ARTICLE 1 INITIAL PROJECT INFORMATION

§ 1.1 The Project may ultimately include the following components:

Entrance
 Equestrian Center
 Trails
 Day Use Facilities
 Camping
 Park Residence
 Park Maintenance Facility
 LA and internal infrastructure
 Site Work

§ 1.2 Intentionally Deleted

§ 1.3 The County and LA may rely on the Initial Information. Both parties, however, recognize that such information may materially change and, in that event, the County and the LA shall appropriately adjust the schedule, the LA's services and the LA's compensation.

§ 1.4 The Services covered by this Phase II Services Agreement are subject to a County-approved budget. In the absence of an express provision to the contrary in this Phase II Services Agreement, the LA shall perform the required services in a manner that will render a Cost of the Work (as defined herein) that does not exceed the most current County-approved budget.

§ 1.5 LA represents that it is financially solvent, able to pay its debts as they become due, and possesses sufficient working capital to complete the Phase II Services and perform its obligation under this Phase II Services Agreement and under the Contract Documents. LA further represents and acknowledges that: (a) it is a sophisticated business entity that possesses the required level of experience and expertise in business administration, construction, and contract administration of projects of similar or like size, complexity, and nature as the above-described Project; (b) the County is relying on LA's representation herein that it possesses sufficient skill, knowledge, experience, and ability to fully perform the Phase II Services and its obligations under this Phase II Services Agreement; (c) the LA will assign to this Project qualified individual landscape architects or engineers, as required, and experienced personnel to manage those professionals, as needed, to ensure the quality of performance required herein; and (d) the Phase II Services Fee stated in this Phase II Services Agreement is adequate compensation for the timely completion of Phase II Services.

§ 1.6 Limit of Appropriation. County believes it has sufficient funds currently available and authorized for expenditure to finance the costs of this Phase II Services Agreement. LA understands and agrees that the County's payment of amounts under this Phase II Services Agreement is contingent on the County receiving appropriations or other expenditure authority sufficient to allow the County, in the exercise of reasonable administrative discretion, to continue to make payments under this Phase II Services Agreement.

ARTICLE 2 LA's RESPONSIBILITIES

§ 2.1 The LA will provide all professional services necessary to complete the Phase II Services for the Project. The LA agrees that the Phase II Services Fee, stated in Article 11, represents adequate and sufficient compensation for the timely provision of all professional Phase II Services (including those of its consulting structural, mechanical, electrical, plumbing, and civil or other consulting engineers, if any) necessary to completely design the Project and prepare Construction Documents that fully indicate the requirements for construction of the Work, whether or not those Services are individually listed or referred to in this Phase II Services Agreement, the only exceptions being: (1) the cost of those services that are provided by third parties and that are expressly designated herein as being the "County's responsibility" or "County-provided;" and (2) the cost of those engineering or consulting services that become necessary as a result of an County-directed change in Project scope affecting the LA (and that are subject of a written agreement for Additional Services).

§ 2.2 The LA shall perform its services consistent with the professional skill and care ordinarily provided by landscape architects practicing in the same or similar locality under the same or similar circumstances. The LA shall perform its services expeditiously in accordance with the schedule developed hereunder.

§ 2.2.1 The LA agrees that its design, Construction Documents, and Phase II Services shall conform to all federal, state, and local statutes and regulations governing its Services, the Project and the Work. The LA agrees that this duty is non-delegable—and the LA, by signing drawings or preparing Construction Documents to submit to governmental entities for purposes of obtaining building and other governmental permits or approvals, shall be deemed to certify that it has taken reasonable measures to ascertain what codes apply to the Project and has applied them accordingly. Nothing in this Phase II Services Agreement shall be construed to eliminate or diminish the LA's responsibility for compliance of its design, its Construction Documents, and its Services provided with local, state, and federal statutes and regulations including but not limited to those that relate to the ADA or accessibility for the physically-challenged.

§ 2.3 The LA shall identify a representative authorized to act on behalf of the LA with respect to the Project. Once approved by County, the LA's designated representative shall not be changed without the County's written approval.

§ 2.4 Except with the County's knowledge and consent, the LA shall not engage in any activity, or accept any employment, interest or contribution that would reasonably appear to compromise the LA's professional judgment with respect to this Project.

