FISH AND WILDLIFE SERVICE P.O. Box 1306 Albuquerque, New Mexico 87103

AUG 2 6 2011

In Reply Refer To: R2/WSFR TX E-143-HL-1

Carter Smith, Executive Director Texas Parks and Wildlife Department 4200 Smith School Road Austin, Texas 78744

Attention: C. Craig Farquhar, Section 6 Grant Program Coordinator

Dear Mr. Smith:

The enclosed Application for Federal Assistance (AFA), TX E-143-HL-1, Cobb Cavern Habitat Conservation Plan Lands Acquisition, is conditionally approved for funding under the Endangered Species Grant Program (CFDA# 15.615). The purpose of this grant is for Texas Parks and Wildlife Department (the Department), as grantee, and Williamson County Conservation Foundation (the Foundation), as subgrantee, to acquire a conservation easement on approximately 67 acres of the Cobb Ranch in order to enhance the Northern Cobb Preserve. The proposed conservation easement will acquire a portion of Cobb Cavern, one of the 30 longest caves in Texas with the largest habitats known for endangered terrestrial karst invertebrates. This acquisition will protect and benefit habitat for the Bone Cave harvestman and Coffin Cave mold beetle which are endangered species. Title to this interest in real property will vest with the Foundation, as subgrantee. The effective date for this amendment is August 22, 2011. The grant agreement period is August 22, 2011 – August 21, 2014, with the approved cost share as follows:

Program Subaccount Code 5955	Approved Funding	%
State	\$ 376,875	25
Federal	\$ 1,130,625	75
Grant Total	\$ 1,507,500	

An AFA amendment will be required to add or delete a project; increase or decrease the Federal funds; increase the rate of Federal participation; change key personnel; and/or modify the agreement period.

This grant award is subject to the following conditions:

- a. Reporting requirements:
  - Submit an Interim Federal Financial Report (SF 425) and an Interim Performance Report annually, 90 days after the 1-year anniversary of the end of the fourth full fiscal quarter after the effective date of the grant. The interim reports (financial and

- performance) for this grant will be due annually no later than **December 29**. The first interim report will cover the period from **August 22**, **2011 September 30**, **2012**. Subsequent interim reports will cover a 1-year period from the end date of the first interim report.
- 2. Submit a Final Federal Financial Report and a Final Performance Report, 90 days after the end of the grant period. Final reports (financial and performance) for this grant will be due no later than **November 19, 2014**.
- 3. Requests for an extension of report due date up to an additional 90 days must be submitted to, and received by, this office, before the report due date. If these reports are not received by the original or extended due date, the WSFR Program may:

  1) withhold cash payments; 2) deny the use of Federal funds and credit for the use of matching cash and in-kind contributions for all or part of the award; 3) suspend or terminate the award, partially or entirely; 4) withhold further awards for the grant program; and 5) pursue other legal remedies. The sanctions that the WSFR Program imposes will remain in effect until the required reports are received [(43CFR12.80(b)(1); 43CFR12.81(b)(3); U.S. Fish and Wildlife Service Manual Chapters 516 FW 1 & 516 FW 2; and U.S. Fish and U.S. Fish and Wildlife Service revised "Interim Guidance for Financial Status and Performance Reporting," May 12, 2009].
- b. U.S. Fish and Wildlife Service (Service) policy allows a maximum of a 3-year grant period for all Cooperative Endangered Species Conservation Section 6 funds. Requests for extension of the grant period beyond the 3-year limit will require the approval of the Director of the Service and should be coordinated with this office no later than 3 months before the grant is due to expire.
- c. The grant has been approved to include third party in-kind match. The in-kind match is subject to the provisions of 43 CFR, Part 12. In summary, the in-kind match must: 1) be documented in accordance with OMB requirements for each grant; 2) not be used to match any other grant; 3) be necessary and reasonable for accomplishment of grant objectives; 4) be allowable costs under provisions of 2 CFR Part 225; and 5) not be paid from other Federal funds unless specifically authorized by law or regulation.
- d. In accordance with 522 FW 16.5 pre-agreement costs specified in the grant documents are approved.
- e. Submission of a certified appraisal indicating the market value of the real property interest (i.e., fee simple, conservation easement in perpetuity, etc.) to be acquired including in-kind match properties, if applicable. The appraisal must not only conform to Uniform Standards of Professional Appraisal Practice (USPAP), but also conform to the Uniform Appraisal Standards for Federal Land Acquisition (UASFLA) as of December 2000 (available at www.usdoj.gov).
- f. Certified review of the appraisal, which also conforms to USPAP and UASFLA.
- g. Receipt of the notification to the landowner of just compensation for the property to be acquired (Example form enclosed).

- h. Submission of the proposed conservation easement, which defines the restrictions and permitted uses and practices placed on the property, to the U.S. Fish and Wildlife Service (the Service) for review and approval.
- Receipt of a signed Cooperative Agreement between grantee and subgrantee. The
  agreement will have language which provides assurance that the lands or monies will
  revert to the Service in case of noncompliance by the subgrantee.
- Surveys, maps, and legal descriptions for all real property acquired including in-kind match properties.
- k. Title Vesting Evidence, such as a title insurance policy or a certificate from the Attorney General or other authorized State official, signifying that title is vested in the real property interest acquired by the grantee or subgrantee.
- As outlined in the Assurances Construction Programs form (SF 424D), grantee and/or subgrantee will record the Federal interest in the real property acquired with Endangered Species Habitat Conservation Plan Land Acquisition Grant Program funded by the Secretary of the Interior. Grantee and/or subgrantee will also include a covenant in the recording instrument acquired in whole or in part with Federal assistance funds to assure nondiscrimination during the useful life of the project.

This office will notify you in writing once the preliminary land conditions e. to j. have been met and final approval is granted for the property to be acquired. The final land conditions k. and l. can be met upon completion of this purchase. Final documents to be received by this office include the summary of the land costs which outlines the approved costs associated with this acquisition (copy enclosed), conservation easement (recorded instrument), and the settlement statement.

Acceptance of a Federal financial award carries with it the responsibility to be aware of and comply with the terms and conditions of the award, including those assurances submitted annually by your agency per <a href="http://www.doi.gov/pam/financialassistance/award/index.html">http://www.doi.gov/pam/financialassistance/award/index.html</a>. Acceptance is defined as the start of work, drawing down funds, or accepting the award via electronic means. Awards are based on the application and supporting documents as submitted to and approved by the WSFR Program.

Please contact Carlotta Ortiz, Grant Manager, at 505-248-7456, or me at 505-248-7465, with any questions or concerns about the terms of this award.

Sincerely,

Stephen M. Robertson
