Subject: TIRE BID RECOMMENDATION

Kerstin,

Upon review of the tire bids we received, we feel that the best option is to reject all bids and utilize the ability to purchase off state contracts. The bid results were predominately state contract pricing varying slightly in certain cases dependent upon which tire was offered. Purchasing off state contracts would give us the same pricing yet give us the freedom to use different vendors and tire brands to find which vendor can support Williamson County's interest the best rather than entering another bid contract.

Also, Kerstin, I would like to personally thank you for all your time and assistance with this bid. It is greatly appreciated.

Thank you,

Edward Pospisil