§ 2.5 Insurance. The LA shall maintain all forms of insurance required below, or by the laws in the State of Texas. In addition to professional liability insurance, the LA shall also maintain insurance coverage for comprehensive general liability, automobile liability, and workers' compensation by a carrier satisfactory to the County, which carrier shall be licensed to provide such coverage in the State of Texas, on forms and in amounts that are satisfactory to the County. The LA shall ensure that all of LA's subconsultants engaged or employed by the LA and that must seal or stamp documents must carry and maintain similar insurance covering their respective portions of the Phase II Services. LA acknowledges, however, that LA shall remain responsible and liable for all work of its subconsultants whether or not such subconsultants carry and maintain similar insurance covering their respective portions of the Phase II Services. The LA and its above described subconsultants shall submit proof of such insurance to the County before the submittal of the first invoice to the County, at the anniversary date(s) of the submittal, and at any time when a material change in coverage, carriers, or underwriters occurs. The County may require that the proof of coverage be in the form of a true and accurate copy of the policies of insurance, themselves. The maintenance of such coverage shall be a condition precedent to County's obligation to pay under this Phase II Services Agreement. The insurance policies shall incorporate a provision requiring written notice to the County at least 30 days prior to any cancellation, or non-renewal.

ARTICLE 3 SCOPE OF ARCHITECT'S PHASE II SERVICES

§ 3.1 The LA shall provide those Phase II Services described in the attached **Exhibit A**, which is incorporated herein by referenced for all purposes, this Article 3, and Section 2.1, including the usual and customary structural, mechanical, and electrical engineering services, unless specifically provided elsewhere.

§ 3.1.1 The LA shall manage the LA's services, consult with the County, research applicable design criteria, attend Project meetings, communicate with members of the Project team and report progress to the County. LA shall also participate in any public hearings requested by County and/or the Williamson County Commissioners Court, in accordance with the requirements, policies, and general practices of Williamson County.

§ 3.1.2 The LA shall coordinate its services with those services provided by the County and the County's consultants. The LA shall be entitled to rely on the accuracy and completeness of services and information furnished by the County and the County's consultants when that information is transmitted by the County to the LA and is designated by County to be reliable. The LA shall provide prompt written notice to the County if the LA becomes aware of any error, omission or inconsistency in such services or information.

§ 3.1.3 As soon as practicable after the date of this Phase II Services Agreement, the LA shall submit for the County's approval a schedule for the performance of the LA's services. The schedule initially shall include anticipated dates for the commencement and completion of Phase II Services described in this Phase II Services Agreement. The schedule shall include allowances for periods of time required for the County's review, for the performance of the County's consultants, and for approval of submissions by authorities having jurisdiction over the Project. Once approved by the County, time limits established by the schedule shall not, except for reasonable cause, be exceeded by the LA. With the County's approval, the LA shall adjust the schedule, if necessary as the Project proceeds.

§ 3.1.4 The LA shall, at appropriate times, contact the governmental authorities required to approve the Construction Documents and the entities providing utility services to the Project. In designing the Project, the LA shall prepare designs and documents in accordance with applicable design requirements imposed by such governmental authorities and by such entities providing utility services.

§ 3.1.5 The LA shall assist the County in connection with the County's responsibility for filing documents required for the approval of governmental authorities having jurisdiction over the Project.

§ 3.1.6 A description of the Scope of Phase II Services is set forth in **Exhibit A**, which is attached hereto and incorporated herein for all purposes.

ARTICLE 4 ADDITIONAL SERVICES

§ 4.1 The County may request Additional Services of the LA. Additional Services will be requested by the County, and confirmed in writing. Should the County request services that the LA believes to be outside the scope of Phase II, the LA shall, before performing those services, inform the County in writing of the LA's belief that the services requested are Additional Services and shall provide an estimate in writing to the County of the probable total of the Additional Services fees to be incurred in performing the services requested. **The LA shall not proceed to provide Additional Services until the LA receives the County's written authorization following County's receipt of the probable total of the Additional Services fees to be incurred in performing the services requested.**

§ 4.2 Additional Services may be provided after execution of this Phase II Services Agreement, without invalidating the Phase II Services Agreement. Except for services required due to the fault of the LA, any Additional Services provided in accordance with this Section 4.2 shall entitle the LA to compensation pursuant to Section 11.3 and an appropriate adjustment in the LA's schedule. Upon recognizing the need to perform Additional Services, the LA shall notify the County with reasonable promptness and explain the facts and circumstances giving rise to the need. **The LA shall not proceed to provide Additional Services until the LA receives the County's written authorization.**

