

Agenda item to Donate Mobile Radios

Discussion and possible action to authorize donation of 19 Motorola APX mobile radios to Laredo Independent School District (LISD) Police Department, Pursuant to Local Government Code; 236.151 and other matters incident there to.

Issue: Mobile radio assets being recommended for donation are obsolete for the purposes of the Webb County Sheriff's Office communications system and are not upgradable (Motorola End of Life 2023). Radios lack either AES encryption or lack the Multi-Key Encryption necessary to operate on the Webb County Communications system. The radios are 100% functional, tested and meet the operational needs of the LISD police department. LISD will be responsible for the installation of radio assets.

Solution: Authorization of the donation of the radios to LISD police department for public safety purposes.

Result: Radios will be legally transferred to LISD and the property removed from the Webb County Capital asset records and inventory.

County Assets to be transferred to LISD
