#### INDEPENDENT AUDITOR'S REPORT

To the Board of Directors Williamson County Emergency Services District No. 5

We have audited the accompanying financial statements of the governmental activities, and each major fund, of Williamson County Emergency Services District No. 5, as of and for the year ended September 30, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment including the assessment of the risks of material misstatements of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, and each major fund, of Williamson County Emergency Services District No. 5, as of September 30, 2017, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### **Other Matters**

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, schedule of changes in net pension liability and related ratios, and schedule of employer contributions on pages 3 through 8 and pages 29 through 32 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

# Williamson County Emergency Services District No. 5 Jarrell Fire Department P.O. Box 88 Jarrell, Texas 76537 512-746-2505

"Serving Northern Williamson County, Texas"

This is the discussion and analysis of the Williamson County Emergency Services District No. 5 (the District) for fiscal year ending September 30, 2017. We encourage readers to consider it in conjunction with the additional information presented in the accompanying basic financial statement and the notes to the financial statements.

### **Financial Highlights**

- The net position of the District increased by \$241,318 as a result of the current year's operations.
- As of year-end, the District's governmental fund reported an ending fund balance of \$539,022, an increase of \$210,179.

### **Using This Annual Report**

This annual report consists of a series of financial statements. GASB Statement No. 34 provides that for governments engaged in a single governmental program, the fund financial statements and the government-wide statements may be combined. The District presents the governmental funds in the first two columns and a total in the third column. The next column is an adjustments column, reconciling the amounts reported in the governmental funds to show how each would change when reported on the full-accrual basis of accounting. The last column of these combination statements shows the amounts that normally would appear in the government-wide statements. For governmental activities, this last column tells how these services were financed in the short term as well as what remains for future spending. Fund financial statements report the District's operations in more detail than the government-wide statements by providing information about the District's most significant funds.

### Reporting the District as a Whole

The Statement of Net Position and the Statement of Activities present information about the District as a whole. These statements (as reported in the last column of each of the statements) include all of the District's assets and liabilities, utilizing the accrual basis of accounting which is similar to the accounting used by most private sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two columns report the District's net position and changes in them. The difference between assets and liabilities, net position, are one way to measure the District's financial health. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating. However, other non-financial factors such as changes in the District's property tax base must also be considered in an assessment of the overall financial health of the District.

The statement of activities presents information showing how the District's net position changed during the most recent twelve-month period. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will result in cash flows in future fiscal periods.

### Reporting the District's Funds

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The District may establish other funds to help in control and manage money for particular purposes or to show that it is meeting its legal responsibilities for using certain taxes, grants, and other money. These funds are reported using an accounting method called the Modified Accrual accounting which measures cash and all other financial assets that can be readily converted to cash.

**Governmental Funds.** Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Because the focus of governmental funds is narrower that that of the government-wide financial statements, it is useful to compare that information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements.

The ESD maintains only one governmental fund – the General Fund. Information is presented in the Balance Sheets and in the Revenues, Expenditures, and Changes in Fund Balances.

**Notes to the Financial Statements.** The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

### The District as a Whole

Governmental activities increased the Department's net position by \$241,318. Our analysis below focuses on the net position (Table 1) and the changes in net position (Table 2) of the Department's governmental activities:

Net Position – Ending	\$ 358,111	\$ 599,429

### Financial Analysis of the Government's Funds

As noted earlier, the Department uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. For the year ending September 30, 2017, the District's total fund balance was \$539,022 which reflects an increase of \$210,179.

63.3% of all Department funds come from Ad Valorem taxes. The remaining revenues come from sources such as grants and contributions.

### **Budgetary Highlights**

The Department's annual budget includes estimated revenues and expenditures. The annual budget is a line-item document that allows the Board of Commissioners a high degree of control over Department expenditures. Estimates of taxable value for the forthcoming year are provided by the Williamson County Tax Appraiser's Office. That estimate, combined with an estimate of historical tax collection rates for the Department is used with the proposed tax rate to estimate Ad Valorem Revenue. The

District Commissioners amended the budget during the year ended September 30, 2017. Changes are reflected in the final/amended columns of the budget to actual report found on page 29.