ARTICLE 5 COUNTY'S RESPONSIBILITIES

§ 5.1 Unless otherwise provided for under this Phase II Services Agreement, the County shall provide information in a timely manner regarding requirements for and limitations on the Project, including a written program which shall set forth the County's objectives, schedule, constraints and criteria, including space requirements and relationships, flexibility, expandability, special equipment, systems and site requirements. LA and County acknowledge that the information provided is subject to change, but that the Phase II Services Fees indicated herein take that change into account.

§ 5.2 The County shall establish and periodically update the County's budget for the Project, including (1) the budget for the Cost of the Work as defined in Section 6.1; (2) the County's other costs; and, (3) reasonable contingencies related to all of these costs. If the County significantly increases or decreases the County's budget for the Cost of the Work, the County shall notify the LA. The LA shall prepare designs and Construction Documents so that the Project can be built within the County's budget for the Project.

§ 5.3 With respect to any action, decision or determination which is to be taken or made by County with respect to the Project, the County shall identify a representative authorized to take such action or make such decision or determination or the County's representative shall notify LA in writing of an individual or governing body (i.e. Williamson County Commissioners Court) responsible for and capable of taking such action, decision or determination and shall forward any communications and documentation to such individual or governing body for response or action. County may change the designated representative upon written notice to the LA; and the County

may modify the scope of authority of the designated representative in like manner. The County shall render decisions and approve the LA's submittals in a timely manner in order to avoid unreasonable delay in the orderly and sequential progress of the LA's services. The County's representative shall not have any right to modify, amend or terminate this Phase II Services Agreement or issue authority to LA to perform Additional Services unless otherwise granted such authority by the Williamson County Commissioners Court.

§ 5.4 Where necessary for the LA's performance of Phase II Services, the LA shall furnish surveys to describe physical characteristics, legal limitations and utility locations for the site of the Project, and a written legal description of the site. The surveys and legal information shall include, as applicable, grades and lines of streets, alleys, pavements and adjoining property and structures; designated wetlands; adjacent drainage; rights-of-way, restrictions, easements, encroachments, deed restrictions, boundaries and contours of the site; locations, dimensions and necessary data with respect to existing buildings, other improvements and trees; and information concerning available utility services and lines, both public and private, above and below grade, including inverts and depths.

§ 5.5 Where necessary for the LA's performance of Phase II Services the County shall furnish services of geotechnical engineers, which may include but are not limited to test borings, test pits, determinations of soil bearing values, percolation tests, evaluations of hazardous materials, ground corrosion tests and resistivity tests, including necessary operations for anticipating subsoil conditions, with written reports and appropriate recommendations.

§ 5.6 The LA shall coordinate its Services and those of its subconsultants with the services provided by the County or County's separate consultants, if any.

§ 5.7 The County shall furnish tests, inspections and reports required by law or the Contract Documents, such as structural, mechanical, and chemical tests, tests for air and water pollution, and tests for hazardous materials, where needed for performance of the Work and where the need is not the result of the LA's negligence or failure to perform.

§ 5.8 The County shall furnish all legal, insurance and accounting services, including auditing services, that may be reasonably necessary at any time for the Project to meet the County's needs and interests, where needed for performance of the Work and where the need is not the result, in whole or in part, of the LA's negligence or failure to perform.

§ 5.9 The County shall provide prompt written notice to the LA if the County becomes aware of any fault or defect in the Project, including errors, omissions or inconsistencies in the LA's Instruments of Service, provided nothing in this Phase II Services Agreement shall be construed as to require the County to determine the adequacy, accuracy, or sufficiency of the design, the Construction Documents, or the LA's services.

§ 5.10 The LA shall coordinate the LA's duties and responsibilities set forth in the Contract for Construction with the LA's services set forth in this Phase II Services Agreement. The LA shall perform in a manner consistent with the obligations of the LA as stated in this Phase II Services Agreement and in the Contract Documents. The County shall provide the LA a copy of the

executed agreement between the County and Contractor, including the Uniform General Conditions of the Contract for Construction.

