

## Request for Changes – Rick Barron

I just noticed as I was reading through the budget order that it refers to the Elections Board as the one who would give me an evaluation. An Elections Board is detailed in the Elections Code, but it is distinct from the Elections Commission. The Commission is charged with hiring, firing and accepting a resignation of the EA, but the Board is only charged with appointing an Early Voting Ballot Board. The Board has a different membership, and it includes me. **The word Board should be changed to read Commission.**

**Also, are you resubmitting the agenda item regarding the election judges that the court tabled or do we have to do that?**

**We want to have an exception in the Employee Policy Manual under the Car Rental heading, section 2.**

**The proposed language for Section 2 would read as follows:**

**2. Renting cars for travel within the County is prohibited except during an election cycle when the Election Department needs extra automobiles for troubleshooters and runners that provide time-critical technical and procedural support to early voting and Election Day polling locations.**
