Re: Report of Mental Health Visits for Williamson County residents, October & November 2008

Dear Kathy:

For the months of October and November 2008, our mental health team provided 867 patient visits to residents of Williamson County. At a rate of \$169/visit, this totals \$146,523.

The enclosed report is organized by service delivery date and also notes the rendering provider, the patient's city of residence and zip code, and the location where services were provided.

Because we will present to the Commissioner's Court on January 20, 2009, I would like to compile demographic data (gender, age, primary diagnosis) for the patients we serve from October through December and present this information to the Court. Going forward, we can send this data on a monthly basis.

I am also including a list of the providers and their credentials with the report per your request. Please note that Dr. Nakia Scott, child psychiatrist, joined us in December, so you will see her name appear in the upcoming reports.

Please feel free to contact me with any questions.

Sincerely,