§ 5.11 The County shall provide the LA access to the Project site prior to commencement of the Work and shall obligate the Contractor to provide the LA access to the Work wherever it is in preparation or progress.

ARTICLE 6 COST OF THE WORK

§ 6.1 For purposes of this Phase II Services Agreement, the Cost of the Work shall be the total cost to the County to construct all elements of the Project designed or specified by the LA and shall include contractors' general conditions costs, overhead and profit. The Cost of the Work does not include the compensation of the LA, the costs of the land, rights-of-way, financing, and contingencies for changes in the Work or other costs.

§ 6.2 The County's budget for the Cost of the Work may be adjusted throughout the Project. Evaluations of the County's budget for the Cost of the Work, the preliminary estimate of the Cost of the Work and updated estimates of the Cost of the Work prepared by the LA, represent the LA's judgment as a design professional familiar with the construction industry. It is recognized, however, that neither the LA nor the County has control over the cost of labor, materials or equipment; the Contractor's methods of determining bid prices; or competitive bidding, market or negotiating conditions.

§ 6.3 In preparing estimates of the Cost of Work, the LA shall be permitted to include contingencies for design, bidding and price escalation; to determine what materials, equipment, component systems and types of construction are to be included in the Contract Documents; to make reasonable adjustments in the program and scope of the Project; and to include in the Contract Documents alternate bids as may be necessary to adjust the estimated Cost of the Work to meet the County's budget for the Cost of the Work. The LA's estimate of the Cost of the Work shall be based on current area, volume or similar conceptual estimating techniques.

§ 6.4 The LA's estimate of the Cost of the Work shall be projected to the scheduled date of completion of the Bidding and Negotiation Phase of Services.

§ 6.5 If at any time the LA's estimate of the Cost of the Work exceeds the County's budget for the Cost of the Work, the LA shall make appropriate recommendations to the County to adjust the Project's size, quality or budget for the Cost of the Work, and the County shall cooperate with the LA in making such adjustments.

§ 6.6 If the County's budget for the Cost of the Work at the conclusion of the Construction Documents Phase Services is exceeded by the lowest bona fide bid or negotiated proposal for reasons not related to the fault of the LA, the County shall at the County's sole discretion:

- .1 give written approval of an increase in the budget for the Cost of the Work;
- .2 authorize rebidding or renegotiating of the Project within a reasonable time;
- .3 terminate in accordance with this Phase II Services Agreement;
- .4 in consultation with the LA, revise the Project program, scope, or quality as required to reduce the Cost of the Work;

- .5 instruct the LA to modify its design and the Construction Documents so that the Cost of the Work fall within the County's budget; or
- .6 implement any other mutually acceptable alternative.

§ 6.7 If the County chooses to proceed under Section 6.6.5, the LA, without additional compensation, shall modify the Construction Documents as necessary to comply with the County's budget for the Cost of the Work at the conclusion of the Construction Documents Phase Services, or the budget as adjusted under Section 6.6.1.

ARTICLE 7 COPYRIGHTS AND LICENSES

§ 7.1 The LA and the County warrant that in transmitting Instruments of Service, or any other information, the transmitting party is the copyright County of such information or has permission from the copyright County to transmit such information for its use on the Project.

§ 7.2 The LA hereby assigns to the County, without reservation, all copyrights in all Project-related documents, models, photographs and other expression created by the LA. Among those documents are certain "Instruments of Service" including the design drawings and the Construction Documents. The County's obligation to pay the LA is expressly conditioned upon the LA obtaining a valid assignment of copyrights from its subconsultants in terms similar to those that obligate the LA to the County as express in this Article 7, which copyrights the LA, in turn, hereby assigns to County. The County, in return, hereby grants to LA and its subconsultants a revocable, nonexclusive license to reproduce the documents for purposes relating directly to the LA's performance of its obligations under this Phase II Services Agreement, to the LA's archival records, and for the LA's reproduction of drawings and photographs in the LA's marketing materials, provided that the Project-related contents of those materials are approved as requested in Section 7.3 of this Phase II Services Agreement. This nonexclusive license shall terminate automatically upon the occurrence of either a breach of this Phase II Services Agreement by the LA or upon termination of this Phase II Services Agreement. This nonexclusive license granted in this Phase II Services Agreement to the LA may be sub-licensed to the LA's subconsultants (with the same limitations). Subject to the foregoing, this nonexclusive license shall terminate automatically upon LA's assignment of this nonexclusive license to another or its attempt to do so.

