The only exception to changing the timeline would be the review of applications received for the Outstanding Older American Volunteer of the Year program as that is a Los Angeles County program.

All Commissioners agreed to direct staff to re-create and update criteria on the application for the 2020 volunteer of the year nomination process. Staff will do so.

6) Commissioner Kaufman requested the Commission recommend to the Council to send a letter to both the Los Angeles County Sheriff & Supervisor Hilda Solis's office that includes a detailed description of the process that Chicago is doing with their county inmate release program to help alleviate homelessness within their community.

Discussion was had about Chicago (Illinois) inmate release program that assists inmates with transiting back into society by offering temporary housing, food and job training assistance. Commissioner Lewis also stated that we should include Rhode Island's program that is not only a state wide program but has similarities to the Chicago program, within the letter for consideration as well. A request by Commissioner Kaufman for either city staff or a Commissioner to create a letter to present to Council for review and submittal to the Los Angeles County Sheriff & Supervisor Hilda Solis's offices to look into these programs and see how these programs could assist with the homelessness programs currently being created or updated within California and our community was presented for consideration.

Commissioner Stewart took a consensus of Commissioners and all in agreeance to direct Commissioner Kaufman to draft a letter to send to Nikole for review and presentation for Council's consideration.

- 7) **Commissioner Zaklama requested an update on special event calendar in conjunction with infrastructure of the parks to hold special events.** – Presented by Public Services Supervisor Mike Cresap

Discussion was had about the upcoming special events for the remainder of 2019 and events scheduled for 2020 as well as the infrastructure of city facilities and parks to hold larger scale special events. The subject of having, or creating amphitheaters or the like, for these types of events was discussed. However, due to limited space currently at facilities and parks, the logistics of larger scale events are not currently attainable at this time with the current infrastructure. Staff will include the implementation of special uses such as amphitheaters and the like in future projects that are planned through the Parks Needs Assessment process.

Discussion was had if Commissioners could assist the City with applying for grants for projects. Discussion regarding the process was given by Nikole and she welcomed the assistance from Commissioners to assist with the grant process and looks forward to working with those Commissioners that wish to participate in this process as well.

8) **Facility Reports for February and March 2019**

Discussion regarding the reports and numbers given. Statistics of Public Services Maintenance Division's work order status was requested by Commissioners to be placed with the facility usage reports to see the progress of work being completed by Staff and give a timeline of completion of requests. Staff will provide that documentation.

Discussion was had about the reports looking similar. Staff will verify numbers and bring back corrections to the report that are incorrect at the next meeting in July.

- 9) **Update on Measure A Funding for Park Improvement** – Presented by Assistant City Manager/Public Services Director Nikole Bresciani

Commissioners were provided with the last Park Needs Assessment listing and an updated fund allocation sheet to review during this presentation.

Discussion was had about the receipt of new funds from Measure A, the projects set to be done based on the grant funds that are allocated for the projects, as well as old projects and old funds that need to be completed before new projects can be started and funds utilized for these new projects. City Staff stated that they recently discovered through this year's Measure A process, that the City has approximately \$2 million in a fund within a holding account the County holds for the City, which needs to be used on old projects. Old projects must be completed and old funds used before new funding received can be used on new projects. Discussion was had on how to move forward with Measure A and a request by Commissioner Lewis to bring back this request at the next Commission meeting in July. Staff will bring back the request as the next meeting in July.

CONTINUED BUSINESS

10) Update on Commissioner Kaufman's request that the Historical Society bust be displayed at a secure location at City Hall.

Discussion was had as to where in city hall the Historical Society's honorary bust could be displayed in a secure location but also accessible to the public for viewing. Nikole stated that the best location/city facility to meet these needs would be the City Manager's office if the Historical Society would be willing to display it there. Nikole stated the only other location she would suggest is maybe the Plaza at West Covina if they have a location available for their request. Commissioner Kaufman stated he will bring this information back to the Historical Society and see what their decision will be and bring an update back to the Staff.

11) Update on Commissioner Lewis's request for uses for the parcel at South Cameron & East Hills Drive. – Update was given by Assistant City Manager/Public Services Director Nikole Bresciani

Discussion was had regarding this property being a catch basin and the logistics in using this property for anything other than what it is currently being used for are unknown due to it being a catch basin location and the State and County regulations related to these types of use. At this time the City will not pursue any other use of this property due to these regulations.
