ITEM	DESCRIPTION	QTY	RATE	TAX	AMOUNT
Maintenance	We offer an extended Maintenance and Warranty extension on a yearly basis. The optional continuing year maintenance fee currently is \$ 1598.00 per year for the first bay, and \$990.00 per year per bay for the 2nd or more bay(s). The annual maintenance fee covers priority service and regular software updates. Priority Service means when you have an issue, you call us. We will help trouble shoot the system issue, and then we will send you any needed repair parts needed (up to a complete board) by UPS. You then will return the old board to us - we will then test and repair it and bill you for the parts required at a 30% discount of our regular pricing. Our repair labor is included at no charge. Keep in mind that we are NOT Certified Backflow Testers. If you opt out of the annual maintenance, then if you have a system board issue you will need to send us your board for testing and repair. You will be billed for the parts, labor and shipping for the repair at full rates. (30% discount on parts and Free Labor will NOT apply) The continuing Maintenance fee is included in the Annual Maintenance, and it covers any software upgrades and phone Technical Support for the system. Customer shall be billed for parts not covered and the UPS shipping. 1 Year Maintenance and Software Agreement....Oct 1, 2024 to Sept 31, 2025 Due by Oct 1, 2024	1	1,598.00		1,598.00
