

LETTER OF RECOMMENDATION

Bid # 1507-005

Armored Car Services for Williamson County

Dunbar Armored is recommended as the Courier Service for Bid # 1507-005. The primary contact, Sean Deome, was very knowledgeable about the Courier business. He was all business from the initial pre-bid meeting throughout the process. He asked pertinent questions and he was quick to respond to questions from the County.

Dunbar Armored has shown through their bid that they can provide all required County Courier Services at a reasonable cost. Their "Red Book" process to track shipments was explained in great detail in their Proposal. In addition, the County Treasurer will have online access to track shipments. This becomes extremely important to ensure that deposits are delivered by the next day, as required in the contract.

The County has recently changed banking institutions and is now depositing to, and receiving cash from, a Cash Vault (Wells Fargo Cash Vault Austin). Dunbar Armored has the capacity to make special deliveries to individual offices when required. This is extremely important to our new banking process and is not something that our current Courier is able to do.
