Services To Be Provided: Removal and transportation of Regulated Medical Waste (RMW), sharps, biohazard waste, etc. to a licensed RMW treatment, storage, transfer, or disposal facility in accordance with Texas Health & Safety Code Chapter 361 and applicable 30 TAC / TCEQ regulations.

Standard Service Includes: Service call, RMW container, red bag liner, removal, transportation and disposal of container. Weights over 50lbs and any waste that can not be placed into the provided RMW container will be considered a separate container and billed at the additional container rate. CAWDisposal will provide the GENERATOR with a predetermined service schedule as specified in "Service Frequency" below.

Service Frequency	Container Size	Waste Type	Quantity	Service Rate
Monthly (4-Weeks)	18 Gallon (RMW)	Sharps / Biohazard	3	\$120
				Additional Container Rate: <u>\$30</u>

Incidental Services: (Performed on a non-recurring and irregular basis as needed)

"A LA CARTE"	Service Description	Quantity	Type	Rate
✓				

Additional Products: (If provided by CAWDisposal)

"A LA CARTE"	Service Description	Quantity	Type	Rate
✓	needed plastic sharps containers, if any			

Billing

Billing Type: Monthly (Flat)	MSA/Service Note:
Billing Note:	*Sharps containers are single use items expendable to the generator and not provided by CAWDisposal.

Disclaimer

Pharmaceutical (Rx, NON-RCRA) / Trace Chemotherapy (Chemo) Service: Removal and disposal via incineration of up to 8lbs of waste per gallon. Weights over 8lbs per gallon will be charged at \$2.75/lb. Containers are destroyed with the waste and are an expendable to the Generator.

Replacement sharps containers and pharmaceutical containers are **NOT** included in service unless otherwise specified.

All other services to be provided are "A LA CARTE". The "Rate" will be in addition to standard service fees.

"Off-Cycle" services do not constitute a reorganization of your current service schedule and will be charged as a "normal service".

Product availability and pricing subject to change. All "Market Rates" can be found at <https://www.CAWDisposal.com/shop>

Clean Air Waste Disposal, LLC (CAWDisposal) Master Service Agreement (MSA) Terms & Conditions

2.0 Disposal Services: The Generator will conform to all requirements associated with the storage and removal of Regulated Medical Waste (RMW). This includes, but is not limited to, providing easy access for waste removal and compliant storage area. Generators will be responsible for employees or any persons connected with this waste to be advised of the proper container use, packaging, storage, and record keeping of such material. No sharps of any kind are to be placed in red bags or corrugated cardboard boxes. All sharps MUST be placed in compliant sharps containers. CAWDisposal is not permitted to transport improperly packaged waste, in accordance with Texas regulations. CAWDisposal reserves the right to refuse acceptance of any RMW that in CAWDisposal's judgment cannot be treated and/or disposed of in a lawful manner; or, without a risk to harm of public health or to the environment. Improperly packaged, leaking, overweight, or damaged containers are subject to rejection, or to off-specification charges, for repackaging and/or special handling. No container will be processed that is wet or leaking. All expenses for improper packaging of RMW will be the sole responsibility of the Generator.

3.0 Term and Termination: This MSA is a legal and binding contract for 12 months beginning on the effective starting date, October 1, 2026 ending on September 30, 2027. This Contract may be terminated by Generator for convenience by providing CAWD thirty (30) days written notice.

3.1 INTENTIONALLY DELETED.

3.2 CAWDisposal may suspend this agreement, and any services thereunder, if Generator repeatedly fails to perform in accordance with any provisions of this agreement.

3.3 CAWDisposal reserves the right to adjust the contract price to account for operational changes it implements to comply with documented changes in law, to cover increases in the cost of insurance, disposal, fuel, or to otherwise address cost escalation unless otherwise stated in writing by CAWDisposal specific to this MSA.

3.4 Any obligation to pay for services rendered shall survive termination of this agreement.

4.0 Billing: CAWDisposal shall provide the Generator with custom or monthly invoices that are due Net 30. The Generator agrees to pay an interest rate as provided under the Texas Prompt Payment Act for amounts owed CAWDisposal that are not received within 30 days from the invoice date. Any billing disputes must be raised in writing by the Generator within 30 days of billing. All action for collection will be filed in Webb County, Texas.

5.0 Surcharges: CAWDisposal may impose a surcharge equal to the scheduled service rate in the event that CAWDisposal attempts to pick up waste at the Generator's location and, through no fault of CAWDisposal, there is no waste to be picked up, the waste is not ready for pick up, or the Generator's location is closed.

6.0 Excuse of Performance: CAWDisposal shall not be responsible if its performance of this MSA is interrupted or delayed by contingencies beyond its control, including, without limitation, acts of God, war, blockades, riots, pandemics, explosions, strikes, lockouts or other labor disturbances, fires, accidents to equipment, injunctions or compliance with laws, regulations, guidelines or orders of any governmental body.

12.0 Governing Law: This agreement shall be governed by and construed in accordance with the laws of the State of Texas; any disputes pertaining to it shall be adjudicated in the state courts of Texas, and venue shall lie exclusively in Webb County, Texas.

Medical Waste Management Plan For: Webb County Public Health Services

Clean Air Waste Disposal, LLC has developed a "best practices" medical waste disposal process to help ensure the safety of our team and yours. The following steps will provide a seamless disposal process.

Sharps Container Disposal Services Process

Step 1

Container & Labeling
(Texas Health & Safety Code Ch. 361; 30 TAC 326.53)

- Prior to use, label each sharps container with your facility's name, address, and phone number. (California Law)
- Place new sharps containers inside of wall mounts or on countertops within the immediate area of use.

