PLAT NOTES

- Right-of-way easements for widening roadways or improving drainage shall be maintained by the landowner until road or drainage improvements are actually constructed on the property. The County has the right at any time to take possession of any road widening easement for the construction, improvement or maintenance of the adjacent road.
- The landowner assumes all risks associated with improvements located in the right-of-way or road widening easements. By placing anything in the right-of-way or road widening easements, the landowner indemnifies and holds the County, its officers, and employees harmless from any liability owing to property defects or negligence not attributed to them and acknowledges that the improvements may be removed by the County and that the Owner of the improvement shall be responsible for the relocation and/or replacement of the improvement.
- In approving this plat by the Commissioner's Court of Williamson County, Texas, it is understood that the building of all roads, and other public thoroughfares and any bridges or culverts necessary to be constructed or placed is the responsibility of the owner(s) of the tract of land covered by this plat in accordance with the plans and specifications prescribed by the Commissioner's Court of Williamson County, Texas. Said Commissioner's Court assumes no obligation to build any of the roads, or other public thoroughfares shown on this plat, or of constructing any of the bridges or drainage improvements in connection therewith. The County will assume no responsibility for drainage ways or easements in the subdivision, other than those draining or protecting the road system.
- It is the responsibility of the owner, not the County, to assure compliance with the provisions of all applicable state, federal and local laws and regulations relating to the platting and development of this property.
- The County assumes no responsibility for the accuracy of representations by other parties in this plat. Floodplain data, in particular, may change. It is further understood that the owners of the tract of land covered by this plat must install at their own expense all traffic control devices and signage that may be required before the roads in the subdivision have finally been accepted for maintenance by the County.
- Rural mailboxes shall be set three feet from the edge of the pavement or behind curbs, when used. All mailboxes within county arterial right-of-way shall meet the current TxDOT standards. Any mailbox that does not meet this requirement may be removed by Williamson County.
- No structure or land within this plat shall hereafter be located or altered without first obtaining a Development Permit from the Williamson County Floodplain Administrator.
- The minimum lowest finished floor elevation shall be one foot higher than the highest spot elevation that is located within five feet outside the perimeter of the building, or one foot above the BFE, whichever is higher.
- Water service for this subdivision will be provided by private on-site wells. Sewer service for this subdivision will be provided by on-site sewage facilities. The existing home on Lot 1 is presently connected to an adequate municipal water source. Lot 2 will require a private well.
- A one-way circular driveway shall not be allowed for Lot 2.

DATE OF PLAT PREPARATION: OCTOBER 9, 2015

FLOODPLAIN ADMINISTRATOR APPROVAL

Based upon the above representations of the Engineer of Surveyor whose seal is affixed hereto, and after a review of the plat as represented by the said Engineer or Surveyor, I find that this plat complies with the Williamson County Floodplain Regulations. This certification is made solely upon such representations and should not be relied upon for verifications of the facts alleged. Williamson County disclaims any responsibility to any member of the public for independent verification of the representations, factual or otherwise , contained in this plat and the documents associated within it.

Joe England, County Engineer
Williamson County Floodplain Administrator

Date

HEALTH DISTRICT APPROVAL

Based upon the above representations of the Engineer of Surveyor whose seal is affixed hereto, and after a review of the plat as represented by the said Engineer or Surveyor, I find that this plat complies with the requirements of Edwards Aquifer Regulations for Williamson County and Williamson County On-Site Sewage Facility Regulations. This certification is made solely upon such representations and should not be relied upon for verifications of the facts alleged. The Williamson County and Cities Health District (WCCHD) and Williamson County disclaim and responsibility to any member of the public for independent verification of the representations, factual or otherwise, contained in this plat and the documents associated with it.

Deborah L. Marlow, RS, OS0029596
Assistant Deputy Director
Environmental Health Services, WCCHD

Date

SURVEYOR'S CERTIFICATION

I, Kenneth Louis Crider, do hereby certify that I prepared this plat from an actual and accurate on-the ground survey of the land shown hereon, and that the corner monuments shown thereon were properly placed under my personal supervision in accordance with the Subdivision Regulations of the City of Pflugerville, Texas and that all known easements within the boundary of the plat are shown hereon.

Bearing Basis: Grid North Texas State Plane Coordinate System (Central Zone) NAD 83(93)

This tract lies entirely within Zone 'X', and no portion of this tract is within the boundaries of the 100-year floodplain as indicated on the Federal Flood Insurance Administration, FIRM Panel No. 48491C0100E, dated September 26, 2008, for Williamson County, Texas.

This tract is not located within the Edwards Aquifer Recharge Zone.

Kenneth Louis Crider
Registered Professional Land Surveyor No. 5624
State of Texas

ROAD NAME AND 911 ADDRESSING APPROVAL