§ 7.3 The LA shall obtain similar nonexclusive licenses from the LA's consultants consistent with this Phase II Services Agreement.

§ 7.3.1 To the extent that liability arises from misuse of the Instruments of Service by the County or another architect or engineer, the LA shall not be responsible for that misuse.

§ 7.4 Except for the licenses granted in this Article 7, no other license or right shall be deemed granted or implied under this Phase II Services Agreement. No other Project-related data, expression, or documents may be reproduced by the LA or its consultants for any other purpose without the express written permission of the County.

§ 7.5 If the County subsequently reproduces Project-related documents or creates a derivative work based upon Project-related documents created by the LA, the County shall (where permitted or

required by law) remove or completely obliterate the original professional's seal, logo, and other indications on the documents of the identity of the LA or its consultants.

§ 7.6 The LA shall maintain the confidentiality of all Project documents and information and shall not publish or in any way disseminate or distribute any Project-related documents, including, but not limited to, correspondence, estimates, drawings, specifications, photographs, or any other material relating to the Project without the express written authorization of the County.

§ 7.7 Contact with the news media, citizens of Williamson County or governmental agencies shall be the responsibility of the County. Under no circumstances shall the LA release any material or information developed in the performance of its services hereunder without the express written permission of County.

§ 7.8 No license is granted by this Phase II Services Agreement or otherwise allowing LA or its consultants to reproduce, distribute, modify, display or otherwise use County-related marks, logos, and graphics. The Parties agree that marks, logos, and graphics related to County are valuable intellectual property and that misuse or misappropriation of them will damage the County.

ARTICLE 8 CLAIMS AND DISPUTES

§ 8.1 GENERAL

§ 8.1.1 The County and LA shall commence all claims and causes of action, whether in contract, tort, or otherwise, against the other arising out of or related to this Phase II Services Agreement within the period specified by applicable law. The County and LA waive all claims and causes of action not commenced in accordance with this Phase II Services Agreement.

§ 8.1.2 To the extent damages are covered by proceeds received by the claimant from property insurance, the County and LA waive all rights against each other and against the contractors, consultants, agents and employees of the other for damages, except such rights as they may have to the proceeds of such insurance as set forth in the Uniform General Conditions for Williamson County. The County or the LA, as appropriate, shall require of the contractors, consultants, agents and employees of any of them similar waivers in favor of the other parties enumerated herein.

§ 8.1.3 The County Judge or his/her designee and/or agent as designated by the County Judge (individually or collectively the "County Judge") shall decide any and all questions which may arise as to the interpretation of this Phase II Services Agreement and all questions as to the acceptable fulfillment of this Phase II Services Agreement by the LA. It is mutually agreed by both parties that the County Judge shall act as referee in all questions arising under the terms of this Phase II Services Agreement between the parties hereto. Nothing contained in this section shall be construed to authorize the County Judge to alter, vary or amend any of the terms or provisions of this Phase II Services Agreement.

§ 8.2 MEDIATION

§ 8.2.1 The County and LA shall endeavor to resolve claims, disputes and other matters in question between them by mediation. A request for mediation shall be made in writing, delivered to the other party to the Phase II Services Agreement.

§ 8.2.2 The parties shall share the mediator's fee and any filing fees equally. The mediation shall be held in Williamson County, Texas, unless another location is mutually agreed upon. Agreements reached in mediation shall be enforceable as settlement agreements in any court having jurisdiction thereof.

§ 8.2.3 All disputes not resolved through mediation shall be resolved through litigation in Williamson County, Texas. However, nothing in this Phase II Services Agreement shall be deemed to waive, modify or amend any legal defense available at law or in equity to County, its past or present officers, employees, or agents or employees, nor to create any legal rights or claim on behalf of any third party. County does not waive, modify, or alter to any extent whatsoever the availability of the defense of governmental immunity under the laws of the State of Texas and of the United States.

ARTICLE 9 TERMINATION OR SUSPENSION

§ 9.1 The LA shall give the County 21 days' written notice of the LA's intention to terminate or suspend the Phase II Services under this Phase II Services Agreement. The notice shall detail the LA's specific reason(s) for its intended termination or suspension and shall state with specificity the means by which the County may cure the alleged reason.

