RE: Contract #07wca007: Culverts-Corrugated Metal: Items 1,3,4,6

Dear Mrs. Becker

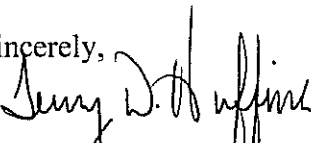

Wilson Culverts, Inc has reviewed our contract with Williamson County and has deemed it necessary to submit and economic adjustment for our contract with you. Since the beginning of this year alone steel costs alone have gone up 31%. This does not include fuel and other costs.

At this time we are requesting a 31% increase on our contract pricing. I have attached an affidavit from our main supplier confirming this increase. With the way the steel and fuel prices are escalating all increases will need to be passed on to the county. If our costs increase 7.5% you will be notified in writing the month before the increase.

If you need any more information feel free to contact me at the above numbers or my cell# is 903-724-8051.

Thank you for your consideration in this matter.

Sincerely,

Terry D Huffines, VP
Wilson Culverts, Inc

June 20, 2008

Mr. Terry Huffines

Subject: 2008 Culvert Steel Costs

We want to thank you for your continued support of our company during this most difficult time, for you as a consumer of our product, and WCI Steel the manufacturer. The steel industry has seen unprecedented escalation in costs from our suppliers in the areas of iron ore, coke, scrap, energy, and transportation. This has led to rising production costs for WCI Steel and the need to increase the transaction price to our customers for the steel products we sell in an effort to offset some of the cost increase.

The rise in price for the commodity we sell your company has escalated 31% since the beginning of January 2008 through June 2008. WCI Steel is committed to being a leading supplier of flat rolled product in the United States and will continue to do our best to supply you the best product we can at a competitive price in the market.

Thank you again for your continued support of our company. Please contact me if you have any questions or comments.

Regards,
