Digital Equity Grant as a sub-grantee. As a Community Action Agency, the organization's role will involve outreach to covered populations using our established communication channels. We will promote awareness of digital inclusion services offered through the grant, such as free computing devices and digital navigation services provided by Human-I-T. Once the outreach is completed and community members are connected with Human-I-T, the agencies will provide regular updates to TACAA to support the goals of this project.

As a sub-contractor, Webb County Community Action Agency will receive funding of \$100 per unit (one per household) for each device distributed, which will be allocated for the work outlined above. TACAA will ensure that our organization remains informed about all aspects of the project, including timelines, deliverables, and progress updates, to ensure smooth collaboration and the achievement of project objectives.

This letter signifies the mutual agreement between TACAA and Webb County Community Action Agency to the roles, responsibilities, and financial support as described. By signing below, both parties confirm their commitment to the success of the Digital Equity Act Grant.

Sincerely,

Webb County Community Action Agency