§ 9.2 If the County fails to make payments to the LA that are otherwise due hereunder, the LA shall give the County 14 days' advanced written notice of its intention to suspend Services. If the County fails to either pay or justify its lack of payment in accordance with the terms of this Phase II Services Agreement, LA may give notice of suspension and suspend the Phase II Services five (5) days thereafter. Services shall otherwise be performed continually and expeditiously, including during the pendency of disputes.

§ 9.3 If the County suspends the Project for more than 90 cumulative days for reasons other than the fault of the LA, the LA may terminate this Phase II Services Agreement by giving not less than seven days' written notice.

§ 9.4. This Phase II Services Agreement may be terminated by the County, with or without cause, for the County's convenience upon not less than seven (7) days' written notice to the LA. Should the County terminate this Phase II Services Agreement for cause, but that cause be subsequently found to be insufficient to support termination, the termination shall be deemed one of convenience.

§ 9.5 In the event of termination not the fault of the LA, the LA shall be compensated for services performed prior to termination, together with Reimbursable Expenses then due.

ARTICLE 10 MISCELLANEOUS PROVISIONS

§ 10.1 This Phase II Services Agreement shall be performable in Williamson County, Texas. Each party to this Phase II Services Agreement hereby agrees and acknowledges that venue and jurisdiction of any suit, right, or cause of action arising out of or in connection with this Phase II Services Agreement shall lie exclusively in Williamson County, Texas. Furthermore, this Phase II Services Agreement shall be governed by and construed in accordance with the laws of the State of Texas, excluding, however, its choice of law rules.

§ 10.2 Terms in this Phase II Services Agreement shall have the same meaning as those in Uniform General Conditions for Williamson County, unless a contrary definition is set forth here or inferable herefrom.

§ 10.3 The County and LA, respectively, bind themselves, their agents, successors, assigns and legal representatives to this Phase II Services Agreement. The Services to be provided by the LA are deemed to be personal in nature and the Architect may not assign its interest or obligations under this Phase II Services Agreement without the written consent of the County.

§ 10.4 If the County requests the LA to execute certificates, the proposed language of such certificates shall be submitted to the LA for review. If the County requests the LA to execute consents, the LA shall execute all such consents that are consistent with this Phase II Services Agreement, provided the proposed consent is submitted to the LA for review. The LA shall not be required to execute certificates or consents that would require knowledge, services or responsibilities beyond the scope of this Phase II Services Agreement.

§ 10.5 Nothing contained in this Phase II Services Agreement shall create a contractual relationship with or a cause of action in favor of a third party against either the County or LA.

§ 10.6 Unless otherwise required in this Phase II Services Agreement, the LA shall have no responsibility for the discovery, presence, handling, removal or disposal of, or exposure of persons to, hazardous materials or toxic substances in any form at the Project site, unless the hazardous materials or toxic substances were brought to the Project pursuant to the terms of the Contract Documents. Should the LA become aware of the presence of hazardous materials or toxic substances on the Project site, it shall immediately report that presence to the County.

§ 10.7 The LA shall have the right to include photographic or artistic representations of the design of the Project among the LA's promotional and professional materials. The LA shall be given access to the completed Project, when approved by County, to make such representations. However, the LA's materials shall not include the County's confidential or proprietary information if the County has previously advised the LA in writing of the specific information considered by the County to be confidential or proprietary.

§ 10.8 If the LA or County receives information specifically designated by the other party as "confidential" or "business proprietary," the receiving party shall keep such information strictly confidential and shall not disclose it to any other person except to (1) its employees, (2) those who need to know the content of such information in order to perform services or construction solely and exclusively for the Project, or (3) its consultants and contractors whose contracts include similar restrictions on the use of confidential information. However, to the extent, if any, that any provision in this Phase II Services Agreement is in conflict with Tex. Gov't Code 552.001 et seq., as amended (the "Public Information Act"), the same shall be of no force or effect. Furthermore, it is expressly understood and agreed that County, its officers and employees may request advice, decisions and opinions of the Attorney General of the State of Texas in regard to the application of the Public Information Act to any items or data furnished to County as to whether or not the same are available to the public. It is further understood that County's officers and employees

shall have the right to rely on the advice, decisions and opinions of the Attorney General, and that County, its officers and employees shall have no liability or obligation to any party hereto for the disclosure to the public, or to any person or persons, of any items or data furnished to County by a party hereto, in reliance of any advice, decision or opinion of the Attorney General of the State of Texas.