### Capital Asset and Debt Administration Capital Assets:

At the end of the fiscal year September 30, 2017, capital assets are as follows:

Table 3
Capital Assets at Year-end

	9/30/16	9/30/17
Land	\$ 77,989	\$ 77,989
Vehicles	375,223	375,223
Machinery & Equipment	106,396	106,396
Building	1,439,106	1,439,106
Total capital assets	\$ 1,998,714	\$ 1,998,714

Depreciation expense charged to the general fund was \$ 48,386.

More detailed information about the District's Capital Assets is presented in Note 3 of the financial statements.

#### Debt:

As of September 30, 2016, and 2017, the District was obligated on the following debt:

	9/30/2016	9/30/2017
Notes Payable	\$ 1,217,300	\$ 1,163,353
Capital Lease Obligation	84,456	70,635
Compensated Absences	7,227	7,929
Net Pension Liability (Asset)	(3,411)	(4,608)
Total	\$ 1,305,572	\$ 1,237,309

The District incurred interest expense of \$ 44,130 for the year ending September 30, 2016, and \$42,202 for the year ending September 30, 2017.

More detailed information about the District's notes payable is presented in the *Notes to Basic Financial Statements*.

### Currently Known Facts, Decisions, or Conditions

The District's tax revenues continue to increase as the District experiences the rapid increase in residential and commercial properties. These revenues are supplemented by the addition of funds derived from the allocation of a 2% sales tax in areas within our district that lie outside of the limits of the City of Jarrell. The district began receiving revenues from the sales tax in April of 2017 and is receiving an average of \$40,000 monthly.

The number of request for services continues to slowly climb along with the population growth.

The District has developed a policy for the allocation of the sales tax funds received each month. The main emphasis of the policy is to build an emergency reserve fund to support three months of operating expenses as well as have emergency funds set aside for emergency apparatus repairs.

The remaining sales tax funds will be directed at replacing one of our frontline fire apparatus that is 17 years old and our handheld radios that are 12 years old.

The District has recently hired three more full time personnel to increase our daily staffing for operational response to three. The district has added a full-time fire chief and full-time deputy chief to properly oversee the administration and fire code requirements of a growing department.

The District expects continued growth by the addition of residential and commercial structures.

### Contacting the District's Financial Management

This financial report is designed to provide a general overview of the District's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to:

### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The District complies with generally accepted accounting principles (GAAP). GAAP includes all relevant Governmental Accounting Standards Board (GASB) pronouncements. In the government-wide financial statements, Financial Accounting Standards Board (FASB) pronouncements and Accounting Principles Board (APB) opinions issued on or before November 30, 1989, have been applied unless those pronouncements conflict with GASB pronouncements, in which case, GASB prevails. The District currently reports under the financial reporting requirements of GASB Statement No. 34. The accounting and reporting framework and the more significant accounting policies are discussed in subsequent subsections of this note.

### Financial Reporting Entity

Williamson County Emergency Services District #5 (hereafter referred to as the District) was formed in November 2001. With few exceptions, all powers of the District are vested in a board of commissioners (the Board), which adopts budgets and determines policies. The District receives its revenues from the Williamson County Tax Office, which collects property taxes from the county's property-owners.

In evaluating how to define the government, for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the reporting entity was made by applying the criteria set forth in GAAP. The basic - but not the only - criterion for including a potential component unit with the reporting entity is the governing body's ability to exercise oversight responsibility. The most significant manifestation of this ability is financial interdependency. Other manifestations of the ability to exercise oversight responsibility include, but are not limited to, the selection of governing authority, the designation of management, the ability to significantly influence operations, and accountability for fiscal matters. A second criterion used in evaluating potential component units is the scope of public Application of this criterion involves considering whether the activity benefits the government and/or its citizens, or whether the activity is conducted within the geographic boundaries of the government and is generally available to its citizens. A third criterion used to evaluate potential component units for inclusion or exclusion from the reporting entity is the existence of special financing relationships, regardless of whether the government is able to exercise oversight responsibilities. Based upon the application of these criteria, no potential component units appear to exist.

### **Basis of Presentation**

#### Government-Wide Financial Statements

The Statement of Net Position and the Statement of Activities display information about the reporting entity. Governmental activities generally are financed through taxes, intergovernmental and non-exchange revenues. The District currently does not have any business-type activities.

