Subject: Contract Price Adjustment Request - Bid No. 121FB0003

Ms Hancock

Due to the ever increasing prices of petroleum based products, polymers and shipping charges, we at Crafcot Texas, Inc. are asking for your help.

We would appreciate the opportunity to adjust our pricing structure on the above mentioned contract. Our price has been firm since being awarded the contract in December of 2011. This adjustment is related to industry wide changes and beyond our control.

As a Distributor for Crafcot we are experiencing price increases monthly from the manufacturer. We would like to adjust the contract price by 10%, from \$18.03/box to \$19.83 per box through the duration of the contract – December 31, 2012.

I've included a letter from the manufacturer in reference to the price increases. Let me know if we are in agreement on my request being justified.

Thanks, in advance, for your help.