II. Phase II Service Scope of Work – Design and Engineering for Phase I Implementation

Based upon the approved master plan and limits of Phase I implementation, the Phase II Services Scope of Work will require the following disciplines:

- Surveying
- Environmental and Cultural Surveying
- Landscape Architecture
- Civil and Traffic Engineering
- Architecture
- Equestrian Design
- Structural and Mechanical, Electrical, Plumbing (MEP) Engineering
- Wayfinding and Signage

The anticipated area for Phase I construction of the Project is identified in Attachment A of this Phase II Scope of Service.

Based LA's knowledge of creating complete design and engineering documents, the Phase II Scope of Service includes the following:

- ☐ Site Survey
- ☐ Environmental and Cultural Surveying
- ☐ Design Development (60% design)
- ☐ Construction Documentation (90% Documents) and Permitting
- ☐ Construction Documentation (100% Bid Documents)
- ☐ Bidding and Negotiation
- ☐ Construction Observation

Many of these phases of work can overlap in order to efficiently deliver the park to the community in a timely fashion.

Task III: Environmental and Cultural Mapping (16 weeks)

Exhibit A

Scope of Phase II Services

Upon approval by the County of Schematic Design in Task II of the Phase I Services Agreement, the LA will immediately get started on Environmental and Cultural Mapping and the Site Survey, while simultaneously getting started on Design Development Documents (Task IV).

3.1 Karst Survey

In accordance with the revised May 2014 U.S. Fish and Wildlife Service (USFWS) Section 10(a)(1)(A) Karst Invertebrate Survey Requirements an initial karst feature survey is recommended for Karst Zones 1, 2, and 3. The project area lies within Karst Zone 3 and 4. Task 3 includes a karst survey, which will include walking 50-foot transects throughout the entirety Karst Zone 3.

3.2 Jurisdictional Waters Assessment

The LA will conduct a jurisdictional waters of the United States assessment for the approximately 320 acre project area. The purpose of this assessment is to identify the location and extent of potential waters of the United States in accordance with Section 404 of the Clean Water Act (CWA). As part of this task, the LA will analyze the site and surrounding conditions to determine the potential for on-site waters to be considered protected by Section 404 under current interpretations.

Task 3 includes report preparation and a call with the County to discuss the findings of the site assessment and discuss whether any Section 404 permitting or coordination may be recommended or required. The prepared report and associated exhibits will be suitable for inclusion in any Section 404 permitting or coordination.

3.3 Golden-Cheeked Warbler and Black-Capped Vireo Habitat Evaluation

The LA will conduct a golden-cheeked warbler (GCWA) and black-capped vireo habitat evaluation. A visual inspection of habitat within the project area will be performed for GCWA and BCVI habitat. The LA will also review existing habitat information and prepare a habitat report, with a discussion of the setting, and map delineating the vegetative and/or geographic regions and their potential for GCWA and BCVI.

3.4 Spring Assessment

The LA will conduct a survey to evaluate the presence of springs on the project area. This survey will consist of walking all drainages on the tract looking for spring flow and vegetation associated with springs. Once the spring survey has been completed, a report of the findings will be prepared and sent electronically to the County.

3.5 Cultural Resources Survey

The LA will prepare a Texas Historical Commission (THC) Antiquities Code permit application to perform an intensive archaeological survey of the proposed approximately 320 acre project area. The permit application will be provided to the County for review, comment, and signature by the County prior to submission to the reviewer at the THC.

The LA will conduct a pedestrian survey of the entire 320 acre project area, including shovel testing, site photography, site recording, National Register and State Antiquities Landmark eligibility assessments, data analysis, and report preparation in accordance with THC and Council

Exhibit A

Scope of Phase II Services

of Texas Archaeologists (CTA) standards. The reporting will involve the analysis of the data collected from the field work and the production of a draft report submitted to the THC for approval and concurrence. A draft and final report will be submitted to the County as well as the THC as part of the deliverables. All field documents and photographs will also be curated for submittal to TARL as curation is required by the THC Antiquities permit. Additionally, final approved report will be produced and distributed to repositories as a requirement of the THC permit. This will be a non-collection survey so no artifacts will be collected as part of this effort and therefore, will not require curation.
