Narrative Information

Overview

The purpose of the Homeland Security Grant Program (HSGP) is to support state and local efforts to prevent terrorism and other catastrophic events and to prepare the Nation for the threats and hazards that pose the greatest risk to the security of the United States. HSGP provides funding to implement investments that build, sustain, and deliver the 32 core capabilities essential to achieving the National Preparedness Goal (the Goal) of a secure and resilient Nation. The building, sustainment, and delivery of these core capabilities are not exclusive to any single level of government, organization, or community, but rather, require the combined effort of the whole community. HSGP supports core capabilities across the five mission areas of Prevention, Protection, Mitigation, Response, and Recovery based on allowable costs.

Primary Mission and Purpose

State Homeland Security Program (SHSP): Supports state, Tribal and local preparedness activities that address high-priority preparedness gaps across all core capabilities where a nexus to terrorism exists. All investments must be consistent with capability targets set during the Threat and Hazard Identification and Risk Assessment (THIRA) process, and gaps identified in the State Preparedness Report (SPR).

Many activities which support the achievement of target capabilities related to terrorism preparedness may simultaneously support enhanced preparedness for other hazards unrelated to acts of terrorism. However, **all SHSP projects must assist grantees in achieving target capabilities related to preventing, preparing for, protecting against, or responding to acts of terrorism.**

Eligibility Requirements

National Incident Management System (NIMS) Implementation

Grantees are required to implement NIMS. The NIMS uses a systematic approach to integrate the best existing processes and methods into a unified national framework for incident management across all homeland security activities including prevention, protection, response, mitigation, and recovery. Grantees must use standardized resource management concepts for resource typing, credentialing, and an inventory to facilitate the effective identification, dispatch, deployment, tracking and recovery of resources.

Emergency Management Plans (Intermediate Level) Cities and counties must have a current emergency management plan or be a legally established member of an inter-jurisdictional emergency management program with a plan on file with the Texas Department of Public Safety, Texas Division of Emergency Management (TDEM). Plans must be maintained throughout the entire grant performance period and must be at least at the Intermediate Level. If you have questions concerning your Emergency Management Plan (preparedness) level, contact your Emergency Management Coordinator (EMC) or your regional Council of Governments (COG). For questions concerning plan deficiencies, contact TDEM at tdem.plans@dps.texas.gov.

Criminal History Reporting Entities receiving funds from HSGD must be located in a county that has an average of 90% or above on both adult and juvenile dispositions entered into the computerized criminal history database maintained by the Texas Department of Public Safety (DPS) as directed in the *Texas Code of Criminal Procedure, Chapter 60*. The disposition completeness percentage is defined as the percentage of arrest charges a county reports to DPS for which a disposition has been subsequently reported and entered into the computerized criminal history system.

Uniform Crime Reporting (UCR) Eligible applicants operating a law enforcement agency must be current on reporting Part I violent crime data to the Texas Department of Public Safety (DPS) for inclusion in the annual Uniform Crime Report (UCR). To be considered eligible for funding, applicants must have submitted a full twelve months of accurate data to DPS for the most recent calendar year.

Program Requirements

Building and Sustaining Core Capabilities

Funding should be used to sustain core capabilities. New capabilities should not be built at the expense of maintaining current and critically needed core capabilities. New capabilities must be aligned with capability targets and gaps identified through the THIRA/SPR process.

Mission Areas

The National Preparedness Goal organizes the core capabilities into the five mission areas:

- **Prevention.** Prevent, avoid or stop an imminent, threatened or actual act of terrorism.
- **Protection.** Protect our citizens, residents, visitors, and assets against the greatest threats and hazards in a manner that allows our interests, aspirations, and way of life to thrive.
- **Mitigation.** Reduce the loss of life and property by lessening the impact of future disasters.
- **Response.** Respond quickly to save lives, protect property and the environment, and meet basic human needs in the aftermath of a catastrophic incident.
- **Recovery.** Recover through a focus on the timely restoration, strengthening and revitalization of infrastructure, housing and a sustainable economy, as well as the health, social, cultural, historic and environmental fabric of communities affected by a catastrophic incident.

Program Income

Applicant agrees to comply with all federal and state rules and regulations for program income and agrees to report all program income that is generated as a result of the project's activities. Applicant agrees to report program income through a formal grant adjustment and to secure HSGD approval prior to use of the program income. Applicant agrees to use program income for allowable costs and agrees to expend program income immediately after HSGD's approval of a grant adjustment and prior to requesting reimbursement of funds.

