\$ 158,165.24

This quote is for a DIR Contract Number DIR-SDD-1510 procurement. The authorizing Customer Purchase Order must include the statement "The standard terms and conditions of DIR Contract DIR-SDD-1510 apply to this procurement."

\*\*\*\* This quote includes special one-time discounts that are applicable to this quote and initial purchase only. Any changes in the quote or configuration will void the special discounts.\*\*\*\*

\*\*\* The two (2) ERS 4850 PoE Switches are a special limited Arrow S3 promotion with the purchase of Avaya 96X1 IP phones. One (1) ERS 4850 is provided with purchase of forty-eight (48) 96X1 IP phones. The customer authorizing PO for the project must be received by December 28, 2012 to take advantage of the offer. \*\*\*

\*\*\* Quoted price does not include any Avaya service agreements that may be required with purchase of the configuration. If a service agreement is required, an additional charge will apply.\*\*\*

TERMS for this Sale: 0.0% upon Contract Execution / 0.0% upon Delivery / 100.0% upon Cutover

Please reference separate Statement of Work (SOW) for project details, additional information and responsibilities.

Configuration Overview:

Configuration includes:

200 New CM5/Standard RTUs

1 Tn2602 Medpro included to replace the existing Tn2602 Medpros HW3

New Remote G450 configured

Local Survivable Processor (LSP) without redundant power supplies

2 - MM710 DS1s, 1 MM717 and 2 MM716 included

85 - 9612G IP Hardphones with 14 Ft. CAT5E Replacement Line Cords

15 - 9641G IP Hardphones with 14 Ft. CAT5E Replacement Line Cords

1 Session Manager Server and 1 System Manager Server only

Presence Server - unknown what it will be used for at this time

Configuration does **NOT** include:

Rack, Cables, UPS, Paging Interface, Music-on-Hold (MOH) Interface

Patch cords, patch cables

Local power supplies for IP Hardphones are not included.

Customer is responsible for providing PoE switches.

RTUs (software licenses) will be requested later.

Session Border Controller (SBC) NOT quoted at this time.

Customer is responsible for providing PoE switches and their installation.

Customer is responsible for supplying all required LAN/WAN hardware/software and installation.

Customer is responsible for providing desktop/laptop PCs for remote network assessment.

Customer is responsible for installation, etc. of the Avaya ERS 4850 PoE switches.
