RE: Williamson County—County Road 101 expansion project
Jonah SUD easement acquisition

Dear Mr. Marx:

As you will likely recall, Deborah Murphy from HDR along with our law firm worked with you on behalf of Williamson County (“County”) for the acquisition of a portion of your property to be used for the construction of widening improvements to County Road 101.

That construction project is now finally ready to begin as soon as possible, but we have recently learned that there are some locations where the existing waterline facilities of Jonah Special Utility District (“Jonah”) are within the acquired right of way parcels and in conflict with the path of the new road. As a result, these need to be relocated before the road project can begin. One of these locations is in the area of your property.

In order to move the Jonah waterline out of the path of the new road construction, we need to acquire a fifteen (15) foot wide easement adjacent to the acquired right of way parcel to replace the easements where the lines are currently located, and our firm and Deborah have once again been asked to assist with completion of this purchase. I have enclosed an excerpt from the prior right of way map which shows the location of this proposed easement.

In order to determine a proposed purchase price for the easement area we looked back at our previous agreement for acquisition of the right of way parcel. For that transaction we paid \$18,500/acre (rounded) for a fee simple purchase of the property needed for the roadway construction. Since the waterline easement is not a full property purchase, and because the facilities will be underground, we normally value easement areas along property boundaries at 25%-50% of the full fee value. So, in this instance a proposed purchase price would be calculated as follows:

0.28 acre easement x \$18,500/acre x 50% rights = \$2,600 (rounded)

Please let us know as soon as possible if this purchase price will be acceptable and we can follow up with completion of a simple letter agreement to allow us to order the payment funds and finish this transaction so the relocation of the lines (and then road construction) can begin. Although I know we have been waiting a while for the roadway project to actually start, we are now ready to proceed as quickly as possible so we very much appreciate your prompt response to this issue. For your additional information we have also included Jonah's standard easement document for your review.

Please feel free to call me at (512) 738-8731, or Deborah Murphy at (512) 663-2604 with any questions regarding the details of the proposed purchase transaction, if you would like to meet with one of us to discuss this further, or anything else regarding the acquisition process.

We hope to hear from you soon, but if not the Deborah or I will follow up with you again to try and move this toward completion. Thank you in advance for your continued patience and assistance with this roadway project.

Very Truly Yours,

Lisa Dworaczyk