Deduction Method - Program income shall be deducted from total allowable costs to determine the net allowable costs. Program income shall be used for current costs unless HSGD authorizes otherwise. Program income which the grantee did not anticipate at the time of the award shall be used to reduce the HSGD award and grantee match rather than to increase the funds committed to the project.

Asset Seizures and Forfeitures - Program income from asset seizures and forfeitures is considered earned when the property has been adjudicated to the benefit of the plaintiff (e.g., law enforcement entity).

Certification

Each applicant agency must certify to the specific requirements detailed above as well as all requirements within the HSGD Funding Announcement, the eGrants application, the OOG's Guide to Grants, and the OOG's Grantee Conditions and Responsibilities to be eligible for this program.

☒ I certify to all of the application content and requirements.

Project Summary :

Briefly summarize the project, including proposed activities and intended impact.

DOSRAE II Dosimeters - This portable equipment detects radiological substances and alerts responders that they may have encountered radioactive material. Knowledge of the presence of radiological materials allow responders to take appropriate actions for safety. It is mounted in the responders vehicles.

Problem Statement :

Provide a detailed account of the issues, threats or hazards that your project will target. For federal Homeland Security Grants, include specific references to the regional or state *Threat and Hazard Identification and Risk Assessment (THIRA)*, as applicable.

DOSRAE II Dosimeters - This portable equipment detects radiological substances and alerts responders that they may have encountered radioactive material. Knowledge of the presence of radiological materials allow responders to take appropriate actions for safety. It is mounted in the responders vehicles. Hazmat Release-Chemical has been identified as one of the highest threats/hazards in the CAPCOG Region and is the first threat/hazard identified in the CAPCOG THIRA Page 1.

Existing Capability Levels :

Describe the existing capability levels, including resources that are currently in place to support this project prior to the use of grant funds.

Williamson County ability to detect radiological materials on a limited basis. It may be 1-2 hours before the substance is identified as radiological since the existing equipment is not immediately available.

Existing Capability Gaps:

Describe the capability gaps which will be addressed by the project. For federal Homeland Security Grants, include specific references to the regional or statewide State Preparedness Report (SPR).

The current models allows radiation contamination to go unknown for hours, which allows the potential for more citizens and responders to be exposed to deadly chemicals. SPR - Page 42 - Environmental Response/Health and Safety Core Capability, High Priority, Page 62 - Situational Assessment Core Capability, High Priority, Page 19 Screening, Search, and Detection Core Capability, High Priority

Impact Statement :

Describe the project goals/objectives and how this project will maintain capabilities or reduce capability gaps.

This allows the recognition of radiological substances in a matter of minutes, rather than possibly several hours, therefore providing more protection of the community.

Homeland Security Priority Actions:

Identify the Texas Homeland Security Priority Action most closely aligned with this project. Each Priority Action is linked with an *Objective from the Texas Homeland Security Strategic Plan (HSSP)*. List the Priority Action by number and text (e.g. *1.2.3 Expand and enhance the network of human sources that can provide detailed and relevant information on known or suspected terrorist and criminal enterprises.*)

2.2.1 Strengthen statewide capability to detect, confirm, analyze, and assess chemical, biological, radiological, and nuclear events.

Target Group :

Identify the target group and population expected to benefit from this project.

Williamson County currently operates and maintains a Level I HazMat Team with primary responsibilities for the County and secondary for the CAPCOG Region. The Team has a long history of local and regional participation to include both response and training. The Team is coordinated by Williamson County but comprised of multiple Fire and EMS agencies within the County.

Long-Term Approach:

Describe how the applicant agency will maintain the capabilities supported by this project without additional federal funds. If sustainment is dependent upon federal grants, describe the ongoing need for future grants, as applicable.

Williamson County will maintain this equipment but may need to request grant funding if upgrade is required in the future.

Project Activities Information**HSGP Instructions for Project Activity Selection**

Homeland Security Grant Program (HSGP) applicants should only select one project activity. The eGrants system will allow multiple selections, but each HSGP subrecipient project must fit into one and only one of the Investment Categories that are listed as project activities under the "Activity List".

Selected Project Activities:

ACTIVITY	PERCENTAGE:	DESCRIPTION
Sustaining Special Response Teams and First Responder Capabilities	100.00	This equipment will be included with the Regional Hazmat/CBRNE response team and will be utilized for response to incidents in the region. It will also be used in regional and local training and exercises.