#### Fund Financial Statements

Fund financial statements of the reporting entity are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts that constitute its assets, liabilities, fund equity, revenues,

### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

and expenditures/expenses. Funds are organized into three major categories: governmental, proprietary, and fiduciary. An emphasis is placed on major funds within the governmental and proprietary categories. A fund is considered major if it is the primary operating fund of the District or meets the following criteria:

- A. Total assets, liabilities, revenues, or expenditures/expenses of that individual governmental fund or enterprise fund are at least 10% of the corresponding total for all funds of that category or type; and
- B. Total assets, liabilities, revenues, or expenditures/expenses of the individual governmental fund or enterprise fund are at least 5% of the corresponding total for all governmental and enterprise funds combines.

The funds of the financial reporting entity are described below:

### Governmental Funds

General Fund – The General Fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in other funds.

### Measurement Focus and Basis of Accounting

Measurement focus is a term used to describe "which" transactions are recorded within the various financial statements. Basis of accounting refers to "when" transactions are recorded regardless of the measurement focus applied.

### Measurement Focus

On the government-wide Statement of Net Position and the Statement of Activities, the governmental activities are presented using the economic resources measurement focus as defined in item A below.

In the fund financial statements, the "current financial resources" measurement focus is used as appropriate. All government funds utilize a "current financial resources" measurement focus. Only current financial assets and liabilities are generally included on their balance sheets. Their operating statements present sources and uses of available financial resources during a given period. These funds use fund balance as their measure of available financial resources at the end of the period.

### Basis of Accounting

In the government-wide Statement of Net Position and Statement of Activities, the governmental activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

In the fund financial statements, governmental funds are presented on the modified accrual basis of accounting. Under this modified accrual basis of accounting, revenues are recognized when "measurable and available." Measurable means knowing or being able to reasonably estimate the amount. Available means collectible within the current period or within sixty days after yearend. Expenditures, including capital outlay, are recorded when the related fund liability is incurred, except for general obligation bond principal and interest which are reported when due.

### Assets, Liabilities, and Equity

#### Cash

Cash deposits and investments are reported at the carrying amount, which reasonably estimates fair value.

#### Receivables

In the government-wide statements, receivables consist of all revenues earned at year-end and not yet received. Allowances for uncollectible accounts receivable are based upon historical trends and the periodic aging of accounts receivable. Property taxes are the District's only major receivable.

### Capital Assets

All capital assets are valued at historical cost, or estimated historical cost if actual is unavailable, except for donated capital assets, which are recorded at their estimated fair value at the date of donation.

Depreciation of all exhaustible capital assets is recorded as n allocated expense in the Statement of Activities, with accumulated depreciation reflected in the Statement of Net Position. Depreciation expense is allocated over the assets' estimated useful lives using the straight-line method of depreciation.

The District currently maintains a policy of capitalizing all items that meet or exceed \$5,000, individually. All items that meet this policy are capitalized. Those items that do not meet the capitalization requirements are expenses accordingly.

The range of estimated useful lives by type of assets is as follows:

Buildings	40 years
Fire Trucks	10 years
Vehicles	10 years
Equipment	5 years

The District does not own any infrastructure assets.

### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### Fund Financial Statements

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition.

### Long-Term Debt

The accounting treatment of long-term debt depends on whether the assets are used in governmental fund operations and whether they are reported in the government-wide or fund financial statements.

All long-term debt to be repaid from governmental resources is reported as liabilities in the government-wide statements. The long-term debt consists of capital leases and notes payable.

Long-term debt for governmental funds is not reported as liabilities in the fund financial statements. The debt proceeds are reported as other financing sources and payment of principal and interest reported as expenditures.

### Source of Funds

Ad valorem taxes, penalties, and interest are reported as revenue in the fiscal year in which they become available to finance expenditures of the District. Property taxes accounted for approximately 63.3% of the District's revenue for the year ended September 30, 2017.

#### **Equity Classifications**

### Government-Wide Statements

Equity is classified as net position and displayed in three components.

- A. Net Investment in capital assets Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction or improvements.
- B. Restricted net position Consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- C. Unrestricted net position All other net position that do not meet the definition of "restricted" or "Net Investment in capital assets."

The District currently does not carry any restricted position.

### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### **Fund Statements**

Governmental fund equity is classified as fund balance. Fund balance is further classified as non-spendable or spendable with spendable being further classified into restricted, committed, assigned or unassigned.

### Compensated Absences

Compensated absences represent the estimate liability for employees' accrued vacation for which employees are entitled to be paid upon termination. The retirement of this liability is paid from the General Fund.

### Revenue

### **Property Taxes**

Property taxes are collected by the Williamson County Tax Assessor Collector, and are forwarded to the District through bank transfer. The tax rate held by the District was \$0.10/\$100 for 2016. Property tax revenues are considered available when they become due or past due and are considered receivable within the current period, including those property taxes expected to be collected during a sixty-day period after the close of the District's fiscal year.

#### **Other**

### Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from these estimates.

#### **Pensions**

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Pension Plan and additions to/deductions from the Pension Plan's fiduciary net position have been determined on the same basis as they are reported by Texas County & District Retirement System (TCDRS). For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### **Budgets**

The District follows these procedures in establishing the budget reflected in the financial statements:

- Prior to the beginning of each fiscal year, the District prepares a budget. The
  operating budget includes proposed expenditures and the means of financing
  those expenditures and is prepared in accordance with the basis of accounting
  utilized by that fund.
- Public meetings are conducted at which all interested persons' comments concerning the budget are heard. After such meetings, the Board of Commissioners formally adopts the budget through passage of a motion in a public meeting.
- 3. The District amends the budget throughout the year approving such additional expenses. The amended budget is used in presenting the Statement of Revenues, Expenditures and Changes in Fund Balance Budget and Actual.
- 4. All annual appropriations lapse at fiscal year end.

### NOTE 2: CASH

#### Deposits

It is the policy for deposits to be 100% secured by collateral valued at market or par, whichever is lower, less the amount of Federal insurance. The District's deposits are categorized to give an indication of the level of risk assumed by the District at the fiscal year-end. As of year-end, deposits exceed FDIC coverage by \$261,623. However; securities were pledged to cover this excess (Category 2) with a market value of \$631,977. At September 30, 2017, the carrying amount of the District's deposits was \$507,810 and the bank balance was \$511,623.

The categories are described below:

- Category 1 Insured or collateralized by securities held by the District or by its agent in the District's name.
- Category 2 Collateralized with securities held by the pledging institution's trust department or agent in the District's name.
- Category 3 Uncollateralized.

### NOTE 2: CASH (continued)

Deposits categorized by risk:

	1	Category 2	3	Deposit Balance	Carrying Amount
Governmental Activities Major Funds: 2017 General Fund And Total Deposits	<u>\$ 250,000</u>	<u>\$ 261,623</u>	<u>\$ -0-</u>	<u>\$511,623</u>	<u>\$507,810</u>

### NOTE 3: CAPITAL ASSETS

Capital asset activity for the year ended September 30, 2017, was as follows:

	Balance 10/1/2016	Additions/ Completions	Retirements/ Adjustments	Balance 9/30/2017
Land	77,989	_	-	77,989
Total Assets-not Depreciated	77,989	-	_	77,989
Assets-Depreciated				and the second
Vehicles	375,223	4	_	375,223
Equipment	106,396	s_	=	106,396
Buildings and Structures	1,439,106		-	1,439,106
Total assets- Depreciated	1,920,725	-	-	1,920,725
Accumulated Depreciation	(673,695)	(48,386)	-	(722,081)
Governmental activities capital assets, net	1,247,030	(48,386)		1,198,644
Total Governmental Capital Assets	1,325,019	(48,386)	-	1,276,633

In prior years, the District entered into capital leases for a truck, equipment, and radios (see Note 4). At September 30, 2017, the gross amount of the asset was \$124,522 and accumulated amortization was \$106,756. Amortization expense is included in depreciation expense.

Depreciation expense charged to the government wide statements was \$48,386.

### NOTE 4: CAPITAL LEASE OBLIGATIONS

The District maintains the following capital leases:

Loan Amount:

\$94,604

Maturity Date:

November 1, 2018

Interest Rate:

3.5% annum

Payment Terms:

Payments are due and payable in bi-annual installments of \$4,143 beginning May 1, 2008 and ending November 1, 2018. The lease is collateralized with the radios. The total outstanding balance at

September 30, 2017, was \$12,006.

Loan Amount:

\$30,000

Maturity Date: Interest Rate:

January 30, 2025 3.92% annum

Payment Terms:

Payments are due and payable in annual installments of \$3,733 beginning January 30, 2016 and ending January 30, 2025. The lease is collateralized with a vehicle, equipment and tax revenue. The total outstanding balance at September 30, 2017, was \$25,127.

Loan Amount:

\$40,000

Maturity Date: Interest Rate:

January 30, 2025 3.92% annum

Payment Terms:

Payments are due and payable in annual installments of \$4,977 beginning January 30, 2016 and ending January 30, 2025. The lease is collateralized with equipment and tax revenue. The total

outstanding balance at September 30, 2017, was \$33,502.

The future debt service for capital leases payable is as follows:

#### Year Ending

(1)	September 30	 Principal	Interest		Total
	2018	\$ 14,338	\$	2,658	\$ 16,996
	2019	10,726		2,126	12,852
	2020	6,915		1,794	8,709
	2021	7,186		1,523	8,709
	2022	7,468		1,242	8,710
	2023-2027	24,002		1,922	25,924
	Total	\$ 70,635	\$	11,265	\$ 81,900

NOTE 5: NOTE PAYABLE

Changes in Outstanding Debt

Transactions for the year ended September 30, 2017, are summarized as follows:

	Balance October 1	Additions	Red	luctions	Balance September w 30	Due vithin one year
Governmental Activities:						
Notes Payable	\$ 1,217,300	0	\$	53,947	\$ 1,163,353 \$	56,553
Capital Lease Obligations	84,456	0		13,821	70,635	14,338
Compensated Absences	7,227	702		0	7,929	0
Net Pension Liability	 (3,411)	1,197		0	(4,608)	0
Total Governmental Activities	\$ 1,305,572	\$ 1,899	\$	67,768	\$ 1,237,309	\$ 70,891

The District has a loan with Eagle Bank, a note for the fire station at a fixed rate of 3.25% with monthly payments of \$7,775, maturing September 30, 2033. The balance due as of September 30, 2017, is \$1,163,353.

The future principal payments for these notes are as follows:

Year Ending September 30	_	Principal	_	Interest	1000	Total
2018	\$	56,553	\$	36,742	\$	93,295
2019		58,419		34,876		93,295

2021		62,337		30,958		93,295
2022		64,393		28,902		93,295
2023-2027		355,266		111,209		466,475
2028-2032		506,039		49,884	<u></u>	555,923
Total	\$	1,163,353	\$	325,520	\$	1,488,873

#### NOTE 6: PROPERTY TAXES

The District property tax is levied each October 1 on the assessed value listed as of the previous January 1 for all real property located in the District. The District's property tax is levied each October 1 on the assessed value listed as of the prior January 1 for all real and business personal property located in the District. An enforceable lien is attached to the property as of January 1. The assessed value of the roll as of January 1, 2016, upon which the 2016 levy was based, was \$540,462,090 as certified by the Williamson County Central Appraisal District.

Taxes are due by January 31 following the October 1 levy date. The total 2016 levy was \$ 540,462 and the tax rate was \$ 0.10 per \$100 assessed valuation. Property taxes are considered fully collectible and therefore no allowance for uncollectible taxes is provided. The appraisal of property within the District is the responsibility of the Williamson County Central Appraisal District. The Appraisal District is required under the Property Tax Code to assess all property within the appraisal district on the basis of 10% of its appraisal value and is prohibited from applying any assessment ratios.

#### NOTE 7: RISK MANAGEMENT

During the ordinary course of business, the District becomes exposed to various risks of loss related to torts, theft of, damage and destruction of assets; business interruption; error and omissions; and natural disasters, for which it carries commercial insurance at levels consistent with that of prior years. Risk retention is substantially confined to customarily nominal policy deductibles. Resulting risk management liabilities, if any, are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. There are no risk management liabilities that have been made known to management, or are reported in these financial statements.

#### NOTE 8: RELATED PARTY TRANSACTIONS

During the course of the year, the District conducted related party transactions. The Commissioners of the District analyzed the transactions, and prior to initiating it was determined the transactions to be arm's length transactions. There are not any related party receivables or payables at year end.

### NOTE 9: DATE OF MANAGEMENT'S REVIEW

Management has evaluated all subsequent events for disclosure and/or recognition through the date of the *Independent Auditor's Report*, which is the date the financial statements were available to be issued. No events occurred that would impact the financial statements.

#### NOTE 10: FUND BALANCE CLASSIFICATION

The District complies with GASB Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions, which establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. Those fund balance classifications are described below.

Nonspendable - Amounts that cannot be spent because they are either not in a spendable form or are legally or contractually required to be maintained intact.

<u>Restricted</u> - Amounts that can be spent only for specific purposes because of constraints imposed by external providers, or imposed by constitutional provisions or enabling legislation.

<u>Committed</u> - Amounts that can only be used for specific purposes pursuant to approval by formal action by the Board.

<u>Assigned</u> - For the General Fund, amounts that are appropriated by the Board or Board designee that are to be used for specific purposes. For all other governmental funds, any remaining positive amounts not previously classified as nonspendable, restricted or committed.

<u>Unassigned</u> - Amounts that are available for any purpose; these amounts can be reported only in the District's General Fund.

### NOTE 10: FUND BALANCE CLASSIFICATION (continued)

Fund balance of the District may be committed for a specific purpose by formal action of the Board, the District's highest level of decision-making authority. Commitments may be established, modified, or rescinded only through a resolution approved by the Board. The Board has delegated the authority to assign fund balance for a specific purpose to the District's Chief or Assistant Chief.

In circumstances where an expenditure is to be made for a purpose for which amounts are available in multiple fund balance classifications, the order in which resources will be expended is as follows: restricted fund balance, committed fund balance, assigned fund balance, and lastly, unassigned fund balance.

As of September 30, 2017, the District has not adopted a minimum fund balance policy.

The detail of the fund balance is included in the Governmental Fund Balance Sheet on page 9.

### NOTE 11: EXPLANATION OF DIFFERENCES BETWEEN GOVERNMENTAL FUND AND GOVERNMENT-WIDE STATEMENTS

Differences between the Governmental Fund Balance Sheet and the Statement of Net Position:

The differences (as reflected in the adjustments column) primarily result from the long-term economic resources focus of the statement of net position versus the current financial resources focus of the governmental fund balance sheet.

When capital assets (land, buildings, equipment) that are to be used in governmental activities are purchased or constructed, the costs of those assets are reported as expenditures in governmental funds. However, the statement of net position includes those capital assets among the assets of the District as a whole.

Cost of capital assets \$ 1,998,714
Accumulated Depreciation (722,081)
\$ 1,276,633

Interest on long-term debt is not accrued in governmental funds, but rather is recognized as an expenditure when due.

Accrued interest payable \$ 5.123

Taxes receivable are offset by deferred revenues in the governmental funds and thus are not included in fund balance.

Deferred revenue \$ (19,012)

Long-term liabilities applicable to the district's governmental activities are not due and payable in the current period and accordingly are not reported as fund liabilities. All liabilities – both current and long-term—are reported in the statement of net position.

Due within one year \$ 70,891 Due after one year \$ 1,166,418

### NOTE 11: EXPLANATION OF DIFFERENCES BETWEEN GOVERNMENTAL FUND AND GOVERNMENT-WIDE STATEMENTS (Continued)

<u>Differences between the Governmental Fund Operating Statement and the Statement of Net Activities:</u>

The differences (as reflected in the adjustments column) arise primarily from the long-term economic resources focus of the statement of activities versus the governmental funds.

Some expenses reporting the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.

Adjustment for Compensated Leave	\$ 70	02
Adjustment for Pension Liability	(1,19	97)
Change in Deferred Inflows/Outflows related to Pension	(7,86	37 <u>)</u>
	\$(8.36	32)

When capital assets that are to be used in governmental activities are purchased or constructed, the resources expended for those assets are reported as expenditures in governmental funds. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.

Capital Outlay	\$ -0-
Depreciation Expense	\$ 48,386

Repayment of capital lease obligations is reported as an expenditure in governmental funds. For the district as a whole, however, the principal payments reduce the liabilities in the statement of net position and do not result in an expense in the statement of activities.

Payment of Principal \$ (67,765)

Interest expense in the statement of activities differs from the amount reported in governmental funds because additional accrued interest was calculated for capital lease obligations.

Change in Accrued interest	\$	2,974
----------------------------	----	-------

Because some property taxes will not be collected for several months after the district's year end, they are not considered as "available" revenues in the governmental funds.

Adjustment for property taxes collected after year-end \$ 6,372

#### NOTE 12: SUBSEQUENT EVENTS

The plan to reimburse the City of Jarrell, as agreed upon in the City of Jarrell Resolution 2016-1-23E, is 24 equal payment installments of \$6,250 per month. The first installment payment will be in October 2018, and will be included in the ESD budget for FY 2018-2019 for the first 12 installments. The FY2019-2020 budget year will include funding for the remaining 12 months.

### NOTE 13: PENSION PLAN

Plan Description. Williamson County Emergency Services District #5 participates in the Texas County & District Retirement System (TCDRS), which is a statewide, agent multiple-employer, public employee retirement system.

- a. A brief description of benefit terms:
  - 1) All full- and part-time non-temporary employees participate in the plan, regardless of the number of hours they work in a year. Employees in a temporary position are not eligible for membership.
  - 2) The plan provides retirement, disability and survivor benefits.
  - 3) TCDRS is a savings-based plan. For the district's plan, 4% of each employee's pay is deposited into his or her TCDRS account. By law, employee accounts earn 7% interest on beginning of year balances annually. At retirement, the account is matched at an employer set percentage (current match is 100%) and is then converted to an annuity.
  - 4) There are no automatic COLAs. Each year, the district may elect an ad hoc COLA for its retirees (if any). There are two COLA types, each limited by actual inflation.
  - 5) Benefit terms are established under the TCDRS Act. They may be amended as of Jan. 1 each year, but must remain in conformity with the Act.
- b. The district's contribution rate is calculated annually on an actuarial basis, although the employer may elect to contribute at a higher rate. The Williamson County Emergency Services District #5 contribution rate is based on the TCDRS funding policy adopted by the TCDRS Board of Trustees and must conform with the TCDRS Act. The employee contribution rates are set by the district and are currently 4%. Contributions to the pension plan from the district for 2015 are shown in the chart on the prior page.
- c. The most recent comprehensive annual financial report for TCDRS can be found at the following link, <a href="https://www.tcdrs.org">www.tcdrs.org</a>.

Employee membership data related to the Plan, as of the valuation date of December 31, 2016, was as follows:

Number of inactive employees entitled to but not yet receiving benefits

Number of active employees

Total

### NOTE 13: PENSION PLAN (continued)

### **Net Pension Liability**

The District's net pension liability was measured as of December 31, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

Actuarial Assumptions. The total pension liability in the December 31, 2016, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

**Valuation Timing** 

Actuarially determined contribution rates are calculated on a calendar year

basis as of December 31, two years prior to the end of the fiscal year in

which the contributions are reported.

Actuarial Cost Method Amortization Method

Entry Age Normal

Recognition of economic/demographic gains or losses

Straight-Line amortization over Expected Working Life

Recognition of assumptions changes or inputs

Straight-Line amortization over Expected Working Life

**Asset Valuation Method** 

Smoothing period

5 years

Recognition method

Non-asymptotic

Corridor

None

Inflation

3.0%

Salary Increases The annual salary increase rates assumed for individual members vary by length of service and by entry-age group. The annual rates consist of a general wage inflation component of 3.5% (made up of 3.0% inflation and 0.5% productivity increase assumptions) and a merit, promotion and longevity component that on average approximates 1.4% per year for a career employee. (See Table 1 for Merit Salary Increases.)

Investment Rate of Return

8.10%

Cost-of-Living Adjustments

Cost-of-Living Adjustments for Williamson County Emergency Services District #5 are not considered to be substantively automatic under GASB 68. Therefore, no assumption for future cost-of-living adjustments is included in the GASB calculations. No assumption for future cost-of-living

adjustments is included in the funding valuation.

Retirement Age

Deferred members are assumed to retire (100% probability) at the later of:

a) age 60 b) earliest retirement eligibility.

(For all eligible members ages 75 and later, retirement is assumed to

occur immediately.)

Turnover Mortality

Same as funding valuation

Depositing members	The RP-2000 Active Employee Mortality Table for males with a two-year set- forward and the RP-2000 Active Employee Mortality Table for females with a four-year setback, both projected to 2014 with scale AA and then projected with 110% of the MP-2014 Ultimate scale after that.
Service retirees, beneficiaries and non- depositing members	The RP-2000 Combined Mortality Table projected to 2014 with scale AA and then projected with 110% of the MP-2014 Ultimate scale after that, with a one-year set-forward for males and no age adjustment for females.
Disabled retirees	RP-2000 Disabled Mortality Table projected to 2014 with scale AA and then projected with 110% of the MP-2014 Ultimate scale after that, with no age adjustment for males and a two-year set-forward for females.

### NOTE 13: PENSION PLAN (continued)

### **Long-Term Expected Rate of Return**

The long-term expected rate of return on TCDRS assets is determined by adding expected inflation to expected long-term real returns, and reflecting expected volatility and correlation. The capital market assumptions and information shown below are provided by TCDRS' investment consultant, Cliffwater LLC. The numbers shown are based on January 2017 information for a 7-10 year time horizon.

Note that the valuation assumption for long-term expected return is re-assessed at a minimum of every four years, and is set based on a 30-year time horizon; the most recent analysis was performed in 2013. See Milliman's TCDRS Investigation of Experience report for the period January 1, 2009 – December 31, 2012 for more details.

<sup>(1)</sup> Reflects the change in the liability due to the time value of money. TCDRS does not charge fees or interest.

### **Sensitivity Analysis**

The following presents the net pension liability of the district, calculated using the discount rate of 8.10%, as well as what the ESD net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current rate.

	1% Decrease 7.10%	Current Discount Rate 8.10%	1% Increase 9.10%
Total Pension Liability	\$ 59,768	\$50,078	\$42,259
Fiduciary Net Position	54,686	54,686	54,686
Net pension liability/(asset)	\$5,081	\$(4,608)	(\$12,427)

<sup>(2)</sup> No plan changes valued.

<sup>(3)</sup> Relates to allocation of system-wide items.

### NOTE 13: PENSION PLAN (continued)

As of December 31, 2016, the deferred inflows and outflows of resources are as follows:

### **Deferred Inflows/Outflows of Resources**

	Deferred Inflows of Resources	of	Deferred Outflow Resources	s of
Differences between expected				
and actual experience	\$	6.969	\$	6.031
Changes of assumption		C	)	143
Net difference between				110
projected and actual earnings		C	)	2,260
Contributions made subsequent				2,200
to measurement date		N/A		5,729
Totals	\$	6,969	\$	14,163

Amounts currently reported as deferred outflows of resources and deferred inflows of resources related to pensions, excluding contributions made subsequent to the measurement date, will be recognized in pension expense as follows:

Year ended December 31:

2017	\$704
2018	704
2019	591
2020	171
2021	(23)
Thereafter(3)	(682

<sup>(3)</sup> Total remaining balance to be recognized in future years, if any. Note that additional future deferred inflows and outflows of resources may impact these numbers.

### Payable to the Pension Plan

At September 30, 2017, the District reported a payable of \$1,701 for the outstanding amount of employer and employee contributions to the pension plan required for the year ended September 30, 2017.

### Williamson County Emergency Services District #5 Notes to the Schedule of Employer Contributions For the year ending September 30, 2017

Valuation Date:

Actuarially determined contribution rates are

calculated each December 31, two years prior to the

end of the fiscal year in which contributions are

reported.

Methods and assumptions used to determine contribution rates:

Actuarial Cost Method

Amortization Method

Remaining Amortization Period

Asset Valuation Method

Inflation

Salary Increases

Investment rate of Return

Retirement Age

Mortality

Changes in Plan Provisions Reflected in the Schedule\*

Entry Age

Level percentage of payroll, closed 12.0 years (based on contribution rate calculated in

12/31/2016 valuation)

5-year smoothed market

3.0%

Varies by age and service. 4.9% average over

career including inflation.

8.00%, net of investment expenses, including

inflation

Members who are eligible for service retirement are

assumed to commence receiving benefit payments

based on age. The average age at service

retirement for recent retirees is 61.

In the 2015 actuarial valuation, assumed life

expectancies were adjusted as a result of adopting a new projection scale (110% of the MP-2014 Ultimate Scale) for 2014 and later. Previously Scale AA had been used. The base table is the RP-2000

table projected with Scale AA to 2014.

No changes in plan provisions are reflected in the

Schedule of Employer Contributions.

<sup>\*</sup>Only changes effective 2015 and later are shown in the Notes to Schedule.
