Hutto ISD Education Foundation Proposal

Research tells us that high-performing schools track student performance. Using data to help make learning more strategic and focused on student's needs drives success for every student. http://www.edu.gov.on.ca/eng/literacynumeracy/inspire/research/Using_Data.pdf

Eduphoria! AWARE software will allow Hutto ISD teachers and administrators to have access to pertinent student data, the ability to break down the data to individualize student instruction, the storage all student information in one place, and the ability develop data charts and reports to relay information to students and parents.

Eduphoria! Aware will assist every Hutto ISD teacher in identifying where each student is struggling and how to target their learning to make them successful.
Teachers will be able to:
- Analyze the state TAKS data for each student or for their classrooms, campus or district
- Develop easy-to-administer benchmark tests
- Build student personal learning plans
- Upload other data including standardized test data, individualized learning plans, etc.
- Keep record of tutoring and other learning interventions
- Develop student personal graduation plans

Eduphoria! Price: $2495 per school but the Foundation can get a discount through Region XIII price and the price is $1795 per school plus set up fee and access to WebCCAT. The total cost of the software for all schools in the district will be $19,360.

Software costs will be:
$1795 X 8 schools = $14,360.00
One Time set up fee = $2, 000.00
Access to the WebCCAT 50,000 item bank = $3,000
Total: $19,360.00
