Re: 2006 Road Bond Budget Allocation

The County is negotiating and plans to enter into an Interlocal Agreement (ILA) with the Leander Independent School District (Leander ISD) for cost sharing related to the construction of improvements to CR 277. The County has budgeted to provide \$500,000.00 towards the funding necessary to construct the project.

Please move \$500,000.00 from P-156 unallocated interest into a new P# for the CR 277 project.

If you have any questions please let me know.
