**NON-CONSTRUCTION
ADVANCE FUNDING AGREEMENT
FOR AN
ON SYSTEM AND OFF SYSTEM
INTELLIGENT TRANSPORTATION SYSTEMS (ITS) DEPLOYMENT PROJECT**

THIS AGREEMENT is made by and between the State of Texas, acting by and through the Texas Department of Transportation (TxDOT), called the “State”, and City of Round Rock and Williamson County, acting by and through its duly authorized officials, called collectively the “Local Governments.”

BACKGROUND

Federal law establishes federally funded programs for transportation improvements to implement its public purposes, including the Intelligent Transportation System Deployment Program. Federal and state laws require local governments to meet certain contract standards relating to the management and administration of State and Federal funds. The Texas Transportation Commission passed Minute Order Number 108577& 108995 which provides for development of and funding for the Project identified in this agreement. The Governing Body of the Local Governments has approved entering into this agreement by resolution or ordinance dated _____, 2015, and Commissioners’ Court meeting minutes dated _____, 2015, which are attached to and made part of this agreement as Attachment A.

NOW THEREFORE, the State and the Local Governments agree as follows:

AGREEMENT

1. Period of the Agreement

This agreement becomes effective when signed by the last party whose signing makes the agreement fully executed. This agreement shall remain in effect until the close of ordinary business on September 30, 2015.

2. Scope of Work

The Scope of Work is the Project as detailed in Attachment B, which is attached to and made part of this agreement.

3. Local Project Sources and Uses of Funds

A. The total estimated cost of the Project is shown in Attachment C – Project Budget Estimate, which is attached and made part of this agreement. The State will pay for only those Project costs that have been approved by the Texas Transportation

Commission. The State and the Federal Government will not reimburse the Local Governments for any work performed before federal spending authority is formally obligated to the Project by the Federal Highway Administration (FHWA). After federal funds have been obligated, the State will send to the Local Governments a copy of the formal documentation showing the obligation of funds including federal award information. The Local Governments are responsible for one hundred percent (100%) of the cost of any work performed under its direction or control before the federal spending authority is formally obligated.

- B.** If the Local Governments will perform any work under this contract for which reimbursement will be provided by or through the State, the Local Governments must complete training before a federal spending authority is obligated. Training is complete when at least one individual who is working actively and directly on the Project successfully completes and receives a certificate for the course entitled *Local Government Project Procedures Qualification for the Texas Department of Transportation*. The Local Governments shall provide the certificate of qualification to the State. The individual who receives the training certificate may be an employee of the Local Governments or an employee of a firm that has been contracted by the Local Governments to perform oversight of the Project. The State in its discretion may deny reimbursement if the Local Governments have not designated a qualified individual to oversee the Project.
- C.** The State will be responsible for securing the Federal and State share of the funding required for the Project. If the Local is due funds for expenses incurred, these funds will be reimbursed to the Local Governments on a cost basis.
- D.** The Local Governments will be responsible for all non-federal and non-state participation costs associated with the Project, including any overruns in excess of the approved local Project budget. If the State determines that additional funding by the Local Governments is required at any time during the Project, the State will notify the Local Governments in writing. The Local Governments shall make payment to the State within thirty (30) days from receipt of the State's written notification.
- E.** The State will not pay interest on any funds provided by the Local Governments.
- F.** The Local Governments are authorized to submit requests for reimbursement by submitting the original of an itemized invoice in a form and containing all items required by the State no more frequently than monthly, and no later than ninety (90) days after costs are incurred. If the Local Governments submits invoices more than ninety (90) days after the costs are incurred, and if federal funding is reduced as a result, the State shall have no responsibility to reimburse the Local Governments for those costs.
- G.** Whenever funds are paid by the Local Governments to the State under this agreement, the Local Governments shall remit a check or warrant made payable to the "Texas Department of Transportation Trust Fund." The check or warrant shall be deposited by the State in an escrow account to be managed by the State. These funds may only be applied to the Project. Upon completion of the Project, the State will perform an audit of the Project costs. Any funds due by the Local Governments, the State, or the Federal Government will be promptly paid by the owing party. After final Project accounting, if excess funds remain in the escrow account, those funds may be applied by the State to

the Local Government's contractual obligations to the State under another advance funding agreement with approval by appropriate personnel of the Local Governments.

- H. If the Project has been approved for a fixed price or incremental payments under 43 TAC §15.52, Attachment C will clearly state the amount of the fixed price or the incremental payment schedule. If the Local Governments are an Economically Disadvantaged County and if the State has approved adjustments to the standard financing arrangement, Attachment C will reflect those adjustments.
- I. The state auditor may conduct an audit or investigation of any entity receiving funds from the State directly under this agreement or indirectly through a subcontract under this agreement. Acceptance of funds directly under this agreement or indirectly through a subcontract under this agreement acts as acceptance of the authority of the state auditor, under the direction of the legislative audit committee, to conduct an audit or investigation in connection with those funds. An entity that is the subject of an audit or investigation must provide the state auditor with access to any information the state auditor considers relevant to the investigation or audit.
