RE: Clarity Sole Source Letter

This sole source letter details SOE Software's intellectual property and secret processes for the software services of the tracking and support modules. SOE Software is the sole provider of tracking and support solution with full integration into existing systems leveraged by Williamson County. Please accept this letter as a formal request of the Clarity Tracking and Support purchase through the "Sole Source Procurement exception".

SOE Software is the ONLY provider of these modules of software. The tracking and support software solutions are proprietary and are the intellectual property of SOE Software.

Williamson County has already invested, as have many of your peers in the training module which will integrate all the solutions impeccably. Through SOE's proprietary applications, full integration will allow all the systems to communicate effectively through training, tracking and support with web based interaction and report generation. No other vendor in the United States provides or will be able to integrate with your existing system and services. Williamson County, as an existing SOE client, will have additional functionality, efficiency and cost savings from these combined modules.

Please let us know if you have any further questions.

Best Regards,

A handwritten signature in blue ink, appearing to read 'Branden Elwell', is located below the 'Best Regards,' text. The signature is stylized and fluid.
