

Amendment to Williamson County Community Development Block Grant Program Citizen Participation Plan.

The following will be added to Appendix A, Approved Citizen Participation Plan, of the Williamson County Community Development Block Grant Program 2009-2013 Consolidated Plan. This document affects only the above mentioned section of the Consolidated Plan. All other sections remain as identified in the original document.

Use of Alternate Project

Williamson County will include a list of alternate projects for public review each year in the Annual Action Plan. If a funded project has cost savings, slows down or discovers a barrier to being completed, an alternate project from the current Annual Action Plan may be selected to continue the timely spending of grant funds.

Alternate Projects will contain the same level of information that funded projects contain in the Annual Action Plan to ensure appropriate review by the public. Project descriptions will also include the maximum dollar amount the Commissioners Court will consider if funding becomes available. Approval by the Williamson County Commissioners Court will be necessary to replace a funded project with an alternate or to fund an alternate with cost savings from a completed project regardless of whether or not:

- the increase or decrease exceeds 50% change in federal funding where the project is \$25,000 or less, or
- the increase or decrease exceeds 25% change in federal funding where the project is more than \$25,000.

These actions will not require a substantial amendment since the alternate projects will have gone through a public review process.

Consideration of any project that was not identified as an alternate will go through the normal substantial amendment process.