Step 2

Interim Storage Area
(30 TAC 326.39 - Storage Requirements)

- Immediately after use, place used sharps into the sharps container until the contents of the sharps container reach the "FULL" line
- Once full or ready to dispose, tightly close the lid. Use locking tabs and tape when available

Step 3

Designated Accumulation Area
(30 TAC 326.41 - Accumulation & Handling Requirements)

- On or before your scheduled service, remove sharps containers from patient rooms and place the entire sharps container in an upright position inside of the regulated medical waste (RMW) container ensuring that no needles spill out.
- Replace the now discarded sharps container with a new sharps container.

Step 4

Scheduled Medical Waste Service
(Texas Health & Safety Code Chapter 361, 30 TAC Chapter 326)

- On your scheduled service day, we will perform a one for one exchange of your onsite regulated medical waste (RMW) container and deliver any pre ordered products (sharps containers, biohazard bags, etc).
- Any waste that does not make it into the medical waste container prior to our arrival may be placed into the new container for pickup on your next scheduled service day.

Biohazard Waste Disposal Services Process

Step 1

Container & Labeling

- Place the primary biohazard waste container within the immediate area of use.
- Prior to use, line each biohazard container with an approved biohazard bag.
- Label each biohazard bag with your facility's name, address, and phone number.

Step 2

Interim Storage Area

- Immediately place any biohazard or infectious waste into the lined biohazard container.
- Continue to fill this container until it is full or ready to dispose.
- Once full or ready to dispose, tie the liner (biohazard bag) into an approved knot.
- Remove the tied liner from the biohazard waste container and place it into the Regulated Medical Waste (RMW) Container (Next Step).

Step 3

Designated Accumulation Area

- On or before your scheduled service, remove biohazard bags from your interim storage areas or patient rooms and place the entire biohazard liner inside of the Regulated Medical Waste (RMW) container.
- Replace the liner (from step 2) with a new one to repeat the disposal process.

Step 4

Scheduled Medical Waste Service

- On your scheduled service day, we will perform a one for one exchange of your onsite regulated medical waste (RMW) container and deliver any pre ordered products (sharps containers, biohazard bags, etc).
- Any waste that does not make it into the medical waste container prior to our arrival may be placed into the new container for pickup on your next scheduled service day.

★ PRO TIP: Both sharps containers and biohazard bags are commingled into Regulated Medical Waste (RMW) containers for disposal.

All procedures described herein are performed in accordance with Texas Health & Safety Code Chapter 361 & applicable 30 TAC (TCEQ) regulations

Webb County Public Health Services

Pharmaceutical Waste Disposal Process

Step 1

Container & Labeling

- Prior to use, label each sharps container with your facility's name, address, and phone number. (California Law)
- Place new sharps containers inside of wall mounts or on countertops within the immediate area of use.

Step 2

Interim Storage Area

- Immediately after use, place used sharps into the sharps container until the contents of the sharps container reach the "FULL" line
- Once full or ready to dispose, tightly close the lid. Use locking tabs and tape when available

Step 3

Designated Accumulation Area

- On or before your scheduled service, remove sharps containers from patient rooms and place the entire sharps container in an upright position inside of the regulated medical waste (RMW) container ensuring that no needles spill out.
- Replace the now discarded sharps container with a new sharps container.

Step 4

Scheduled Medical Waste Service

- On your scheduled service day, we will perform a one for one exchange of your **(WHITE/BLUE)** pharmaceutical waste container if it is next to **(Not Inside Of)** your medical waste container indicating that it is full and ready for disposal.
- Any pharma waste that does not make it into the container prior to our arrival may be picked up on your next scheduled service day.

Sharps & Biohazard Disposal Service Procedure

Any waste that does not make it into the medical waste container prior to our arrival may be placed into the new container for pickup on your next scheduled service day.

On your scheduled service day, we will perform a one for one exchange of your onsite regulated medical waste (RMW) and deliver any pre-ordered bags, etc).

NO Loose Sharps can be placed into this container. NO PHARMACEUTICALS can be placed into this container.

Continue to repeat this process during your scheduled service day. Sharps waste must be placed into a sharps container prior to being placed into the regulated medical waste (RMW).

It is the **generators** responsibility to remove sharps containers and biohazard bags from patient rooms and to place them **inside of** the regulated medical waste (RMW) container prior to our arrival on their scheduled service day.

Prior to use, label each sharps container with your facility's name, address, and phone number.

STEP 1

Place sharps containers inside of wall mounts or on countertops and line biohazard waste containers with biohazard bags.

THE FOLLOWING ARE NOT SHARPS WASTE

- Pharmaceuticals
- Controlled Substances
- Chemicals

STEP 2

Immediately after use, properly segregate waste as follows:

- **Sharps Waste Container (Red/Translucent Red)**
 - A device that has acute rigid corners, edges, or protuberances capable of cutting or piercing
 - Vials with **NO** remaining vaccine
 - Syringes (needle attached) with **NO** remaining vaccine
- **Biohazardous Waste Container (Lined with Biohazard Bag)**
 - Highly communicable waste
 - Laboratory waste
 - Fluid blood or blood products
 - Other potentially infectious materials (OPIM)
- **Pharmaceutical Waste Container (White/Blue)**
 - Human or veterinary drugs
 - Vials with remaining pharmaceuticals
 - Syringes with remaining pharmaceuticals

STEP 3

Once full or ready to dispose, tightly close the lid. Use locking tabs and tape when available. Place the entire sharps container in an **upright position** inside of the regulated medical waste (RMW) container ensuring that no needles spill out.

Webb County Public Health Services

Non-Hazardous Pharmaceutical Disposal Service Procedure

Medical Waste Segregation Chart

Sharps Waste: Any device that has acute rigid corners, edges or protuberances capable of cutting or piercing, including, but not limited to:
