"As we transform our business model and objectives, we do so along with a long-term vision of achieving carbon neutrality. To meet our objectives of both growth and environmental sustainability, we have a consistent focus on making our operations more efficient and using green technologies." Pitney Bowes is being recognized for Excellence in Greenhouse Gas Management (Goal Achievement Award) for the following: • Reducing global emissions nearly 13% from 2015 to 2020, exceeding goal of 8%. • Developing and implementing sustainability initiatives in transportation and logistics, including by phasing in fuel-efficient vehicles for the North America Service Fleet, installing EV charging stations at Pitney Bowes's largest office building, and making hardware and software improvements for commercial vehicles to reduce emissions. • Reducing electricity consumption through site consolidations, efficiency upgrades, energy audits, and employee trainings. Since 2007, electricity consumption has decreased by approximately 35 million kilowatt hours, saving \$5.03 million and reducing 16,810 metric tons of carbon dioxide. • Implementing "Green Energy" in place of fossil fuel-based energy at operating facilities when possible. Since 2009, Pitney Bowes has also purchased renewable energy credits to support 193,754,000 kWh of green power projects. • Implementing programs to reduce waste and promote remanufacturing and recycling. The company avoided 3,636 metric tons of carbon dioxide equivalent through their waste reduction campaign in 2019 alone, and in the past 8 years has kept 3.6 million pounds of products out of the waste stream through remanufacturing. "Congratulations to the 2021 Climate Leadership Award winner Pitney Bowes for their stand-out achievements," said Amy Holm, Executive Director of The Climate Registry. "At a time when the world urgently needs more climate action and ambition, these organizations and individuals demonstrate what is possible." "Being a climate leader and advocate for ambitious action means taking the steps today that set up opportunity for the future," said Nathaniel Keohane, President of the Center for Climate and Energy Solutions (C2ES). "The Climate Leadership Awards recognizes only those that aim high and have plans in place to achieve their goals. Pitney Bowes has shown exactly that kind of foresight and set an example among its peers." Pitney Bowes has committed to achieve carbon neutrality by 2040 through continued investment in more efficient facilities and green technologies to support our operations. 45	What unique attributes does your company, your products, or your services offer to Sourcewell participating entities? What makes	In April of last year our company entered our second century during a global pandemic. There was a certain symmetry to how we entered our second century, since Pitney Bowes began a hundred years ago as the last

your proposed solutions unique in your industry as it applies to Sourcewell participating entities?

major pandemic was ending. On top of the global pandemic, 2020 was a year of tremendous social disruption. With all these disruptions came opportunities. Opportunities from a business perspective and importantly opportunities to demonstrate our commitments to our values of doing the right thing the right way and ultimately opportunities to demonstrate our character.

Successful companies that create long term value effectively answer four questions: First, why do employees work for you; second, why do customers buy from you; third, why do communities allow you license to operate within their locales; and finally, why do investors give you the capital to run your business.

Limit focus on one of these priorities to favor another and any advantage you create will be ephemeral.

It has always been important to focus on the health and well-being of your employees. In 2020, it was literally life or death. As Pitney Bowes was deemed an essential business many, actually most, of our workers showed up at our distribution and sortation centers as they did before, but with new protocols. Masks, social distancing, temperature checks and a variety of other changes were made to ensure our team was safe. As has been the case for a hundred years, our team came through with flying colors demonstrating their resilience and dedication which has sustained Pitney Bowes.

2020 was also a year which called into question a company's cultural commitment to equality for all. At Pitney Bowes this is nothing new. Doing the right thing the right way is grounded in creating a workplace that works for all. Consequently, diversity and inclusion are not new topics to us. They are topics that we have been living for 100 years. And our commitment to diversity and inclusion continues to be recognized. In 2020, Pitney Bowes was recognized by Forbes Magazine for the second consecutive year as a great company for diverse employees to work and we were also recognized for our commitment to Women and the LGBTQ+ community. All that said, we need to, and we will continue to up our game, particularly in the area of inclusion.

Pitney Bowes was deemed an essential company because of the unique role we play in commerce, specifically the movement of mail and parcels. With the huge influx of volume of parcels, 2020 was a challenging year, but we did our level best to help as many clients as we could. Also, because of hardship from the pandemic, we worked with our clients as best we could to help with momentary economic difficulties. Again, Pitney Bowes can't alleviate all hardship caused by the pandemic, but we did what we could.

Our commitment to responsible citizenship is making a difference in communities where we operate around the world. This past year we helped meet urgent needs through direct charitable contributions, partnerships with local and national nonprofit organizations, grants from the Pitney Bowes Foundation, volunteerism, and advocacy on key issues made more acute by public health challenges. We also continued our longstanding work to combat social inequities by closing education gaps, supporting initiatives around early childhood education, literacy, STEM, summer learning and workforce preparedness programs with a particular focus on the needs of students in underserved communities.

In 2020, we also continued our aggressive search for better ways to minimize our environmental footprint and model best practices for others. After achieving our five-year target for carbon emission reduction, a year early, we immediately set a more aggressive goal for the next five. Our 2020 recognition by "The Climate Leadership Awards" for excellence in greenhouse gas management served as a further impetus to do even more and we are. We have committed to achieve carbon neutrality by 2040 through continued investment in more efficient facilities and green technologies to support our operations. In terms of products, We have an abundance of products in which

Table 13: Audit and Administrative Fee

Line Item	Question	Response *	
68	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcewell. This process includes ensuring that Sourcewell participating entities obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcewell. Provide sufficient detail to support your ability to report quarterly sales to Sourcewell as described in the Contract template.	At Pitney Bowes contract compliance is of supreme importance. Access to Sourcewell pricing is integrated into our electronic online pricing tool which is available to all sellers regardless of channel. This tool ensures compliance to contracted pricing and is not alterable by the sales representative. Client accounts also have a visual identifier in our system that further alerts the representative. Clients are verified against the online Member Lookup portal on the Sourcewell site before pricing is quoted. Our quarterly usage reports draw sales directly from the system and are verified. As has been demonstrated over the last five years of the current contract, only very rarely is there an error which is quickly remedied.	*
69	If you are awarded a contract, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the contract.	One internal metric and probably the most important will be the client satisfaction scores received from our Sourcewell clients. Members deserve and expect superior customer service and satisfaction, especially from the pre-eminent industry leader. It is not just about growing GPO or supplier revenue but truly satisfying the wants, needs and desires of the members. The NAST and other scores allow us to constantly improve our service to clients. When those clients are very satisfied, the quarterly usage reports will be reflective of that as does our most Q4 2021 usage report which reflect and all-time high in contract revenue reported.	*
70	Identify a proposed administrative fee that you will pay to Sourcewell for facilitating, managing, and promoting the Sourcewell Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor's sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member's cost of goods. (See the RFP and template Contract for additional details.)	Pitney Bowes is pleased to offer a 1% administration fee to Sourcewell under this contract.	*

PROPOSER AFFIDAVIT AND ASSURANCE OF COMPLIANCE

I certify that I am the authorized representative of the Proposer submitting the foregoing Proposal with the legal authority to bind the Proposer to this Affidavit and Assurance of Compliance:
