Inspiration for shape

Color palette

Talley Fisher

Bellefonte, PA

Talley's sculpture often suggests themes from nature, such as birds in flight, soaring clouds, or flowing rivers, floating leaves, and stars. A Bachelor of Science degree in Zoology from the State University of New York at Oswego in 1996 solidified her interest in nature. Her graduate work while completing a Master's degree in Landscape Architecture from the University of Oregon in 2006 gave her the skills to incorporate computer modeling and presentation techniques in her proposals, the ability to create working plans for fabricators, architects and engineers, and the concept of close collaboration with clients, their designers and contractors.

Mural Location

NORTH ELEVATION

WEST ELEVATION
