Position Desired: Commissioner for ESD Board

I am actively involved in our community currently serving on the operations committee for the Boys and Girls Clubs and working with the kids as a mentor. I also will volunteer with Habitat for Humanity acting as a mentor/liason for families. I am involved with the RRISD, in the past I served as a Watch DOG volunteer, and most recently was participate in the Principal for a Day program at Brushy Creek Elementary.

As a Corporate Relationship Associate with BBVA Compass, I bring nine years of auto finance and banking experience to my clients. I began my professional career after receiving my degree in Management Information Systems from Prairie View A&M University in the field of software consulting and training for three years. Having the opportunity to travel all over the United States opened up an opportunity to move to the Austin Metro area. For the past several years I worked in the automobile industry as a Business\Finance Manager for Audi of North Austin where I co-managed a team of eight. Currently my professional journey has landed me with BBVA Compass where I support a team of five which includes the City President as a Jr. Corporate Banker\Credit Analyst. I was born in Houston, TX but raised in the small town of Brenham, TX currently residing in the great community of Teravista in Round Rock, TX. My goal is to help make my community better with my determination, experience, and familiarity with how a small community works. My involvement with the community started with Watch Dogs at my daughter's elementary school (Pleasant Hill Elementary). Currently I serve on the operations committee and as a mentor with the Boys and Girls Club of Georgetown, TX. With my recent enrollment in the Round Rock Chamber Leadership Ascend program, my hope is to become a more familiar face in the community.

I am seeking election to Commissioner for ESD Board because I would like to further my attempt to be more connected to the community and the assist the group in the forgoing efforts to build partnerships that will make the community more viable for the future. I know I could contribute to this effort in a dedicated and energetic manner.
